IC 4-4-11-2

Legislative findings of fact; purpose

Sec. 2. (a) The legislature makes the following findings of fact:

(1) That there currently exists in certain areas of the state critical conditions of unemployment, inadequate drinking water, inadequate wastewater and storm water management, or environmental pollution, including water pollution, air pollution, sewage and solid waste, radioactive waste, thermal pollution, radiation contamination, and noise pollution, and that these conditions may well exist, from time to time, in other areas of the state.

(2) That in some areas of the state such conditions are chronic and of long standing and that without remedial measures they may become so in other areas of the state.

(3) That economic insecurity due to unemployment, inadequate drinking water, inadequate wastewater and storm water management, or environmental pollution is a menace to the health, safety, morals, and general welfare of not only the people of the affected areas but of the people of the entire state.

(4) That involuntary unemployment and its resulting burden of indigency falls with crushing force upon the unemployed worker and ultimately upon the state in the form of public assistance and unemployment compensation.

(5) That security against unemployment and the resulting spread

of indigency and economic stagnation in the areas affected can best be provided by:

(A) the promotion, attraction, stimulation, rehabilitation, and revitalization of industrial development projects, rural development projects, mining operations, and agricultural operations that involve the processing of agricultural products;

(B) the promotion and stimulation of international exports; and

(C) the education, both formal and informal, of people of all ages throughout the state by the promotion, attraction, construction, renovation, rehabilitation, and revitalization of and assistance to educational facility projects.

(6) That the present and prospective health, safety, morals, right to gainful employment, and general welfare of the people of the state require as a public purpose the provision of safe drinking water, the provision of wastewater and storm water management, the abatement or control of pollution, the promotion of increased educational enrichment (including cultural, intellectual, scientific, or artistic opportunities) for people of all ages through new, expanded, or revitalized educational facility projects or through assisting educational facility projects, and the promotion of employment creation or retention through development of new and expanded industrial development projects, rural development projects, mining operations, and agricultural operations that involve the processing of agricultural products.

(7) That there is a need to stimulate a larger flow of private investment funds from commercial banks, investment bankers, insurance companies, other financial institutions, and individuals into such industrial development projects, rural development projects, mining operations, international exports, and agricultural operations that involve the processing of agricultural products in the state.

(8) That the authority can encourage the making of loans or leases for creation or expansion of industrial development projects, rural development projects, mining operations, international exports, and agricultural operations that involve the processing of agricultural products, thus putting a larger portion of the private capital available in Indiana for investment to use in the general economic development of the state.

(9) That the issuance of bonds of the authority to create a financing pool for industrial development projects and carrying out the purposes of IC 13-18-13 and IC 13-18-21 promoting a substantial likelihood of opportunities for:

(A) gainful employment;

(B) business opportunities;

(C) educational enrichment (including cultural, intellectual, scientific, or artistic opportunities);

(D) the abatement, reduction, or prevention of pollution;

- (E) the provision of safe drinking water;
- (F) the provision of wastewater and storm water management;
- (G) the removal or treatment of any substances in materials being processed that otherwise would cause pollution when used; or
- (H) increased options for and availability of child care;

will improve the health, safety, morals, and general welfare of the people of the state and constitutes a public purpose for which the authority shall exist and operate.

(10) That the issuance of bonds of the authority to create a funding source for the making of guaranteed participating loans will promote and encourage an expanding international exports market and international exports sales and will promote the general welfare of all of the people of Indiana by assisting Indiana businesses through stimulation of the expansion of international exports sales for Indiana products and services, especially those of small and medium-sized businesses, by providing financial assistance through the authority.

(b) The Indiana finance authority shall exist and operate for the public purposes of:

(1) promoting opportunities for gainful employment and business opportunities by the promotion and development of industrial development projects, rural development projects, mining operations, international exports, and agricultural operations that involve the processing of agricultural products, in any areas of the state;

(2) promoting the educational enrichment (including cultural, intellectual, scientific, or artistic opportunities) of all the people of the state by the promotion, development, and assistance of educational facility projects;

(3) promoting affordable farm credit and agricultural loan financing at interest rates that are consistent with the needs of borrowers for farming and agricultural enterprises;

(4) preventing and remediating environmental pollution, including water pollution, air pollution, sewage and solid waste disposal, radioactive waste, thermal pollution, radiation contamination, and noise pollution affecting the health and well-being of the people of the state by:

(A) the promotion and development of industrial development projects; and

(B) carrying out the purposes of IC 13-18-13 and IC 13-18-21;

(5) promoting the provision of safe and adequate drinking water and wastewater and storm water management to positively affect the public health and well-being by carrying out the purposes of IC 13-18-13 and IC 13-18-21;

(6) otherwise positively affecting the public health and well-being by carrying out the purposes of IC 13-18-13 and IC 13-18-21; and

(7) promoting affordable and accessible child care for the people of the state by the promotion and development of child care facilities.

(1) There are currently numerous bodies corporate and politic of the state, with separate decision making and borrowing authority, that may issue bonds, notes, and obligations, and otherwise access the financial markets.

(b) In addition to the purposes set forth in section 2 of this chapter, the authority is established for the purpose of permitting the consolidation of certain bodies in a single body of decision making concerning access to the capital and financial markets in the name of, or for the benefit of, the state.

(c) The authority is authorized to carry out the public purposes provided for in the affected statutes through a single entity in order to achieve the purposes of this section.

Issuance of bonds for the wastewater revolving loan program and the drinking water revolving loan program

Sec. 15.4. (a) The authority may issue bonds or notes and invest or loan the proceeds of those bonds or notes to a participant (as defined in IC 13-11-2-151.1) for the purposes of:

- (1) the wastewater revolving loan program established by IC 13-18-13-1; and

(b) If the authority loans money to or purchases debt securities of a political subdivision (as defined in IC 13-11-2-164(a) and IC 13-11-2-164(b)), the authority may, by the resolution approving the bonds or notes, provide that subsection (c) is applicable to the political subdivision.

(c) Notwithstanding any other law, to the extent that any department or agency of the state, including the treasurer of state, is the custodian of money payable to the political subdivision (other than for goods or services provided by the political subdivision), at any time after written notice to the department or agency head from the authority that the political subdivision is in default on the payment of principal or interest on the obligations then held or owned by or arising from an agreement with the authority, the department or agency shall withhold the payment of that money from that political subdivision and pay over the money to the authority for the purpose of paying principal of and interest on bonds or notes of the authority. However, the withholding of payment from the political subdivision and payment to the authority under this section must not adversely affect the validity of the obligation in default.

IC 4-4-11-15.5

Public offering for sale or lease of property or interests acquired for an industrial development project

Sec. 15.5. (a) In addition to the powers enumerated in section 15(a) of this chapter, the authority may, in lieu of a private sale or leasing as authorized by section 15(a) of this chapter or a financing of an industrial development project under section 17 of this chapter, decide to hold a public offering under this section for the sale or leasing of any land or interests in land, building improvements, structures, personal property, and franchises and patents acquired by the authority under this chapter for an industrial development project. If the authority decides to hold a public offering for the sale or leasing of any property or interests acquired for an industrial development project, the offering shall be made in accordance with this section.

(b) Before offering for sale or lease to the public any property or interests acquired for an industrial development project under this section, the authority shall prepare an offering sheet showing the property or interests to be offered and copies of the offering sheets shall be furnished to prospective buyers or lessees. Maps and plats of the property and any additional information considered appropriate by the authority shall also be kept available for inspection at the office of the authority.

(c) The authority shall publish a notice of the offering in accordance with IC 5-3-1. The notice must state that at a designated time the authority will open and consider written offers for the purchase or lease of the property or interests being offered. In giving the notice, it is not necessary to describe specifically the property or interests or to specify the exact terms of the disposition, but the notice must state the general location of the property or interests and call attention generally to any requirements or limitations that the authority may establish in respect to the industrial development project.

(d) At the time fixed in the notice, the authority shall open and consider any offers received. All offers received shall be opened at public meetings of the authority and shall be kept open for public inspection.

(e) The authority may reject any or all bids or may make awards to the highest and best bidder or bidders. In determining the highest and best bids, the authority may take into consideration the following:

- (1) The size and character of the improvements for the industrial development project as proposed by the bidder to be made on the property and the terms and conditions of the consideration offered by the bidder.
- (2) The bidder's plans and ability to carry out the industrial development project with reasonable promptness.
- (3) Whether the property and interests to be acquired by the bidder will be leased or released for the industrial development project.
- (4) The nature and extent of any obligations to be undertaken by the authority in conjunction with the improvement of the property or interests to be acquired for the industrial development project as proposed by the bidder.
- (5) The potential impact of the bidder's proposal on the creation of new employment or the retention of existing employment resulting from the industrial development project.
- (6) The potential impact of the bidder's proposal to attract or establish a major new business enterprise or to retain or expand a significant existing business enterprise that will provide or preserve gainful employment for the citizens of the state.
- (7) The economic benefits to the state and its citizens that will result from the industrial development project, as proposed by the bidder, including the dollar volume of new or preserved wages and salaries, increases in or preservation of state and

local government tax revenues, the incremental economic benefits to the citizens of the state, the state, and local governmental units potentially resulting from the industrial development project as proposed by the bidder, and any other direct or indirect economic benefit to the state and its citizens resulting from the industrial development project as proposed by the bidder.

(8) The potential impact and benefit to the state and its citizens of the industrial development project as proposed by the bidder from the standpoint of both human and economic welfare.

(f) In making an award to the highest and best bidder as provided in subsection (e), the authority shall determine whether in its judgment the potential benefits to the state and its citizens of the industrial development project as proposed by the bidder exceed the direct costs to the authority of acquiring the property and interests being offered for sale or lease for the industrial development project less any sums to be paid by the successful bidder pursuant to its bid. The authority's judgment concerning this determination shall be based on the economic studies, analyses, and projections that the authority determines are reasonably necessary. The authority's determination is final and conclusive.

(g) The authority may contract with a bidder concerning any of the factors listed in subsection (e), and the contract may provide for the deposit of surety bonds, the making of good faith deposits, liquidated damages, the right of reversion or repurchase, or other rights and remedies if the bidder fails to comply with the contract.

(h) After the opening, consideration, and determination of the written offers filed in response to the notice, the authority may dispose of all or part of the remaining available property or interests for any approved use, either at public sale or by private negotiation carried on by the authority, its regular employees, or real estate experts employed for that purpose. For a period of thirty (30) days after the opening of the written offers and determination on them, no sale, exchange, or lease may be made on terms less than that shown on the offering sheet, but after that period the authority may adjust the offering terms it considers necessary to further the industrial development project.

(i) An action to contest the validity of any sale or lease awarded and approved by the authority under this section may not be commenced more than thirty (30) days following the authority's adoption of a resolution designating the successful bidder or bidders and stating and approving the basic terms and conditions of the sale or lease.

- (2) execution by the authority of any other agreement that creates a moral obligation of the state to pay all or any part of any indebtedness issued by the authority;

the authority is subject to, and shall comply with, to the extent practicable, the requirements set forth in IC 5-1.5-5-4(c) through IC 5-1.5-5-4(g) as if the authority was specifically named in IC 5-1.5-5-4(c) through IC 5-1.5-5-4(g).

(c) In addition:

IC 4-4-11-17

Industrial development projects; financing; procedure; approval

Sec. 17. (a) The authority may enter into negotiations with one (1) or more persons concerning the terms and conditions of financing agreements for industrial development projects. The authority shall consider whether a proposed industrial development project may have an adverse competitive effect on similar industrial development projects already constructed or operating in the local governmental unit where the industrial development project will be located. Preliminary expenses in connection with negotiations under this section may be paid from:

- (1) money furnished by the proposed user or developer;
- (2) money made available by the state or federal government, or by any of their departments or agencies; or
- (3) money of the authority.

(b) The authority shall prepare a report that:

- (1) briefly describes the proposed industrial development project;
- (2) estimates the number and expense of public works or services that would be made necessary or desirable by the proposed industrial development project, including public ways, schools, water, sewers, street lights, and fire protection;
- (3) estimates the total costs of the proposed industrial development project;
- (4) for an industrial development project that is not exclusively either a pollution control facility or an educational facility project, estimates the number of jobs and the payroll to be created or saved by the project;
- (5) for pollution control facilities, describes the facilities and how they will abate, reduce, or prevent pollution;
- (6) for educational facility projects, describes how the project promotes the educational enrichment (including cultural, intellectual, scientific, or artistic opportunities) of the people of the state; and
- (7) for child care facility projects, describes the facilities and how the facilities promote accessibility to and increased options for child care for the people of the state.

The report shall be submitted to the executive director or chairman of the plan commission, if any, having jurisdiction over the industrial development project and, if the number of new jobs estimated exceeds one hundred (100), to the superintendent of the school corporation where the industrial development project will be located. The executive director or chairman of the plan commission and the school superintendent may formulate their written comments concerning the report and transmit their comments, if any, to the authority within five (5) days from the receipt of the report.

(c) The authority shall hold a public hearing, which may be conducted by the authority, or any officer, member, or agent designated thereby, on the proposed financing agreement for the industrial development project, after giving notice by publication in

one (1) newspaper of general circulation in the city, town, or county where the industrial development project is to be located at least ten (10) days in advance of this public hearing.

(d) If the authority finds that the industrial development project will be of benefit to the health, safety, morals, and general welfare of the area where the industrial development project is to be located, and complies with the purposes and provisions of this chapter, it may by resolution approve the proposed financing agreement. This resolution may also authorize the issuance of bonds payable solely from revenues and receipts derived from the financing agreement or from payments made under an agreement to guarantee obligations of the developer, a user, a related person, or the authority by a developer, a user, a related person thereto, or the authority and the Indiana economic development corporation pursuant to the industrial development project guaranty fund under IC 5-28-30. The bonds are not in any respect a general obligation of the state, nor are they payable in any manner from revenues raised by taxation.

(e) A financing agreement approved under this section must provide for payments in an amount sufficient to pay the principal of, premium, if any, and interest on the bonds authorized for the financing of the industrial development project. However, interest payments for the anticipated construction period, plus a period of not more than one (1) year, may be funded in the bond issue. The term of a financing agreement may not exceed fifty (50) years from the date of any bonds issued under the financing agreement. However, a financing agreement does not terminate after fifty (50) years if a default under that financing agreement remains uncured, unless the termination is authorized by the terms of the financing agreement. If the authority retains an interest in the industrial development project, the financing agreement must require the user or the developer to pay all costs of maintenance, repair, taxes, assessments, insurance premiums, trustee's fees, and any other expenses relating to the industrial development projects, so that the authority will not incur any expenses on account of the industrial development projects other than those that are covered by the payments provided for in the financing agreement.

IC 4-4-11-17.5

Industrial development project financing; bond issuance

Sec. 17.5. (a) In addition to all other authority granted to the authority under this chapter, including the authority to borrow money and to issue bonds to finance directly or indirectly the acquisition or development of industrial development projects undertaken or initiated by the authority, the authority may initiate programs for financing industrial development projects for developers and users in Indiana through the issuance of bonds under this chapter. In

furtherance of this objective, the authority may do any of the following:

- (1) Establish eligibility standards for developers and users, without complying with IC 4-22-2. However, these standards have the force of law if the standards are adopted after a public hearing for which notice has been given by publication under IC 5-3-1.
- (2) Contract with any entity securing the payment of bonds issued under this chapter and authorizing the entity to approve the developers and users that can finance or refinance industrial development projects with proceeds from the bond issue secured by that entity.
- (3) Lease to a developer or user industrial development projects upon terms and conditions that the authority considers proper and, with respect to the lease:
 - (A) charge and collect rents;
 - (B) terminate the lease upon the failure of the lessee to comply with any of its obligations under the lease or otherwise as the lease provides; and
 - (C) include in the lease provisions that the lessee has the option to renew the term of the lease for such periods and at such rents as may be determined by the authority or to purchase any or all of the industrial development projects to which the lease applies.
- (4) Lend money, upon such terms and conditions as the authority considers proper, to a developer or user under an installment purchase contract or loan agreement to:
 - (A) finance, reimburse, or refinance the cost of an industrial development project; and
 - (B) take back a secured or unsecured promissory note evidencing such a loan or a security interest in the industrial development project financed or refinanced with the loan.
- (5) Sell or otherwise dispose of any unneeded or obsolete industrial development project under terms and conditions determined by the authority.
- (6) Maintain, repair, replace, and otherwise improve or cause to be maintained, repaired, replaced, and otherwise improved any industrial development project owned by the authority.
- (7) Require any type of security that the authority considers reasonable and necessary.

(f) Bodies corporate and politic of the state and political subdivisions, including cities, towns, and counties, may make appropriations to the clean coal technology program and clean coal technology projects and, notwithstanding any other law, may pledge county option and economic development income tax revenues to the clean coal technology program or one (1) or more clean coal

technology projects or to revenue bonds issued or guaranteed for the program or projects, whether by the authority or otherwise.

(g) Revenue bonds and guarantees of the authority under this section do not constitute debt of the state, and the general assembly shall not be obligated to make appropriations to the authority for such purposes.

(h) In addition to other powers granted to the authority or a political subdivision under this chapter, the authority or a political subdivision may lease clean coal technology projects under this section from a lessor corporation or authority and sublease the project to any entity. Bonds issued by any lessor corporation or authority shall be considered revenue bonds of a body politic and corporate of the state or a political subdivision for all purposes of this section.

(i) The authority may not issue revenue bonds to finance a clean coal technology project, guarantee revenue bonds issued by another body corporate and politic of Indiana or a political subdivision to finance a clean coal technology project, or enter into a lease in connection with a clean coal technology project unless and until:

- (1) the lieutenant governor evaluates in writing the technical merits and feasibility of the clean coal technology project and the lieutenant governor presents the evaluation with a recommendation to proceed to the budget committee for review;
- (2) the authority, in cooperation with the budget agency, evaluates the financial merits and feasibility of the clean coal technology project (including a plan of finance for the project and appropriate assurances that the project will be constructed as contemplated) and the authority presents the evaluation with a recommendation to proceed to the budget committee for review;
- (3) the budget committee completes the reviews described in this subsection and makes a recommendation to proceed to the state board of finance; and
- (4) the state board of finance approves the undertaking of the clean coal technology project and plan of finance.

(j) In evaluating the technical merits and feasibility of the clean coal technology project, the lieutenant governor may rely upon the written testimony of outside experts retained for this purpose.

(k) The plan of finance described in subsection (i) must indicate whether, in the authority's opinion, state appropriations will be needed to support the project and if so, the anticipated times and amounts of the appropriations.

(l) In creating the clean coal technology program and in authorizing the financing of clean coal technology projects, the general assembly expects that the plan of finance for each project will take into account revenues from the project and contributions from the beneficiaries of the program. For purposes of this section, "beneficiaries" means corporate and individual sponsors and proponents of projects, the coal industry and coal users, and employees of the coal industry and coal users, and political

subdivisions whose economies are dependent in whole or in part on the coal industry. Contributions may be in cash, in kind, or in any combination of in cash and in kind, and may include real and personal property and interests in real and personal property and in technology, patents, licenses, franchises, marketing agreements, and shares and other interests in any of the foregoing. In evaluating and reviewing projects and plans of finance under this section, the authority, the lieutenant governor, the budget agency, the budget committee, and the state board of finance shall be guided by the general assembly's expectation as to contributions from the beneficiaries of the program as described in this subsection. However, failure of any particular beneficiary to contribute to a project shall not in itself disqualify a project.

(m) This section only applies to the clean coal technology program and clean coal technology projects and not to any other programs or projects undertaken by the authority.
