IPL electric vehicle case: Consumer comments invited

The Indiana Office of Utility Consumer Counselor (OUCC) is inviting written comments on Indianapolis Power & Light Co's. (IPL's) request for changes in its rates and charges, aimed at facilitating the City of Indianapolis' proposal to create an electric vehicle sharing program for public use.

The OUCC, the state agency representing consumer interests in cases before the Indiana Utility Regulatory Commission (IURC), is reviewing the utility's request and is scheduled to file testimony with the Commission on June 20, 2014.

Under the proposal, the City of Indianapolis and the Paris, France-based Bolloré Group would develop and implement BlueIndy, a public car-sharing program using electric vehicles with charging stations to be placed in service at about 200 sites throughout Marion County by the end of 2016. According to testimony filed by IPL and the City, the project's start-up costs would include a \$16 million investment to be recovered through IPL's rates. Costs include the provision of electric line extensions to the sites (approximately \$3.7 million) and the installation of BlueIndy charging stations and related equipment at the sites (about \$12.3 million). In its request for IURC approval of an alternative regulatory plan, IPL estimates the proposal would raise an average residential customer's bill (for 1,000 kilowatt hours) by 44 cents per month.

Consumers who wish to submit written comments in this case may do so via the OUCC's Website at www.in.gov/oucc/2361.htm, or by mail, email or fax:
