No sign shall be erected which might set the facility apart from other residences in the area. The intent of this rule concerning the standards for licensure of facilities for persons with developmental disabilities is a clear pronouncement of the state of Indiana's commitment to end the unnecessary exclusion of persons with developmental disabilities from the American mainstream.

(c) No residential facility shall be licensed by the council if it is within one thousand (1,000) feet of another community residential facility from the nearest point on the lot line closest to the facility. The council, upon written request and upon a majority vote of the membership present at a meeting, may waive the one thousand (1,000) foot limitation for particular residential facilities. Such waiver:

The council, upon written request and upon a majority vote of the membership present at a meeting, may waive the one

thousand (1,000) foot limitation for particular residential facilities. Such waiver:

(g) In the event that a residential facility uses a private water and/or sewage disposal system, such system shall meet standards for residential use as specified in 410 IAC 6-8.1. Evidence of such compliance shall be provided upon written request by the council or its agents.

(h) The living areas shall meet the following requirements, unless the facility was approved by the division prior to October 1, 1984, and cannot meet these requirements without major physical modifications:

(2) The facility shall contain sufficient living areas in addition to the bedrooms for the comfort and privacy of the residents. The living areas shall be furnished in the manner of typical family homes.

(3) Not more than two (2) residents shall sleep in one (1) bedroom. No resident shall occupy any room with its only access requiring passage through the room of another resident or staff. Such passage is permitted only for use as a primary or secondary evacuation route in the event of emergency.

(4) Residents shall be encouraged to purchase and display personal possessions, including personal items of furniture, and to enhance a homelike environment with items such as books, pictures, games, televisions, radios, art, and crafts and hobby materials; however, the provider is not relieved from responsibility to assure an adequate quantity and quality of personal furniture, and may not require residents to provide their own furniture. Furniture provided by the residents remains the property of the residents; it is not included in any charges for services paid by Medicaid or the division.

(5) Residential staff who reside in the facility shall do so in a manner that will contribute to the well-being, comfort, independence, and safety of the residents.

(6) In the event that it is necessary to relocate the residents due to the facility being uninhabitable, the division may approve relocation on a temporary, time limited basis and may reimburse the provider at the rate approved for the evacuated facility.
