Appeal; increased fuel or other costs; increase in maximum levy

Sec. 10. (a) A school corporation may appeal to the department of local government finance under IC 6-1.1-19 to increase the maximum levy permitted for the school corporation's fund. To be granted an increase by the department of local government finance, the school corporation must establish that the increase is necessary because of a transportation operating cost increase of at least ten percent (10%) over the preceding year as a result of at least one (1) of the following:

- (1) A fuel expense increase.
- (2) A significant increase in the number of students enrolled in the school corporation that need transportation or a significant increase in the mileage traveled by the school corporation's buses compared with the previous year.
- (3) A significant increase in the number of students enrolled in special education who need transportation or a significant increase in the mileage traveled by the school corporation's buses due to students enrolled in special education as compared with the previous year.

(4) Increased transportation operating costs due to compliance with a court ordered desegregation plan.

(5) The closure of a school building within the school corporation that results in a significant increase in the distances that students must be transported to attend another school building.

In addition, before the department of local government finance may grant a maximum levy increase, the school corporation must establish that the school corporation will be unable to provide transportation services without an increase. The department of local government finance may grant a maximum operating costs levy increase that is less than the increase requested by the school corporation.

(b) If the department of local government finance determines that a permanent increase in the maximum permissible levy is necessary, the maximum levy after the increase granted under this section becomes the school corporation's maximum permissible levy under this chapter.
