IC 8-17-1-1

Powers of county executive and department of highways; joint undertakings

Sec. 1. A county executive may construct, reconstruct, improve, and maintain all public highways, bridges, and culverts in the county, including highways, bridges, and culverts under the supervision of the department, if approved by the department, or located in municipalities, as provided in this chapter. In addition, the department may, after petitioning the affected county executive or municipal legislative body and obtaining approval, construct, reconstruct, improve, and maintain county or municipal highways. The department and a county or a municipality in the county through which a toll road project under IC 8-15-2 passes may jointly undertake transportation projects (as defined in IC 36-1-10-2). The duties and responsibilities of a joint undertaking shall be assigned to the department, the county, or the municipality in the county as the parties may agree.

The executive may establish, lay out, alter, widen, vacate, straighten, or change a public highway in connection with the improvement and may build all necessary bridges, culverts, or approaches in the improvement of highways. In addition, the executive shall provide easements

necessary for drainage and utilities.

IC 8-17-1-2.1

Highway cattle guards in certain counties; construction; cost

Sec. 2.1. (a) In all counties with a population of less than fifty thousand (50,000), any person through whose land any county highway is located may petition the county executive for permission to construct a cattle guard or other device for the purpose of keeping livestock on the property.

(b) In determining whether to grant permission, the executive shall consider the traffic flow on the highway and the cost of the erection of fences versus the cost of the construction of a cattle guard.

(c) The landowner shall bear the cost of construction and the erection of cattle crossing warning signs on the highway warning motorists that they are about to enter a cattle crossing area.

As added by Acts 1980, P.L.76, SEC.1. Amended by P.L.86-1988, SEC.68.

The entire cost of the right-of-way shall be paid by the county.

The issue of bonds must also provide for a sufficient sum to pay for any extras or changes not contemplated in the original plans, specifications, and contract that the executive considers necessary, and that might be omitted by the engineer who drew the plans or specifications.

(b) The proceeds shall be kept as a separate and specific fund to pay for the improvement or construction, reconstruction, or improvement of the particular road for which they were issued. The proceeds shall be paid by the treasurer to the contractor, upon

All funds shall be kept in the public depositories of the county and the interest added to the fund.

A competent materials testing engineer shall determine in a report whether the tests and standards as to the quality of materials has been met. Any party aggrieved by the decision may appeal to the circuit court of the county within ten (10) days of the date of the decision, by filing a bond approved by the auditor of the county, for the payment of all costs in the cause that may be adjudged in the circuit court against the person taking the appeal. The proceedings shall be tried de novo in the circuit court. *(Formerly: Acts 1919, c.112, s.20.) As amended by P.L.86-1988, SEC.83.*
