Part II shall be known as the principles and practice examination. Parts I and II are further described in IC 25-31-1-14(a) through IC 25-31-1-14(c). Part III shall concern professional conduct and Indiana registration law for professional engineers. In order to be granted registration as a professional engineer, the applicant must pass Part I, Part II, and Part III.

(b) Part II of the professional engineer examination shall be by engineering discipline, for example, electrical, mechanical, or civil. The applicant shall be required to choose the discipline in which the applicant desires to be examined.

(c) Part III of the professional engineer examination will be a take home examination to be taken in conjunction with Part II.

(d) The examination for certification as an engineering intern shall be the fundamentals of engineering examination described in subsection (a). Affected:    IC 25-31-1-14

Sec. 3.5. (a) The fundamentals of engineering examination will be a computer based test that will be given during testing windows each lasting one (1) calendar quarter. An eligible applicant may schedule for the examination at a testing center any time during a testing window as space is available. An applicant may not take the examination more than once in a testing window, or even if readmitted under section 5.5(c) or 8(b) of this rule, more than three (3) times in a twelve (12) month period.

(b) Until it becomes available as a computer based test, a discipline of the principles and practice of engineering examination will be given twice each year, normally in April and October. Disciplines that only get limited participation may only be given once in a given year.

(c) Once it becomes available as a computer based test, a discipline of the principles and practice of engineering examination will be given in the same manner provided for the fundamentals of engineering examination in subsection (a). Authority:   IC 25-31-1-7
Affected:    IC 25-31-1-14

Sec. 5. (a) This section addresses the deadline for an applicant’s initial taking of the professional engineer examination after being admitted by the board. All applicants will be required to take and pass Part II, the principles and practice of engineering examination, and Part III of the examination. Only those applicants who are not certified as an engineering intern or otherwise have not previously passed the fundamentals of engineering examination will be required to take and pass the fundamentals of engineering examination.

(b) If admission to the professional engineer examination is granted, those parts of the examination that the applicant will be required to take and pass will be stated on a notice sent to the applicant.

(c) An applicant, who has received the notice described in subsection (b) and that notice provides for taking the fundamentals of engineering examination, must take the fundamentals of engineering examination by the end of the testing window that is in effect one (1) year after the issuance of the notice.

(d) This subsection and subsection (e) apply to applicants who have received the notice described in subsection (b) and that notice does not provide for taking the fundamentals of engineering examination. If the applicant is taking the principles and practice examination in a discipline for which computer based testing is offered, the applicant must take the principles and practice examination, and Part III of the examination, by the end of the testing window that is in effect one (1) year after the issuance of the notice.

(e) If the applicant is taking the principles and practice of engineer examination in a discipline for which computer based testing is not offered, the applicant must take the principles and practice of engineering examination, and Part III of the examination, no later than the third time it is offered after issuance of the notice.

(f) If the applicant fails to sit for an examination by a deadline provided in subsection (c), (d), or (e), the application for registration as a professional engineer shall be deemed terminated and, if the applicant thereafter desires to seek registration as a professional engineer, a new application must be filed with, and approved by, the board.

(g) This subsection applies only to individuals who apply for registration as a professional engineer without first having been certified as an engineering intern or otherwise having passed the fundamentals of engineering examination. An individual who passes the fundamentals of engineering examination as a professional engineer applicant must take the principles and practice
examination and Part III of the examination no later than the third time it is offered after the applicant passes the fundamentals of engineering examination. However, if the applicant is taking the principles and practice of engineering examination in a discipline for which computer based testing is offered, the deadline shall be the end of the testing window that is in effect one (1) year after the applicant passes the fundamentals of engineering examination. If the applicant fails to meet the deadline under this subsection, the applicant's application shall be deemed terminated and, therefore, the applicant shall be required to reapply as a professional engineer applicant and meet the requirements for examination admission before taking the principles and practice examination and Part III of the examination. (1) commences on August 1 of an even-numbered year; and
(2) concludes on July 31 of the next even-numbered year.
(b) Based on IC 25-1-4-0.5 and as used in this rule, "continuing education" means an orderly process of instruction that is:
(1) approved by an approved organization (as defined in IC 25-1-4-0.2) or the board; and
(2) designed to directly enhance a professional engineer's knowledge and skill in providing services relevant to the practice of engineering.
The activities described in section 4 of this rule qualify as continuing education if they augment the professional engineer's knowledge and skill in providing services relevant to the practice of engineering.
(c) As used in this rule, "hour of continuing education" means at least fifty (50) minutes of instruction or course contact time. "Hours of continuing education" has the same meaning for the number of hours stated.
