844 IAC 4-4.5-12 Passing requirements for United States Medical Licensing Examination Step 3 states in part:
Sec. 12. The following are the examination passing requirements for licensure:
(1) A score of seventy-five (75) is the minimum passing score for Step 3 of the United States Medical Licensing Examination (USMLE).
(2) An applicant may have a maximum of five (5) attempts to pass each step of the USMLE. Therefore, upon the fifth (5th) seating of each step of the exam, the applicant must obtain a passing score.
(3) All steps of the USMLE must be taken and successfully passed within a seven (7) year time period. This seven (7) year period begins when the applicant first passes a step, either Step 1 or Step 2. In counting the number of attempts regarding the USMLE steps, previous attempts on the National Board Medical Examinations and the examination of the Federation of State Medical Boards of the United States are included.

If you do not meet the seven (7) year period, you may apply for licensure and retake Step 1 and/or Step 2 of the USMLE to put you within the seven (7) year period. You must make application and request to retake Step 1 and/or Step 2. Our agency will send out the appropriate letters to the Federation so that you may reapply to take the appropriate steps of the USMLE.
