Sec. 1. (a) This article governs an activity relative to a license, and an activity for which a license is required whether or not a permit is sought or held, under:

If the water level on a navigable waterway is modified by a lawful control structure, the line of demarcation for purposes of licensure and enforcement is determined based upon the ordinary high watermark with the control structure in place.

(c) A separate license is not required under this article and IC 14-29-1 for an activity permitted under:

- (4) IC 14-37;

the department shall apply the requirements of IC 14-29-1-8 and this article with respect to an activity within a navigable waterway.

(f) Before issuing a license under this rule, the department shall consider the following:

- (1) The public trust.
- (2) The likely impact upon the applicant and other affected persons, including the accretion or erosion of sand or sediments.

(g) A separate license is not required under IC 14-29-1-8 for an activity that is exempted from licensing by IC 14-29-1-8(e).

(1) IC 14-29-1-8; or

(2) a section of this article;

which would be unlawful if placed after that date, is eligible for qualification under this section as a lawful nonconforming use.

(b) This subsection governs the establishment of a lawful nonconforming use as follows:

(1) A person who claims a lawful nonconforming use has the burden of proof for establishing:

(A) the existence of the use; and

(B) that the use was lawful;

when the new or amended statutory or rule section became effective. Except as provided in subdivision (2), a use must have been in existence when the new or amended section became effective and not merely at some time before it became effective.

(2) If a rule section that governs the placement of a temporary structure becomes effective outside the boating season, but a temporary structure was used during the previous boating season, the use is considered to have been in existence when the section became effective. As used in this subdivision, the boating season is from April 1 through October 31.

(3) The department may consider the following documentation in determining the existence of a lawful nonconforming use:

(A) Ground level or aerial photographs.

(B) Blueprints or engineering drawings.

A person who does not deliver a request under this subdivision is not prohibited from asserting the benefits of a lawful nonconforming use as an affirmative defense or otherwise in a proceeding under IC 4-21.5.

(6) The department shall maintain a public file or files to memorialize any determinations under this subsection. The department may include in the file a determination that a structure qualified or did not qualify as a lawful nonconforming use even if the determination was made before the effective date of this subsection.

(c) This subsection governs the maintenance of or modification to a lawful nonconforming use as follows:

(1) Except as provided in subdivision (2), a lawful nonconforming use may be maintained, but the use cannot be modified or repaired unless a person satisfies the requirements of IC 14-29-1 and this article that are in effect at the time of the modification or repair. In performing modification or repair under this subdivision, the:

(A) location;

(B) size; and

(C) configuration;

of the use must be maintained.

(2) The department may authorize a modification or repair to a lawful nonconforming use if it determines that the resulting change to the:

(A) location;

(B) size; or

(C) configuration;

would better serve a public right or a vested right, as protected by IC 14-29-1 or this article, than does the existing lawful nonconforming use.

(d) This subsection governs the removal of a lawful nonconforming use as follows:

(1) The director or the director's designee may order the removal of a lawful nonconforming use if the structure or facility is either of the following:

(i) Navigability.

(ii) The environment.

(iii) The enjoyment of life or property.

(iv) The public trust.

(B) Abandoned.

(C) Modified in a manner for which a license is required under IC 14-29-1 or this article, but for which no license has been obtained.

(2) The department has the burden of proof to establish a lawful nonconforming use should be removed under this subsection.

(3) A structure adversely affects navigability under subdivision (1)(A)(i) if the structure is any of the following:

(A) Extended or located more than one hundred (100) feet from the ordinary high watermark of the waterway.

(B) Submerged or otherwise obscured from the view of a boater or other person using a lake.

(C) In a derelict condition. A structure is in a derelict condition if:

(i) so neglected by the owner that it has become ineffective for the intended purposes; or

(ii) following a reasonable inquiry, the owner of the structure cannot be identified.

(4) Generally, a use is abandoned if not exercised for a period in excess of one (1) year. A person may, however, present evidence of special factors that would reasonably excuse a failure to maintain the use. These factors include the following:

(A) Pending litigation relating to the lawful nonconforming use.

(B) Unusual environmental conditions.

(e) IC 4-21.5-3-8 controls an order issued under subsection (d) unless an emergency exists, in which event IC 4-21.5-4 applies.

(1) Provide a reasonable buffer zone between the pier and the following:

- (A) The channel where boats are commonly operated in excess of ten (10) miles per hour.
- (B) The riparian zone of adjacent property owners to provide for reasonable navigation by the adjacent property owner and by the public. Except as otherwise provided in this clause, the department shall require at least (5) feet of clearance on both sides of a riparian line (for a total of ten (10) feet). The department may require as much as ten (10) feet of clearance on both sides of a riparian line (for a total of twenty (20) feet) if, based upon the opinion of a qualified professional, that additional clearance is required for reasonable navigation. The department may approve an exception to this clause where:

 - (ii) the purposes of this clause are satisfied by waters elsewhere within their riparian zones.

(2) Do not result in unreasonable traffic congestion either:

- (A) in the immediate vicinity of the pier; or
- (B) to impair the carrying capacity of the navigable waterway where the department has determined the carrying capacity in an analysis that is published before the license application is filed.

(3) Do not authorize structures that are likely to be hidden or obscured so as to pose a hazard to the public.

As used in this subdivision, "width" is determined by the straight line formed between the points located at intersections of the applicant's property lines with the shoreline.

Rule 7. Emergency Construction Activities in Lake Michigan

312 IAC 6-7-1 Application

Authority: IC 14-10-2-4; IC 14-28-3-2; IC 14-29-1-8
Affected: IC 14-28-1; IC 14-29-1

Sec. 1. (a) This rule establishes standards for determining whether an emergency condition warrants the approval of a construction activity along or within the ordinary high watermark of Lake Michigan where a license application, review, and approval are not completed before conducting the activity. An emergency authorization under this rule applies to IC 14-28-1 and IC 14-29-1.

(b) The presumption is a license application, review, and approval process must be completed before a construction activity can be approved. An emergency action is authorized only if the division director finds the action is supported by extraordinary circumstances as described in this rule.

(c) This rule also sets procedures for seeking approval of an emergency activity and the status of improvements made as a result of the activity. (*Natural Resources Commission; 312 IAC 6-7-1; filed Jan 23, 2001, 10:17 a.m.: 24 IR 1610; readopted filed Jul 28, 2003, 12:00 p.m.: 27 IR 286; readopted filed Sep 28, 2009, 11:57 a.m.: 20091021-IR-312090152RFA*)

Affected: IC 14-28-1; IC 14-29-1

Sec. 2. (a) A person who wishes to perform emergency construction along or within the ordinary high watermark of Lake Michigan, without first obtaining license approval under IC 14-29-1 and this article, must notify the department and the applicable county emergency management agency.

(b) The notice shall describe the nature of the emergency and the construction requested to be performed in response to the emergency. The notice must provide sufficient information for the department to review the request under the terms set forth in this rule.

(c) An authorization issued under this rule also satisfies the need to obtain a license under IC 14-28-1 for the period the authorization is in effect. (*Natural Resources Commission; 312 IAC 6-7-2; filed Jan 23, 2001, 10:17 a.m.: 24 IR 1610; readopted filed Jul 28, 2003, 12:00 p.m.: 27 IR 286; readopted filed Sep 28, 2009, 11:57 a.m.: 20091021-IR-312090152RFA*)

312 IAC 6-7-4 Determining if an emergency exists

Authority: IC 14-10-2-4; IC 14-28-3-2; IC 14-29-1-8
Affected: IC 14-28; IC 14-29

Sec. 4. The department may grant a request to approve emergency construction if, without performing the construction, there is an imminent risk of harm to public safety or major damage to property and at least one (1) of the following conditions exist:

- (1) No erosion protection structure is present at the site.
- (2) A failure or significant structural deterioration of an existing erosion protection structure has occurred. Examples include the following:
 - (A) Erosion of the lake bottom has occurred adjacent to a sheet steel wall.
 - (B) Stones in a rock revetment have shifted.
- (3) Major shoreline erosion has occurred.
- (4) A bluff face is excessively steep and threatens mass slumping.
- (5) Without the construction, there would be a likelihood of significant harm to the environment or to public health and safety.

(Natural Resources Commission; 312 IAC 6-7-4; filed Jan 23, 2001, 10:17 a.m.: 24 IR 1611; readopted filed Jul 28, 2003, 12:00 p.m.: 27 IR 286; readopted filed Sep 28, 2009, 11:57 a.m.: 20091021-IR-312090152RFA)

Authority: IC 14-10-2-4; IC 14-28-3-2; IC 14-29-1-8
Affected: IC 14-28; IC 14-29

Sec. 5. Factors tending to support a finding emergency conditions are present under section 3 of this rule include the following:

- (1) The lake level is rising.
- (2) The current lake level is higher than the ordinary high watermark (five hundred eighty-one and five-tenths (581.5) feet) or lower than five hundred seventy-eight (578) feet I.G.L.D., 1985.
- (3) The failed or threatened erosion control structure is in close proximity to the subject property.
- (4) The content, design, or position of an erosion control structure makes its accelerated deterioration or collapse more likely.
- (5) The existing angle of repose of a bluff face or the bluff height make continued slumping probable.
- (6) The risk of harm to public safety or major damage to real property is aggravated by external circumstances.
- (7) If immediate action is not taken, persons other than the person seeking to perform emergency remedial action are also likely to suffer harm.

(Natural Resources Commission; 312 IAC 6-7-5; filed Jan 23, 2001, 10:17 a.m.: 24 IR 1611; readopted filed Jul 28, 2003, 12:00 p.m.: 27 IR 286; readopted filed Sep 28, 2009, 11:57 a.m.: 20091021-IR-312090152RFA)

Affected: IC 14-28; IC 14-29

Sec. 6. (a) The department may approve, approve with conditions, or deny a request for an emergency authorization under this rule. This disposition may be made orally if conditions warrant but shall be memorialized in writing as quickly as practicable.

(b) The department may terminate an application for an emergency license if the applicant fails to provide supporting

documentation in a timely fashion.

(c) Unless otherwise specified in writing by the department, an approval under this rule is effective for ninety (90) days. *(Natural Resources Commission; 312 IAC 6-7-6; filed Jan 23, 2001, 10:17 a.m.: 24 IR 1611; readopted filed Jul 28, 2003, 12:00 p.m.: 27 IR 286; readopted filed Sep 28, 2009, 11:57 a.m.: 20091021-IR-312090152RFA)*

312 IAC 6-7-7 After-the-fact license

Authority: IC 14-10-2-4; IC 14-28-3-2; IC 14-29-1-8

Affected: IC 14-18-6; IC 14-28-1; IC 14-29-1

Sec. 7. (a) A person who obtains and acts upon an emergency authorization under this rule must file with the department a completed application, under IC 14-29-1 and this article, for a permanent after-the-fact license within ninety (90) days of commencing the emergency activity. The department may, for good cause, grant an extension of time for filing an after-the-fact license application.

(b) If the activity for which an emergency authorization is granted also requires a license under IC 14-28-1, a completed application for a permanent after-the-fact license under IC 14-28-1 must also be filed with the department within ninety (90) days of commencing the emergency activity.

(c) Subsections (a) and (b) do not apply if the person granted an emergency authorization conducts no activity over which the department has jurisdiction under IC 14-28-1 or IC 14-29-1.

(d) The receipt of an emergency authorization creates no inference of entitlement to an after-the-fact license or to ownership of the bed of Lake Michigan. The department may require modification or removal of any material or structure placed on or within the ordinary high watermark of Lake Michigan if appropriate to IC 14-29-1 and this article. A person may obtain title to lands within the ordinary high watermark of Lake Michigan only upon compliance with IC 14-18-6. *(Natural Resources Commission; 312 IAC 6-7-7; filed Jan 23, 2001, 10:17 a.m.: 24 IR 1611; readopted filed Jul 28, 2003, 12:00 p.m.: 27 IR 286; readopted filed Sep 28, 2009, 11:57 a.m.: 20091021-IR-312090152RFA)*

(b) Unless otherwise agreed by the parties, a hearing under this section shall be held in an Indiana county that borders Lake Michigan. *(Natural Resources Commission; 312 IAC 6-7-8; filed Jan 23, 2001, 10:17 a.m.: 24 IR 1612; readopted filed Jul 28, 2003, 12:00 p.m.: 27 IR 286; readopted filed Sep 28, 2009, 11:57 a.m.: 20091021-IR-312090152RFA)*

312 IAC 6-8-2 License for the placement of a structure

Authority: IC 14-10-2-4; IC 14-28-3-2; IC 14-29-1-8

Affected: IC 14-28; IC 14-29

Sec. 2. (a) A person who wishes to place a permanent structure on or within the ordinary high watermark of Lake Michigan must file a license application with the department that is completed under this article.

(b) The applicant must include plans, drawings, other specifications reasonably required for the department to determine whether placement of the permanent structure would satisfy 312 IAC 6-1-1.

(c) The applicant must demonstrate the permanent structure will not do any of the following:

- (1) Unreasonably impair the navigability of the lake or an adjacent navigable waterway.
- (2) Cause significant harm to the environment.
- (3) Pose an unreasonable hazard to life or property.

(d) The applicant shall evaluate the likely impact of the permanent structure on coastal dynamics, including the following:

- (1) Shoreline erosion and accretion.
- (2) Sand movement within the lake.
- (3) The interaction with existing structures.

(e) The applicant must demonstrate either that it is the fee owner of land immediately adjacent to the site where the construction would take place or that the applicant has written authorization from the fee owner of that land.

(f) The applicant must provide notice to persons adjacent to the affected real property as described in 312 IAC 2-3. *(Natural Resources Commission; 312 IAC 6-8-2; filed Jan 23, 2001, 10:17 a.m.: 24 IR 1612; readopted filed Jul 28, 2003, 12:00 p.m.: 27 IR 286; readopted filed Sep 28, 2009, 11:57 a.m.: 20091021-IR-312090152RFA)*

312 IAC 6-8-3 Action by department

Authority: IC 14-10-2-4; IC 14-28-3-2; IC 14-29-1-8

Affected: IC 4-21.5-3-5; IC 14-28; IC 14-29-1

Sec. 3. (a) The department may determine to approve, approve with conditions, or deny a license sought under this rule and IC 14-29-1. Those conditions may include any action needed to mitigate a negative impact identified under section 2 of this rule. Notice of the determination shall be provided to the applicant and any other person required to be notified under IC 4-21.5-3-5.

(b) The department may terminate a license application where the applicant fails to provide supporting documentation in a timely fashion.

(c) If the department determines the placement of a structure as described in the application would violate the public trust doctrine, the department shall either deny the application or condition approval of the application upon terms that would allow placement of the structure without violation of the public trust doctrine. The license may be conditioned to assure that any public access will not be impeded and to provide for complete removal of the structure and site restoration, at the expense of the riparian

landowner, when the structure is no longer required.

(d) As a condition of approval, the department may require monitoring of the structure or of affected lands and waters to determine the impact of the structure upon coastal dynamics or other environmental factors. If monitoring or other documentation identifies a negative impact that was not fully addressed when the license was approved, the department may require removal, modification, or improvement to the structure (or another action needed) to mitigate the negative impact.
