INTRODUCTORY

Indianapolis- Marion County Public Library

Service • Tradition • Innovation

June 30, 2011

To: Citizens of the Library District
Board Members of the Indianapolis-Marion County Public Library
and their appointing authorities:
The City-County Council
The County Commissioners
Board of School Commissioners of the Indianapolis Public Schools

We are pleased to present the Comprehensive Annual Financial Report of the Indianapolis-Marion County Public Library (Library) for the fiscal year ended December 31, 2010

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material mis-statements.

The Indiana State Board of Accounts has issued an unqualified ("clean") opinion on the Indianapolis-Marion County Public Library's financial statements for the year ended December 31, 2010. The independent auditor's report is located at the front of the financial section of this report. When federal funds are received, the Library is required to undergo an annual single audit of its federal assistance programs in conformity with the provisions of the Single Audit Act of 1984. This does not apply for 2010, as the amount of federal assistance received did not require a single audit.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report, and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of Reporting Entity

The Indianapolis-Marion County Public Library is an independent municipal corporation pursuant to Indiana Code 36-12. The Library district includes all of Marion County (including the city of Indianapolis) except for the city of Beech Grove and the town of Speedway, each having their own library district. The Library system services a population of approximately 877,389 (based on the 2010 Census) residents of Marion County. In addition, many residents of neighboring communities, as well as persons throughout the United States, visit our facilities each year. The Library was formed in 1968 by the merger of the Indianapolis Public Library, a division of the Indianapolis Public Schools, organized in 1873, and the Marion County Public Library, formed in 1966. Cooperative agreements are in place with the Beech Grove Library.

The Library is governed by a seven member Board appointed by the Indianapolis Public Schools Board of Commissioners (2), Commissioners of Marion County (3) and City-County Council (2) to serve staggered terms of four years each. The Library operates as a separate, financially independent unit, with its appointed officials being directly and separately (from City and County officials) responsible for the financial management, operations, and accountability for fiscal matters. Therefore, the Library is a separate entity for financial reporting purposes in accordance with standards promulgated by the Government Accounting Standards Board.

2450 N. Meridian Street
Indianapolis, IN
46208

www.imcpl.org

The Library Board has the authority to adopt the budget and recommend a tax levy. Final budget approval and tax levy must be approved by the City County Council. The budget serves as the foundation for the Library's financial planning and control. Under Indiana State guidelines, the Board is responsible for adopting a budget for the general fund (Operating Fund), the Capital Projects Fund and the debt service fund (Bond and Interest Redemption Fund) by August 31 for the next fiscal year. The Library is also financially accountable for a legally separate Foundation which is reported separately as a discrete component unit within the Library's financial statements. The Indianapolis-Marion County Public Library Foundation, Inc. has been included based upon criteria established by GAAP. Additional information on the Foundation (component unit) can be found in the notes to the financial statements (See note 1.A)

The Board adopts its own resolutions, having the effect of local law governing Library matters, and issues its own general obligation bonds subject to approval of the public by referendum. The present Board Members are listed on page nine (9).

The Indianapolis-Marion County Public Library provides library services to all individuals in order to meet the educational, informational, and recreational interests and needs of the public. Library service includes collecting and organizing books and other library materials including electronic resources, and providing reference, loan, and related services to Library patrons. These library services are supported by public funds.

Local Economy

The Indianapolis-Marion County Public Library falls within the boundaries of the City of Indianapolis which is the capital of the State of Indiana. Indianapolis is the 14th largest city in the U.S., the third largest city in the Midwest (behind Chicago and Detroit), and the second most populous state capital. The unemployment rate for the Indianapolis Metropolitan area was 10.0% compared to 10.2% for the state of Indiana in 2010. Major industries within the Library's district or in close proximity include pharmaceutical companies, ag-biotech, auto manufacturing, and the health industry.

According to Conexus Manufacturing & Logistics 2010 National Report, Indiana continues to do well in terms of the total share of manufacturing, ranking No. 1 in the nation. In addition, Indiana ranks fifth nationally in overall tax climate, making it a location of significant interest for firms wishing to relocate or expand in the United States. With four interstate highways intersecting in Indianapolis, the region ranks first among metro areas in interstate access. The railroad system in the state ranks ninth in the nation for total mileage (4,178). Indianapolis International Airport is home to the second-largest FedEx hub in the world and is the eighth-largest cargo airport in North America. These strategic advantages, along with the collaboration of the government and the private sector, make the Indianapolis region a great place to do business. Despite the economic downturn that exists in our nation, Indianapolis experienced economic development activity that surpassed previous years in 2009. Indianapolis secured over 11,000 job commitments and \$157 million in private investment from 45 companies.

Although companies from all different industries were represented in the list of successful projects in 2009 and 2010, Indianapolis remains focused on several targeted industry clusters. These include life sciences, advanced manufacturing, information technology, motorsports, logistics, and clean tech. Our diverse economy has a history of stability, and today's economic conditions have not changed that. Indiana is the heart of America's manufacturing might, and a linchpin in the automotive industry. "There is no better place to invest in the clean, green, energy-efficient technology we need to power today's global economy," according to EnerDel, a leader in the development of lithium-ion batteries for automobile manufacturers.

Indianapolis continues to establish itself as a mecca of major sporting events. The city plays host to two of the biggest single-day sporting events in the world – the Indianapolis 500 and the All-State 400 at the Brickyard – which pours hundreds of millions of dollars into the local economy each year. In addition, Indianapolis is home to the Indianapolis Colts, the 2007 Super Bowl Champs, and the Indiana Pacers. Indianapolis will host the Super Bowl in 2012. In 2006, Indianapolis was awarded the Big Ten

Men's and Women's tournaments for five consecutive years beginning in 2008.

Indianapolis continues to be attractive to households and certain types of firms because it is a low-cost area in which to live and do business. Indianapolis continues in the ranking by *Forbes* (April, 2010) as one of the top 100 largest metropolitan areas for business and careers. Indianapolis ranks as the #5 least-costly mid-size city in which to do business (*KMPG Alternative Study, 2010*). Being intermediate in population size, Indianapolis does not have the higher living costs and urban disamenities exhibited by several of the largest metropolitan areas. Businesses reap the rewards of affordable and available office space and utility costs which are, on the average, 35% lower than the rates in the nation's twenty largest cities.

The Library is an important factor in the community's quality of life, providing spaces to gather, to learn and to share at any age.

Long-term Financial Planning

Beginning in 2009 and continuing into 2010, the Library formed a team of public service staff, management, and Board representation to address the long-term financial sustainability of the library system.

Recent Circuit Breaker legislation passed by the State Legislature and signed into law limits the tax liability based upon the class of property. This limitation is 1% of the gross assessed value for homestead property, 2% for rental property, and 3% for all other property. For 2010, the reduction of property taxes was \$2.5 million. Estimates for 2011 and beyond indicate the impact will continue to grow with an estimated reduction of \$3.7 million in 2011. The team prepared a five-year forecast to project fund balances based on the projected circuit breaker reductions and economy. The results of the forecast indicated the need for a new revenue source and/or reductions in operating costs. In October of 2010, the Library reduced hours of service by 26% to address the shortage of tax revenue. The Library worked with elected officials and legislation was passed in 2011 that allows our fiscal body to allocate a share of the County Option Income Taxes to the Library. As we move forward into 2012, the Library will be

seeking a share of this new tax source in hopes of restoring hours of service.

Major Initiatives for the Library

In 2010, over 5 million patrons visited our libraries, and circulation approached 17 million. These record-setting numbers reflect our commitment to meet the 21st Century information needs of our patrons while streamlining operations to exercise good stewardship of tax dollars.

Supporting these efforts has been the development of public service priorities and standards. These serve to strengthen the Library's mission statement and give equal weight to: creating community; literacy; popular materials and hot topics; information and workforce literacy; lifelong learning; and accountability, reporting, and assessment.

Although difficult but necessary decisions were made to reduce service hours and staffing levels, the Library responded quickly to today's economic reality by defining a new model of service that will insure its viability in the years to come. We received a 4-Star rating by the Library Journal Index of Public Library Service and a local public service award for our homeless services.

Not just a place to check out one's favorite books, today's Library is integrated with the community in developing programs to help children become readers and comfortable using technology and individuals improve their quality of life. As a community place, the Library is where individuals can learn new computer skills, research the job market, enjoy a classical concert, meet their favorite authors, or develop new skills, all free with the use of a library card.

In 2010, our web branch received 10.4 million visits, allowing patrons to do everything from placing holds on items found in our catalog to learning of upcoming library events. In 2010, patrons logged 1.2 million hours on our computers in pursuit of their own interests.

In 2010, IMCPL offered 909 computer training classes that were attended by 9,654 individuals. These classes helped individuals discover online resources for job search help and market research, as well as learn new computer skills.

The Library also provided assistance for patrons to file unemployment claims.

The Library not only serves as a bridge between individuals and information, but it successfully partners with many community organizations, acts as an economic stimulus in neighborhoods, and provides a welcoming place for newly-arrived immigrants. Its free and accessible spaces foster a learning community.

In 2010, the Library hosted 4,082 community meetings attended by 71,352 individuals, tying the Library into the fabric of the community and connecting it with what is important to our public.

The 33rd annual Marian McFadden Memorial Lecture presented by Newberry Medal-winner and fantasy author Neil Gaiman filled the 1,000-seat auditorium.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the Library for its comprehensive annual financial report for the fiscal year ended December 31, 2009. This was the 20th consecutive year that the Library has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

We wish to express our appreciation to the Indiana State Board of Accounts for the timely and professional manner in which they have conducted their audit. The preparation of the comprehensive annual financial report was made possible by the dedicated service of the entire staff of the Library's Office. We would also like to express our appreciation to the staff in various city and county offices who provided

us with updated information for some of the tables.

Respectfully submitted,

Rebecca Dixon, CGFM

INDEPENDENT AUDITOR'S REPORT

TO: THE OFFICIALS OF INDIANAPOLIS-MARION COUNTY
PUBLIC LIBRARY, MARION COUNTY, INDIANA

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Indianapolis-Marion County Public Library (Library), as of and for the year ended December 31, 2010, which collectively comprise the Library's basic financial statements. These financial statements are the responsibility of the Library's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of the Indianapolis-Marion County Public Library Foundation, Inc., a component unit, which statements reflect total assets and revenues constituting 100 percent of the discrete totals. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Indianapolis-Marion County Public Library, Inc., is based solely on the report of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit, and the report of other auditors, provides a reasonable basis for our opinion.

In our opinion, based on our audit, and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the aggregate discretely presented component unit, each major fund and, the aggregate remaining fund information of the Library as of December 31, 2010, and the respective changes in financial position and cash flows, where applicable, thereof and for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT
(Continued)

The Management's Discussion and Analysis, Schedules of Funding Progress, and Budgetary Comparison Schedules, as listed in the Table of Contents, are not required parts of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Library's basic financial statements. The introductory section, combining fund financial statements, other budgetary comparison schedules and statistical tables are presented for purposes of additional analysis and are not required parts of the basic financial statements. The combining fund financial statements and other budgetary comparison schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

STATE BOARD OF ACCOUNTS

June 9, 2011

Management's Discussion and Analysis

As management of Indianapolis-Marion County Public Library, Indiana (the Library), we offer readers of the Library's financial statements this narrative overview and analysis of the financial activities of the Library for the fiscal year ended December 31, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 5-8 of this report. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

Financial Highlights

- The assets of the Library exceeded its liabilities at the close of the most recent fiscal year by \$90,946 (net assets).
- The Library's total net assets increased by \$1,353 in comparison with the prior year.
- As of the close of the current fiscal year, the Library's governmental funds reported combined ending fund balances of \$28,525, an increase of \$5,097 in comparison with the prior year. Approximately 68% of this total amount, \$19,323 is available for spending at the library's discretion (unreserved fund balance).
- At the end of the current fiscal year, the unreserved fund balance for the General Fund was \$12,808. This increase of \$7,206 compared with the prior year is the result of prior year collections in property tax billings. The 2008 taxes payable in 2009 were not billed or collected until 2010.
- The Library's total bond related debt decreased by \$6,555 during the current fiscal year. The decrease relates to the current refunding of 2002A series bonds.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the Library's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the Library's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating.

The Statement of Activities presents information showing how the library's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Library that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Library are culture and recreation.

The government-wide financial statements can be found on pages 24-26 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library, like state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related

legal requirements. All of the funds of the Library can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Library maintains 11 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Bond and Interest Redemption Fund, Construction Fund, and Rainy Day Fund, which are considered to be major funds. Data from 7 Library governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in the report. The Library adopts an annual appropriated budget for its General Fund, Capital Project Fund, Bond and Interest Redemption Fund, and Rainy Day Fund. Budgetary comparison schedules have been provided for the General Fund and the Rainy Day Fund in the required supplementary information and for the Capital Project Fund and Bond and Interest Redemption Fund subsequent to the combining nonmajor fund information, as other information, to demonstrate compliance with the budget.

The governmental fund financial statements can be found in pages 27-29 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those are not available to support the Library's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 30-31 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 32-57 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Library's budget for its major General Fund as well as reconciliation between the budget schedules and fund financial statements. In addition, the Library's progress in funding its obligation to provide post employment benefits and pension benefits to certain employees is included as supplementary information. Required supplementary information can be found on pages 58-61 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information on budgets. Combining and individual fund statements and schedules can be found on pages 62-64 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of Library's financial position. In the case of the Library, assets exceeded liabilities by \$90,946 at the close of the most recent fiscal year with the Library's net assets increasing by \$1,353 during 2010. This shows that the Library has been able to make sound financial decisions over the past few years leaving them with a solid equity base to build upon.

The largest portion, \$59,277 (65%), of the Library's net assets reflects the investment in capital assets (e.g., land, buildings, equipment, and collections); less any related debt used to acquire those assets that is still outstanding. The Library uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Library's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table reflects the condensed statement of Library net assets at 2010 and 2009:

Indianapolis-Marion County Public Library, Indiana, Net Assets		
Governmental Activities		
Description	2010	2009 Restated
Current and Other Assets	\$ 30,079	\$ 37,141
Restricted Assets	7,834	9,308
Capital Assets	<u>161,824</u>	<u>166,878</u>
Total Assets	<u>199,737</u>	<u>213,327</u>
Long-term liabilities outstanding	97,201	102,944
Liabilities payable from restricted assets	7,870	7,902
Other liabilities	<u>3,720</u>	<u>12,888</u>
Total Liabilities	<u>108,791</u>	<u>123,734</u>
Net Assets		
Invested in capital assets, net of related debt	59,277	59,042
Restricted	9,842	10,441
Unrestricted	<u>21,827</u>	<u>20,110</u>
Total Net Assets	<u>\$ 90,946</u>	<u>\$ 89,593</u>

An additional portion of the Library's net assets, \$9,842 (11%), is restricted for capital projects and debt service. These assets cannot be used for any other purpose. The remaining balance of unrestricted net assets may be used to meet the Library's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Library is able to report a positive balance in net assets. The same situation held true for the prior fiscal year.

Governmental Activities

Governmental activities increased the Library's net assets by \$1,353 during 2010. The Library received the final delayed installment of property taxes for 2008 pay 2009 during 2010. Due to a mandated reassessment in 2007, property tax billings and collections had been delayed every year and in 2010 three tax billings occurred to rectify this problem. This increased the Library's net assets for 2010.

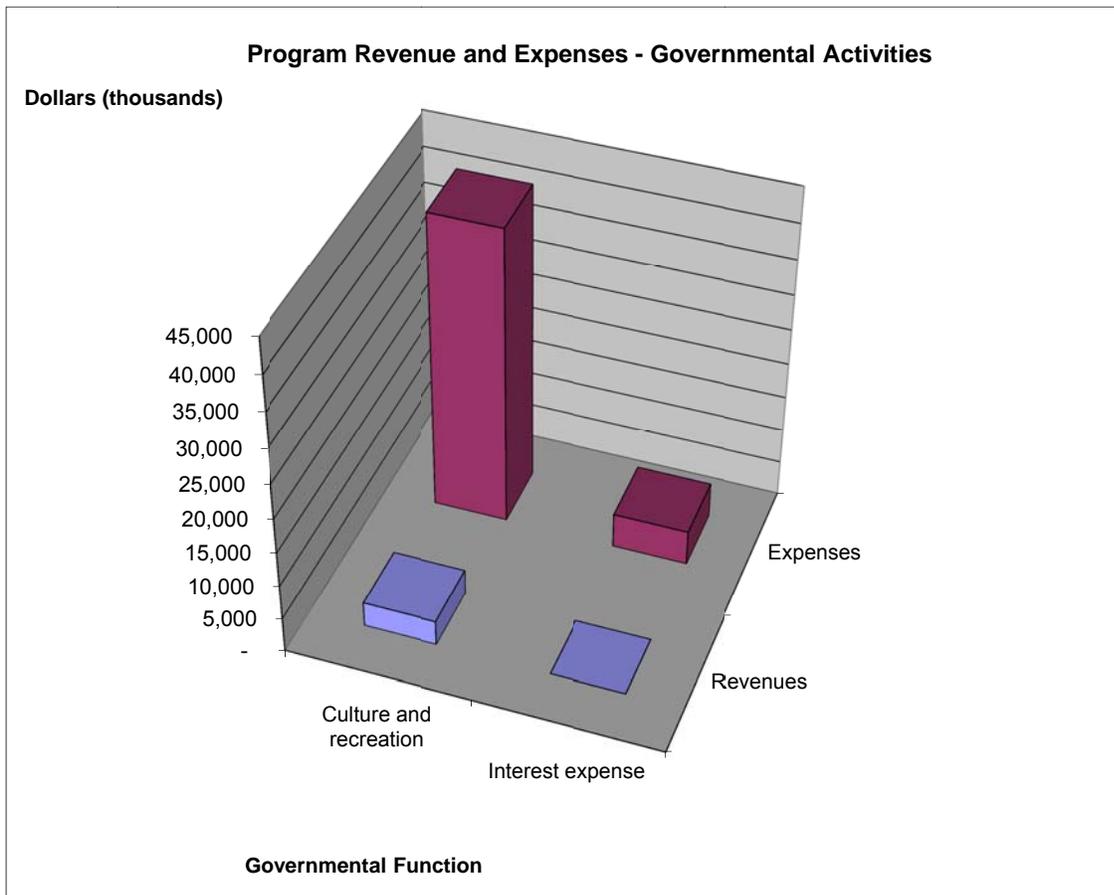

The cost of governmental activities decreased by \$5,432 in 2010. Recent Circuit Breaker legislation passed by the State Legislature and signed into law limits the tax liability based upon the class of property. The estimated financial impact on the Library's tax collections for 2010 and beyond resulted in a decrease in spending and a reduction in hours of operation to offset the projected loss of tax revenue.

Indianapolis-Marion County Public Library - Changes in Net Assets

Description	Governmental Activities	
	2010	2009 Restated
Revenues:		
Program Revenues		
Charges for Services	\$ 2,607	\$ 2,908
Operating Grants and Contributions	932	975
General Revenues		
Property and other taxes	44,075	44,103
State aid	-	-
Grants and Contributions - not restricted	-	-
Other	1,398	1,908
Total Revenues	<u>49,012</u>	<u>49,894</u>
Expenses:		
Culture and Recreation	42,714	47,774
Interest Expense	4,945	5,317
Total Expenses	<u>47,659</u>	<u>53,091</u>
Increase (Decrease) in net assets	1,353	(3,197)
Net assets at January 1	89,593	92,790
Net assets at December 31	<u>\$ 90,946</u>	<u>\$ 89,593</u>

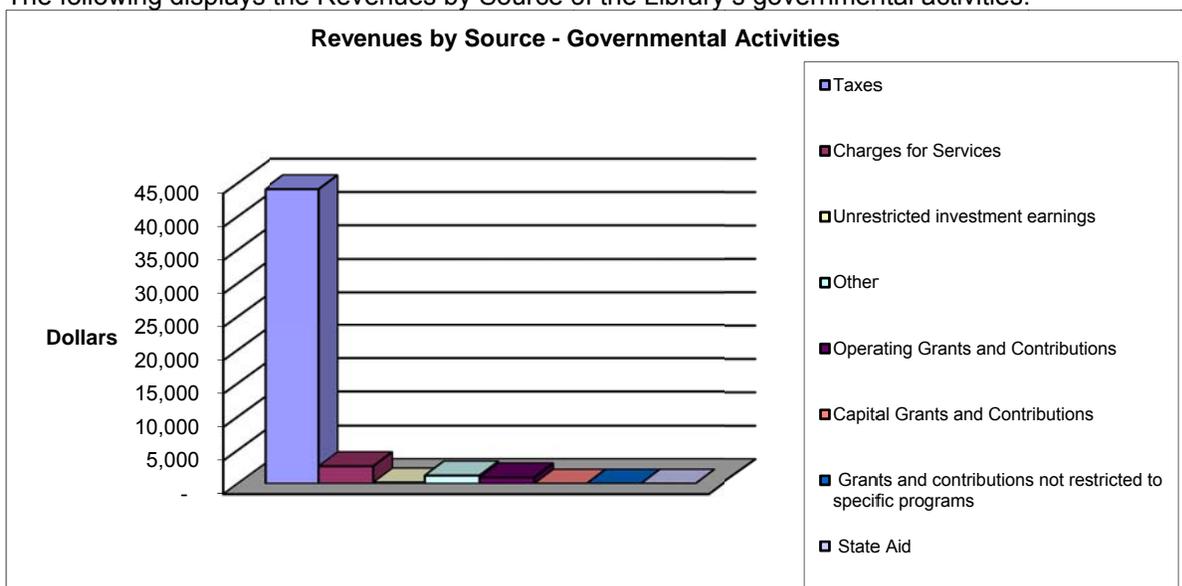

The Library's overall cash and cash equivalents position, \$33,842, remained very strong in the current economic environment, which posed many challenges.

The following displays the Expenses and Program Revenues of the Library's governmental activities:

Taxes, as in prior years, were the Library's major source of revenue supporting its activities. Other sources of revenue consisted primarily of user fees and grants and contributions.

The following displays the Revenues by Source of the Library's governmental activities:

Financial Analysis of the Government's Funds

As noted earlier, the Library uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Library's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Library's financial requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the Library's governmental funds reported combined ending fund balances of \$28,525 an increase of \$5,097 in comparison with the prior year. Approximately, 68% of this total amount \$19,323 constitutes unreserved fund balance, which is available for spending at the library's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed to encumbrances of \$9,202.

The General Fund is the chief operating fund of the Library. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$12,808 while total fund balance reached \$14,326. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total expenditures of \$36,065, excluding transfers. Unreserved fund balance represents 35.5% of total General Fund expenditures, while total fund balance represents 39.7% of that same amount.

The fund balance of the Library's General Fund, excluding transfers, increased by \$5,849 during the current fiscal year. Key factors in this increase are as follows:

- Prior year (2009) taxes and intergovernmental revenue was received in 2010 in the amount of \$11,980.
- Expenditures decreased by \$4,499 with the majority \$2,063 in operating cost (security, programming, maintenance, & utilities) and a decrease in debt of \$976. The remaining balance \$1,460 was a decrease in capital outlay (collection materials – books, DVD's CD's).
- The net result was an excess of revenue over expenditures of \$5,849.

The Library also has three other governmental funds which it considers major funds. These are the Bond and Interest Redemption Fund, the Construction Fund, and the Rainy Day Fund.

The fund balance of the Library Bond and Interest Redemption Fund went from a negative fund balance in 2009 to a positive fund balance of \$83 in 2010. Primary reason for this is as follows:

- Taxes and intergovernmental revenue for 2009 were not received until 2010 due to the delay in the property tax billing collections.

The fund balance of the Library Construction Fund decreased \$1,027 during the current fiscal year. The reason for this decrease is as follows:

- This decrease is a result of contract payments related to the Central Library Project.

The fund balance of the Rainy Day Fund decreased by \$511 during the current fiscal year. The reason for this decrease is as follows:

- Operating expenses net of interest income resulting in expenditures of \$511.

General Fund Budgetary Highlights

Differences between the original budget and the final budget resulted in a decrease of \$801. This decrease along with other adjustments was distributed among the following budget classifications:

- \$336 decrease in personnel services (salaries & fringe benefits).
- \$24 decrease in supplies relating to a reduction in cost from our main office supply vendor
- \$30 increase in other services and charges due to an increase in snow removal at various branch locations.
- \$1,008 decrease in capital outlay for our collection due to the Circuit Breaker legislation.
- \$537 increase in interest expense due to a reallocation of debt payments from the debt service fund to the operating fund.

Actual expenditures were \$4,597 (11%) less than the amended final budget for 2010. The majority of the difference (41%) was due to lower spending in personal services from hiring freezes and reduced hours of service. In addition, 25% less was spent on collection materials – books, DVD's & CD's due to the Circuit Breaker legislation.

During the year, revenues exceeded expenditures, excluding other financing uses, by \$12,606, resulting in an increase in the fund balance for 2010.

Capital Asset and Debt Administration

Capital Assets. The Library's investment in capital assets for its governmental activities as of December 31, 2010 amounts to \$161,824 (net of accumulated depreciation). This investment in capital assets includes land, buildings, artwork, rare books & other special collections, improvements, machinery and equipment, and collections.

The Library did not focus on any one major capital project for 2010. Instead the Library concentrated on energy conservation projects that would reduce overall utility cost. The Library's administration building was retrofitted with new lighting, a new boiler, and other energy savings conservation items that have resulted in a savings of \$125 in utility cost.

The following table displays the Library's capital assets:

Indianapolis-Marion County Public Library, Indiana, Capital Assets

	Governmental-type Activities 2010	Governmental-type Activities 2009 Restated
Land	\$ 6,120	\$ 6,120
Artwork	2,204	2,011
Rare Books & Other Special Collections	599	
Buildings	153,125	153,125
Improvements	2,745	2,745
Collections	25,782	26,017
Machinery and Equipment	7,903	7,810
Total Assets	198,478	197,828
Depreciation	(36,654)	(30,950)
Net Assets	\$ 161,824	\$ 166,878

Additional information on the Library's capital assets can be found in Note IV C. on page 46 of this report.

Long-Term Debt. At the end of the current fiscal year, the Library had total long-term debt related liabilities outstanding of \$104,207. General obligation bonds represent \$102,547 or the majority of total debt.

The remainder of the Library's debt of \$1,660 is compensated absences and other post employment benefits of \$196.

The following table reflects the Library's long-term debt:

Indianapolis-Marion County Public Library, Indiana, Long-term debt

<u>Description</u>	Governmental- type Activities 2010	Governmental- type Activities 2009 Restated
General obligation debt	\$ 102,547	\$ 107,836
Compensated absences	1,464	1,632
Other post employment benefits	196	118
subtotal	<u>104,207</u>	<u>109,586</u>
less:		
Short term portion	<u>(6,433)</u>	<u>(6,383)</u>
Total long-term debt	<u>\$ 97,774</u>	<u>\$ 103,203</u>

The Library's total debt decreased by \$5,429 during the current fiscal year. The key factor for this decrease was current year debt payments along with the current refunding of general obligation bonds in the amount of \$24,275, with new bonds issued of \$23,630 and \$1.6 million premium proceeds.

The Library maintains an "AA+" rating from Fitch IBCA and an "Aa2" rating from Moody's Investor Service for underlying general obligation debt. Both ratings indicate high quality and strong capacity to pay the Library's bonds.

State statutes limit the amount of general obligation debt that a government entity may issue to 2% of one-third of the total assessed valuation. The current debt limitation for the Indianapolis-Marion County Public Library is \$231,965 which is significantly in excess of the Indianapolis-Marion County Public Library's outstanding general obligation debt.

Additional information of the Library's long-term debt can be found in Note IV G pages 47-49 in Notes to the Financial Statements of this report.

Economic Factors and Next Year's Budgets and Rates

- The tax rate for 2011 for the Library increased from \$0.1077 per \$100 in assessed value in 2010 to \$0.1184 per \$100 in assessed value in 2011. This increase is due to a 4% reduction in the assessed value which resulted in a tax increase.
- The Library reduced hours effective October of 2010 to address the financial impact from the Circuit Breaker legislation passed by the State Legislature and signed into law and reduced collection rates due to the economy. In addition, the Library worked with our elected officials to make changes in the distribution of County Option Income Tax, currently not received by the Library. In 2011, the State Legislature made a change in the law regarding County Option Income Taxes which provides our fiscal body the authority to designate a share of the Count Option Income Taxes to the Library.

All of the above factors were considered in preparing the Library's budget for the 2011 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the Library's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Indianapolis-Marion County Public Library, Administrative Services, at P.O. Box 211, Indianapolis, Indiana 46206-0211.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For The Year Ended December 31, 2010

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ 5,097,154
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period (see Note II B).	(5,054,378)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds (see Note II B).	(4,239,229)
The issuance of long-term debt (e.g., bonds, leases) provide current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items (see Note II B).	5,569,070
Negative net pension obligations and other postemployment benefits, including the Public Employees' Retirement Plan and Postemployment Healthcare Plan, are considered a net asset and obligation, respectively, of the general government and, therefore, are not reported as current expenditures in the funds (see Note II B).	(146,788)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds (see Note II B).	<u>127,000</u>
Change in net assets of governmental activities (Statement of Activities)	<u>\$ 1,352,829</u>

The notes to the financial statements are an integral part of this statement.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS

I. Summary of Significant Accounting Policies

A. Reporting Entity

The Indianapolis-Marion County Public Library (primary government) was established under the laws of the State of Indiana. The primary government operates under a Library Board and provides culture and recreation services.

The accompanying financial statements present the activities of the primary government and its significant component unit. The component unit discussed below is included in the primary government's reporting entity because of the significance of its operational or financial relationship with the primary government. Discretely presented component units are involved in activities of an operational nature independent from the government; their transactions are reported in a separate column in the government-wide financial statements.

Discretely Presented Component Units

The Indianapolis-Marion County Public Library Foundation, Inc. (Foundation) is a significant discretely presented component unit of the primary government. It would be misleading to exclude the Foundation from the primary government's financial statements because of its relationship with the primary government. The Foundation's program service activities provide support for the primary government. The primary program service areas include: Central Library renovation and expansion, library program, materials and branch projects, children's initiatives, lectures, and gifts, awards, and recognition.

The financial statements of the component unit may be obtained from its administrative office as follows:

Indianapolis-Marion County Public Library Foundation, Inc.
2450 North Meridian Street
Indianapolis, IN 46208

The effect of interfund activity has been eliminated from the government-wide statement of activities.

B. Government-Wide and Fund Financial Statements

Government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities demonstrates the degree to which direct expenses of a given function or segments are offset by program revenues. Direct expenses are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the fiduciary fund financial statements. Agency funds, however, report only assets and liabilities. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the primary government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the primary government receives cash.

The primary government reports the following major governmental funds:

The general fund is the primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The bond and interest redemption fund accounts for all money derived from the taxes levied for the purpose of retiring bonds.

The construction fund accounts for all the money received from the sale of bonds for the purpose of construction, reconstruction or alteration of library buildings.

The rainy day fund accounts for the funds received through the litigation of the Central Library Project. The funds were approved for legal expenses related to the litigation and for the early extinguishment of debt.

Additionally, the primary government reports the following fund types:

Agency funds account for the collection and payment of assets held by the primary government for other entities.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

The private-purpose trust fund is used to account for the resources legally held in trust for use by a not-for-profit organization devoted to fundraising for the support of educational programs for the public. All resources of the fund, including any earnings on invested resources, may be used to support the organization's activities. There is no requirement that any portion of these resources be preserved as capital.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the primary government's policy to use restricted resources first, then unrestricted resources as they are needed.

The discretely presented component unit has adopted Statement of Financial Accounting Standards No. 117, "Financial Statements for Not-For-Profit Organizations." Under this provision, net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions.

D. Assets, Liabilities and Net Assets or Equity

1. Deposits and Investments

The primary government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statute (IC 5-13-9) authorizes the primary government to invest in securities, including but not limited to, federal government securities, repurchase agreements, and certain money market mutual funds. Certain other statutory restrictions apply to all investments made by local governmental units.

Nonparticipating certificates of deposit, demand deposits and similar nonparticipating negotiable instruments that are not reported as cash and cash equivalents are reported as investments at cost.

Debt securities are reported at fair value. Debt securities are defined as securities backed by the full faith and credit of the United States Treasury or fully insured or guaranteed by the United States or any United States government agency.

Investment income, including changes in the fair value of investments, is reported as revenue in the operating statement.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

Investments of the discretely presented component unit, including U.S. government securities and corporate stock, are carried at fair value, and realized and unrealized gains and losses are reflected in the statement of activity in accordance with FASB 117.

2. Interfund Transactions and Balances

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "interfund receivables/payables" (i.e., the current and noncurrent portion of interfund loans).

3. Pledges Receivable - Component Unit

Unconditional promises to give are carried at net realizable value, discounted to present value using United States Treasury Bill rates with maturities commensurate to the time period of expected collection of the pledges. During the year ended December 31, 2010, the discount rates used ranged from 0.3 percent to 3.3 percent. Amortization of the discount is included in contribution revenue. Unconditional promises to give are recognized in the period the contribution is received or the promise is made. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

4. Property Taxes

Property taxes levied are collected by the County Treasurer and are distributed to the primary government in June and in December. State statute (IC 6-1.1-17-16) requires the Indiana Department of Local Government Finance to establish property tax rates and levies by February 15. These rates were based upon the preceding year's March 1 (lien date) assessed valuations adjusted for various tax credits. Taxable property is assessed at 100 percent of the true tax value (determined in accordance with rules and regulations adopted by the Indiana Department of Local Government Finance). Taxes may be paid in two equal installments that become delinquent if not paid by May 10 and November 10, respectively. Delinquent property taxes outstanding at year end for governmental funds, net of allowances for uncollectible accounts, are recorded as a receivable with an offset to unearned revenue since the amounts are not considered available.

5. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the government-wide statements.

6. Beneficial Interest in Assets Held by Others – Component Unit

The Foundation has established four designated endowment funds with Central Indiana Community Foundation, Inc. (CICF) and is the beneficiary of the funds holding those assets. The purpose of such funds is to provide support to the Foundation. If the Foundation ceases to exist, the funds will be used to provide support to the Library and its successors in interest.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

Annual earnings are allocated to the fund and a portion of the fund balance is available for distribution during the succeeding year in accordance with the spending policy adopted by the CICF Board of Directors. At the time of execution of the agreements, the spending policy provided for 5 percent of the December 31 fund balance as the portion available for distribution, in addition to any unspent distributable amounts from prior years. At December 31, 2010, the fair values of the designated funds were \$1,490,546 for the Operating Endowment Fund, \$2,074,678 for the Humanities Fund, \$1,187,916 for the Lifelong Learning Fund, and \$964,973 for the Childhood Literacy Endowment Fund.

7. Restricted Assets

Certain proceeds of the general obligation bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the Statement of Net Assets balance sheet because their use is limited by applicable bond covenants and enabling legislation.

8. Contract Advance Receivable

The Library entered into contractual management agreements for the operation of the café, catering services, and parking garage at Central Library. The agreements require the contractors to directly pay all invoices associated with the operations. An advance in the amount of \$299,000 was given to the contractors to fund operating expenses. The agreements provide for the return of the advance upon termination of the contract.

9. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the governmental activities column in the government-wide financial statements.

Capital assets are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed or donated assets are reported at estimated fair value at the time received.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Buildings	\$ 5,000	Straight-line	50 years
Improvements other than buildings	5,000	Straight-line	15 years
Machinery and equipment	2,000	Straight-line	5 to 20 years
Computers	2,000	Straight-line	3 years
Collections	All	Composite	4 years
Land	All	N/A	N/A
Artwork	All	N/A	N/A

N/A = Not applicable

For depreciated assets, the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed.

10. Compensated Absences

- a. Annual Leave – primary government employees earn leave at the rate of 15 to 30 days per year, based on the length of service, degree qualifications, level of responsibility, and number of hours worked per year. Annual leave may be accumulated up to 480 hours. Unused leave is paid upon separation from service.
- b. Sick Leave – primary government employees earn 10 days of sick leave per year. Unused sick leave may be accumulated on an unlimited basis. Employees who retire are paid accumulated sick leave at a rate of 1 hour for every 2 hours accumulated in excess of 160 hours.

Annual and sick leave is accrued when incurred. The general fund is typically used to liquidate the liability for compensated absences.

11. Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt proceeds received, are reported as debt service expenditures.

12. Deferral of Loss on Refunding

In the government-wide financial statements, the deferral of loss on refunding is a result of accounting losses on refunding of bond issues. The deferred loss is amortized using the straight-line method over the remaining life of the old debt or the new debt, whichever is shorter.

13. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

14. Net Assets Restricted by Enabling Legislation

The government-wide Statement of Net Assets reports \$9,842,278 of restricted net assets, of which \$4,076,686 is restricted due to enabling legislation. Other new assets have been restricted due to bond covenants.

15. Other Revenue

Other revenues in the Statement of Revenues, Expenditures, and Changes in Fund Balances are as follows:

	Governmental Funds				
	General	Bond and Interest Redemption	Construction	Rainy Day	Other Governmental Funds
Interest and dividends	\$ 64,774	\$ 2,907	\$ 38,909	\$ 61,382	\$ 11,819
Donations and grants	247,080	-	-	-	685,255
Noncurrent period:

Contracts and accounts payable	\$ (42,725)
Compensated absences payable	167,662
Prepaid expense	2,063
Total	\$ 127,000

III. Stewardship, Compliance and Accountability

Budgetary Information

Annual budgets are adopted for the General Fund, the Capital Project Fund, the Bond and Interest Redemption Fund, and the Rainy Day Fund on the cash basis which is not consistent with accounting principles generally accepted in the United States. The Construction Fund has a legally adopted project-length budget. The Library Improvement Reserve Fund (Capital Project Fund) is required to have a legally adopted budget; however no budget was established for fiscal year 2010. All annual appropriations lapse at fiscal year end.

On or before August 31, the Treasurer submits to the Library Board a proposed operating budget for the year commencing the following January 1. Prior to adoption, the budget is advertised and public hearings are conducted by the Library Board and the City/County Council (Fiscal Body) to obtain taxpayer comments. In August of each year, the Library Board through the passage of a resolution approves the budget for the next year. Copies of the budget resolution and the advertisement for funds for which property taxes are levied or highway use taxes are received are sent to the Indiana Department of Local Government Finance. The budget becomes legally enacted after the Treasurer receives approval of the Indiana Department of Local Government Finance.

The primary government's management cannot transfer budgeted appropriations between object classifications of a budget without approval of the Library Board. The Indiana Department of Local Government Finance must approve any revisions to the appropriations for any fund or any department of the General Fund. The legal level of budgetary control is by object within the fund for all budgeted funds.

IV. Detailed Notes on All Funds

A. Deposits and Investments – Primary Government

1. Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. IC 5-13-8-1 allows a political subdivision of the State of Indiana to deposit public funds in a financial institution only if the financial institution is a depository eligible to receive state funds and has a principal office or branch that qualifies to receive public funds of the political subdivision. The Library's deposit policy does not specify custodial credit risk criteria. At December 31, 2010, the Library had deposit balances in the amount of \$34,894,542. The Library had deposit balances in high yield savings accounts and two external investment pools at December 31, 2010, reported as cash and cash equivalents.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

The balances held in external investment pools are reported as deposit balances instead of investments due to the high level of liquidity of these investment pools. The interest rates available in these savings accounts and investment pools were higher than the other investment options available as a result of the current economic market. The bank balances were insured by the Federal Deposit Insurance Corporation or the Public Deposit Insurance Fund, which covers all public funds held in approved depositories. The investment pools are completely liquid and are considered a depository with the organizations following the investment criteria set forth in Indiana Code 5-13-9.

2. Investments – Primary Government

Statutory Authorization for Investments

Indiana Code 5-13-9 authorizes the Library to invest in securities backed by the full faith and credit of the United States Treasury or fully guaranteed by the United States of America and issued by the United States Treasury, a federal agency, a federal instrumentality, or a federal government sponsored enterprise. Indiana Code also authorizes the Library to invest in securities fully guaranteed and issued by a federal agency, a federal instrumentality, or a federal government sponsored enterprise. These investments are required by statute to have a stated final maturity of not more than two years.

3. Deposits and Investments – Component Unit

The Foundation is a private nonprofit organization that reports under FASB standards, including FASB Statement No. 117, Financial Reporting for Non-Profit Organizations. As such, certain reporting criteria and presentation features are different from GASB reporting criteria and presentation features. No modifications have been made to the Foundation's financial in the Library's financial reporting entity for these differences.

The Foundation considers all highly liquid investments with original maturities of three months or less when purchased to be cash equivalents, but excludes cash equivalents held by various fund managers and included in investments. Cash equivalents are carried at cost, which approximates market value, and primarily consist of bank money market mutual fund investments. The Foundation maintains its cash and cash equivalents in accounts which, at times, may exceed federally insured limits. The Foundation has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

The Foundation's investments and the beneficial interest in assets held by others are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with these assets and the level of uncertainty related to changes in their value, it is at least reasonably possible that changes in the various risk factors will occur in the near term that could materially affect the amounts reported in the accompanying financial statements.

Investments having a readily determinable market value are carried at fair value. Assets held in investment partnerships (alternative investments) are recorded based on estimated fair values provided by external investment managers. Because such investments are not readily marketable, their estimated values are subject to uncertainty (including the use of valuation assumptions) and, therefore, may differ from the value that would have been recorded had a ready market for the investments existed.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

Investments consist of the following at December 31, 2010:

Cash equivalents	\$ 779,186
Certificates of deposit	590,076
Corporate bonds	970,144
Mutual funds	2,830,878
Equities	2,651,803
Alternative investment	<u>1,411,447</u>
 Total	 <u>\$ 9,233,534</u>

Investment returns consist of the following for the year ended December 31, 2010:

Dividends and interest	\$ 174,095
Less investment fees	<u>(40,640)</u>
	<u>133,455</u>
 Realized gains (losses) on investments	 128,530
Unrealized gains (losses) on investments	<u>571,433</u>
	<u>699,963</u>
 Total	 <u>\$ 833,418</u>

The Foundation's alternative investment is a partnership that invests in a master trust investing in international securities, with a concentration in equities. The Foundation values this investment at its percentage ownership of the net asset value as reported to the Foundation on a monthly basis. In addition, the Foundation monitors the overall financial performance of the alternative investment through consultation with the Foundation's independent investment advisor and by reviewing the financial statements and other information related to the investment on an ongoing basis.

4. Disclosure About Fair Value of Financial Instruments – Component Unit

The Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board Accounting Standards Codification sets forth a definition of fair value and establishes a hierarchy prioritizing the inputs to the valuation techniques that gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used fall within different levels of the hierarchy, the categorization is based upon the lowest level input that is significant to the fair value measurement.

The levels of hierarchy inputs, as defined in the standard, are as follows:

- Level 1: Unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Quoted prices for similar assets or liabilities in active markets (other than those included in Level 1) which are observable for the asset or liability, either directly or indirectly.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

Level 3: Valuations derived from valuation techniques in which one or more significant inputs or significant inputs or significant value drivers are unobservable.

Following is a summary of financial assets measured at fair value in the Statements of Financial Position and the respective levels to which the fair value measurements are classified within the fair value hierarchy at December 31, 2010:

	2010			
	Carrying Amount at December 31	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Investments	\$ 9,233,534	\$ 6,851,943	\$ 2,381,591	\$ -
Beneficial interest in assets held by others	5,718,113	-	-	5,718,113
Beneficial interest in charitable remainder trusts	<u>375,785</u>	<u>-</u>	<u>-</u>	<u>375,785</u>
Totals	<u>\$15,327,432</u>	<u>\$ 6,851,943</u>	<u>\$ 2,381,591</u>	<u>\$ 6,093,898</u>

The following is a summary of changes in assets with significant unobservable inputs (Level 3) for the year ended December 31, 2010:

	2010		
	Beneficial Interest in Assets Held by Others	Beneficial Interest in Charitable Remainder Unitrusts	Total
Beginning balance:	\$ 5,255,361	\$ 375,785	\$ 5,631,146
Deposits	-	-	-
Investment return, net	555,752	-	555,752
Distributions	<u>(93,000)</u>	<u>-</u>	<u>(93,000)</u>
Ending balance	<u>\$ 5,718,113</u>	<u>\$ 375,785</u>	<u>\$ 6,093,898</u>

5. Endowment Composition Disclosure – Component Unit

The Foundation's endowment consists of nine donor restricted funds. As required by generally accepted accounting principles, net assets association with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

A portion of the Foundation's endowment consists of four funds and three charitable remainder trusts held at CICF, which total \$6,093,898 at December 31, 2010. The Board of Directors follows the CICF suggested spending policy of no more than 5 percent of the balance annually, in addition to any unspent distributable amounts from prior years. The funds held by CICF are invested according to CICF's pooled investment fund strategies.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

The Foundation also has other restricted funds totaling \$729,998 that are classified as part of the endowment at December 31, 2010. These include permanently restricted cash, investments, and pledges receivable and unappropriated earnings thereon classified as temporarily restricted. Funds held by the Foundation are invested according to the Foundation's investment policy statements, and are appropriated subject to approval by the Board of Directors.

The composition of endowment net assets is as follows at December 31, 2010:

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total</u>
Donor restricted endowment funds	\$ (48,982)	\$ 887,968	\$ 5,984,910	\$ 6,823,896

The change in endowment net assets is as follows for year ended December 31, 2010:

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Totals</u>
Endowment net assets, beginning of year:	\$ (269,287)	\$ 614,433	\$ 5,977,111	\$ 6,322,257
Change in present value of pledges	-	-	(7,799)	(7,799)
Investment return, net	260,305	334,635	-	594,940
Distributions	(40,000)	(61,100)	-	(101,100)
Totals	<u>\$ (48,982)</u>	<u>\$ 887,968</u>	<u>\$ 5,984,910</u>	<u>\$ 6,823,896</u>

Interpretation of Relevant Law

The Board of Directors has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of the interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment (including irrevocable transfers of unrestricted funds to the permanent endowment to obtain donor matching), (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulations are added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the Foundation and the donor-restricted endowment fund
- (3) General economic conditions

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Foundation
- (7) The investment policies of the Foundation

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Foundation to retain as a fund of perpetual duration. Deficiencies of this nature are reported in unrestricted net assets and total \$48,982 as of December 31, 2010. These deficiencies resulted from unfavorable market fluctuations that occurred during 2008 as well as the continued appropriation for certain programs that was deemed prudent by the Board of Directors. Recoveries from 2008 unfavorable market fluctuations have taken place in 2010 and 2009, but the losses have not been fully recovered.

B. Receivables – Component Unit

The following receivable accounts have timing and credit characteristics different from typical accounts receivable.

Pledges receivable at December 31, 2010, are as follows:

Past due	\$	20,970
Due within 1 year		459,061
Due in 1-5 years		<u>1,004,406</u>
		1,484,437
Less present value discount		(78,914)
Less allowance for uncollectible pledges		<u>(3,000)</u>
 Total	 \$	 <u><u>1,402,523</u></u>

Of the pledges receivable classified as "past due" at December 31, 2010, approximately \$7,581 were collected as of March 15, 2011.

The Foundation is the beneficiary under three charitable remainder unitrusts administered by CICF. Under these charitable remainder unitrusts, the donors have specified income beneficiaries to receive distributions of the trust's market value annually until death. Upon the death of the income beneficiaries, the remaining assets in the trusts will be distributed to the Foundation. The proceeds are to be used as an endowment when received. Accordingly, the Foundation's interest in these trusts is recorded as part of permanently restricted net assets. The values are to be adjusted to the present value of the future benefits expected to be received. The Foundation's outside administrator has elected not to adjust these values on a reoccurring basis. The beneficial interest in charitable remainder unitrusts is carried at \$375,785 at December 31, 2010.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
 NOTES TO FINANCIAL STATEMENTS

D. Interfund Balances and Activity

Interfund Receivables and Payables

The composition of the Interfund balances for the year ended December 31, 2010, was as follows:

<u>Interfund Receivable</u>	<u>Interfund Payable</u>	
	<u>Nonmajor Governmental</u>	<u>Construction</u>
General Fund	<u>\$ 110,171</u>	<u>\$ 62,307</u>

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
 NOTES TO FINANCIAL STATEMENTS
 (Continued)

Interfund balances resulted from the time lag between the dates that (1) Interfund loans are repaid, (2) Interfund goods and services are provided or reimbursable expenditures occur, (3) transactions are recorded in the accounting system and (4) payments between funds are made.

E. Operating Leases

The primary government has entered into various operating leases having initial or remaining noncancelable terms exceeding one year for a parking lot, buildings, copiers, postage meters, and security radios. Rental expenditures for these leases were \$532,664. The following is a schedule by years of future minimum rental payments as of December 31, 2010:

2011	\$ 447,029
2012	36,550
2013	11,017
2014	11,083
2015	11,150
2016-2020	57,267
2021-2025	60,500
2026-2029	44,367
Total	<u>\$ 678,963</u>

F. Short-Term Liabilities

Tax Anticipation Notes

The primary government issues tax anticipation notes in advance of property tax collections, depositing the proceeds in its general fund. These notes are necessary to help alleviate cash flow problems.

Short-term debt activity for the year ended December 31, 2010, was as follows:

	<u>Beginning Balance</u>	<u>Issued/ Draws</u>	<u>Redeemed Repayments</u>	<u>Ending Balance</u>
Tax anticipation notes	<u>\$ 8,474,915</u>	<u>\$ 6,243,823</u>	<u>\$ 14,718,738</u>	<u>\$ -</u>

G. Long-Term Liabilities

1. General Obligation Bonds

The primary government issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities.

General obligation bonds are direct obligations and pledge the full faith and credit of the primary government. General obligation bonds currently outstanding at year end are as follows:

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY

Total			<u>\$ 100,345,000</u>

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ended December 31	Governmental Activities		Total
	Principal	Interest	
2011	\$ 5,730,000	\$ 4,232,931	\$ 9,962,931
2012	6,040,000	4,025,434	10,065,434
2013	6,380,000	3,779,990	10,159,990
2014	7,120,000	3,510,123	10,630,123
2015	7,920,000	3,187,978	11,107,978
2016-2020	41,765,000	10,462,834	52,227,834
2021-2023	25,390,000	1,789,639	27,179,639
Totals	<u>\$ 100,345,000</u>	<u>\$ 30,988,929</u>	<u>\$ 131,333,929</u>

2. Current Refundings

On April 16, 2010, the Indianapolis-Marion County Public Library issued \$23,630,000 in refunding revenue bonds with an average interest rate of 4.05 percent to advance refund \$24,275,000 of outstanding 2002A series bonds with an average interest rate of 4.64 percent. The net proceeds of \$25,049,841 (after payment of \$192,150 in issuance costs) were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payment on the 2002A series bonds. As a result, these bonds are considered to be defeased and the liability for those bonds has been removed from the Balance Sheet. The refunding resulted in the accounting loss of \$372,179, which has been recognized on the Balance Sheet as Deferral of Loss on Refunding. This amount will be amortized using the straight line method and charged to interest expense over the next 12 years. The Indianapolis-Marion County Public Library in effect reduced its aggregate debt service payment by \$1,918,172 over the next 12 years and realized an economic gain (difference between the present values of the old and new debt service payments) of \$1,532,915.

3. Changes in Long-Term Liabilities

Long-term liability activity for the year ended December 31, 2010, was as follows:

<u>Primary Government</u>	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental activities:					
Bonds payable:					
General obligation	\$ 106,900,000	\$ 23,630,000	\$ 30,185,000	\$ 100,345,000	\$ 5,730,000
Add deferred amount for premiums (discounts)	<u>935,921</u>	<u>1,266,237</u>	-	<u>2,202,158</u>	-
Total bonds payable	107,835,921	24,896,237	30,185,000	102,547,158	5,730,000
Compensated absences	1,631,993	1,094,721	1,262,383	1,464,331	702,879
Other postemployment benefits	<u>118,124</u>	<u>78,345</u>	-	<u>196,469</u>	-
Total governmental activities long-term liabilities	<u>\$ 109,586,038</u>	<u>\$ 26,069,303</u>	<u>\$ 31,447,383</u>	<u>\$ 104,207,958</u>	<u>\$ 6,432,879</u>

Compensated absences for governmental activities typically have been liquidated from the general fund. Claims and judgments typically have been liquidated from the general fund.

H. Restatements and Reclassifications

For the fiscal year ended December 31, 2010, certain changes have been made to the financial statements to more appropriately reflect activity of the Indianapolis-Marion County Public Library. These prior period adjustments and restatements are reflected in the beginning net assets in the government-wide statement of activities.

Prior Period Adjustments

For the government-wide statements, there is a decrease of \$349,041 in net assets for capital assets. This was a result of an adjustment made in the balances of collections.

V. Other Information

A. Risk Management

The primary government is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; natural disasters; and medical benefits to employees, retirees, and dependents.

The risks of torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; natural disasters; and medical benefits to employees, retirees, and dependents are covered by commercial insurance from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance by major category of risk.

B. Pending Litigation

In 2002, the Library began a \$102 million Central Library expansion project. In March 2004, construction on the project was halted because of certain defects and deficiencies in the parking garage portion of the project. The Library subsequently filed lawsuits against several of the project participants, and certain of the project participants filed lawsuits against the Library. The Library continues to vigorously pursue certain claims made against project participants in order to attempt to recover the costs to repair the defects and deficiencies discovered in the Parking Garage and/or elsewhere on the project. The outcome of the remaining claims made by and/or against the Library cannot be determined at this time.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

C. Postemployment Benefits

Single Employer Defined Benefit Healthcare Plan

Plan Description

The Library maintains and provides postemployment medical care and dental care ("OPEB") for retired employees through a single employer defined benefit plan providing comprehensive major medical benefits administered by Anthem. The plan provides benefits for eligible retirees, their spouses, and dependents through the Library's group health insurance plans, which covers both active and retired members.

Benefit provisions are established and reviewed by the Library Board of Trustees on an annual basis. In addition the Library negotiates with union representatives upon contract renewal. The plan is not accounted for as a trust fund because an irrevocable trust has not been established to account for the plan. The plan does not issue a separate financial report.

Active participants for 2010 included 300 fully eligible and 32 retirees for a total of 332 participants. Participants have two plans to select along with dental coverage. Coverage terminates when the retiree becomes eligible for Medicare. Spouses are offered COBRA coverage upon termination of retiree coverage.

Eligible retirees must meet the following criteria:

1. At age 50 with at least 10 years of service to the Library and have been a member of the Public Employees' Retirement Fund for 15 years.

Funding Policy

The contribution requirements of the plan members are established by the Board of Trustees and negotiated between the Library and union representatives. The Library does not contribute towards this plan in advance; therefore the required contribution is based on projected pay-as-you-go financing requirements as determined by the Board of Trustees. For the year ended December 31, 2010, the Library contributed \$282,103 to the plan (90 percent of the cost of the current year premiums for participants and 60 percent for their spouses and dependents if retirement occurred prior to October 1, 2005). Plan members receiving benefits contributed \$45,501 to the plan (10 percent of the current year premium for individual participants and 40 percent for spouses and dependents).

Eligible employees retiring on or after October 1, 2005, may choose to continue their healthcare coverage on the Library's insurance plan until the age of 65 but are required to contribute 100 percent of their annual premium costs. These members contributed \$33,967 in 2010 for their coverage.

By providing retirees with access to the Library's healthcare plan based on the same rates it charges to active employees, the Library is in effect providing a subsidy to retirees.

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
NOTES TO FINANCIAL STATEMENTS
(Continued)

Annual OPEB Cost and Net OPEB Obligation

The Library's annual OPEB cost is calculated based on the annual required contribution of the employer ("ARC"), an amount actuarially determined in accordance with the parameters of GASB Statement 45. In accordance with GASB Statement No. 45, the Library has elected to perform an actuarial valuation of the OPEB on a biennial basis. The last actuarial valuation performed by the Library was as of December 31, 2010. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities over a period not to exceed 30 years (closed amortization period). The Library's annual OPEB cost for the current year and the related information are as follows at December 31, 2010:

Normal cost	\$	126,334
Amortization of transition liability		223,673
Amortization of gain/loss		(2,760)
Interest		13,890
Annual required contribution (ARC)		361,137
Interest on net OPEB obligation		4,772
Adjusted to ARC		(5,461)
Annual OPEB cost		360,448
Actual employer contributions		282,103
Increase (Decrease) in net OPEB obligation		78,345
Net OPEB obligation – beginning of year		118,124
Net OPEB obligation – end of year	\$	196,469

The Library's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for 2010 and prior two years were as follows:

Fiscal Year Ended	Annual OPEB Cost	Employer Contributions	Percentage of Annual OPEB Cost contributed	Net OPEB Obligation
12-31-08	\$ 358,954	\$ 294,222	82%	\$ 64,732
12-31-09	358,954	305,562	85%	118,124
12-31-10	361,137	282,103	78%	196,469

INDIANAPOLIS-MARION COUNTY PUBLIC LIBRARY
 NOTES TO FINANCIAL STATEMENTS
 (Continued)

Funded Status and Funding Progress

The funded status of the plan as of December 31, 2010, was as follows:

Actuarial accrued liability	\$	3,780,730
Actuarial value of plan assets		-
Unfunded actuarial accrued liability	\$	3,780,730
Funded ratio		0%
Covered payroll	\$	14,769,715
Unfunded actuarial accrued liability as a percentage of covered payroll		26%

The projection of future benefit payment for an ongoing plan involved estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past experience and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, present multiyear trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

D. Pension Plan

Public Employees' Retirement Fund

Plan Description

The Library contributes to the Indiana Public Employees' Retirement Fund (PERF), a defined benefit pension plan. PERF is an agent multiple-employer public employee retirement system, which provides retirement benefits to plan members and beneficiaries. All full-time employees are eligible to participate in the defined benefit plan. State statutes (IC 5-10.2 and 5-10.3) govern, through the PERF Board, most requirements of the system and give the Library authority to contribute to the plan. The PERF retirement benefit consists of the pension provided by employer contributions plus an annuity provided by the member's annuity savings account. The annuity savings account consists of member's contributions, set by state statute at 3 percent of compensation, plus the interest credited to the member's account. The employer may elect to make the contributions on behalf of the member.

PERF administers the plan and issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. The report may be obtained by contacting:

Public Employees' Retirement Fund
Harrison Building, Room 800
143 West Market Street
Indianapolis, IN 46204
Ph. (317) 233-4162

Funding Policy

PERF members are required to contribute 3 percent of their annual covered salary. The Library is required to contribute at an actuarially determined rate: the current rate is 8.50 percent of annual covered payroll. The contribution requirements of plan members and the Library are established and may be amended by the PERF Board of Trustees.

The liability for Net Pension Obligation (NPO) is considered an obligation of the Library as a whole and is reflected in the Statement of Net Assets.

Annual Pension Cost

For 2010, the Library's annual pension cost of \$1,202,252 for PERF was equal to the Library's required and actual contributions.

 REQUIRED SUPPLEMENTARY INFORMATION
 BUDGET/GAAP RECONCILIATION
 GENERAL FUND
 For The Year Ended December 31, 2010

The major differences between Budgetary (Non-GAAP) basis and GAAP basis are:

- a. Revenues are recorded when received in cash (budgetary) as opposed to susceptible to accrual (GAAP).
- b. Expenditures are recorded when paid in cash (budgetary) as opposed to when the liability is incurred (GAAP).

Adjustments necessary to convert the results of operations at the end of the year on a budgetary basis to a GAAP basis are as follows:

	General
Excess of revenues over expenditures (budgetary basis)	\$ 4,131,180
Adjustments:	
To adjust revenues for accruals	289,389
To adjust expenditures for accruals	1,428,044
Excess of revenues over expenditures (GAAP basis)	\$ 5,848,613

Deficiency of revenues under expenditures (budgetary basis)	\$ (558,359)
Adjustments:	
To adjust revenues for accruals	-
To adjust expenditures for accruals	<u>47,502</u>
Deficiency of revenues under expenditures (GAAP basis)	<u>\$ (510,857)</u>

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Co-op Projects Fund - This fund is used to account for money received from participating Indianapolis high schools for computerizing, cataloging, and processing library materials.

E-Rate Fund – This fund is used to account for money received from a universal service fee charged to companies that provide interstate and/or international telecommunications services and is administered under the direction of the Federal Communications Commission (FCC). The funds collected are distributed to libraries to support telecommunication services, internet access, internal connections, and basic maintenance of internal connections.

Grant Fund – This fund is used to account for money received from grants.

Café/Catering Fund – This fund is used to account for money received from the Library's café and catering operations.

Parking Garage Fund – This fund is used to account for money received from the Central Library's parking garage.

CAPITAL PROJECTS FUNDS

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Library Improvement Reserve Fund – This fund is used to accumulate money for the purpose of anticipating necessary future capital expenditures such as the purchase of land, the purchase and construction of buildings or structures, the construction of additions or improvements to existing structures, the purchase of equipment, and all repairs or replacements of buildings or equipment.

Capital Projects Fund – This fund is tax supported and can be used for the construction, repair, remodeling or replacement of library facilities, site acquisition or development, and the repair, lease, or purchase of equipment to be used by the library district. Also, this fund can be used to pay for the purchase, lease, upgrading, maintenance, or repair of computer hardware or software.

AGENCY FUNDS

Agency funds are used to account for resources held by the reporting government in a purely custodial capacity.

Payroll Deductions Fund – This fund was established to account for the transactions and accumulations of certain payroll withholdings. These withholdings accumulate in this fund until the due date of the obligation for which the monies were withheld from employees' gross pay. The monies so received are disbursed from this fund without appropriation and may be disbursed solely for the purpose for which these obligations create.

Foundation Fund – This fund was established to account for donations and/or sales of merchandise belonging to a private foundation. The funds are collected at each public library branch and then disbursed back to the foundation on a monthly basis.

Staff Association Fund – This fund was established to account for sales of "Bunny Book Bags" belonging to the staff association. The funds are collected at each public library branch and then disbursed back to the staff association on a monthly basis.

STATISTICAL

Statistical Section

This part of the Indianapolis-Marion County Public Library's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Library's overall financial health.

Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the Library's financial performance and well-being have changed over time.	70
Revenue Capacity These schedules contain information to help the reader assess the Library's most significant local revenue source, property taxes.	74
Debt Capacity These schedules present information to help the reader assess the affordability of the Library's current levels of outstanding debt and the Library's ability to issue additional debt in the future.	78
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the Library's financial activities take place and to help make comparisons over time and with other governments.	83
Operating Information These schedules contain information about the Library's operations and resources to help the reader understand how the Library's financial information relates to the services the Library provides and the activities it performs.	85

Source:

Unless otherwise noted, the information in these tables is derived from the annual financial reports for the relevant year. The Library implemented GASB Statement No. 34 in the fiscal year 2003 therefore, tables presenting government-wide information include only years 2003 and beyond.

Notes:
¹Effective 2004 certain taxes were reclassified as intergovernmental
²Effective 2003 GASB 34 was implemented. Years prior were not restated to comply with GASB 34.
³Donated capital assets are included in capital outlay for government-wide but omitted from government funds capital outlay.
⁴This ratio has been restated for all prior years in response to a FY 2009 CAFR review comment stating only the principal and interest components of debt service expenditures should be included in the calculation.

Note:

¹Assessed values for a given fiscal year are from the prior calendar year's tax roll.

This table includes information for all of Marion County. Since other public library districts exist in Marion County, a portion of the property values do not relate to the Indianapolis-Marion County Public Library. Information by individual library districts within Marion County is not available.

Property was assessed at one third of true value until 2002. Real property was reassessed at 100% of true tax value in 2002 payable in 2003.

Notes:

¹Overlapping rates are those of local and county governments that apply to property owners within Marion County. Not all overlapping rates apply to all Marion County property owners.

²Capital Project Fund was established in 2006.

³The State of Indiana took over payment of some services previously paid for by property taxes.

Overlapping rates listed are for District 101 (Indianapolis-Center Township) which is the only rate that includes all major services.

Property was assessed at one third of true value until 2002. Real property was reassessed at 100% of true tax value in 2002 payable in 2003.

For Marion County, tax rates are calculated at \$100 of assessed property value.

Notes:

¹ Year indicates when taxes are due and payable for assessments as of March 1 of the prior year.

² The Indianapolis-Marion County Public Library service area is all of Marion County except for the City of Beech Grove and the Town of Speedway.

³ Taxable property is assessed at 33 1/3% of the true cash value until 2002.

⁴ Bonding limit is 2% of assessed value.

⁵ Effective 2003, includes the deferred amount for issuance premiums

Source: City of Indianapolis

Notes:

¹ Excludes revenue bonds not payable from ad valorem taxes.

² No bonding authority.

³ No bonding authority from ad valorem taxes.

⁴ There is no debt limit for the Building Authority. Its debt service requirements are funded by rentals paid by the City of Indianapolis and Marion County from ad valorem taxes mandated by the Authority's enabling legislation.

⁵ Represents the March 1, 2009 (Marion County Auditor's "certified abstract") assessment for taxes due and payable in 2010. The Library's assessed value is the actual assessed value for the Library for taxes due and payable in 2010.

⁶ There is no statutory constitutional debt limitation to the Park and Redevelopment Districts.

⁷ A Statutory 2% limit on school district debt does not apply to any debt that is incurred by a school district building corporation for the purpose of construction facilities to be leased to the school district at rentals sufficient to fund the corporation's annual debt service requirements. The bonding limit shown is the sum of the statutory limit plus the outstanding building corporation debt.

⁸ Ben Davis Conservancy District has no bonding limit. Bonds are payable from either collection of special benefit taxes or revenues produced from the project per Indiana Code 13-3-3-81.

Notes:

- ¹ GASB Statement 34, implemented in 2003, requires that capital assets be depreciated. The Library's collection of books and materials is considered a capital asset. Net book value represents total acquisition cost of circulating materials less accumulated depreciation to date.
- ² Number of items circulated includes online web renewals.
- ³ Turnover rate is the number of times an item is checked out. This is an average of all publicly circulating items in the total collection.
- ⁴ 2008 & 2009 Restated Number of Volumes Owned

Notes:

¹ In 2009, InfoZone moved to a new space within The Children's Museum.

² In 2002, Central Library moved to a temporary location to allow for the renovation and expansion of its current building. The new Central Library was completed in 2007. The 292,183 square footage listed for Central Library does not include the 183,000 square footage for the parking garage.
