The department shall review any requested changes to the alternative work plan. The department shall adopt a final work plan that considers the interests of the utility, contractor, and public, to ensure safety and reliability of the utility facilities and the highway and avoid the imposition of unnecessary and unreasonable costs. The final work plan adopted by the department will be:

    - (1) Provide the department and the utility a good faith notice not less than fifteen (15) days before the contractor's work is

expected to be complete and ready for the utility to implement its work plan.
