Authority: IC 12-8-8-4; IC 12-21-2-3; IC 12-25-1-2

Affected: IC 12-25; IC 16

Sec. 1. This article applies to any inpatient, hospital setting, including inpatient and outpatient services provided in that setting, for the treatment and care of individuals with psychiatric disorders or chronic addictive disorders, or both, that is physically, organizationally, and programmatically independent of any hospital or health facility licensed by the Indiana state department of health under IC 16. *(Division of Mental Health and Addiction; 440 IAC 1.5-2-1; filed Oct 11, 2002, 11:26 a.m.: 26 IR 734; readopted filed Nov 5, 2008, 3:50 p.m.: 20081119-IR-440080742RFA)*

440 IAC 1.5-2-2 Licensure by the division

Authority: IC 12-8-8-4; IC 12-21-2-3; IC 12-25-1-2; IC 12-25-1-4

Affected: IC 12-25

Sec. 2. (a) Before an entity may operate as a private mental health institution, the entity must be licensed by the division under this article.

(b) A private mental health institution shall be accredited by an accrediting agency approved by the division.

(c) The following components are required for licensure as a private mental health institution:

- (1) A governing board.
- (2) Medical or professional staff organization.
- (3) A quality assessment and improvement program.
- (4) Dietetic service.
- (5) An infection control program.
- (6) Medical record services.
- (7) Nursing service.
- (8) Physical plant, maintenance, and environmental services.
- (9) Intake and treatment services.
- (10) Discharge planning services.
- (11) Pharmacy services.
- (12) A plan for special procedures.

(d) The private mental health institution shall have a written plan that clearly defines the facility's course of action and arrangements for emergency services.

(e) The facility shall make a verbal report to the division within twenty-four (24) hours of an occurrence of any of the following:

- (1) The death or kidnapping of a consumer occurring after admission.
- (2) Any consumer death that occurs while the consumer is in restraint or seclusion.
- (3) Any death of a consumer that occurs within twenty-four (24) hours after the consumer has been removed from restraint or seclusion.
- (4) Any death of a consumer known to the facility that occurs within one (1) week after restraint or seclusion where it is reasonable to assume that the use of restraint or placement in seclusion contributed directly or indirectly to that consumer's death. For purposes of this subdivision, "reasonable to assume" includes, but is not limited to, deaths related to:
 - (A) restrictions of movement for prolonged periods of time;
 - (B) chest compression;
 - (C) restriction of breathing; or

(D) asphyxiation.

(5) The admission of a child, fourteen (14) years of age or younger, to an adult unit, as prescribed by 440 IAC 1.5-3-9(g) and 440 IAC 1.5-3-9(h).

(6) A disruption, exceeding four (4) hours, in the continued safe operation of the facility or in the provision of consumer care, caused by:

- (A) internal or external disasters;
- (B) strikes by health care workers; or
- (C) unscheduled revocation of vital services.

(7) Any fire or explosion.

(f) In addition, a facility shall submit a written report, as required in subsection (h), to the division within ten (10) working days of any occurrence listed in subsection (e).

(g) The facility shall also submit a written report, as required in subsection (h), to the division within ten (10) working days of the occurrence of any of the following:

(1) A serious injury to a consumer with the actual or potential loss of function or a marked deterioration in a consumer's condition occurring under unanticipated or unexpected circumstances.

(2) Chemical poisoning occurring within the facility resulting in actual or potential harm to a consumer.

(3) An unexplained loss or theft of a controlled substance.

(4) A consumer who:

- (A) is missing; or
- (B) cannot be located;

for more than twenty-four (24) hours.

(h) A written report required under subsection (f) or (g) shall include the following information:

(1) An explanation of the circumstances surrounding the incident.

(2) Summaries of all findings, conclusions, and recommendations associated with a review of the incident.

(3) A summary of actions taken to:

- (A) resolve identified problems;
- (B) prevent recurrence of the incident; and
- (C) improve overall consumer care.

(i) In the event of flood, fire, or other disaster, when significant damage has occurred to the facility, the governing board, or the governing board's designee, or the director shall suspend the use of all, or an affected part, of the facility as may be necessary to ensure the safety and well-being of consumers. The director shall issue a permit to reoccupy the facility, or an affected part thereof, after an inspection and approval for reoccupation of the facility by the:

- (1) Indiana state department of health; or
- (2) division of fire and building safety, department of homeland security;

as applicable.

(j) A private mental health institution that has:

- (1) applied for a license; or
- (2) been licensed;

shall supply any information reasonably requested by the division. A facility's failure to comply with the division's request may result in revocation or denial of a private mental health institution's license.

(k) As the licensing body, the division may conduct inspections and investigate complaints and incidents in a private mental health institution.

(l) A private mental health institution's license shall be posted in a conspicuous place in an area of the facility open and accessible to consumers and to the public. (*Division of Mental Health and Addiction; 440 IAC 1.5-2-2; filed Oct 11, 2002, 11:26 a.m.: 26 IR 734; filed Aug 11, 2008, 3:40 p.m.: 20080910-IR-440070875FRA; readopted filed Nov 5, 2008, 3:50 p.m.: 20081119-IR-440080742RFA*)

440 IAC 1.5-2-3 Application for licensure

Authority: IC 12-8-8-4; IC 12-21-2-3; IC 12-25-1-2; IC 12-25-1-4

Affected: IC 4-21.5-3; IC 12-25-1-6; IC 12-25-3-1

LICENSURE OF PRIVATE MENTAL HEALTH INSTITUTIONS

- Sec. 3. (a) An entity seeking a license as a private mental health institution shall file an application with the division.
- (b) The application shall contain the following:
- (1) A description of the organizational structure and mission of the applicant.
 - (2) The location of all operational sites of the applicant.
 - (3) The:
 - (A) consumer population to be served; and
 - (B) program focus.
 - (4) A list of governing board members and executive staff.
 - (5) A copy of the applicant's procedures to ensure protection of consumer rights and confidentiality.
 - (6) Written evidence of the following:
 - (A) An on-site review and inspection by the:
 - (i) Indiana state department of health; and
 - (ii) division of fire and building safety of the department of homeland security.
 - (B) The correction of any deficiencies.
 - (7) Other materials as requested by the division to assist in the evaluation of the application.
- (c) An applicant that is accredited shall submit the following to the division:
- (1) Proof of accreditation in all services provided by the applicant.
 - (2) Site survey recommendations from the accrediting agency.
 - (3) The applicant's responses to the site survey recommendations.
 - (d) The division may require the applicant to correct any deficiencies described in the site survey.
 - (e) If an applicant is not yet accredited in all services provided by the applicant, but provides proof of application to an accrediting agency approved by the division, the division may issue a temporary license for a period of six (6) months.
 - (f) At the end of the six (6) month period of a temporary license granted under subsection (e), the division may extend the temporary license for not longer than six (6) additional months, if the nonaccredited applicant continues to meet all other requirements for a license except for accreditation.
 - (g) Prior to the expiration of an extended temporary license under subsection (f), the applicant shall provide the division with the following:
 - (1) Proof of accreditation.
 - (2) Site survey recommendations from the accrediting agency.
 - (3) The applicant's responses to the site survey recommendations.
 - (4) If required by the division, proof of the correction of any deficiency described in the site survey.
 - (5) Any other materials requested by the division as a part of the application process.
 - (h) If an applicant fails to achieve accreditation within a period of twelve (12) months from the date of application, the applicant may not reapply for a license until twelve (12) months after an extended temporary license expires.
 - (i) The division may issue a regular license as a private mental health institution to the applicant if the division determines that the applicant meets all criteria for a license as a private mental health institution set forth in this rule and in federal and state law.
 - (j) A regular license shall expire one (1) year after the date of issuance.
 - (k) A facility must obtain a new license when any of the following occurs:
 - (1) A change in any of the following:
 - (A) Ownership as determined by the division in conjunction with the requirements of the accrediting agency.
 - (B) The location of the physical plant.
 - (C) The primary program focus.
 - (2) The existing license expires.
 - (l) Under IC 12-25-1-6, the director may do either of the following:
 - (1) Issue a license upon an application without further evidence.
 - (2) Conduct:
 - (A) a hearing on the application; and
 - (B) an investigation to determine whether a license should be granted.
 - (m) If an applicant is denied a license, or is otherwise aggrieved by an action of the director, after a hearing under subsection (l), the applicant may do either of the following:

- (1) Seek administrative review of that determination under IC 4-21.5-3.
- (2) File an action under IC 12-25-3-1.

(n) If an applicant is denied a license, the applicant may not submit a new application for a license for a period of twelve (12) months from the effective date of the division's denial of a license. Authority: IC 12-8-8-4; IC 12-21-2-3; IC 12-25-1-2; IC 12-25-1-4

Affected: IC 12-25-2

Sec. 6. (a) The division shall change the licensing status of a private mental health institution to that of a conditional license if the division determines that the private mental health institution has received conditional accreditation status.

(b) The division may change the licensing status of a private mental health institution to that of a conditional license if the division determines that the private mental health institution no longer meets the requirements in this article.

(c) Within a conditional licensure period, the division may do any of the following:

(1) Require that the facility stop all new admissions.

(2) Grant an extension of the conditional license.

(3) Reinstate the regular license of the private mental health institution if the division's requirements are met within the imposed deadline.

(4) Take action to suspend or revoke the facility's license as a private mental health institution if the division's requirements are not met within the imposed deadline.

(d) The division shall give written notice to the chief executive officer of the private mental health institution of any change in the facility's certification status. The notice shall include the following:

(1) The:

(A) standards not met; and

(B) actions the private mental health institution must take to meet those standards.

(2) The amount of time granted the private mental health institution to meet the required standard.

(3) Actions to be taken by the private mental health institution during the time period of the extension.

(e) The division has the discretion to determine the time period and frequency of a conditional license; however, a conditional license plus any extensions thereof may not exceed a total period of twelve (12) months.

(f) Extension requirements shall include the following:

(1) If the division grants an extension of a conditional license, the division shall notify the private mental health institution in writing.

(2) The notice shall include the following:

(A) The time period of the extension.

(B) The:

- (i) standards not met; and
- (ii) actions the private mental health institution must take to meet those standards.

(C) The actions to be taken by the private mental health institution during the time period of the extension.

(g) If the private mental health institution does not attain the improvements required by the division within the period of time required, the division shall take action to suspend or revoke the private mental health institution's license in accordance with IC 12-25-2. Sec. 7. (a) The division may revoke a license issued under this article after the division's investigation and determination of the following:

- (1) A substantive change in the operation of the private mental health institution, which, under the standards for accreditation, would cause the accrediting agency to revoke the facility's accreditation.
- (2) Failure of the private mental health institution to regain accreditation within ninety (90) days following expiration of the private mental health institution's current accreditation.
- (3) Failure to comply with this article.
- (4) The physical safety of the consumers or staff of the private mental health institution is compromised by a physical or sanitary condition of a physical facility of a private mental health institution.
- (5) Violation of a federal, state, or local statute, ordinance, rule, or regulation in the course of the operation of the private mental health institution that endangers either the:
 - (A) health or safety of consumers; or
 - (B) continuity of services to consumers.

(b) In order to revoke a license, the director shall follow the requirements in IC 12-25-2.

(c) If the division revokes an entity's license as a private mental health institution, the entity may not do the following:

- (1) Continue to operate.
- (2) Reapply to become a private mental health institution until a lapse of twelve (12) months from the date of the revocation.

(b) The condition of the physical plant and the overall environment shall be developed and maintained in such a manner that the safety and well-being of consumers are assured as follows:

(1) No condition in the facility or on the grounds shall be maintained that may be conducive to the harborage or breeding of:

- (A) insects;
- (B) rodents; or

LICENSURE OF PRIVATE MENTAL HEALTH INSTITUTIONS

- (C) other vermin.
- (2) No condition shall be created or maintained that may result in a hazard to:
 - (A) consumers;
 - (B) employees; or
 - (C) the public.
- (3) The facility shall have a plan for emergency fuel and water supply.
- (4) Provision shall be made for the periodic inspection, preventive maintenance, and repair of the physical plant and equipment by qualified personnel as follows:
 - (A) Operation, maintenance, and spare parts manuals shall be available, along with training or instruction of the appropriate personnel, in the maintenance and operation of the fixed and movable equipment.
 - (B) Operational and maintenance control records shall be:
 - (i) established;
 - (ii) retained;
 - (iii) analyzed periodically; and
 - (iv) readily available on the premises.
 - (C) Maintenance and repairs shall be carried out in accordance with applicable codes, rules, standards, and requirements of:
 - (i) local jurisdictions;
 - (ii) the fire prevention and building safety commission; and
 - (iii) the Indiana state department of health.
- (5) The food service of the private mental health institution shall comply with the administrative rules of the Indiana state department of health contained in 410 IAC 7-24.
- (c) A facility shall comply with the following provisions regarding new construction, a renovation, or an addition to the facility:
 - (1) The standards contained in the 2001 edition of the national "Guideline for Construction and Equipment of Private Mental Health Institution and Medical Facilities" (Guidelines) shall apply to all facilities covered by this rule, except as provided in subdivision (2).
 - (2) Codes and rules adopted by the fire prevention and building safety commission that pertain to building requirements, fire safety, and access for individuals with disabilities shall:
 - (A) apply to all facilities covered by this rule; and
 - (B) take precedence over the requirements of the Guidelines on those topics.
 - (3) When renovation or replacement work is done within an existing facility, all new work or addition, or both, shall comply, insofar as practical, with applicable sections of the Guidelines and for certification with appropriate parts of National Fire Protection Association (NFPA) 101 and the applicable rules of the fire prevention and building safety commission.
 - (4) Proposed sites shall:
 - (A) be located away from detrimental nuisances;
 - (B) be well drained; and
 - (C) not be subject to flooding.

A site survey and recommendations shall be obtained from the Indiana state department of health prior to site development.

 - (5) Water supply and sewage disposal services shall be obtained from municipal or community services. Outpatient facilities caring for consumers less than twenty-four (24) hours per day that do not provide surgery, laboratory, or renal dialysis services may be served by approved private on-site septic tank absorption field systems.
 - (6) Site utility installations for water, sprinkler, sanitary, and storm sewer systems, and wells for emergency potable water supplies shall comply with applicable sections of Bulletin S.E. 13, "On-Site Water Supply and Wastewater Disposal for Public and Commercial Establishments", 1988 edition.
 - (7) As early in the construction, addition, or renovation project as possible, the functional and operational description shall be submitted to the division. This submission shall include at least the following:
 - (A) A functional program narrative as required in the Guidelines.
 - (B) Schematics, based upon the functional program, and consisting of drawings (as single-line plans), outline specifications, and other documents illustrating the scale and relationship of project components.
 - (8) Before beginning a construction, addition, or renovation project, the facility shall submit all documentation required under

the rules of the fire prevention and building safety commission to the division of fire and building safety, plan review section of the department of homeland security, including the following documentation:

- (A) Working drawings, project manual, and specifications.
- (B) Prior to the submission of final plans and specifications, recognized standards and codes, including infection control standards, shall be reviewed as required under section 5(g)(3) of this rule.
- (C) All required construction design releases shall be obtained from the division of fire and building safety, plan review section, of the department of homeland security.

(9) Before the division's issuance of a letter of occupancy, the facility shall provide the division with any final approval required from the division of sanitary engineering of the Indiana state department of health.

(10) All backflow prevention devices shall be installed as required by 327 IAC 8-10 and the current edition of the Indiana plumbing code. Such devices shall be listed as approved by the Indiana state department of health.

(11) Upon receipt of a construction design release from the division of fire and building safety, plan review section of the department of homeland security and documentation of a completed plan review by the division of sanitary engineering of the Indiana state department of health, an entity, which is not yet licensed by the division under this article, shall submit a license application to the division on a form approved and provided by the division.

(d) The equipment requirements are as follows:

(1) All equipment shall be:

- (A) in good working order; and
- (B) regularly serviced and maintained.

(2) The facility shall have sufficient equipment and space to assure the safe, effective, and timely provision of the available services to consumers as follows:

(A) All mechanical equipment (pneumatic, electric, or other) shall be on a documented maintenance schedule of appropriate frequency and with the manufacturer's recommended maintenance schedule.

(B) The facility shall retain the following:

- (i) Evidence of preventive maintenance on all equipment.
- (ii) Appropriate records to document equipment maintenance, repairs, and current leakage checks.

(3) Defibrillators shall be discharged at a minimum in accordance with manufacturers' recommendations. A discharge log with initialed entries shall be maintained.

(4) Electrical safety shall be practiced in all areas.

(e) The building or buildings, including fixtures, walls, floors, ceiling, and furnishings throughout, shall be kept clean and orderly in accordance with current standards of practice as follows:

(1) Environmental services shall be provided in such a way as to guard against the transmission of disease to consumers, health care workers, the public, and visitors by using the current principles of the following:

- (A) Asepsis.
- (B) Cross infection.
- (C) Safe practice.

(2) Refuse and garbage shall be:

- (A) collected;
- (B) transported;
- (C) sorted; and
- (D) disposed of;

by methods that will minimize nuisances or hazards.

(f) The safety management program shall include, but not be limited to, the following:

(1) An ongoing facility wide process to evaluate and collect information about hazards and safety practices to be reviewed by the safety committee.

(2) A safety committee appointed by the chief executive officer that includes representatives from:

- (A) administration;
- (B) consumer services; and
- (C) support services.

(3) The safety program that includes, but is not limited to, the following:

- (A) Consumer safety.

- (B) Health care worker safety.
- (C) Public and visitor safety.
- (D) Hazardous materials and wastes management in accordance with federal and state rules.
- (E) A written fire control plan that complies with the provisions of the Indiana Fire Code and contains provisions for the following:
 - (i) The extinguishing of fires.
 - (ii) Protection of consumers, personnel, and guests.
 - (iii) Evacuation.
 - (iv) Cooperation with firefighting authorities.
- (F) Maintenance of written evidence of regular inspection and approval by state or local fire inspection authorities.
- (G) Emergency and disaster preparedness coordinated with appropriate community, state, and federal agencies.

Authority: IC 12-8-8-4; IC 12-21-2-3; IC 12-25-1-2; IC 12-25-1-4

Affected: IC 12-25

Sec. 9. (a) The facility shall have policies and procedures that govern the intake and assessment process to determine eligibility for services.

- (b) Treatment required by a consumer shall be appropriate to the facility and the professional expertise of the staff.
- (c) A consumer may be admitted if alternatives for less intensive and restrictive treatment are not available in the community.
- (d) A physical examination shall be completed by:
 - (1) a licensed physician;
 - (2) an advanced practice nurse; or
 - (3) a physician's assistant;

within twenty-four (24) hours after admission.

- (e) An initial:
 - (1) emotional;
 - (2) behavioral;
 - (3) social; and
 - (4) legal;

assessment of each consumer shall be completed upon admission.

(f) If the consumer being admitted is less than eighteen (18) years of age, then the initial assessment shall also include the following:

- (1) An evaluation of school progress.
- (2) A report of involvement with other social or legal services agencies.
- (3) An assessment of family functioning and relationships.

Family input and advice shall be considered in the diagnosis, treatment planning, and discharge planning process.

(g) A child who is fourteen (14) years of age or younger may be admitted to a nonsegregated unit, that is, an adult unit, only in an emergency. The facility shall:

- (1) specify in advance the criteria for such an emergency admission; and
- (2) require an evaluation of the child by a child psychiatrist within sixty (60) hours of admission.

(h) A facility shall do the following:

- (1) Verbally report to the division an admission under subsection (g) within twenty-four (24) hours of the admission as required under 440 IAC 1.5-2-2(e)(5).
- (2) Submit a written report to the division within ten (10) working days as required under 440 IAC 1.5-2-2(f) in the form specified in 440 IAC 1.5-2-2(h).

(i) A preliminary treatment plan for each consumer shall be formulated within sixty (60) hours of admission on the basis of the intake assessment at the time of admission.

- (j) Each consumer shall be encouraged and allowed to participate in the development and review of the consumer's own

treatment plan. If the consumer:

- (1) agrees to family participation; and
- (2) signs a release of information;

the facility shall consider input from and participate with the family in the diagnosis and treatment process.

(k) A consumer's choice not to participate in the consumer's treatment planning process shall be documented in the clinical record.

(l) The treatment plan shall:

- (1) specify the services necessary to meet the consumer's needs; and
- (2) contain discharge or release criteria and the discharge plan.

(m) Progress notes shall be entered daily in the consumer's record by staff having knowledge of the consumer and responsibility for implementing the treatment plan. The notes from all sources shall be:

- (1) entered in an integrated chronological order in the record;
- (2) signed; and
- (3) dated.

(n) Each consumer's treatment plan shall be:

- (1) reviewed at least every seven (7) days; and
- (2) revised as necessary.

Affected: IC 12-25

Sec. 11. The private mental health institution shall have a pharmacy service that ensures that medication use processes are organized and systematic throughout the facility. The following requirements apply:

(1) The facility shall do the following:

- (A) Identify an appropriate selection or formulary of medications available for prescribing or ordering.
- (B) Address the prescribing or ordering and the procurement of medications not available within the formulary.

(2) Policies and procedures shall be in place to:

- (A) support safe prescription ordering and storage; and
- (B) address such issues as:
 - (i) pain management medication; and
 - (ii) PRN medications.
- (3) The facility shall adhere to law, regulation, licensure, and professional standards of practice regarding the preparation and dispensing of medication.
- (4) The preparation and dispensing of medication shall be appropriately controlled as follows:
 - (A) The facility shall have an individual patient dose system in place.
 - (B) A pharmacist shall review all medication prescriptions or orders, including a review for interactions and adverse effects.
 - (C) A system shall be in place to assure that consumer medication information is considered when medication is prepared and dispensed for a consumer.
 - (D) The facility shall have a procedure in place for the availability of pharmacy services at any time when the pharmacy is closed or otherwise unavailable.
 - (E) Emergency medications shall be consistently available, controlled, and secure in the pharmacy and consumer care areas.
 - (F) The facility shall have a medication recall system for the retrieval and safe disposal of:
 - (i) expired;
 - (ii) discontinued; and
 - (iii) recalled;
 medications.
- (5) The facility shall have a system in place to ensure that:
 - (A) prescriptions or orders are verified; and
 - (B) consumers are properly identified;
 before any medication is administered or dispensed.
- (6) Any investigational medication shall be safely:
 - (A) controlled and administered during any experimental or investigational trial; and
 - (B) destroyed at the conclusion of any experimental or investigational trial.
- (7) A facility shall have the following in place:
 - (A) A written policy that assures the routine inspection of the storage of all medications.
 - (B) A written system to address appropriate storage and dispensing of sample medications.

Authority: IC 12-8-8-4; IC 12-21-2-3; IC 12-25-1-2; IC 12-25-1-4

Affected: IC 12-25; IC 16-36-1

Sec. 12. (a) A private mental health institution shall have policies and a written plan in place that shall include clinical justification for the use of any of the following special procedures:

- (1) Restraint or seclusion or the simultaneous use of restraint and seclusion.
- (2) Electro-convulsive therapy.
- (3) An investigational drug or an experimental drug.

(b) The use of restraint or seclusion or the simultaneous use of restraint and seclusion shall be governed by the provisions of section 13 of this rule.

(c) If any procedure listed in subsection (a) is used, the facility shall clearly state the rationale for the use in the consumer's record.

(d) Prior to using electro-convulsive therapy, an investigational drug, or an experimental drug, the facility shall obtain the written informed consent for the use as follows:

- (1) From the consumer, if the consumer has the legal capacity to make such decision.
- (2) If the consumer does not have the legal capacity to make such decision, from either of the following:

- (A) An individual appointed:
 - (i) by the consumer under IC 16-36-1-7; or
 - (ii) for the consumer under IC 16-36-1-8.
- (B) An individual legally authorized to make such decision for the consumer under IC 16-36-1-5 if clause (A) does not apply.

(e) A consumer with the legal capacity to make such decision or an individual acting on behalf of the consumer under subsection (d)(2) may withdraw consent at any time.

(f) The facility shall comply with all federal regulations regarding the use of any of the following special procedures:

- (1) Restraint or seclusion or the simultaneous use of restraint and seclusion.
- (2) Electro-convulsive therapy.
- (3) An investigational drug or an experimental drug.

440 IAC 1.5-3-13 Requirements and procedures for the use of restraint or seclusion

Authority: IC 12-8-8-4; IC 12-21-2-3; IC 12-25-1-2; IC 12-25-1-4

Affected: IC 12-25

Sec. 13. The following provisions apply to the use of restraint or seclusion:

(1) A private mental health institution shall have a written plan and written policies in place that shall include the clinical justification for the:

- (A) use of restraint or seclusion; or
- (B) simultaneous use of both restraint and seclusion.

(2) A facility shall not use restraint or seclusion of any form imposed as a means of:

- (A) coercion;
- (B) discipline;
- (C) convenience; or
- (D) retaliation;

by staff. Restraint or seclusion may be imposed only to ensure the immediate physical safety of the consumer, a staff member, or others and must be discontinued at the earliest possible time.

(3) Restraint or seclusion may be used only when less restrictive interventions have been determined to be ineffective to protect the consumer, a staff member, or others from harm.

(4) The type or technique of restraint or seclusion used must be the least restrictive intervention that will be effective to protect the consumer, a staff member, or others from harm.

(5) The use of restraint or seclusion must meet the following requirements:

- (A) Be in accordance with a written modification to the consumer's plan of care.
- (B) Be implemented in accordance with safe and appropriate restraint and seclusion techniques as determined by the facility's policy and in accordance with state law.

(6) The use of restraint or seclusion must be in accordance with the order of a physician or other LIP who is:

- (A) responsible for the care of the consumer; and
- (B) authorized to order restraint or seclusion by facility policy and in accordance with state law.

An order shall contain behavioral criteria for the consumer's release from restraint or seclusion.

(7) An order for the use of restraint or seclusion shall not be written:

- (A) as a standing order; or
- (B) on an as needed basis (PRN).

(8) The attending physician must be consulted as soon as possible after implementation of the restraint or seclusion if that physician did not order the restraint or seclusion.

(9) Each order for restraint or seclusion used for the management of violent or self-destructive behavior that jeopardizes the immediate physical safety of the consumer, a staff member, or others may be renewed only in accordance with the following limits for up to a total of twenty-four (24) hours:

- (A) Four (4) hours for adults eighteen (18) years of age or older.

- (B) Two (2) hours for children and adolescents nine (9) to seventeen (17) years of age.
 - (C) One (1) hour for children under nine (9) years of age.
- (10) After the twenty-four (24) hour period described in subdivision (9), and before writing a new order for the use of restraint or seclusion for the management of violent or self-destructive behavior, a physician or other LIP, who is:
- (A) responsible for the care of the consumer; and
 - (B) authorized to order restraint or seclusion by facility policy and in accordance with state law;
- must see and assess the consumer.
- (11) Each order for restraint used to ensure the physical safety of a nonviolent or nonself-destructive consumer may be renewed as authorized by the facility's policy.
- (12) Restraint or seclusion must be discontinued at the earliest possible time, regardless of the length of time identified in the order. In particular, the use of restraint or seclusion shall be discontinued when the consumer meets the behavioral criteria specified in the order for restraint or seclusion.
- (13) The condition of the consumer who is restrained or secluded must be monitored by a physician, other LIP, or trained staff that have completed the training criteria specified in subdivision (23) at an interval determined in accordance with the facility's policy.
- (14) The facility's policy shall specify the training requirements, including the use of restraint or seclusion, for physicians and other LIPs. At a minimum, physicians and other LIPs authorized to order restraint or seclusion by facility policy in accordance with state law must have a working knowledge of the facility's policy regarding the use of restraint or seclusion.
- (15) When restraint or seclusion is used for the management of violent or self-destructive behavior that jeopardizes the immediate physical safety of the consumer, a staff member, or others, the consumer must be seen face-to-face within one (1) hour after the initiation of the intervention as follows:
- (A) By either a:
 - (i) physician or other LIP; or
 - (ii) registered nurse or physician assistant who has been trained in accordance with the requirements specified in subdivision (23).
 - (B) For an evaluation of the following:
 - (i) The consumer's immediate situation.
 - (ii) The consumer's reaction to the intervention.
 - (iii) The consumer's medical and behavioral condition.
 - (iv) The need to continue or terminate the restraint or seclusion.
- (16) By written policy, a facility may implement requirements that are more restrictive than the requirements contained in subdivision (15)(A).
- (17) If the face-to-face evaluation specified in subdivision (15) is conducted by a trained registered nurse or physician assistant, the trained registered nurse or physician assistant must consult the attending physician or other LIP who is responsible for the care of the consumer as soon as possible after the completion of the one (1) hour face-to-face evaluation.
- (18) Staff must assess and monitor a consumer in restraint or seclusion in accordance with the following requirements:
- (A) Except as provided in clause (C), a consumer placed in restraint or seclusion shall be assessed and monitored continuously through a face-to-face observation by an assigned, trained staff member who has been trained in accordance with the requirements of subdivision (23).
 - (B) If a staff member restrains a consumer by means of physically holding the consumer, another trained staff member shall assess and monitor the restraint continuously through a face-to-face observation.
 - (C) After the first hour, a consumer placed in seclusion or restraint may be monitored by trained staff using video and audio equipment. However, such monitoring must be in close proximity to the consumer.
- (19) All requirements specified under this subdivision are applicable to the simultaneous use of restraint and seclusion. The use of simultaneous restraint and seclusion is permitted only if the consumer is continually monitored by either of the following:
- (A) Face-to-face by an assigned, trained staff member.
 - (B) By trained staff using both video and audio equipment, provided, however, that such monitoring must be in close proximity to the consumer.
- (20) The use of restraint or seclusion must be documented in accordance with the following requirements:
- (A) When restraint or seclusion is used, the facility shall retain documentation in the consumer's medical record of the

following:

- (i) The one (1) hour face-to-face medical and behavioral evaluation if restraint or seclusion is used to manage violent or self-destructive behavior that jeopardizes the immediate physical safety of a consumer, a staff member, or others.
- (ii) A description of the consumer's behavior and the intervention used.
- (iii) Alternatives or other less restrictive interventions attempted (as applicable).
- (iv) The consumer's condition, symptom, or symptoms that warranted the use of restraint or seclusion.
- (v) The consumer's response to the intervention or interventions used, including the rationale for the continued use of the intervention.

(B) The consumer's response to the intervention or interventions used shall be documented every fifteen (15) minutes throughout the duration of the restraint or seclusion. The fifteen (15) minute monitoring must include the monitoring of the consumer's physical and psychological condition including, but not limited to:

- (i) respiratory and circulatory status;
- (ii) skin integrity;
- (iii) vital signs; and
- (iv) any additional special requirements specified in a facility's written policy for the face-to-face assessment; within one (1) hour after the initiation of seclusion or restraint required in subdivision (15).

(21) After the termination of an incident of the:

- (A) use of restraint or seclusion; or
- (B) simultaneous use of restraint and seclusion;

facility staff and the consumer shall participate in debriefing about the intervention.

(22) A facility shall collect data regarding each incident of the facility's use of restraint or seclusion in order to monitor and to improve the facility's practices and procedures regarding the use of restraint or seclusion.

(23) Facility staff shall be trained in the safe implementation of restraint or seclusion in accordance with the following requirements:

(A) Staff must be trained and able to demonstrate competency in the application of restraints, implementation of seclusion, monitoring, assessment, and providing care for a consumer in restraint or seclusion at each of the following times:

- (i) Before performing any of the actions specified in this section.
- (ii) As part of orientation.
- (iii) Subsequently on a periodic basis consistent with the facility's policy.

(B) The facility must require appropriate staff to have education and training in, and to demonstrate knowledge regarding, the specific needs of the consumer population in the facility in at least the following:

- (i) Techniques to identify staff and consumer behaviors, events, and environmental factors that may trigger circumstances that require the use of a restraint or seclusion.
- (ii) The use of nonphysical intervention skills.
- (iii) Choosing the least restrictive intervention based on an individualized assessment of the consumer's medical or behavioral status or condition.
- (iv) The safe application and use of all types of restraint or seclusion used in the facility, including training in how to recognize and respond to signs of physical and psychological distress, for example, positional asphyxia.
- (v) Clinical identification of specific behavioral changes that indicate that restraint or seclusion is no longer necessary.
- (vi) Monitoring the physical and psychological well-being of the consumer who is restrained or secluded, including, but not limited to, the following:
 - (AA) Respiratory and circulatory status.
 - (BB) Skin integrity.
 - (CC) Vital signs.
 - (DD) Any special requirements specified by facility policy associated with the one (1) hour face-to-face evaluation.

(vii) The use of first aid techniques and certification in the use of cardiopulmonary resuscitation, including required periodic recertification.

LICENSURE OF PRIVATE MENTAL HEALTH INSTITUTIONS

(C) Individuals providing staff training must be qualified as evidenced by education, training, and experience in techniques used to address consumers' behaviors.

(D) The facility must document in staff personnel records that the training and the demonstration of competency were successfully completed.

(24) A private mental health institution shall report a death associated with the use of seclusion or restraint to the division in accordance with the following provisions:

(A) The facility shall make a verbal report to the division within twenty-four (24) hours of the facility's knowledge of the occurrence of any of the following:

(i) Each death that occurs while a consumer is in restraint or seclusion.

(ii) Each death that occurs within twenty-four (24) hours after a consumer has been removed from restraint or seclusion.

(iii) Each death known to the facility that occurs within one (1) week after restraint or seclusion where it is reasonable to assume that use of restraint or placement in seclusion contributed directly or indirectly to a consumer's death. For purposes of this item, "reasonable to assume" includes, but is not limited to, deaths related to:

(AA) restrictions of movement for prolonged periods of time;

(BB) chest compression;

(CC) restriction of breathing; or

(DD) asphyxiation.

(B) In addition, a facility shall submit to the division a written report of any occurrence listed in clause (A) within ten (10) working days of the facility's knowledge of the occurrence.

(25) Staff shall document in the consumer's medical record the date and time when a consumer's death was reported to the division.

(26) A facility shall comply with all requirements of federal laws regarding the:

(A) use of restraint or seclusion; and

(B) simultaneous use of restraint and seclusion.
