(m) The classification of rules into the categories that are stated at the end of each section of this rule and 410 IAC 16.2-5 through 410 IAC 16.2-7 shall be used to determine the corrective actions and penalties, if appropriate, to be imposed by the commissioner upon a determination that a breach has occurred, as follows:

(1) An offense presents a substantial probability that death or a life-threatening condition will result. For an offense, the commissioner shall issue an order for immediate correction of the offense. In addition, the commissioner shall:

(A) impose a fine not to exceed ten thousand dollars (\$10,000); or

(B) order the suspension of new admissions to the health facility for a period not to exceed forty-five (45) days;

or both. If the offense is immediately corrected, the commissioner may waive up to fifty percent (50%) of any fine imposed and reduce the number of days for suspension of new admissions by one-half ($\frac{1}{2}$). The commissioner may also impose revocation by the director of the facility's license or issuance of a probationary license.

If the deficiency is immediately corrected, the commissioner may waive up to fifty percent (50%) of any fine imposed and reduce the number of days for suspension of new admissions by one-half ($\frac{1}{2}$). The commissioner may also impose revocations by the director of the facility license or issuance of a probationary license.

(3) A noncompliance presents an indirect threat on the health, safety, security, rights, or welfare of a resident. For a noncompliance, the commissioner shall require the health facility to comply with any plan of correction approved or directed under IC 16-28-5-7. If the facility is found to have a pattern of noncompliance, the commissioner may suspend new admissions to the health facility for a period not to exceed fifteen (15) days or impose a fine not to exceed one thousand dollars (\$1,000), or both. Additionally, if the health facility is found to have a repeat of the same noncompliance in any fifteen (15) month period, the commissioner shall issue an order for immediate correction of the noncompliance. The commissioner may impose a fine not to exceed five thousand dollars (\$5,000) or suspension of new admissions to the health facility for a period not to exceed thirty (30) days, or both.

(4) A nonconformance is any other classified rule that does not fall in the three (3) categories established in subdivisions (1) through (3). For a nonconformance, the commissioner shall require the health facility to comply with any plan of correction approved or directed in accordance with IC 16-28-5-7. For a repeat of the same nonconformance within a fifteen (15) month period, the commissioner shall require the health facility to comply with any plan of correction approved or directed in accordance with IC 16-28-5-7. For a repeat pattern of nonconformance the commissioner may suspend new admissions to the health facility for a period not to exceed fifteen (15) days or impose a fine not to exceed one thousand dollars (\$1,000), or both.

Authority: IC 16-28-1-7; IC 16-28-1-12

Affected: IC 4-21.5; IC 16-28-5-1

Sec. 12. (a) The transfer and discharge rights of residents of a facility are as follows:

(1) As used in this section, "interfacility transfer and discharge" means the movement of a resident to a bed outside of the licensed facility. For Medicare and Medicaid certified facilities, an interfacility transfer and discharge means the movement of a resident to a bed outside of the certified facility whether that bed is in the same physical plant or not.

(2) As used in this section, "intrafacility transfer" means the movement of a resident to a bed within the same licensed facility. For Medicare and Medicaid certified facilities, an intrafacility transfer means the movement of a resident to a bed within the same certified facility.

(3) When a transfer or discharge of a resident is proposed, whether intrafacility or interfacility, provision for continuity of care shall be provided by the facility.

(4) Health facilities must permit each resident to remain in the facility and not transfer or discharge the resident from the facility unless:

(A) the transfer or discharge is necessary for the resident's welfare and the resident's needs cannot be met in the facility;

(B) the transfer or discharge is appropriate because the resident's health has improved sufficiently so that the resident no longer needs the services provided by the facility;

- (C) the safety of individuals in the facility is endangered;
 - (D) the health of individuals in the facility would otherwise be endangered;
 - (E) the resident has failed, after reasonable and appropriate notice, to pay for (or to have paid under Medicare or Medicaid) a stay at the facility; or
 - (F) the facility ceases to operate.
- (5) When the facility proposes to transfer or discharge a resident under any of the circumstances specified in subdivision (4)(A), (4)(B), (4)(C), (4)(D), or (4)(E), the resident's clinical records must be documented. The documentation must be made by the following:
- (A) The resident's physician when transfer or discharge is necessary under subdivision (4)(A) or (4)(B).
 - (B) Any physician when transfer or discharge is necessary under subdivision (4)(D).
- (6) Before an interfacility transfer or discharge occurs, the facility must, on a form prescribed by the department, do the following:
- (A) Notify the resident of the transfer or discharge and the reasons for the move in writing and in a language and manner that the resident understands. The health facility must place a copy of the notice in the resident's clinical record and transmit a copy to the following:
 - (i) The resident.
 - (ii) A family member of the resident if known.
 - (iii) The resident's legal representative if known.
 - (iv) The local long term care ombudsman program (for involuntary relocations or discharges only).

 - (B) Record the reasons in the resident's clinical record.
 - (C) Include in the notice the items described in subdivision (9).
- (7) Except when specified in subdivision (8), the notice of transfer or discharge required under subdivision (6) must be made by the facility at least thirty (30) days before the resident is transferred or discharged.
- (8) Notice may be made as soon as practicable before transfer or discharge when:
- (A) the safety of individuals in the facility would be endangered;
 - (B) the health of individuals in the facility would be endangered;
 - (C) the resident's health improves sufficiently to allow a more immediate transfer or discharge;
 - (D) an immediate transfer or discharge is required by the resident's urgent medical needs; or
 - (E) a resident has not resided in the facility for thirty (30) days.
- (9) For health facilities, the written notice specified in subdivision (7) must include the following:
- (A) The reason for transfer or discharge.
 - (B) The effective date of transfer or discharge.
 - (C) The location to which the resident is transferred or discharged.

If you think you should not have to leave this facility, you may file a written request for a hearing with the Indiana state department of health postmarked within ten (10) days after you receive this notice. If you request a hearing, it will be held within twenty-three (23) days after you receive this notice, and you will not be transferred from the facility earlier than thirty-four (34) days after you receive this notice of transfer or discharge unless the facility is authorized to transfer you under subdivision (8). If you wish to appeal this transfer or discharge, a form to appeal the health facility's decision and to request a hearing is attached. If you have any questions, call the Indiana state department of health at the number listed below."
 - (E) The name of the director, address, telephone number, and hours of operation of the division.
 - (F) A hearing request form prescribed by the department.
 - (G) The name, address, and telephone number of the division and local long term care ombudsman.

(10) If the resident appeals the transfer or discharge, the facility may not transfer or discharge the resident within thirty-four (34) days after the resident receives the initial transfer or discharge notice, unless an emergency exists as provided under subdivision (8).

(11) If nonpayment is the basis of a transfer or discharge, the resident shall have the right to pay the balance owed to the facility up to the date of the transfer or discharge and then is entitled to remain in the facility.

(12) The department shall provide a resident who wishes to appeal the transfer or discharge from a facility the opportunity to file a request for a hearing postmarked within ten (10) days following the resident's receipt of the written notice of the transfer or discharge from the facility.

(13) If a facility resident requests a hearing, the department shall hold an informal hearing at the facility within twenty-three (23) days from the date the resident receives the notice of transfer or discharge. The department shall attempt to give at least five (5) days written notice to all parties prior to the informal hearing. The department shall issue a decision within thirty (30) days from the date the resident receives the notice. The facility must convince the department by a preponderance of the evidence that the transfer or discharge is authorized under subdivision (4). If the department determines that the transfer is appropriate, the resident must not be required to leave the facility within the thirty-four (34) days after the resident's receipt of the initial transfer or discharge notice unless an emergency exists under subdivision (8). Both the resident and the facility have the right to administrative or judicial review under IC 4-21.5 of any decision or action by the department arising under this section. If a hearing is to be held de novo, that hearing shall be held in the facility where the resident resides.

(14) An intrafacility transfer can be made only if:

(A) the transfer is necessary for medical reasons as judged by the attending physician; or

(B) the transfer is necessary for the welfare of the resident or other persons.

(15) If an intrafacility transfer is required, the resident must be given notice at least two (2) days before relocation, except when:

(A) the safety of individuals in the facility would be endangered;

(B) the health of individuals in the facility would be endangered;

(17) The resident has the right to relocate prior to the expiration of the two (2) day notice.

(18) Prior to any interfacility or involuntary intrafacility relocation, the facility shall prepare a relocation plan to prepare the resident for relocation and to provide continuity of care. In nonemergency relocations, the planning process shall include a relocation planning conference to which the resident, his or her legal representative, family members, and physician shall be invited. The planning conference may be waived by the resident or his or her legal representative.

(19) At the planning conference, the resident's medical, psychosocial, and social needs with respect to the relocation shall be considered and a plan devised to meet these needs.

(20) The facility shall provide reasonable assistance to the resident to carry out the relocation plan.

(21) The facility must provide sufficient preparation and orientation to residents to ensure safe and orderly transfer or discharge from the facility.

(B) is eligible for Medicaid nursing facility services.

For a noncompliance, the commissioner shall require the health facility to submit a plan of correction approved or directed under IC 16-28-5-7. If the facility is found to have a pattern of noncompliance, the commissioner may suspend new admissions to the health facility for a period not to exceed ten (10) days or impose a fine not to exceed one thousand dollars (\$1,000), or

both. Additionally, if the health facility is found to have a repeat of the same noncompliance in any eighteen (18) month period, the commissioner shall issue an order for immediate correction of the noncompliance. The commissioner may impose a fine not to exceed five thousand dollars (\$5,000) or suspension of new admissions to the health facility for a period not to exceed thirty (30) days, or both.

(b) If the individual is a recipient of Medicaid or federal Supplemental Security Income (SSI), the individual needs evaluation provided in section 2(a) of this rule shall include, but not be limited to, the following:

(1) Screening of the individual for major mental illness, such as a diagnosed major mental illness, is limited to the following disorders:

All residents who participate in Medicaid or SSI admitted after April 1, 1997, shall have a completed individual needs assessment in their clinical record. All persons admitted after April 1, 1997, shall have the assessment completed prior to the admission, and, if a mental health center consultation is needed, the consultation shall be completed prior to the admission and a copy maintained in the clinical record.

(d) When a state hospital refers a person with a major mental illness, the residential care facility shall request that a copy of the psychosocial and treatment recommendations collaboratively developed between the state hospital and the mental health center be forwarded to the residential care facility so that the residential care facility can determine the degree to which it can provide or arrange for the provision of such service.

(e) The residential care facility shall not admit residents with a major mental illness if:

- (1) the mental health service provider determines that the resident’s needs cannot be met; and
- (2) the residential care facility does not have a means to access needed services to carry out the comprehensive care plan.

(f) Each resident with a major mental illness must have a comprehensive care plan that is developed within thirty (30) days after admission to the residential care facility.

(g) The residential care facility, in cooperation with the mental health service providers, shall develop the comprehensive care plan for the resident that includes the following:

- (1) Psychosocial rehabilitation services that are to be provided within the community.
- (2) A comprehensive range of activities to meet multiple levels of need, including the following:

(h) The residential care facility shall provide or arrange for services to carry out the resident’s comprehensive care plan.

(i) The residential care facility shall seek appropriate alternate placement in accordance with 410 IAC 16.2-2-3 if the resident’s needs or comprehensive care plan, or both, cannot be met by the residential care facility.

(j) The facility must comply with IC 12-10-6 for those residents eligible for residential care assistance.

(k) For purposes of IC 16-28-5-1, a breach of:

- (1) subsection (e) is an offense;
- (2) subsection (b), (c), (g), (h), or (i) is a deficiency; and
- (3) subsection (d), (f), or (j) is a noncompliance.

(Indiana State Department of Health; 410 IAC 16.2-5-11.1; filed Jan 21, 2003, 8:34 a.m.: 26 IR 1935, eff Mar 1, 2003)

410 IAC 16.2-5-12 Infection control

Authority: IC 16-28-1-7; IC 16-28-1-12

Affected: IC 4-21.5; IC 16-28-5-1

Sec. 12. (a) The facility must establish and maintain an infection control practice designed to provide a safe, sanitary, and comfortable environment and to help prevent the development and transmission of diseases and infection.

(b) The facility must establish an infection control program that includes the following:

- (1) A system that enables the facility to analyze patterns of known infectious symptoms.
- (2) Provides orientation and in-service education on infection prevention and control, including universal precautions.
- (3) Offering health information to residents, including, but not limited to, infection transmission and immunizations.
- (4) Reporting communicable disease to public health authorities.

(c) Each resident shall have a diagnostic chest x-ray completed no more than six (6) months prior to admission.

(d) Prior to admission, each resident shall be required to have a health assessment, including history of significant past or present infectious diseases and a statement that the resident shows no evidence of tuberculosis in an infectious stage as verified upon admission and yearly thereafter.

(e) In addition, a tuberculin skin test shall be completed within three (3) months prior to admission or upon admission and read at forty-eight (48) to seventy-two (72) hours. The result shall be recorded in millimeters of induration with the date given, date read, and by whom administered and read.

(f) For residents who have not had a documented negative tuberculin skin test result during the preceding twelve (12) months, the baseline tuberculin skin testing should employ the two-step method. If the first step is negative, a second test should be performed within one (1) to three (3) weeks after the first test. The frequency of repeat testing will depend on the risk of infection with tuberculosis.

(g) All residents who have a positive reaction to the tuberculin skin test shall be required to have a chest x-ray and other physical and laboratory examinations in order to complete a diagnosis.

(h) All skin testing for tuberculosis shall be done using the Mantoux method (5TU, PPD) administered by persons having documentation of training from a department-approved course of instruction in intradermal tuberculin skin testing, reading, and recording.

(i) Persons with a documented history of a positive tuberculin skin test, adequate treatment for disease, or preventive therapy for infection shall be exempt from further skin testing. In lieu of a tuberculin skin test, these persons should have an annual risk assessment for the development of symptoms suggestive of tuberculosis, including, but not limited to, cough, fever, night sweats, and weight loss. If symptoms are present, the individual shall be evaluated immediately with a chest x-ray.

(j) When the infection control program determines that a resident needs isolation to prevent the spread of infection, the facility must isolate the resident only to the degree needed to isolate the infecting organism.

(k) The facility must require staff to wash their hands after each direct resident contact for which hand washing is indicated by accepted professional practice.

(l) For purposes of IC 16-28-5-1, a breach of:

- (1) subsection (a) is an offense;
- (2) subsection (j) or (k) is a deficiency; and
