Administrative Rules Oversight Committee
IC 2-5-18 (Permanent)

The Committee meets at the direction of its chair, and typically deals with the following matters:

- (1) Citizen complaints concerning agency rules or practices.
- (2) Violations of the time frames within which agencies must promulgate and adopt rules.
- (3) Proposed agency rules that may have an economic fiscal impact of \$500,000 or more.

AROC may make recommendations to an agency that a rule be modified, repealed, or adopted. The Committee may also introduce legislation to make the statutory refinements necessary to correct an agency practice or regulation that represents a misapplication of Indiana law.

Natural Resources Study Committee
IC 2-5-5-1 (Permanent)

The Natural Resources Study Committee was established by statute to do the following:

1. Examine laws relating to the Indiana Department of Natural Resources (IDNR) and recommend, when necessary, legislative changes designed to better serve the citizens of Indiana.
2. Advise and assist the IDNR in programming its activities and in developing a long-range plan for land acquisition, capital improvement, and development of facilities.
3. Oversee the Indiana Water Resource Management Program.

The committee is also charged with studying whether new or amended statutes or rules are appropriate concerning the following:

- (1) The safety of miners who could be affected by coal bed methane extraction activities;
- (2) Coal bed methane well spacing, unit, and bonding requirements;
- (3) The relative interests with respect to real property of:
 - (A) the owner of the right to coal bed methane
 - (B) the owner or owners of the surface rights and other mineral rights
- (4) Requirements with respect to real property for the owner of the right to coal bed methane to give notice of coal bed methane extraction activities to the owners of the

surface rights and other mineral rights;

(5) Requirements for the issuance of permits for the extraction of coal bed methane, including public notice of the filing of permit applications;

(6) Requirements for the protection of surface water and ground water from any potential effects of coal bed methane extraction activities;

(7) Encouragement of the development of coal bed methane that adequately takes into account the protection of commercially minable coal resources;

(8) The right of the person, who is entitled to develop a well for oil and gas purposes with respect to real property and who is not the owner of the surface rights, to enter the property for extraction activities and the responsibility of that person to pay damages or compensation to the owner of the surface rights;

(9) The adequacy of conventional oil and gas statutes and rules to protect the owners of the surface rights to real property, the public, and commercially minable coal resources;

The commissions analysis under this subdivision must include a description of:
 - (A) the number of multichannel video programming distributors offering video service to Indiana customers;
 - (B) the technologies used to provide video service to Indiana customers; and
 - (C) the effects of competition on the pricing and availability of video service in Indiana.
- (3) Beginning with the report due July 1, 2007, and in each report due in an odd-numbered year after July 1, 2007:
 - (A) an identification of all telecommunications rules and policies that are eliminated by the commission under section 4.1 of this chapter during the two (2) most recent state fiscal years; and
 - (B) an explanation why the telecommunications rules and policies

identified under clause (A) are no longer in the public interest or necessary to protect consumers.

The regulatory flexibility committee shall also issue a report and recommendations to the legislative council by November 1 of each year that is based on a review of the following issues:

- (1) The effects of competition and technological change in the telecommunications industry and impact of competition on available subsidies used to maintain universal service.
- (2) The status of modernization of the public telephone network publicly available telecommunications infrastructure in Indiana and the incentives required to further enhance this infrastructure.
- (3) The effects on economic development and educational opportunities of the modernization described in subdivision (2).
- (4) The current method methods of regulating companies providers, at both the federal and state levels, and the methods effectiveness of the methods.
- (5) The economic and social effectiveness of current telecommunications service pricing.
- (6) All other telecommunications issues the committee deems appropriate.

The Committee has been assigned these additional topics:

- A. The use of cloud computing technology and the safety and protection of information generated by state agencies. The study must cover issues regarding potential security risks presented by the use of cloud computing services based on the following:
 - (1) mission of an agency that might use cloud computing services
 - (2) types of data that an agency might have
 - (3) level of sensitivity of the data
 - (4) potential services to be used
 - (5) existing and potential security related threats to the state agency (SEA 384-2010);
- B. Additional public or private funding sources and mechanisms for the 211 services account established by IC 8-1-19.5-11 (HR 47, SR 43); and
- C. Parity among the fees imposed in IC 36-8-16, IC 36-8-16.5 and IC 36-8-16.6 and funding inequities for consolidated public safety answering points (HR 96).
