## **TITLE 312 NATURAL RESOURCES COMMISSION**

LSA Document #03-35(F)

### **DIGEST**

Amends 312 IAC 9-10-3 that governs aquatic vegetation control on waters of the state. Currently, the rule section applies only to chemical controls, but the amendments would implement P.L.19-2002 by extending coverage to controls based on mechanical, physical, and biological methods. Clarifies and supplements the factors considered by the department of natural resources in evaluating a license application to control aquatic plants. Clarifies the need to obtain advance approval from the department of environmental management for waterways used as a surface drinking water source before obtaining a license from the department of natural resources under this section. Requires a report be provided by a license holder to the department of natural resources within seven days after the completion of a control effort. Makes numerous other technical and substantive amendments. Effective January 1, 2004.
