*Commissioner*

## Water Filter Installation Report

**Updated May 2017**

The Indiana Department of Environmental Management's water filter installation contractor, North American Aqua Environmental, visited a total of 1,146 properties in Zones 2 and 3 of the USS Lead Superfund site. Contractors visited every property while walking each street in Zones 2 and 3.

- 654 Filters installed
- 173 Denied entry, but filters were provided
- 22 Occupants refused filters
- 60 Pitcher filters delivered
- 237 Properties vacant or unresponsive after 3+ visits

North American Aqua left additional filters and pitchers at the East Chicago Water Department. The water department has the final filter report which indicates which properties did not receive a filter.

Residents in Zones 2 and 3 who have questions about the installation or use of the filter or pitcher should contact North American Aqua at 800-833-5553.
