PREFACE

This document contains the digest of each of the 1169 House bills and 7 Joint Resolutions and 587 Senate bills and 8 Joint Resolutions introduced for the 2001 regular session of the Indiana General Assembly.

Three lists appear at the front of the book, and one index appears at the end of the book. The lists group the bills **BY BILL NUMBER**, **BY AUTHOR**, and **BY COMMITTEE**. The index at the end of the book is a **SUBJECT** index.

We have compiled this book as quickly as possible after receiving committee assignments. Post-introductory information is not reflected in this document. Additional information on each of these bills is available on the Internet at www.state.in.us.

We would like to thank all of the OBDAR staff for their contributions. While this document has been improved again this year, please let us have your comments and suggestions.

HB 1001: (LS 8002) Bauer, Cochran (DI:73)
State budget. Appropriates state money for the biennium beginning July 1, 2001, and ending June 30, 2003. Authorizes certain capital projects. Provides that the maximum amount of expenditures, transfers, or distributions that may be made from the Indiana tobacco master settlement agreement fund during a state fiscal year is equal to 75% of the amount of money received or to be received by the state under the master settlement agreement during that state fiscal year, plus any amounts that were available for expenditure, transfer, or distribution during preceding state fiscal years but that were not expended, transferred, or distributed. Establishes certain existing trust funds as accounts within the Indiana tobacco master settlement agreement fund. Establishes the regional health care construction account within the Indiana tobacco master settlement agreement fund. Provides that this account is established for the purpose of providing state psychiatric hospitals and developmental centers, regional health centers, or other health facilities designed to provide crisis treatment, rehabilitation, or intervention for adults or children with mental illness, developmental disabilities, addictions, or other medical or rehabilitative needs. Provides that beginning January 1, 2001, \$15,000,000 shall be transferred during each calendar year from the Indiana tobacco master settlement fund to the account. Provides that amounts appropriated for the regional health care construction account shall be transferred before any other expenditures, transfers, or distributions are made from the Indiana tobacco master settlement agreement fund. Provides that any unspent balances in the 2000 appropriation from the Indiana tobacco master settlement agreement fund for capital costs for community mental health centers do not revert until 2004. Provides that \$3,100,000 is annually appropriated from the Indiana tobacco master settlement agreement fund to the local health maintenance fund. (Current law provides for a

\$2,370,000 annual appropriation from the state general fund.) Adds regional health facilities to the list of facilities covered by the state office building commission provisions. Provides that the Indiana war memorials commission may hire employees only with the approval of the budget agency. Provides that the budget director or the budget director's designee is a member of the recreational development commission. Provides that the state funds intercept provisions also apply to defaults by private holding corporations and public holding corporations. Provides that ISTEP program testing shall be administered in science beginning in school year 2003-2004 and social studies in school year 2004-2005. Provides that after all statutory transfers are made from the counter-cyclical revenue and economic stabilization fund, the treasurer of state shall in June 2002 and June 2003 transfer any balance in the fund in excess of the June 30, 2001, balance to the state general fund.

HB 1002: (LS 6387) Weinzapfel (DI:69)
Admission of liability in civil actions.

Prohibits a statement, writing, or benevolent gesture that: (1) expresses sympathy or a general sense of benevolence; and (2) is made to an accident victim or to the family of an accident victim from being admitted as evidence in a civil action as an admission of liability. Provides that a statement of fault that is part of, or in addition to, the statement, writing, or benevolent gesture is admissible as evidence in a civil action.

HB 1003: (LS 7992) Bauer (DI:73)
State and local finance.

Eliminates the authority of a county to impose a property tax levy for the county family and children's fund, beginning in 2003. Transfers responsibility for funding children's services from the county family and children's funds to

Introduced Bills - 2001

the state. Eliminates the authority of a county to borrow for welfare purposes. Makes certain conforming amendments and other changes related to child services. Specifies that a county shall pay from the county general fund the cost of any per diem payable for a child adjudicated a delinquent child, or for a child for whom a program of informal adjustment has been implemented, if the child is placed in a secure facility that is not a secure private facility. Changes the property tax levy limit provisions to: (1) provide for a maximum increase of 8% (rather than 10%) in property tax levies; and (2) provide for a minimum increase of 4% (rather than 5%) in property tax levies. Provides counties with the option of using county adjusted gross income tax and county option income tax revenue for three types of property tax relief: (1) property tax replacement credits; (2) homestead credits; and (3) property tax reductions for low income homeowners. Allows the combined county option income tax rate and the county economic development income tax rate to be as much as 1.25%, in order to provide the property tax relief. (This maximum already applies to the combination of the county adjusted gross income tax and the county economic development income tax rate.) Allows local units to use riverboat revenue for property tax relief.
