forth in the invitation for bids; or

(3) accept any of the proposed additions to the contract that are not clearly prejudicial to fair competition.

 - (B) hardware; or
 - (C) software and hardware maintenance contracts;
- (5) for any services, provided that a broad announcement of the availability of the contracting opportunity is made in such a manner as is determined by the director to be reasonably calculated to be received by a substantial number of potential vendors;
- (6) when the compatibility of equipment, accessories, or replacement parts is a substantial consideration in the procurement and only a limited number of sources meet the commission's reasonable requirements;
- (7) when procurement of the required supplies or services under another section of this rule would seriously impair the functioning of the lottery;
- (8) when a contract has been solicited for a procurement under another section of this rule and the commission has not received a reasonable, responsive offer;
- (9) when the time periods for performance as determined by the director would be seriously impaired by competitive bidding, so long as at least two (2) price quotes are obtained.

(b) A special procurement must be made with such competition as is practicable under the circumstances as determined by the director.

(c) A written determination of the basis for the special procurement must be included in the contract file. If a series of contracts awarded under this section for a single classification of goods or services are awarded to one (1) vendor and such contracts are all awarded within a period of six (6) months or less and the total contract price on such series of contracts exceeds four hundred thousand dollars (\$400,000), then any of the contracts in such series which would cause the total contract price to be in excess of four hundred thousand dollars (\$400,000), shall not be deemed to be a small purchase qualifying under this section.
