50 IAC 4.2-1-1.1 Primary definitions

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-1-11

Sec. 1.1. (a) The definitions in this section apply throughout this article.

(b) "Assessed value" or "valuation" means an amount equal to the true tax value of property rounded to the nearest ten dollars (\$10).

(c) "Assessing official" means a:

- (1) township assessor, if any;
 - (2) county assessor; or
 - (3) member of a county property tax assessment board of appeals.
- (d) "Assessment date" means March 1.

(e) "Construction in process" means tangible personal property not placed in service. The term includes tangible personal property that has not been depreciated and is not yet eligible for federal income tax depreciation under the Internal Revenue Code. The term does not include inventory, special tools, leased property, or returnable containers.

(f) "Critical spare parts" means parts that are maintained for possible future replacement of parts in use in operating equipment. Critical spare parts are maintained on-site, sometimes for a considerable period of time, to avoid a disruption of production if replacement of a failed part cannot otherwise be made immediately.

(g) "Depreciable personal property" means all personal property that is used in a trade or business, used for the production of income, or held as an investment that should be or is subject to depreciation for federal income tax purposes, except to the extent that property is treated otherwise in this article.

(h) "Filing date" means the May 15 date on which every person owning, holding, possessing, or controlling tangible personal property with a tax situs within the state of Indiana as of March 1 of any year is required to file a personal property tax return unless an extension of time to file is obtained. If the filing date falls on a Saturday, a Sunday, a national legal holiday recognized by the federal government, or a statewide holiday, the next succeeding business day that is not a Saturday, Sunday, or federal or state holiday becomes the filing date.

(i) "Inventory" means:

- (1) materials held for processing or for use in production;
- (2) finished or partially finished goods of a manufacturer or processor;
- (3) property held for sale in the ordinary course of trade or business; and
- (4) items that qualify as inventory under 50 IAC 4.2-5-1.

The term excludes items that are or should be subject to federal tax depreciation and that are or should be reported for Indiana property tax purposes at cost per 50 IAC 4.2-2-2 in Pool 1 (50 IAC 4.2-4-5) including rent to own assets; DVD, CD, and video games held for rent; and equipment held for rent that is fully expensed in its first year.

(j) "Nonsubstantial compliance" means a tax return that:

- (1) omits five percent (5%) or more of the cost per books of the tangible personal property at the location in the taxing district for which a return is filed;
- (2) omits leased property and other nonowned personal property assessable under 50 IAC 4.2-2-4(b) where such omitted property exceeds five percent (5%) of the total assessed value of all reported personal property; or
- (3) is filed with the intent to evade personal property taxes or assessment.

(k) "Original personal property return" means a personal property tax return filed with the proper assessing official by May

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

15 or, if an extension is granted, the extended filing date.

(l) "Personal property":

(1) has the meaning set forth in IC 6-1.1-1-11; and

(2) also includes nonautomotive equipment attached to excise vehicles.

(m) "Personal property and real property guide" means a listing of items of machinery, equipment, or structures as to their assessability as real or personal property for Indiana assessment purposes. Generally, if the item is directly used for manufacturing or a process of manufacturing, it is to be considered as personal property. If the item is land or a building improvement, it is to be considered as real property.

(n) "Placed in service" means the asset is ready and available for a specific use whether in a trade or business, the production of income, or a tax exempt activity. An asset is assessed until it is retired from service. An asset is retired property from service when it is permanently withdrawn from use by:

(1) sale or exchange of the property;

(2) conversion to personal use;

(3) abandonment;

(4) transfer to a supply or scrap account; or

(5) property is destroyed.

(o) "Special tools" includes, but is not limited to, tools, dies, jigs, fixtures, gauges, molds, and patterns acquired or made for the production of products or product models which are of such specialized nature that their utility generally ceases with the modification or discontinuance of such products or product models. Those items of "special tools" being manufactured or built for sale or lease to another person must be valued as inventory pursuant to 50 IAC 4.2-5.

(p) "State board of tax commissioners" means the department of local government finance.

(q) "Tax rate" means a tax rate that is levied at a rate of tax per one hundred dollars (\$100) of assessed valuation by each taxing district.

(r) "Tax payment date" means property taxes that are based on the amount of the March 1 assessment for a given year and are due in two (2) equal installments on May 10 and November 10 of the following year. If any due date falls on a Saturday, a Sunday, a national legal holiday recognized by the federal government, or a statewide holiday, the next succeeding business day that is not a Saturday, Sunday, or federal or state holiday becomes the due date.

(s) "Taxing district" means an area within a township having tax levies and rates different from the tax levies and rates in other areas within the same township.

(t) "True tax value" as used in this article means the resultant value of property determined in accordance with the rules issued by the department, exclusive of those portions of the rules related to determining assessed value. Rule 2. Filing Requirements

50 IAC 4.2-2-1 Place of filing; assessment

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1

Sec. 1. (a) A personal property tax return must be filed in each taxing district where property has a tax situs subject to the qualifications contained in this article. A return may cover all business locations in a single taxing district. However, if the property is located in two (2) or more taxing districts within the same township, a separate return must be filed reporting the property in each of the taxing districts.

(b) Personal property that is owned by a person who is a resident of this state shall be assessed at the place where the owner is a resident except where personal property has a tax situs on the assessment date at another location in the state and the property is regularly used or permanently located, in which instance the assessment shall be made in such location.

(c) Personal property that is owned by a person who is a nonresident of this state shall be assessed at the place where the owner's principal office within this state is located, except where personal property has a tax situs on the assessment date at another location within the state where it is regularly used or permanently located. In such an instance, the return or returns should be filed in the taxing district where the property is permanently located or regularly used. When the owner does not have a principal office in the state, the property will be assessed where located on the assessment date.

(d) To the extent that residence determines the place of assessment of personal property held by a fiduciary in their fiduciary capacity, the residence of the fiduciary shall govern, except that in the assessment of personal property of an estate of a deceased person, the actual residence in this state of the deceased person immediately before death shall be applicable until such property

has been distributed.

(e) Questions regarding proper place of assessment. If a controversy arises concerning the appropriate taxing district for assessing personal property, the determination made as follows shall be summary and final:

(1) The county assessor shall determine the correct taxing district for assessment purposes if a question arises as to the appropriate taxing district within the county.

(2) The department shall determine the proper county for assessment if the question arises as to which county within the state is the proper tax situs.

The obligation to file a return is not diminished or affected by the failure of an assessor to deliver or mail forms to a taxpayer. It is the responsibility of the taxpayer to obtain forms from the assessor and file a timely return in compliance with this article. *(Department of Local Government Finance; 50 IAC 4.2-2-2; filed Dec 7, 1988, 9:35 a.m.: 12 IR 822, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003)*

(1) a taxpayer has personal property subject to assessment in more than one (1) township in a county; and

(2) the total assessed value of the personal property in the county is less than one million five hundred thousand dollars (\$1,500,000);

the taxpayer filing a return shall file a single return with the county assessor and attach a schedule listing, by township, all the taxpayer's personal property and the property's assessed value. Affected: IC 6-1.1-3-7

Sec. 4. (a) The owner of any personal property on the assessment date of a year is liable for the taxes imposed for that year on the property. The owner of any personal property is generally the holder of legal title except when:

(1) title passes on March 1 of any year, only the person last obtaining title on said date shall be deemed to have title on March 1; and

(2) personal property is security for a debt and the debtor is in possession of such property, such debtor shall be deemed to be the owner.

(b) Possessory interests. A person holding, possessing, or controlling any personal property on the assessment date of a year is liable for the taxes imposed for that year on the property unless they establish that the property is being assessed and taxed in the name of owner, or the owner is liable for the taxes under a contract with that person and that person files a correct Form 103-N (section 9 of this rule) supplemental information return on or before the due date (May 15 with extension). When a person other than the owner pays any property taxes as required by this section, that person may recover the amount paid from the owner unless the parties have agreed to other terms in a contract.

(c) The assessor shall assess the taxable property in the name of the owner of the property to the extent the owner has been identified. A person holding, possessing, controlling, or occupying any personal property on the assessment date of the year is liable for the taxes imposed for that year on the property unless they establish that the property is being assessed and taxed in the name of the owner or the owner is liable for the taxes under contract with that person and that person files a correct Form 103-N (section 9 of this rule) supplemental information return on or before the due date (May 15 with extension). (b) The owner of any personal property subject to assessment and taxation on the assessment date has the responsibility for reporting such property for assessment and taxation on their personal property tax return on Form 102 or Form 103 (section 9 of this rule), in the taxing district where the property had a tax situs as of the assessment date. In addition to the above reporting requirement, the owner of property, under circumstances in which possession is transferred to another person, but ownership is retained, shall be required to furnish in the taxing district where the property is located a complete listing on Form 103-O (section 9 of this rule), of such property showing the name and address of the person or persons in possession, model, description, location, quantities, date of installation, and value per this article reported for assessment and taxation in order to provide a means of verification and cross reference by the assessing official or officials that all property is being properly reported for assessment and taxation. (See special instructions in 50 IAC 4.2-8 for reporting leased personal property.)

(c) The person holding, possessing, or controlling any tangible property in any capacity, which personal property is subject to taxation under this rule, is required to file and attach with the return a complete listing on Form 103-N (section 9 of this rule), of all not owned property. 50 IAC 4.2-2-10 Penalties

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1

Sec. 10. (a) Any person who willfully makes and subscribes any return, statement, or other document which is verified under oath, which is certified as to the truth of the information contained therein, or which contains a written declaration that is made under the penalties of perjury and which he or she does not believe to be true and correct in every material respect shall be guilty of a crime and shall be subject to the same penalties as provided by law for perjury.

(b) If a person subject to IC 6-1.1-3-7(c) fails to include on a personal property return the information, if any, that the department requires under IC 6-1.1-3-9 or IC 6-1.1-5-13, the county auditor shall add a penalty to the property tax installment next due for the return. The amount of the penalty is twenty-five dollars (\$25). The purpose of this penalty is to require a full disclosure of the information related to the value, nature, or location of personal property on the personal property tax return for that year which is necessary for an assessing official to review the return. If this information is not provided, a thorough review of the return as required by law cannot take place.

(c) Failure to file a return or be granted an extension of time to file a return by May 15 as required by law will result in the imposition of a twenty-five dollar (\$25) penalty. In addition, if the return is not filed within thirty (30) days after such return is due, a penalty equal to twenty percent (20%) of the tax determined to be due will be imposed with respect to the personal property which should have been reported on the return. No return shall be considered due within the meaning of this article until the expiration of a period of any extension of time which may have been granted pursuant to section 3 of this rule.

(d) If the total assessed value that a person reports on a personal property return is less than the total assessed value that the person is required by law to report and if the amount of the undervaluation exceeds five percent (5%) of the value that should have

been reported on the return, then the county auditor shall add a penalty of twenty percent (20%) of the additional taxes finally determined to be due as a result of the undervaluation.

(e) Claims for deductions, exemptions, abnormal obsolescence, permanently retired equipment, and mathematical errors on the face of the return are excluded from the five percent (5%) undervaluation threshold of subsection (d). Rule 4. Valuation of Depreciable Tangible Personal Property

50 IAC 4.2-4-1 "Depreciable personal property" defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-1-11

Sec. 1. In general, "depreciable personal property", as used in this article, is all tangible personal property that is used in a trade or business, used for the production of income, or held as an investment that should be or is subject to depreciation for federal income tax purposes, except to the extent that property is treated otherwise in this article. In general, except as otherwise provided in this article, personal property will be deemed to become depreciable property when a depreciation deduction is allowable for federal income tax purposes. (*Department of Local Government Finance; 50 IAC 4.2-4-1; filed Dec 7, 1988, 9:35 a.m.: 12 IR 838, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003; filed Feb 26, 2010, 2:43 p.m.: 20100324-IR-050090576FRA*)

50 IAC 4.2-4-2 Book cost determinative

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-3

Sec. 2. (a) The cost of depreciable property, both real and personal, as recorded on the taxpayer's books and records, must be utilized in determining the value of the depreciable personal property subject to assessment.

(b) The cost of all depreciable property of a taxpayer shall be the total amount reflected on the books and records of the taxpayer as of the assessment date except as provided in section 3 of this rule. Per the provisions of this article and the Internal Revenue Code, the cost of depreciable personal property must include, but not be limited to, direct costs and an appropriate portion of indirect costs attributable to its production or acquisition and preparation for use. The cost of machinery, furniture, tools, computers (excluding application software), and other plant assets includes all costs necessary to place the asset in condition and in place, ready for use. These costs include, but are not limited to, the purchase price, transportation costs to the place of use, and installation costs, foundations and electrical wiring, interest incurred during construction and installation, and sales tax. If the asset is constructed by the company, the original cost must be made up of, but not limited to, the following costs:

- (1) Direct and indirect labor costs and fringe benefits.
- (2) Direct material costs.
- (3) Designing.
- (4) Supervision.
- (5) Insurance.
- (6) Depreciation of equipment used in construction.
- (7) Claims for damage during construction not compensated for by insurance.
- (8) Taxes and insurance during construction.
- (9) Interest incurred during construction.
- (10) Sales taxes.
- (11) Other costs directly chargeable to construction.

No profit should be added to the actual costs since the company cannot make a profit on itself. Any credits in the form of sales of scrap materials, discounts received on purchases of materials, and return premiums on surrender of insurance policies should be subtracted from the gross costs of construction to determine the actual cost of the asset.

(c) The cost of additions and betterments must be added to the original cost of the asset. If an additional part is added or some other change is made in the fixed asset which increases its estimated useful life, its production, or efficiency, or changes it to a different use, such an expenditure is a betterment and should be capitalized by adding it to the original cost of the asset. If a part is replaced with a similar part, the new part would be shown as a new acquisition while the part replaced would be removed from the original cost of the asset when acquired. The cost of additions, betterments, or replacements would be reported as an addition, betterment, or replacement in the year the actual expenditure occurred.

(d) In the event a taxpayer cannot determine from its books and records the cost of the depreciable property on the assessment date, they must use:

- (1) the cost per books as of the close of its annual financial period immediately prior to the assessment date and so indicate on their return;

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

(2) the book cost as of the close of its last financial period will then be adjusted to reflect all acquisitions and disposals of depreciable property which have occurred between such date and the assessment date;

(3) this adjustment should be taken as provided in section 4 of this rule; and

(4) installation costs and foundations applicable to machinery and equipment shall be reported and assessed on the same basis as the asset to which they apply.

(e) A taxpayer must be able to reconcile the cost of the depreciable personal property reported on the tax returns required to be filed with the cost of all depreciable property as recorded on the taxpayer's books and records on the assessment date. A personal property and real property guide is included in section 10 of this rule to assist in the reconciliation.

(f) Taxpayers with locations in more than one (1) taxing district in this state may fulfill the requirements of this section by making one (1) computation as required in subsection (e) for the entire state, provided that the cost of the depreciable personal property for each taxing district where the taxpayer has property on the assessment date is identified in such computation. *(Department of Local Government Finance; 50 IAC 4.2-4-2; filed Dec 7, 1988, 9:35 a.m.: 12 IR 839, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003; filed Feb 26, 2010, 2:43 p.m.: 20100324-IR-050090576FRA)*

50 IAC 4.2-4-3 Fully depreciated, retired, or nominally valued property; computer equipment; report and valuation

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-1-11

Sec. 3. (a) Depreciable personal property that has not been retired from use must be reported for personal property assessment purposes whether or not the cost of the property has been:

(1) removed from;

(2) recorded on; or

(3) recorded at a nominal value on;

the taxpayer's books and records.

(b) Any fully depreciated personal property that:

(1) has been written off the taxpayer's books and records; and

(2) is:

(A) on hand at the tax situs; and

(B) not permanently retired;

on the assessment date;

must be reported in the return. The cost of the property must be clearly shown as an adjustment in the space provided on the tax return as provided in section 4 of this rule.

(c) "Permanently retired depreciable personal property" means depreciable personal property that has been removed from the manufacturing process on the assessment date, or has been removed from services other than manufacturing on the assessment date, and is awaiting disposition and must be scheduled to be scrapped, removed, or disposed of and will be considered to be permanently retired providing the taxpayer actually scraps or sells such property.

(1) Depreciable personal property that is:

(A) on hand at the tax situs on the assessment date, included in the cost per books as reported by the taxpayer in its return; and

(B) permanently retired on the assessment date as herein defined;

is subject to an adjustment as herein provided if the taxpayer so elects.

(2) The cost per books of permanently retired depreciable property can be taken as an adjustment from book cost of depreciable property on the return provided the cost of the property is included in the cost per books actually reported on the return.

(3) In order to qualify for this adjustment, a taxpayer will need to substantiate that the property was:

(A) permanently retired; and

(B) not in use.

(d) Permanently retired depreciable personal property should be valued at its net scrap or net sale value. The valuation of this property:

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

- (1) should be shown separately on the tax return; and
- (2) will not be subject to the thirty percent (30%) limitation of original cost.

(e) Depreciable personal property recorded on the books and records at a nominal or no value must be recorded at its actual acquisition cost determined by reference to the insurable value in the year of acquisition for Indiana property tax assessment purposes. This category of property includes, but is not limited to, bulk purchase or the acquisition of a going business concern.

- (f) Valuation of computer equipment. Computers are made up of the following three (3) elements:
 - (1) Hardware.
 - (2) Operational software.
 - (3) Application software.

Computers (including hardware and operational software) must be reported at the actual acquisition cost regardless of how this property may be valued on the taxpayers books and records.

- (g) Computers are made up of the following elements:
 - (1) Hardware, composed of:

- (A) mechanical;
 - (B) magnetic;
 - (C) electrical; and
 - (D) electronic;

devices and other components that constitute the physical computer assembly.

- (2) Operational software. The operational program:

- (A) controls the hardware;
 - (B) actually makes the machine operational;
 - (C) is fundamental and necessary to the functioning of the computer hardware itself;
 - (D) performs such functions as loading, scheduling, supervision, and data management;
 - (E) represents the internalized instruction codes that translate information into a form usable by the equipment;
 - (F) controls the basic operations of the central processing unit to perform arithmetic or logical operations, or both, automatically by means of programmed instructions; and
 - (G) is not normally accessible or modifiable by the user.

- (3) Application software. The application program is a written sequence of instructions that details the operations the equipment is to perform in order to achieve a specific objective of the user.

(h) If the value recorded on the books and records reflects charges for customer support services such as educational services, maintenance, or application software that relate to future periods and not to the value of the tangible personal property, the charges may be deducted as nonassessable intangible personal property (to the extent that a separate charge or value can be identified).

- (i) The true tax value at the time of acquisition of computer application software may be identified using the following:

- (1) An independent, professional appraisal:

- (A) must be made in conformance with generally accepted standards for appraisal practice;
 - (B) shall not be based on a contingent fee arrangement;
 - (C) shall include consideration of the cost, market, and income approaches; and
 - (D) shall distinguish the boundary in the equipment between exempt intangible application software and nonexempt tangible operational software.

The appraiser must have demonstrated competence in the valuation of software.

- (2) In lieu of an independent professional appraisal, the taxpayer can evaluate existing assets already listed on its books and records and adjust them accordingly to reflect the software content using the valuation methods described in subdivision (1)(C).

(j) The allocation of interest incurred during construction and installation must be made (capitalized) for personal property tax purposes regardless of the fact that Section 263 of the Internal Revenue Code is not applicable in certain cases. 50 IAC 4.2-4-4 Adjustments to cost

Authority: IC 6-1.1-31-1
Affected: IC 6-1.1-3

Sec. 4. (a) The adjusted costs of the assessable depreciable personal property as computed in subsection (d) must be reported at the tax basis of such property as defined in the Internal Revenue Code unadjusted by Sections 167 (depreciation) and 179 (expense deduction) of that Code or any credits (such as investment tax credit) that diminished the cost basis of the property. Therefore, if the tax basis of the taxpayer's assessable depreciable personal property is different than the cost per books of such property, except for the depreciable personal property defined and required to be reported by section 3 of this rule, an adjustment must be made to the cost per books of the assessable depreciable personal property reported on the Indiana property tax return.

(b) The adjustment from book to tax basis must be computed on Form 106 (50 IAC 4.2-2-9) and shown in the taxpayer's return on line 2 of Form 103 - Long Form (50 IAC 4.2-2-9), Schedule A.

(c) The adjustment is required to be made regardless of whether it is an increase or decrease of the cost per books.

(d) The adjusted cost of depreciable personal property is the resultant amount obtained by adjusting the cost per books, as defined in section 2 of this rule (cost per books), 50 IAC 4.2-11.1-3 (air pollution control system), and 50 IAC 4.2-11.1-4 (industrial waste control facility). 50 IAC 4.2-4-5 Pools of property; determination of costs by acquisition year

Authority: IC 6-1.1-31-1
Affected: IC 6-1.1-3

Sec. 5. (a) The adjusted cost of depreciable personal property as computed in section 4 of this rule is required to be segregated for Indiana property tax purposes into four (4) separate pools. The depreciable life utilized for federal income tax purposes determines the pool to be utilized for Indiana property tax purposes. The pools to be utilized for Indiana property tax purposes are as follows:

- (1) Pool No. 1: All assets that have a life of one (1) through four (4) years for federal income tax purposes.
- (2) Pool No. 2: All assets that have a life of five (5) through eight (8) years for federal income tax purposes.
- (3) Pool No. 3: All assets that have a life of nine (9) through twelve (12) years for federal income tax purposes.
- (4) Pool No. 4: All assets that have a thirteen (13) years or longer life for federal income tax purposes.

(b) The useful life used to determine the proper classification of the pool in which an asset must be included is to be based upon the actual life utilized to compute depreciation on the federal income tax return of the taxpayer unless as follows:

- (1) The department determines that such life is either unrealistic in relation to all of the taxpayer's facts and circumstances or when the life used on the federal tax return has been changed by the Internal Revenue Service on audit.
- (2) The useful lives utilized by taxpayers for a particular category of assets are varied and the department, in order to obtain equalization in assessments, determines that a uniform life should be used by all such taxpayers in the state, the department may prescribe the useful life of such assets for all of these taxpayers in the state pursuant to 50 IAC 4.2-7-2.

50 IAC 4.2-4-6 Determination of the year of acquisition

Authority: IC 6-1.1-31-1
Affected: IC 6-1.1-3

Sec. 6. (a) After the allocation of adjusted cost of depreciable tangible personal property, as provided in section 5 of this rule, it will be necessary to determine the cost by year of acquisition for each pool. The number of years that are required to be segregated by year of acquisition will depend upon the particular pool.

(b) Each pool is required to be segregated as follows:

- (1) Pool No. 1 requires the cost to be determined by year of acquisition for the three (3) years immediately preceding the

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

assessment date. The balance of the cost of the assets in this pool will be includable in the fourth category.

(2) Pool No. 2 requires the cost by year of acquisition be determined for the six (6) years preceding the assessment date. The balance of the cost would be includable in the seventh category.

(3) Pool No. 3 requires that cost by year of acquisition be determined for the ten (10) years preceding the assessment date. The balance of such account would be includable in the eleventh category.

(4) Pool No. 4 requires that the cost by year of acquisition be determined for the twelve (12) years preceding the assessment date with the balance of the cost of such pool includable in the thirteenth category.

(c) [Voided by P.L.245-2015, SECTION 1, effective July 1, 2015.]

(d) For Indiana property tax purposes it will be presumed that the disposal of depreciable personal property occurs on a first-in, first-out basis unless the taxpayer establishes that such was not the case. Therefore, absent evidence to the contrary, all disposals will be deemed to occur from the remaining category in each pool. (*Department of Local Government Finance; 50 IAC 4.2-4-6; filed Dec 7, 1988, 9:35 a.m.: 12 IR 842, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003; filed Feb 26, 2010, 2:43 p.m.: 20100324-IR-050090576FRA*)

50 IAC 4.2-4-7 True tax value determination; exception

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 7. (a) The true tax value for Indiana property tax purposes is computed by multiplying the adjusted cost of each year's acquisitions in the respective pool by a percentage factor obtained in subsection (b). The percentage factors in the table automatically reflect all adjustments for Indiana property tax purposes, except abnormal obsolescence, as provided in section 8 of this rule.

(b) Table to compute true tax value. The following table provides for each of the four (4) pools by year of acquisition the percentage of adjusted cost to compute true tax value. The sum of the true tax value for each of the four (4) pools is the true tax value of the personal property at the tax situs in question.

50 IAC 4.2-4-8 Adjustment for obsolescence

Authority: IC 6-1.1-31-1
 Affected: IC 6-1.1-3

Sec. 8. (a) A taxpayer may claim an adjustment for abnormal obsolescence as defined in 50 IAC 4.2-9-3, on business personal property provided that such taxpayer follows the procedures and meets the requirements regarding an adjustment for abnormal obsolescence contained in 50 IAC 9. It includes the impairment of desirability and usefulness brought about by new inventions and improved processes for production, or the impairment of functional capacity or efficiency if the inadequacy or overadequacy causes

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

a loss in value and has made the property incapable of continued use for a prolonged period during the assessment year.

(b) No adjustment will be allowed for normal obsolescence as defined in 50 IAC 9. The table to determine true tax value, as provided in section 7(b) of this rule, automatically makes allowance for this type of obsolescence. The values arrived at as a result of this table reflect the application of the double declining balance depreciation method to the point where straight line depreciation would be more beneficial to the taxpayer. This accelerated depreciation, and use of a short useful life and historical cost reflect any physical, functional, or economic obsolescence except to the extent that these items qualify for abnormal obsolescence as defined.

(c) The term "abnormal obsolescence" will be strictly construed and be limited to a situation where unforeseen changes in market values, exceptional technological obsolescence, or destruction by catastrophe occurs, providing that such events have a direct effect upon the valuation of the depreciable personal property of the taxpayer on a going concern basis at the tax situs in question.

(d) The dollar amount of the adjustment for the depreciable personal property pursuant to this section in no event can exceed the tentative true tax value as computed in section 7 of this rule, for the specific unit or units of depreciable personal property on which the taxpayer claims the adjustment. If the property has been incapable of continued use for a prolonged period during the assessment year, for a reason identified as qualifying for abnormal obsolescence, it will be eligible for an adjustment to be computed as follows:

(1) If the cost-to-cure the cause of the abnormal obsolescence is equal to or less than the anticipated increase in utility, and hence value, it is economically feasible to repair or replace the impaired item and is thus deemed curable. The dollar amount of the cost-to-cure shall be the basis for determining the amount of abnormal obsolescence.

(2) If the cause of the impairment cannot be corrected, or the cost-to-cure the cause of abnormal obsolescence is in excess of its contribution to the value of the property, it shall be deemed to be incurable. The amount of adjustment therefore shall be based upon the scrap or salvage value of the affected item and shall be limited to the true tax value before adjustment for abnormal obsolescence of the affected item itself.

EXAMPLE 1

Taxpayer ABC has depreciable personal property qualifying for an adjustment for abnormal obsolescence. The cost-to-cure the cause of the abnormal obsolescence is eight hundred thousand dollars (\$800,000) and is less than the anticipated benefits to be obtained from the use of the affected asset. The depreciable asset has an adjusted basis of six million five hundred thousand dollars (\$6,500,000), and an acquisition date and depreciable life that result in a true tax value factor of twenty percent (20%) (the total true tax value, of all of ABC's depreciable personal property in this taxing district, computed by the application of the prescribed pool percentages is greater than thirty percent (30%) of the total adjusted cost). The taxpayer should compute the abnormal obsolescence adjustment as follows:

Reported basis of asset qualifying for abnormal obsolescence adjustment		\$6,500,000	
Prescribed true tax valuation factor	×	20%	
True tax value of item prior to adjustment for abnormal obsolescence			\$1,300,000
Less: cost-to-cure cause of abnormal obsolescence		\$800,000	
Prescribed true tax valuation factor	×	20%	
Allowable adjustment for abnormal obsolescence—to Line 68, Schedule A, Form 103			– 160,000
True tax value of item			\$1,140,000

In no instance may the adjustment for abnormal obsolescence exceed the true tax value of the affected item prior to such adjustment or result in a true tax value less than the scrap or net realizable value of the affected asset.

EXAMPLE 2

Taxpayer XYZ has depreciable personal property qualifying for an adjustment for abnormal obsolescence. The cost-to-cure the cause of the abnormal obsolescence is four hundred sixty thousand dollars (\$460,000) and exceeds the benefits expected from any further use of the affected asset. The depreciable asset has an adjusted basis of two million three hundred thousand dollars (\$2,300,000) and an acquisition date and depreciable life that result in a tentative true tax value factor of twelve percent (12%) (the total true tax value, of all of XYZ's depreciable personal property in this taxing district, computed by the application of the prescribed pool percentages is less than thirty percent (30%) of the total adjusted cost). The taxpayer is able to demonstrate that the salvage value of the affected item is seventy-two thousand dollars (\$72,000). The taxpayer should compute the adjustment as follows:

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

Reported basis of asset qualifying for abnormal obsolescence adjustment	\$2,300,000	
Prescribed true tax valuation factor	× <u>30%</u>	
True tax value of item prior to adjustment for abnormal obsolescence		\$690,000
Less: documented net realizable value		- <u>72,000</u>
Allowable adjustment for abnormal obsolescence		<u>\$618,000</u>

50 IAC 4.2-4-9 Minimum valuation

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 9. (a) Notwithstanding the foregoing provisions of this rule, the total valuation of a taxpayer's assessable depreciable personal property in a single taxing district cannot be less than thirty percent (30%) of the adjusted cost of all such property of the taxpayer.

(b) Exception. This limitation shall be applied prior to any special adjustment for abnormal obsolescence as provided in section 8 of this rule. The limitation does not apply to equipment not placed in service, special tooling, and permanently retired depreciable personal property. (Department of Local Government Finance; 50 IAC 4.2-4-9; filed Dec 7, 1988, 9:35 a.m.: 12 IR 845, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003)

50 IAC 4.2-4-9.1 Election of valuation method for special integrated steel mill or oil refinery/petrochemical equipment

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-3-23

Sec. 9.1. (a) For purposes of this section, the following apply:

- (1) "Adjusted cost" refers to the adjusted cost established in section 4 of this rule.
- (2) "Depreciable personal property" has the meaning set forth in section 1 of this rule.
- (3) "Integrated steel mill" means a person, including a subsidiary of a corporation, that produces steel by processing iron ore and other raw materials in a blast furnace in Indiana.
- (4) "Oil refinery/petrochemical company" means a person that produces a variety of petroleum products by processing an annual average of at least one hundred thousand (100,000) barrels of crude oil per day.
- (5) "Permanently retired depreciable personal property" has the meaning set forth in section 3 of this rule.
- (6) "Pool" refers to a pool established in section 5(a) of this rule.
- (7) "Special integrated steel mill equipment" or "oil refinery/petrochemical equipment" means depreciable personal property, other than special tools and permanently retired depreciable personal property:

(A) that:

- (i) is owned, leased, or used by an integrated steel mill or an entity that is at least fifty percent (50%) owned by an affiliate of an integrated steel mill; and
- (ii) falls within Asset Class 33.4 as set forth in IRS Rev. Proc. 87-56, 1987-2, C.B. 647; or

(B) that:

- (i) is owned, leased, or used as an integrated part of an oil refinery/petrochemical company or its affiliate; and
- (ii) falls within Asset Class 13.3 or 28.0 as set forth in IRS Rev. Proc. 87-56, 1987-2, C.B. 647.

(8) "Year of acquisition" refers to the year of acquisition determined under section 6 of this rule.

(b) Notwithstanding sections 4, 6, and 7 of this rule, a taxpayer may elect to calculate the true tax value of the taxpayer's special integrated steel mill equipment or oil refinery/petrochemical equipment by multiplying the adjusted cost of that equipment by the percentage set forth in the following table:

Year of Acquisition	Percentage
1	40%
2	56%

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

3	42%
4	32%
5	24%
6	18%
7	15%
8 and older	10%

(c) The department shall designate the table under subsection (b) as "Pool No. 5" on the business personal property tax return.

(d) The percentage factors in the table under subsection (b) automatically reflect all adjustments for depreciation and obsolescence, including abnormal obsolescence, for special integrated steel mill equipment or oil refinery/petrochemical equipment. The equipment is entitled to all exemptions, credits, and deductions for which it qualifies.

(e) The minimum valuation limitations under section 9 of this rule do not apply to special integrated steel mill equipment or oil refinery/petrochemical equipment valued under this section. The value of the equipment is not included in the calculation of that minimum valuation limitation for the taxpayer's other assessable depreciable personal property in the taxing district.

(f) An election to value special integrated steel mill equipment or oil refinery/petrochemical equipment under this section:

(1) must be made by reporting the equipment under this section on a business personal property tax return;

(2) applies to all of the taxpayer's special integrated steel mill equipment or oil refinery/petrochemical equipment located in the state (whether owned or leased or used as an integrated part of the equipment); and

(3) is binding on the taxpayer for the assessment date for which the election is made.

The department shall prescribe the forms to make the election available. Any special integrated steel mill equipment or oil refinery/petrochemical equipment acquired by a taxpayer that has made an election under this section is valued under this section.

(g) If fifty percent (50%) or more of the adjusted cost of a taxpayer's property that would, notwithstanding this section, be reported in a pool other than Pool No. 5 is attributable to special integrated steel mill equipment or oil refinery/petrochemical equipment, the taxpayer may elect to calculate the true tax value of all of that property as special integrated steel mill equipment or oil refinery/petrochemical equipment. The true tax value of property for which an election is made under this subsection is calculated under subsections (b) through (f). (*Department of Local Government Finance; 50 IAC 4.2-4-9.1; filed Feb 26, 2010, 2:43 p.m.: 20100324-IR-050090576FRA*)

Affected: IC 6-1.1-3

Sec. 10. (a) The following guide is intended to assist in the identification of property as either real or personal. The use of a unit of machinery, equipment, or a structure determines its classification as real or personal property. If the unit is directly used for manufacturing or a process of manufacturing, it is personal property. If the unit is a land or building improvement, it is real property.

(b) Land improvement – Real.

Permanent standard gauge railroad trackage, bridges, and trestles.

Walls forming storage yards and fire protection dikes.

Note that on-site utility piping, such as sanitary and storm sewers, potable water and fire prevention lines, and gas lines are considered as on-site improvement costs and are valued with the land.

(c) Buildings – Real.

Structural and other improvements to buildings, including foundations, walls, floors, roof, insulation, stairways, partitions, loading and unloading platforms and canopies, areaways, systems for heating, air conditioning, ventilating, sanitation, fixed fire protection, lighting, plumbing, and drinking water, building elevators and escalators.

- (2) currently in the process of production for subsequent sale;
- (3) ultimately to be consumed in the production of the goods or services to be available for sale; or

(b) The term "inventory" embraces the following:

(1) Goods or commodities awaiting sale which include, but are not limited to, the following:

- (A) The merchandise of a retail or wholesale concern.
- (B) The finished goods of a manufacturer.
- (C) Commodities from farms, mines, and quarries.
- (D) Goods that are used or trade-in merchandise and byproducts of a manufacturer.

(2) Goods or commodities that are in the course of production at the Indiana location, that is, items needing further processing to be considered finished or ready for shipment.

(3) Goods that will be consumed or used in either the Indiana manufacturing process or in any other manner by the taxpayer, directly or indirectly. This category would include, but not be limited to, raw materials, supplies, repair parts, expendable tools, and samples.

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 7. (a) As an alternative to any other method(s) described in this article, a manufacturer or processor in this state who is in possession of inventory on the assessment date, which it manufactured or processed at the tax situs for which the return is prepared, may value finished goods and work in process inventory as follows:

- (1) The cost of raw materials and supplies which must include the total cost directly or indirectly incurred, including freight, to bring the property to the location where it will be utilized in the manufacturing process. Manufacturers or processors acquiring manufactured products from related entities shall include in the accountability cost the sum of all costs directly or indirectly incurred in bringing the article to its existing condition and location on the assessment date.
- (2) The cost of all direct production labor.
- (3) The thirty-five percent (35%) valuation adjustment will not be allowed for work in process and finished goods inventory.
- (4) Raw materials and supplies inventories will qualify for the thirty-five percent (35%) valuation adjustment, provided that such items have not entered the manufacturing process.
- (5) Any adjustment taken from inventory valuation must be the same basis on which it was included in the tax return.
- (6) This election must be applied to all locations within this state, except as noted in subdivision (7). If this alternative method is elected, the taxpayer may not use any other method to value inventory for any subsequent year unless a written request has been approved by the state board prior to the due date of the return.
- (7) This election is available only for manufacturers' or processors' finished goods or work in process inventories to the extent that the goods have not entered another level of trade.

(b) Taxpayer's computation. Rule 6. Valuation of Other Tangible Personal Property

50 IAC 4.2-6-1 Tangible personal property not placed in service; reporting

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 1. (a) Tangible personal property, other than inventory as defined in 50 IAC 4.2-5-1, with a tax situs within the state on the assessment date which has not been placed into service must be reported for property assessment purposes.

(b) "Tangible personal property not placed in service on the assessment date" means all property which has not been depreciated and is not eligible for federal income tax depreciation under Section 167 of the Internal Revenue Code of 1986. Real property as defined by law and rules of the state board, inventory, special tools, leased property, returnable containers, and property

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

described in subsection (d) are not included in this category.

(c) "Construction in process" means "tangible personal property not placed in service." This does not include the inventory of a contractor that is not a part of the real or personal property under construction. A contractor's inventory must be valued and reported as provided in 50 IAC 4.2-5-1.

(d) Special. Tangible personal property, normally assessed as inventory and held in abeyance or stored temporarily, and which possession may be transferred to another person to be attached to or become a part of an asset subject to assessment for personal property tax purposes, is taxable as inventory as provided in 50 IAC 4.2-5-1, and is not included in the definition of tangible personal property not placed in service.

(e) Valuation. The value of personal property not placed in service, including construction in process as defined in subsection (c), is the cost recorded on the taxpayer's books and records which is attributable to such personal property including all expenses incurred in acquiring or producing the assets not yet placed in service.

(1) Acquisitions. In the event the cost as recorded on the regular books and records of the taxpayer does not reflect acquisitions and transfers since the end of the financial period immediately preceding the assessment date, such acquisitions and transfers are required to be included.

(2) Advance payments or deposits. If the cost as recorded on the regular books and records of the taxpayer reflects advance payments or deposits, and if such amounts were attributable to tangible personal property, this amount shall be allowed as a deduction from book cost.

(f) True tax value. The true tax value of "tangible personal property not placed in service" as defined in subsection (b), is ten percent (10%) of the cost of such property. (*Department of Local Government Finance; 50 IAC 4.2-6-1; filed Dec 7, 1988, 9:35 a.m.: 12 IR 857, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003*)

50 IAC 4.2-6-2 Reporting of special tools

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 2. (a) "Special tools", as defined in subsection (b), must be reported for Indiana property assessment purposes at the tax situs where located on the assessment date. The owner of any personal property subject to assessment and taxation on the assessment date has the responsibility for reporting such property for assessment and taxation on their personal property tax return pursuant to 50 IAC 2-2 [50 IAC 2 was repealed filed Dec 13, 1989, 5:00 p.m.: 13 IR 864; errata filed Feb 19, 1990, 3:35 p.m.: 13 IR 1187.].

(b) "Special tools" includes, but is not limited to, tools, dies, jigs, fixtures, gauges, molds, and patterns acquired or made for the production of products or product models which are of such specialized nature that their utility generally ceases with the modification or discontinuance of such products or product models. Those items of "special tools" being manufactured or built for sale or lease to another person must be valued as inventory pursuant to 50 IAC 4.2-5.

(c) Reporting special tools. Special tools are assessable whether the taxpayer elects to depreciate, amortize, treat as deferred cost, or expense at time of purchase or manufacture, and recovers cost through an increased unit price or any other method utilized in recapturing the costs. The owner is required to report special tools on Form 103-T (50 IAC 4.2-2-9), as an attachment to Form 103 (50 IAC 4.2-2-9). In addition to the requirement above, the owner is required to furnish a complete listing on Form 103-T (50 IAC 4.2-2-9) of all their special tools in the possession of another person(s) pursuant to 50 IAC 4.2-2-5. The person(s) holding, possessing, or controlling special tools, not owned, is required to furnish a complete listing on Form 103-T (50 IAC 4.2-2-9), of all not owned personal property pursuant to 50 IAC 4.2-2-5.

(d) Valuation of special tools. The total value of special tools, as defined in subsection (b), must be allocated in two (2) groups. The total value of special tools acquired between March 2 of the prior year and March 1 of the assessment year must be allocated in one (1) group, and the balance of the total value of the special tools on hand which were acquired prior to this period must be allocated into the other group. For purposes of this section, expenditures incurred by a taxpayer to refurbish existing special tools are deemed to be special tools acquired during the period in which such special tools were refurbished.

(1) Special tools owned by taxpayer. The total cost of producing or acquiring special tools regardless of the nature, whether capitalized or expensed, must be reported on Form 103-T (50 IAC 4.2-2-9), and attached to Form 103 (50 IAC 4.2-2-9).

(2) Special tools not owned by taxpayer. The total value of special tools not owned by the taxpayer must be based on the

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

original cost to the owner of such special tools, if available. If the original cost to the owner is not available, the value shall be based upon the best information available; however, the true tax value of the special tools not owned by the taxpayer cannot be less than the insured value of such property. Special tools not owned must be reported on Form 103-T (50 IAC 4.2-2-9), and attached to Form 103 (50 IAC 4.2-2-9).

(e) True tax value of special tools. The total true tax value of special tools is the sum of thirty percent (30%) of the total valuation of "special tools" acquired between March 2 of the prior year and March 1 of the current assessment year which are on hand on the assessment date and three percent (3%) of the total valuation of all other special tools on hand. (*Department of Local Government Finance; 50 IAC 4.2-6-2; filed Dec 7, 1988, 9:35 a.m.: 12 IR 858, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003*)

50 IAC 4.2-6-3 Improvement to leased real or personal property

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1

Sec. 3. (a) Whenever a taxpayer makes any expenditure for an improvement to real or personal property not owned by such taxpayer, such expenditure shall be assessable as personal property to the extent it is not real property.

(b) The following examples of leasehold improvements that are personal property:

(1) Leasehold improvements to personal property are personal property. Leasehold improvements will include, but not be limited to, foundations and pilings related to the installation and use of personal property.

(2) Improvements to real property that are personal property include, but are not limited to, personal property attached to the real property to the extent such items are related to activities or processes conducted in the building if the personal property is an integral part of such activity. For example, improvements to real property would include shelving, bins, counters, and related items; nonpermanent partitions; supplemental heating and air conditioning; extraordinary lighting; electrical and plumbing facilities; carpeting and draperies.

(c) The taxpayer must report and value the property for personal property assessment purposes and in the same manner as any other depreciable personal property that it may own in accordance with provisions of 50 IAC 4.2-4. (*Department of Local Government Finance; 50 IAC 4.2-6-3; filed Dec 7, 1988, 9:35 a.m.: 12 IR 859, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003; filed Feb 26, 2010, 2:43 p.m.: 20100324-IR-050090576FRA*)

50 IAC 4.2-6-4 Returnable containers; reporting

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 4. (a) Returnable containers, as defined in subsection (b), must be reported for property assessment purposes at the tax situs where located on the assessment date by the taxpayer owning the returnable containers. In addition to the filing requirement above, the owner is required to furnish a complete listing, on Form 103-O (50 IAC 4.2-2-9), of all their personal property which is in possession of another person(s) pursuant to 50 IAC 4.2-2-5. The person(s) holding, possessing, or controlling returnable containers, not owned, is required to furnish a complete listing on Form 103-N (50 IAC 4.2-2-9), of all not owned personal property pursuant to 50 IAC 4.2-2-5.

(b) "Returnable containers" means those items of tangible personal property which are used to package inventory or other property while in transit which are reusable. Returnable containers include, but are not limited to, cooperage, skids, bottles, cases, and other packaging devices.

(c) Valuation. The owner of any personal property subject to assessment and taxation on the assessment date has the responsibility for reporting such property for assessment and taxation pursuant to 50 IAC 4.2-2-5. The value of returnable containers is computed by extending the quantity of such property on hand by:

- (1) the amount of deposit required for such item;
- (2) the refund entitled thereto when such returnable containers are returned to the owner;
- (3) the sales price of the returnable property; or
- (4) the cost of such returnable containers in the hands of the owner since the owner is liable to assessment.

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

The resultant cost must then be valued pursuant to 50 IAC 4.2-4-5 through 50 IAC 4.2-4-7, in the same manner as any other depreciable personal property. (*Department of Local Government Finance; 50 IAC 4.2-6-4; filed Dec 7, 1988, 9:35 a.m.: 12 IR 859, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003*)

However, if as of the filing date (May 15 with extension) the owner of the property as of the assessment date is unknown by the assessor, said property shall be assessed to the person in possession of such property. (b) The unit valuations will be published pursuant to 50 IAC 4.2-1-5. Rule 8. Valuation of Leased Personal Property

50 IAC 4.2-8-1 "Leased personal property" defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1

Sec. 1. In general, leased personal property includes those units of tangible personal property, excluding inventory, as defined in 50 IAC 4.2-5-1, special tools, as defined in 50 IAC 4.2-6-2, and returnable containers, as defined in 50 IAC 4.2-6-4, which are leased, rented, or otherwise made available to a person other than the owner under a bailment agreement, written or unwritten, on the assessment date. Leased personal property includes, but is not limited to, business machines, postage meters, machinery, equipment, furniture, fixtures, coin-operated devices, tools, burglar alarms, signs and other advertising devices, and motor vehicles to the extent taxable as personal property which are loaned, leased, used, or otherwise held in the possession of a person other than the owner on the assessment date whether or not any fees are charged. 50 IAC 4.2-8-2 "Capital and operating leases" defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31

Sec. 2. (a) Types of leases. Generally, agreements which convey the right to use property for a stated period of time are termed leases and are usually classified as either capital leases or operating leases.

(b) "Capital leases" includes sales-type leases, direct financing leases, and leveraged leases. These leases must meet one (1) or more of the following conditions to be so classified and are or should be capitalized by the lessee for federal income tax purposes:

(1) Ownership of the property is transferred to the lessee at or before the end of the lease term.

(2) The lease permits the lessee to purchase the property or renew the lease at a price or rental which is substantially less than the estimated market value or fair rental of the leased property at the time the option to purchase or renew the lease is exercised.

(3) The lease term is equal to seventy-five percent (75%) or more of the estimated economic life of the leased property.

(4) The present value of the minimum lease payments equals or exceeds ninety percent (90%) of the fair market value of the leased property at the inception of the lease.

(c) "Operating leases" includes all other leases. (*Department of Local Government Finance; 50 IAC 4.2-8-2; filed Dec 7, 1988, 9:35 a.m.: 12 IR 860, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003*)

50 IAC 4.2-8-3 Operating leases

Sec. 3. (a) Operating leases must be reported for assessment and taxation by the owner (lessor) of the personal property on Form 103 (50 IAC 4.2-2-9), Schedule A, in the taxing district where the property was situated as of the assessment date.

(b) In addition to the reporting requirement stated in subsection (a), the owner is required to furnish a complete listing, on Form 103-O (50 IAC 4.2-2-9), of all their personal property that was the subject of an operating lease on the assessment date in each taxing district where the property is located showing the name and address of the person or persons in possession, model, description, location, quantities, date of installation, and value per this article reported for assessment and taxation.

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

(c) The person holding, possessing, or controlling (lessee) tangible personal property subject to the conditions of an operating lease shall file and attach with their return in the taxing district where such property was situated a complete listing, on Form 103-N (50 IAC 4.2-2-9), of all not owned (leased) personal property. The listing must include the name and address of the owner (lessor), model, description, location, quantities on hand, date of installation, and value (if known) per this article. Sec. 4. (a) Capital leases must be reported for assessment and taxation by the person holding, possessing, or controlling (lessee) the personal property on Form 103 (50 IAC 4.2-2-9), Schedule A, in the taxing district where the property was situated as of the assessment date. The value of the property must be computed in accordance with sections 7 through 9 of this rule, rather than 50 IAC 4.2-4.

(b) In addition to the reporting requirement stated in subsection (a), the lessee is required to furnish a complete listing, of all not owned personal property, on Form 103-N (50 IAC 4.2-2-9), in each taxing district where the property was situated. This listing must include the name and address of the owner (lessor), model, description, location, quantities on hand, date of installation, and value per this article.

(c) The owner of personal property that is termed capital leases above must file a complete listing showing the name and address of the person or persons in possession, model, description, location, quantities, date of installation, and value per this article, on Form 103-O (50 IAC 4.2-2-9), in each taxing district where the property was situated as of the assessment date. Sec. 5. (a) The owner (lessor) of personal property covered by operating leases has the responsibility for reporting such property for assessment and taxation in the taxing district where the property was situated on the assessment date. This section does not relieve the person holding, possessing, or controlling personal property covered by operating leases of the responsibility to file a complete listing, on Form 103-N (50 IAC 4.2-2-9), of not owned personal property and the responsibility to pay such taxes if they are not paid by the owner of the property as provided in 50 IAC 4.2-2-2.

(b) The person holding, possessing, or controlling (lessee) personal property covered by capital leases has the responsibility for reporting such property for assessment and taxation in the taxing district where the property was situated on the assessment date. This section does not relieve the owner (lessor) of the responsibility to file a complete listing, on Form 103-O (50 IAC 4.2-2-9), in the taxing district where the property was situated on the assessment date of all owned personal property which was in the possession of another person nor does it relieve the owner of the tax liability if not paid by the lessee. 50 IAC 4.2-8-7 Valuation; base year value defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-3

Sec. 7. (a) The base year value of the leased or rented property plus freight and installation costs must be utilized in determining the value of leased or rented property subject to assessment.

(b) "Base year value" means the amount, measured in money, that a willing buyer in an arm's length transaction would pay to acquire the item of tangible personal property subject to the lease under consideration at the time the lease or bailment was first consummated. For purposes of applying this definition to a specific factual situation, the amount stated in the agreement as the amount which the lessee would have had to pay to acquire the leased property instead of leasing the property will be deemed to be the base year value, provided that the department does not determine that such amount is unrealistically low in relation to the other terms contained in the agreement.

(c) If an alternative acquisition cost is not shown in the lease agreement, the base year value will be the factory delivered price for the tangible personal property subject to the lease plus freight, installation costs, and a profit factor.

(d) If the factory delivered price cannot be determined, the base year value will be the present value of the lease payments at the inception of the lease computed in accordance with 50 IAC 4.2-15-14.

(e) If the present value of the lease payments cannot be determined, the following alternative factors will be used to determine the base year value:

(1) the insurable value in the year the lease was first consummated; or

(2) the capitalized value at eight (8) times the annual lease or rental payments.

(f) If the department issues an instructional bulletin or administrative adjudication prescribing the base year value of certain property pursuant to 50 IAC 4.2-7-1, such prescribed value shall be the base year value of the property. 50 IAC 4.2-8-8 Pools for base year values; summation by year placed in service

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 8. (a) The base year value of all leased personal property being reported in a tax return is required to be segregated for Indiana property tax purposes into four (4) separate pools. The determination of the proper classification of the pool in which leased property should be included is to be based upon the useful life of property determined in accordance with the ADR regulation guideline life published by the Internal Revenue Service in Regulation 1.167(a)-11. The pools to be utilized for Indiana property tax purposes are:

(1) Pool No. 1: One (1) through four (4) year life.

(2) Pool No. 2: Five (5) through eight (8) year life.

(3) Pool No. 3: Nine (9) through twelve (12) year life.

(4) Pool No. 4: Thirteen (13) year or longer life.

(b) Summation of base year value by pool by the year the leased personal property is placed in service. After the appropriate pool is determined for each unit of leased property, the base year values must be summarized by the year during which the leased property is placed into service. (*Department of Local Government Finance; 50 IAC 4.2-8-8; filed Dec 7, 1988, 9:35 a.m.: 12 IR 862, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003*)

Affected: IC 6-1.1-31-7

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

Sec. 9. (a) Computation. The true tax value of leased personal property for Indiana property tax purposes is computed by multiplying the base year values of leased personal property in the respective pool by the percentage factor obtained in subsection (b). The percentage factor in the table automatically reflects all adjustments, except for abnormal obsolescence, as provided in section 10 of this rule.

(b) Table to compute true tax value of leased personal property. The following table provides for each of the four (4) pools, the percentage factors of which, when applied to base year value, compute true tax value. The sum of the true tax values in each of the four (4) pools is the true tax value of the leased personal property at the tax situs in question.

(c) Limitation of the total valuation of a taxpayer's depreciable personal property.

(1) General limitation. Notwithstanding the foregoing provisions of this rule, the total valuation of a taxpayer's assessable depreciable personal property in a single taxing district cannot be less than thirty percent (30%) of the adjusted cost of all such property of the taxpayer.

(2) Exception. This limitation shall be applied prior to any special adjustment for abnormal obsolescence as provided in section 10 of this rule. This limitation does not apply to equipment not placed in service, special tooling, and permanently retired equipment.

50 IAC 4.2-8-10 Abnormal obsolescence adjustment

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 10. (a) The tentative true tax value computed in section 9 of this rule should be adjusted for abnormal obsolescence to the extent that the property meets the qualifications as set forth in 50 IAC 4.2-9-3.

(b) Adjustment. For the purposes of this section, abnormal obsolescence will be determined in accordance with the provisions of 50 IAC 4.2-9-3. Providing a taxpayer has abnormal obsolescence, as defined in 50 IAC 4.2-9-3, they may claim an adjustment for abnormal obsolescence for leased personal property at the tax situs in question subject to the requirements, conditions, and provisions of 50 IAC 4.2-9-3. In no event shall any adjustment for abnormal obsolescence exceed the true tax value of the specific unit or units of property involved.

(c) Limitation. No adjustment will be allowed for normal obsolescence, as defined in 50 IAC 4.2-9-2. The table contained

in section 9 of this rule automatically reflects this type of obsolescence. (*Department of Local Government Finance; 50 IAC 4.2-8-10; filed Dec 7, 1988, 9:35 a.m.: 12 IR 863, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003*)

Rule 9. Obsolescence

50 IAC 4.2-9-1 "Obsolescence" defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 1. "Obsolescence" means the reduction in value of business personal property that occurs through use, technological improvements, passage of time, changes in market values, and physical deterioration or destruction. (*Department of Local Government Finance; 50 IAC 4.2-9-1; filed Dec 7, 1988, 9:35 a.m.: 12 IR 863, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003*)

50 IAC 4.2-9-2 "Normal obsolescence" defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 2. "Normal obsolescence" means the anticipated or expected reduction in the value of business personal property that can be foreseen by a reasonable, prudent businessman when property is acquired and placed into service. In general, it includes the expected, declining value through use, gradual decline in value because of expected technological improvements, the gradual deterioration or obsolescence through the mere passage of time, and the general assumption that such property will have a minimum value at the end of its useful life. (*Department of Local Government Finance; 50 IAC 4.2-9-2; filed Dec 7, 1988, 9:35 a.m.: 12 IR 863, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003*)

50 IAC 4.2-9-3 "Abnormal obsolescence" defined

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 3. (a) "Abnormal obsolescence" means that obsolescence which occurs as a result of factors over which the taxpayer has no control and is unanticipated, unexpected, and cannot reasonably be foreseen by a prudent businessman prior to the occurrence. It is of a nonrecurring nature and includes unforeseen changes in market values, exceptional technological obsolescence, or destruction by catastrophe that has a direct effect upon the value of the personal property of the taxpayer at the tax situs in question on a going concern basis.

(b) An example of unforeseen change in market value is a government ban on the sale of a drug or chemical due to a new discovery or determination may cause that item or the production equipment used to produce it to be abnormally obsolete. A specific example of this would be cyclamate. In this case the equipment used to produce it may be eligible for abnormal obsolescence.

(c) An example of exceptional technological obsolescence is abnormal obsolescence due to exceptional technological obsolescence should be recognized to the extent that it causes the subject property to be incapable of use for current production or adaption to a different use. The invention of a newer, more productive piece of equipment which would produce a better quality item or utilization of state of the art technology that produces more efficiently at a lower cost of production does not cause an older, currently used asset to be considered abnormally obsolete. If the asset is still capable of performing the function for which it was acquired, and is producing both on and before the assessment date, no adjustment shall be allowed. The use of historical cost, short useful life, and accelerated depreciation in developing the prescribed true tax value percentages result in an equitable assessment on the property in question.

(d) An example of destruction by catastrophe is abnormal obsolescence due to catastrophe should be recognized to the extent that it has a direct effect on the value of a particular item. Property which has been destroyed or damaged by catastrophe as of the assessment date would qualify for such an adjustment. A chemical or production process which, due to an irreparable malfunction, emits a toxic gas or deadly chemical into the outside atmosphere, would qualify for such an adjustment to the extent the property

is incapable of use.

(e) An example of abnormal obsolescence due to government action is a government order to shut down certain production equipment due to improper emission levels may result in abnormal obsolescence if the cost to cure the delinquent equipment results in incurable obsolescence, that is, the cost-to-cure exceeds the contribution or increase in value of the impaired item or the impairment cannot be corrected. 50 IAC 4.2-9-4 Allowance of obsolescence claim

Authority: IC 6-1.1-31-1
Affected: IC 6-1.1-31-7

Sec. 4. (a) Abnormal obsolescence should be recognized to the extent that the property qualifies for the adjustment and the taxpayer is able to substantiate the facts, circumstances, and amount of the claim in order to properly determine the true tax value of the subject property.

(b) A taxpayer wishing to claim an adjustment for abnormal obsolescence must provide documentation of the resulting valuation of the personal property at the tax situs in question on the assessment date on a going concern basis.

(c) The adjustment for abnormal obsolescence must be computed in accordance with this rule and 50 IAC 4.2-4-8, 50 IAC 4.2-8-10, or 50 IAC 4.2-10-4. (*Department of Local Government Finance; 50 IAC 4.2-9-4; filed Dec 7, 1988, 9:35 a.m.: 12 IR 864, eff Mar 1, 1989; reinstated by IC 6-1.1-3-22, eff Jul 1, 2003; filed Feb 26, 2010, 2:43 p.m.: 20100324-IR-050090576FRA*)

50 IAC 4.2-9-5 Full disclosure

Authority: IC 6-1.1-31-1
Affected: IC 6-1.1-31-7

Sec. 5. When the reporting requirements for an adjustment for abnormal obsolescence have been met (a full disclosure), but for some reason the adjustment is not allowed or the value is changed, the amount disallowed is considered to be an interpretive difference and is not subject to the undervalued personal property tax penalty as set forth in 50 IAC 4.2-2-10(d). Sec. 6. No adjustment will be allowable for normal obsolescence. The methods of valuation of business tangible personal property automatically reflect this type of obsolescence by using historic cost, short depreciable life, and accelerated depreciation on depreciable assets. An adjustment for abnormal obsolescence will be allowed provided a taxpayer can substantiate abnormal obsolescence. The provisions of this part of the regulation and the specific portions of this regulation applicable to the class of property involved must be followed and the books and records of the taxpayer must not have reflected the abnormal obsolescence on the assessment date. Authority: IC 6-1.1-31-1
Affected: IC 6-1.1-31-7

Sec. 7. (a) The taxpayer may, prior to the filing of the property tax return for the year in question, petition the department pursuant to 50 IAC 4.2-1-6, for an administrative adjudication determination regarding an abnormal obsolescence adjustment. If this determination is granted, it will be effective only for the tax year in question and will not be effective for subsequent

assessments.

(b) If an administrative adjudication determination is obtained, a copy of the determination is required to be attached to the tax return claiming the adjustment. If the taxpayer has not requested an administrative adjudication determination, they may, if their circumstances meet the requirements contained herein, request an adjustment on the form prescribed by the department when filing the tax return for the year in question. The adjustment or adjustments, if requested, must:

- (1) identify specifically all property for which an adjustment is requested;
- (2) indicate the original cost of the property;
- (3) indicate the true tax value of the property if no adjustment would be allowed; and
- (4) quantify and document the true tax value of the property as a result of the requested adjustment.

50 IAC 4.2-10-2 Commercial airlines; allocation and tax value of aircraft

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31; IC 6-6-6.5

Sec. 2. (a) In general, commercial airlines must value the aircraft required to be reported for Indiana property tax purposes pursuant to section 1 of this rule.

(b) "Commercial airlines" means an airline with regularly scheduled flights and routes authorized and approved by the federal aeronautics administration.

(c) In general, commercial airlines are required to report the total value of the fleet of aircraft operating in this state. For this purpose, the commercial airline is required to report the value of all aircraft which it owns or operates of the type of aircraft operating in the taxing district. For example, if the airline owns or operates twenty (20) aircraft of type "x", ten (10) aircraft of type "y", and five (5) aircraft of type "z" and only type "x" aircraft are operated in the taxing district, the commercial airline is required to determine the tentative true tax value of all type "x" aircraft in its fleet of aircraft as provided in section 1 of this rule and report the value of all type "x" aircraft on its personal property tax return.

(d) The value of the aircraft required to be reported for Indiana property tax purposes is subject to allocation. This allocation must be made for each type of aircraft operated. The allocation factor for each type of aircraft is computed by dividing the total ground time of each type of aircraft for the preceding twelve (12) months in the taxing district by the total ground time of each type of aircraft operated in the system. In the example provided in subsection (c), the type "x" aircraft would be subject to allocation. The allocation is determined by computing a percentage obtained by dividing the total ground time for the preceding twelve (12) months of all type "x" aircraft in the taxing district by the total ground time for the preceding twelve (12) months of all type "x" aircraft in the fleet.

(e) The true tax value of the aircraft is determined by multiplying the percentages as computed in subsection (d) times the tentative true tax value of the aircraft computed in accordance with section 1 of this rule. For example, assume that the type "x" aircraft provided in the example in subsection (c) had a tentative true tax value of twenty million dollars (\$20,000,000).

Furthermore, assume that the percentage determined in subsection (d) was five percent (5%). The true tax value of the aircraft for Indiana property tax purposes would be one million dollars (\$1,000,000). 50 IAC 4.2-10-3.1 Commercial busline; allocation and true tax value

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-1-11

Sec. 3.1. (a) As used in this rule, "commercial busline" means a company for hire that is principally engaged in the business of transporting persons by bus, and exclusively operates charter buses, which do not have scheduled routes.

(b) The fleet of the commercial busline includes the buses the taxpayer owns, holds, possesses, or controls that are used and operated in interstate commerce.

(c) The fleet of the commercial busline is required to be valued pursuant to section 1 of this rule.

(d) The allocation factor for the fleet is computed by dividing the total Indiana miles of the fleet for the preceding twelve (12) months by the total miles of the fleet for the same period.

(e) As an alternative to maintaining a mileage log of all trips, individual lessors, who do not maintain adequate records to compute their allocation factor, may use the same allocation factor as their lessee provided that the lessor's property is predominantly leased to that lessee. The lessor must meet the predominant use requirement in order to use the lessee's allocation factor. If the lessor does not meet the predominant use requirement, the lessor must use the actual allocation factor as determined in subsection (d). As used in this section, "predominant use" means:

(1) during the course of the year, more than fifty percent (50%) of the total mileage logged by the lessor's buses is logged by buses under lease to that lessee; or

(2) during the course of the year, the leased property is leased to that lessee for more than one-half (1/2) the number of days in that year.

(f) The total true tax value of the fleet subject to assessment under this section is determined by multiplying the true tax value as determined in section 1 of this rule by the allocation factor determined in subsection (d) or (e). 50 IAC 4.2-10-4 Abnormal obsolescence adjustment for commercial airlines and commercial buslines

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-31-7

Sec. 4. (a) Commercial airlines and the buses of commercial buslines used and operated in interstate commerce may claim an adjustment for abnormal obsolescence, as defined in 50 IAC 4.2-9-3, on the tangible personal property reported pursuant to this section, if the taxpayer follows the procedures and meets the requirements regarding an adjustment for abnormal obsolescence contained in 50 IAC 4.2-9.

(b) No adjustment will be allowed for normal obsolescence as defined in 50 IAC 4.2-9. The determination of the tentative true tax value pursuant to 50 IAC 4.2-4 automatically makes an allowance for this type of obsolescence.

(c) The term abnormal obsolescence will be strictly construed and limited to a situation where unforeseen changes in market values, exceptional technological obsolescence, or where destruction by a catastrophe occurs if such events have a direct effect upon the valuation of the property at the tax situs in the state of Indiana.

(d) The dollar amount of the adjustment may not exceed the allocatable portion of the true tax value of the particular unit of property as determined pursuant to this section for which the carrier claims an adjustment. (*Department of Local Government*

Affected: IC 6-1.1-10-12; IC 6-1.1-10-13; IC 36-5-1

Sec. 1. (a) Personal property is exempt from property taxation if:

- (1) it is part of a stationary or unlicensed mobile air pollution control system of a private manufacturing, fabricating, assembling, extracting, mining, processing, generating, refining, or other industrial facility;
- (2) it is not primarily used in the production of property for sale;
- (3) it is employed predominantly in the operation of the air pollution control system;
- (4) the air pollution control system is designed and used for the improvement of public health and welfare by the prevention or elimination of air contamination caused by industrial waste or contaminants;
- (5) a sanitary treatment or elimination service for the waste or contaminants is not provided by public authorities; and
- (6) it is acquired for the purpose of complying with any state, local, or federal environmental quality statutes, regulations, or standards.

(b) The property that is exempt under this section includes the following personal property:

- (1) Personal property that is under construction or in the process of installation and that will be used for the purposes described in subsection (a) when placed in service.
- (2) Spare parts held exclusively for installation in or as part of personal property that qualifies for the exemption under this section.

(c) The owner of personal property which is part of a stationary or unlicensed mobile air pollution control system who wishes to obtain the exemption provided in this section shall claim the exemption on the owner's annual personal property return. On the return, the owner shall describe and state the assessed value of the property for which the exemption is claimed.

(d) The township assessor, if any, or county assessor shall:

- (1) review the exemption claim; and
- (2) allow or deny it in whole or in part.

In making the decision, the township assessor, if any, or county assessor shall consider the requirements stated in subsection (a).

(e) The township assessor, if any, or county assessor shall reduce the assessed value of the owner's personal property for the year for which the exemption is claimed by the amount of exemption allowed. *(Department of Local Government Finance; 50 IAC 4.2-11.1-1; filed Feb 26, 2010, 2:43 p.m.: 20100324-IR-050090576FRA)*

(1) included either as a part of or an adjunct to a privately owned manufacturing or industrial plant or coal mining operation; and

(2) used predominantly to:

(A) prevent, control, reduce, or eliminate pollution of a stream or a public body of water located within or adjoining this state by treating, pretreating, stabilizing, isolating, collecting, holding, controlling, or disposing of waste or contaminants generated by the plant; or

(B) meet state or federal reclamation standards for a coal mining operation.

The term includes personal property that is under construction or in the process of installation and that will be used for the purposes described in this subsection when placed in service. The term also includes spare parts held exclusively for installation in or as part of personal property that qualifies for the exemption under this section.

(b) An industrial waste control facility is exempt from property taxation if it is not used in the production of property for sale.

(c) The owner of an industrial waste control facility who wishes to obtain the exemption provided in section 9 of this chapter shall file an exemption claim along with the owner's annual personal property return. The claim shall describe and state the assessed value of the property for which an exemption is claimed.

(d) The owner shall, by registered or certified mail, forward a copy of the exemption claim to the Indiana department of environmental management. The department shall acknowledge its receipt of the claim.

(e) The Indiana department of environmental management may investigate any claim. The department may also determine if the property for which the exemption is claimed is being utilized as an industrial waste control facility. Within one hundred twenty (120) days after a claim is mailed to the department, the department may certify its written determination to the township or county assessor with whom the claim was filed.

(f) The determination of the department remains in effect:

(1) as long as the owner owns the property and uses the property as an industrial waste control facility; or

(2) for five (5) years;

whichever is less. In addition, during the five (5) years after the department's determination the owner of the property must notify the county assessor and the department in writing if any of the property on which the department's determination was based is disposed of or removed from service as an industrial waste control facility.

(g) The department may revoke a determination if the department finds that the property is not predominantly used as an industrial waste control facility.

(h) The township assessor, if any, or county assessor, in accord with the determination of the department, shall allow or deny in whole or in part each exemption claim. However, if the owner provides the assessor with proof that a copy of the claim has been mailed to the department, and if the department has not certified a determination to the assessor within one hundred twenty (120) days after the claim has been mailed to the department, the assessor shall allow the total exemption claimed by the owner.

(i) The assessor shall reduce the assessed value of the owner's personal property for the year for which an exemption is claimed by the amount of exemption allowed. (*Department of Local Government Finance; 50 IAC 4.2-11.1-2; filed Feb 26, 2010, 2:43 p.m.: 20100324-IR-050090576FRA*)

The county auditor shall notify the designating body and the county property tax assessment board of appeals of all deductions applied under this section.

(1) continues to use the equipment in compliance with any standards established; and

(2) files Form 103-ERA required by this section.

(f) The amount of the deduction for the new owner is the percentage that would have applied if the ownership of the property had not changed multiplied by the current assessed value of the equipment for the year the deduction is claimed by the new owner.

(g) A person may appeal a determination of the assessor under subsection (d) to deny or alter the amount of the deduction by requesting in writing a preliminary conference with the assessor not more than forty-five (45) days after the assessor gives the person notice of the determination. ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

Sec. 4. (a) This section clarifies the liability of persons in the military or naval service for assessment and payment of personal property taxes in the state of Indiana. The Federal Soldiers' and Sailors' Civil Relief Act, as found in 50 U.S.C.A. Appendix, Section 574, provides as follows:

"(1) For the purposes of taxation in respect of any person, or of his personal property, income, or gross income, by any State, Territory, possession, or political subdivision of any of the foregoing, or by the District of Columbia, such person shall not be deemed to have lost a residence or domicile in any State, Territory, possession, or political subdivision of any of the foregoing, or in the District of Columbia, solely by reason of being absent therefrom in compliance with military or naval orders, or to have acquired a residence or domicile in, or to have become a resident in or a resident of, any other State, Territory, possession, or political subdivision of any of the foregoing, or the District of Columbia, while, and solely by reason of being, so absent. For the purposes of taxation in respect of the personal property, income or gross income of any such person by any State, Territory, possession, or political subdivision of any of the foregoing, or the District of Columbia, of which such person is not a resident or in which he is not domiciled, compensation for military and naval service shall not be deemed income for services performed within, or from sources within, such State, Territory, possession, political subdivision, or District, and personal property shall not be deemed to be located or present in or to have a situs for taxation in such State, Territory, possession, political subdivision, or District. Where the owner of personal property is absent from his residence or domicile solely by reason of compliance with military or naval orders, this section applies with respect to personal property, or use thereof, within any tax jurisdiction other than such place of residence or domicile, regardless of where the owner may be serving in compliance with such orders: Provided, That nothing contained in this section shall prevent taxation by any State, Territory, possession, or political subdivision of any of the foregoing, or the District of Columbia in respect of personal property used in or arising from a trade or business, if it otherwise has jurisdiction. This section shall be effective as of September 8, 1939, except that it shall not require the crediting or refunding of any tax paid prior to October 6, 1942."

The purpose thereof was to protect servicemen from having to pay taxes to states in which they were serving pursuant to military order, which state was not the state of residence by choice of the serviceman.

(b) Indiana law does not provide an exemption from tax liability with respect to servicemen who are residents of Indiana but rather provides that all personal property shall be assessed to the owner in the township, town, or city which is that of his residence on the first day of March each year.

(c) Mobile homes, if classified and assessed pursuant to 50 IAC 3.1 for Assessment of Mobile Homes (Regulation 13) and when owned by a serviceman who is a nonresident of Indiana, on duty in Indiana pursuant to military or naval orders, such mobile home is exempt from taxation by the state of Indiana even though physically located in this state, pursuant to the Soldiers' and Sailors' Civil Relief Act. Based upon the foregoing, we are summarizing below the effect of the Soldiers' and Sailors' Civil Relief Act and the laws of the state of Indiana upon the assessment and payment of taxes by a serviceman in the state of Indiana:

(1) Any serviceman who is a resident of another state, but who is temporarily stationed in Indiana pursuant to military or naval orders, is exempt from assessment and payment of personal property taxes in this state, except that used in a trade or business. However, the burden of proof is upon the serviceman and he should exhibit to the assessor evidence of the fact that he is a legal resident of another state. This evidence may be either a statement from the commanding officer, copy of orders to report for active duty, official military personnel identification card, or any other document which would disclose the place of the serviceman's residence or domicile to be other than Indiana.

(2) Personal property located in Indiana belonging to a nonresident serviceman, not used in trade or business, is exempt from assessment and taxation even though such is left with his wife, dependents, or others, in those situations in which he has been transferred to another state or overseas pursuant to military order.

(3) The exemption under subdivisions (1) and (2) would also extend to a mobile home of any nonresident serviceman.

(4) The above exemptions do not extend to personal property used in or arising from a trade or business, in which case a nonresident serviceman is subject to assessment therefore in the same manner as an Indiana resident.

(5) Any serviceman who is a legal resident of the state of Indiana is subject to assessment in this state.

(6) By the provisions of IC 6-1.1-37-7, the penalties for failure to file an assessment return shall not be applicable to any person, or the dependents of any person, in the military or naval forces of the United States on the assessment date covered by the provisions of the Federal Soldiers' and Sailors' Civil Relief Act.

Authority: IC 6-1.1-31-1

Affected: IC 6-1.1-3

Sec. 8. (a) In recognition of the fact that certain intangible charges may be included in the base year value of the subject equipment, the board has authorized the following adjustment procedure:

(1) Base year value for leased data processing equipment shall be the current commercial published selling price for new equipment.

(2) If the current selling price as defined in subdivision (1) includes charges for one (1) or more of the following customer support services, such charges shall be allowable as an adjustment to base year value in Column B, Form 103 (50 IAC 4.2-2-9), to the extent that such charges can be segregated from the total selling price, supported by adequate records and such adjustments clearly shown on Form 106 (50 IAC 4.2-2-9). Customer support services shall be limited to the following:

(A) Educational services. Training and instruction in the use of electronic data processing equipment provided to the user thereof, such as on-site education, classroom instruction, and educational publications.

(B) Maintenance. This would be tests, measurements, replacements, adjustments, and repairs intended to keep data processing equipment in satisfactory working condition.

(C) Application software. The application program is a written sequence of instructions that details the operations the equipment is to perform in order to achieve a specific objective of the user.

Any adjustment for the above enumerated purposes must be factually documented by the taxpayer and shall not exceed ten percent (10%) of the total base year valuation of subject equipment.

(b) If there is a question as to the qualification of certain items under this section, the taxpayer may request an administrative adjudication determination pursuant to the provisions of 50 IAC 4.2-1-6. The department will review each request and issue its determination based upon the facts and evidence submitted by the taxpayer. 50 IAC 4.2-15-14 Present value of personal property leases

Authority: IC 6-1.1-31-1

Affected: IC 6-1-1-3

Sec. 14. Pursuant to 50 IAC 4.2-8-7(d), the department has prescribed the following for the computation of the present value of leased personal property:

- (1) If ownership of the property is transferred to the lessee (or may transfer if one (1) of the parties exercises an option) at or before the end of the lease, the term of the lease shall be the term used for computation of the present value.
- (2) If title to the property is not transferred to the lessee, the prescribed federal tax depreciable life of the asset at the inception of the lease shall be the term for computing the present value.
- (3) If the length of the lease is not specific, the prescribed federal tax depreciable life of the asset at the inception of the lease shall be the term for computing the present value.
- (4) If the lease contains a "balloon" or "bubble" payment, such payment must be included in the present value computation. A "balloon" or "bubble" payment is a lump sum payment scheduled at the inception of, during, or at the conclusion of the lease.
- (5) If the lease indicates the rate of interest included in the payments, such rate shall be used for computing the present value.
- (6) If no interest rate is stated in the lease, the rate to be used in the computation shall be the prime commercial bank loan rate on the March 1 nearest to the inception of the lease. The interest rates to be used for March 1 of certain years are as follows:

ASSESSMENT OF TANGIBLE PERSONAL PROPERTY

Year	Interest Rate	Year	Interest Rate
2009	3.25%	2003	4.25%
2008	6.00%	2002	4.75%
2007	8.25%	2001	8.50%
2006	7.50%	2000	8.75%
2005	5.50%	1999	7.75%
2004	4.00%	1998	8.50%

The department shall publish subsequent rates annually.

(7) If the amount of any payment or payments (including balloon payments) is not known at the inception of the lease, the present value of the lease payments cannot be computed and therefore may not be used as the base year value for personal property tax reporting purposes.

(8) If the present value computed in accordance with this section does not result in a reasonable valuation when other facts and circumstances are considered, the computed present value may not be used as the base year value.
