The State Board will verify maintenance of effort by eligible recipients within a five percent tolerance based upon the annual report submitted on funded programs.

Any reduction in fiscal effort for any fiscal year by more than five percent will disqualify the eligible recipient from receiving Federal funds unless the eligible recipient is able to demonstrate to the satisfaction of the State Board the following:

In the preceding fiscal year, the reduction was occasioned by unusual circumstances that could not have been fully anticipated or reasonably compensated for by the eligible recipient. Unusual circumstances may include unforeseen decreases in revenues due to the decline of the tax base;

In the second preceding fiscal year, contributions of large sums of monies from outside sources were made; or

In the second preceding fiscal year, large amounts of funds were expended for long-term purposes such as construction and acquisition of school facilities or the acquisition of capital equipment.

The State Board will not make payment under this State Plan to eligible recipients unless the State Board finds that the combined fiscal effort of the State Board and the eligible recipient on a per student basis or on an aggregate basis of the eligible recipient and the State Board was not less than combined fiscal effort in the second preceding fiscal year.
