## CHAPTER 3 - THE ACCOUNTING PLAN AND PROCEDURES

### **SECTION A - GENERAL PROVISIONS**

Each fund is an entirely separate entity. Transactions between funds must be carefully recorded and fully supported by issuing receipts and warrants. Transfers may be made between funds in the form of temporary loans as provided by law. These will also be supported by issuing receipts and warrants. [IC 36-1-8-4]

## CORRELATION OF BUDGETS AND ACCOUNTS

The law requires the annual enactment of a balanced budget. Appropriation accounts used in such budget shall be the framework of subsequent accounting for receipts and disbursements.

## ACCOUNTS EXCLUDED FROM THE BUDGET

In form, a budget is a tabulation of appropriations and estimated revenues. In a cash basis system of accounts, estimated revenue is synonymous with estimated receipts, except for "nonrevenue receipts."

Nonrevenue receipts include borrowing for which securities are issued, i.e., bonds and notes. Such items, and the contemplated disbursement of their proceeds, are excluded from the budget except for repayment of bond principal and interest and the interest only on temporary loans. Bond proceeds, with the exception of revenue bonds, must be appropriated in the regular legal manner before being expended.

Proprietary Funds and Agency Funds by their nature are excluded from budgets.

## **INTERFUND TRANSACTIONS**

The resources of a particular fund may be used only for the purposes for which the fund was created or as otherwise authorized by law. Therefore, one of the fundamentals of good accounting is that a proper charge be made for all substantial interfund services and that an adequate record be made for all interfund receipts and disbursements. For example, hydrant rental furnished to the city or town must be billed by the Water Utility. In brief, such billings should be made by all funds concerned and warrants drawn from one fund to another in payment thereof, so that each fund will show its correct financial position.

Incidental services and supplies given by one fund to another shall be billed to and paid for by the fund receiving such services and supplies. In case an employee of one fund works part-time for another fund, the pay of that employee shall be divided in recording the payroll, and the proper amount charged to each fund.

## RECEIPTS AND DISBURSEMENTS

Receipts within each fund, fund type and account group are classified by:

Source Revenue Receipts Nonrevenue Receipts

## Disbursements are classified in two manners:

- 1. In cities and towns with departmentalized budgets, disbursements are classified by function or program and activity, organization unit, object of expense, and major budget classification. Minor budget classifications are provided for more detailed accounting and greater information.
- 2. In small towns with non-departmentalized budgets, disbursements are classified by object of expense and major budget classification. Minor budget classifications are also provided for more detailed accounting and further information.

## **FUNDS**

See Chapter4 for fund types and a description of each type as well as for fund classifications and fund names.

## **SECTION B - ACCOUNTS PROVIDED**

### NUMBERING THE ACCOUNTS

The following <u>numbering system</u> is used for numbering all accounts. See below for the complete prescribed Chart of Accounts. Following is the key for the numbers, explanations, and some examples.

Key ABC-DEF-GHI.JKL Numbers XXX-XXX-XXX.XXX

## Key Explanation

- A Fund type. Fund types are numbered and titled pursuant to types suggested in GAAFR. See below for definitions and numbers assigned.
- BC Fund name. Funds are numbered and classified by fund type. See below for numbers and listing.
- DEF Organization unit. Organization units (departments) are numbered and classified by function, program, and/or activity. See below for numbers and listing.
- GHI.JKL Chart of Accounts. The chart of accounts follows closely the chart of accounts numbers suggested in GAAFR with some slight modifications. The chart of accounts includes assets, other debits, liabilities, other credits, fund equity, revenues, other financing sources, expenditures, and other financing uses. The municipality will use those accounts based on their accounting needs. See below for complete chart of accounts.

# FUND TYPES - A -

## Prescribed Number

<u>Governmental Funds</u> – The funds through which most government functions typically are financed.

- General Fund The General Fund is the chief operating fund of the municipality. Tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. The general operating expenditures of the municipality are paid from the general fund.
- 2. Special Revenue Funds Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects and debt service) that are restricted to expenditures for specific purposes. See below for examples.
- 3. Debt Service Funds Debt Service Funds are used to account for the accumulation of resources for, and the payment of, long-term debt principal and interest. See below for examples.
- 4. Capital Projects Funds Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. See below for examples.

- 5. Permanent Funds Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs (i.e., for the benefit of the government or its citizenry).
- 6. Governmental Activities (government-wide financial reporting). Governmental Activity funds are used to account for balances related to governmental funds that are only reported in the government-wide statement of net assets.
- 7. Proprietary Funds The funds used to account for a government's business-type activities (activities supported at least in part by fees or charges).
  - 7.1 Enterprise Funds. Enterprise Funds are used to account for activities for which a fee is charged to external users for goods or services.
  - 7.2 Internal Service Funds. Internal Service Funds are used to account for the financing of goods or services provided by one fund, department, or agency to other funds, departments, or agencies of the financial reporting entity, or to other governments, on a cost-reimbursement basis.
- 8. Fiduciary Funds The funds used to account for assets held by the government as trustee or agent and that cannot be used to support the government's own programs.
  - 8.1 Pension (and other employee benefit) Trust Funds. Pension Trust funds are used to account for assets of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans held by a government in a trustee capacity.
  - 8.2 Investment Trust Funds. Investment Trust funds are used to account for the external portion of investment pools (including individual investment accounts) reported by sponsoring government.
  - 8.3 Private-Purpose Trust Funds. Private Purpose Trust funds are used to account for trust arrangements, including those for escheat property, where principal and income benefit individuals, private organizations, or other governments.
  - 8.4 Custodial Funds. Custodial Funds are used to account for assets held by a government in a purely custodial capacity.
- 9. Capital Asset Accounts
  - 901 Land
  - 902 Infrastructure
  - 903 Improvements Other than Buildings
  - 904 Machinery and Equipment
  - 905 Construction in Progress
- Unclassified Funds

The following prescribed fund names are required by statute or are currently in use by municipalities pursuant to annual reports filed with the State Board of Accounts. Further funds will be added as required. Fund numbers shall be used as listed. Numbers include fund type, for instance (2)01, etc.

General Funds (1101-1199): 1101 General Fund

1101	General Fund
Special Rever	nue Funds (2201-2599):
2201	Motor Vehicle Highway
2202	Local Road and Street
2203	MVH Restricted (subfund of Motor Vehicle Highway)
2204	Park and Recreation - Operating
2205	Cemetery Operating (operating mostly with tax revenue support - not user fees)
2206	Aviation (operation mostly with tax revenue support – not user fees)
2207	Parking Meter
2208	Levy Excess
2209	LIT – Economic Development (formerly CEDIT)
2210	Thoroughfare (where used for maintenance and repairs instead of new construction)
2211	Park Nonreverting Operating
2212	Health
2213	Alcohol and Drug Services
2214	Supplemental Adult Probation Services
2215	Emergency Medical Services (where used for operations and funded by tax revenues
	instead of for purchase of equipment or qualifying as enterprise fund.)
2216	Economic Development (Operating)
2217	Building Demolition
2218	Planning and Zoning
2219	Plan Commission
2220	Animal Shelter
2221	Landfill
2222	Crime Control
2223	Sanitation (operating mostly from tax revenues - not user fees)
2224	Parking (not construction)
2225	Abandoned Vehicle
2226	Community Development
2227	Housing Authority (operating with tax revenues)
2228	Local Law Enforcement Continuing Education Fund
2229 2230	Motor Vehicle Registration Penalties Fund Clerk's Record Perpetuation Fund
2231	Enhanced Access Fund
2232	Electronic Map Generation Fund
2233	Deferral Program
2234	Unsafe Building
2235	Riverboat (unless restricted to infrastructure uses)
2236	Rainy Day
2237	Certified Technology Park
2238	Hazardous Materials Response
2239	Credit Card Service Fee
2240	LIT Public Safety
2241	County Slot Machine Wagering Fee
2242	Excess Welfare Distribution
2243	Fire Protection Territory
2244	Local Major Moves Construction
2245	Residential Lease Regulation
2246	Heritage Barn Public Safety - Police
2247	Heritage Barn Public Safety - Fire

```
2248
               LOIT Special Distribution
  2249
               Municipal Vehicle Excise Tax Fund
  2250
               Municipal Wheel Tax Fund
  2251
               Rainy Day Restricted - Wheel and Surtax
  2252
               Rainy Day Restricted – Local Road and Street
               Rainy Day Restricted - Major Moves
  2253
               Rainy Day Restricted - MVH
  2254
               Public Safety Officers Survivors Health Coverage Cumulative Fund
   2255
   2256-2299
               Reserved for future statutory special revenue funds
  2300-2399
               Donations (restricted; not used for capital items)
  2400
               CARES Provider Relief Fund
  2401-2499
               Grants - special revenue
  2500-2599
               Local / Home Rule funds
Debt Service Funds (3301-3399):
  3301
               Bond and Interest Redemption
               Fire and Police Equipment Debt Payment
  3302
  3303
               Loan and Interest Payment
  3304
               Capital Improvement Bond (Sinking)
   3305
               Fire Equipment Bond (Sinking)
  3306
               Corporation Bond (Sinking)
  3307
               Bond, General (Sinking)
  3308
               Sewer Bond (Sinking)
  3309
               Bridge Bond (Sinking)
  3310
               Urban Renewal Bond (Sinking)
  3311
               Redevelopment Bond (Sinking)
  3312
               Park Bond (Sinking)
  3313
               Transportation Bond (Sinking)
  3314
               Thoroughfare Bond (Sinking)
  3315
               Airport Bond (Sinking)
               Industrial Loan (Repayment)
  3316
               Flood Control Bond (Sinking)
  3317
  3318
               Lease Rental Payment
  3319
               Fire Equipment Debt
  3320
               Police Equipment Debt
  3321-3399
               Other Debt Service Funds Not Listed
Capital Projects Funds (4401-4699):
               Cumulative Capital Improvement - Cigarette Tax
  4401
  4402
               Cumulative Capital Development
  4403
               Park Nonreverting Capital
  4404
               Thoroughfare (mostly used for construction, not repairs and maintenance)
  4405
               Public Improvement
  4406
               Redevelopment Capital
  4407
               Industrial Park (construction projects, not operating costs)
  4408
               Industrial Development (capital projects costs, not operating)
  4409
               Police Equipment (equipment costs, not debt service)
  4410
               Fire Equipment (equipment costs, not debt service)
  4411
               Flood Control - Construction
  4412
               Fire Equipment Bond (Proceeds)
  4413
               Corporation Bond (Proceeds)
  4414
               Sewer Bond (Proceeds)
               Bridge Bond (Proceeds)
  4415
               Urban Renewal Bond (Proceeds)
  4416

# ORGANIZATION UNITS

## - DEF -

The following prescribed organization units are either required by statute or are currently in use by municipalities as found in annual reports filed with the State Board of Accounts. Further department names will be added as required. Unit numbers will be assigned by the municipality to accommodate its needs. For instance, 001-Plan Commission; 002-Controller; etc.

#### 001-199 General Government:

Plan Commission

Weights and Measures Inspector

Government Building

Information Technology Services

Controller

City Council

**Town Council** 

Purchasing

Board of Public Works

**Public Affairs** 

Community Planning and Development

Planning and Zoning

Clerk-Treasurer

City/Town Hall

City/Town Court

Law Department

Administration

Board of Public Works and Safety

Clerk

**Human Resources** 

Cemetery

**Building Department** 

Mayor

City/County Annex

Engineer

Records

Council of Governments

**Building Maintenance** 

Institutional Services

Board of Zoning Appeals

City/Town Attorney

## 200-299 Public Safety:

Jail

Emergency Ambulance/Medical Service

**Emergency Management** 

Board of Public Safety

Police Merit Board/Commission

Fire Department

Police Department

**Emergency Services** 

**Communications Department** 

**Traffic Department** 

Police Reports

Fire Reports

Parking Administration

Parking Meter

School Patrol
Federal Fire Academy
Fire Commission
Police Pension
Fire Pension
Crime Control
Juvenile Aid
Hydrant Rental
Volunteer Fire

300-399 Public Works:

Highway, Streets and Roads

Sanitation

400-499 Health and Welfare:

Health Welfare

500-599 Culture-Recreation:

Parks and Recreation

630-649 Urban Redevelopment and Housing

650-699 Economic Development and Assistance

900-949 Miscellaneous

950-999 Other

## **SECTION C - ORGANIZATION UNITS**

The various offices, departments, divisions or boards of general city or town government and their activities have been classified functionally as Organization Units. An Organization Unit shall be used as the primary description of each appropriation and disbursement in conjunction with objects of expense.

A city or town is, therefore, required to use organization units in its budget and in all accounting.

It is not the intent of this manual that elaborate cost systems be maintained to prorate indirect expenses. Direct expenses only shall be charged to each organization unit and those types of expenditures that are easily applicable.

### DIRECT DISTRIBUTION OF DISBURSEMENTS

Direct distribution for the purpose of this section shall mean the salary expenses of an employee or employees applicable to an organization unit; or the amount of a claim or of a specific item on a claim which is applicable to an organization unit. No proration of such direct expense is required unless specifically required by the explanations which follow or unless a different fund is affected.

The salary of an employee shall be charged entirely to the organization unit principally concerned with service. Claims for other expenses are also required to be charged to the organization unit which is principally concerned.

When ordering supplies or materials, the order should show what portion should be charged to each organization unit or fund concerned. The invoice be rendered in the same manner.

## SECTION D - OBJECTS OF EXPENSE

Objects of expense have been defined to mean an expenditure classification which applies to the article purchased or the service obtained. An object of expense is always used in conjunction with an organization unit and the proper fund. Major classifications of expenditures used with each organization unit and fund are as follows:

#### 1 PERSONAL SERVICES

This classification includes expenditures for salaries, wages and related employee benefits provided for all persons employed. Employee benefits include employer contributions to a retirement system, group health and life insurance, unemployment compensation, uniform allowance, self-insurance and similar benefits.

#### 2 SUPPLIES

This classification includes articles and commodities which are consumed or materially altered when used. Supplies should include office supplies, operating supplies, repair and maintenance supplies and other similar supplies.

### 3 OTHER SERVICES AND CHARGES

This classification includes expenditures for services other than personal services which are required by the city or town in the carrying out of its assigned functions or which are legally or morally obligatory on it. Types of services and charges would include professional services, communication and transportation, printing and advertising, insurance (other than group health, life and self-insurance), utility services, contracted repairs and maintenance, rentals, debt service expenditures for principal and interest payments and general long-term debt and other similar services and charges.

#### 4 CAPITAL OUTLAYS

This classification should include expenditures for acquisition of, or addition to, assets such as land, infrastructure, buildings, improvements other than buildings, and machinery and equipment.

## SECTION E - ACCOUNTING RECORDS

## SINGLE ENTRY CASH BASIS

Accounting records maintained on a cash basis are discussed and illustrated in subsequent chapters. The following basic forms are referred to in this section to state their purpose of implementing legal and accounting requirements as previously outlined.

City and Town Form No. 208 - Ledger of Receipts, Disbursements and Balances City and Town Form No. 209 - Ledger of Appropriations, Encumbrances, Disbursements and Balances

The Ledger of Receipts, Disbursements and Balances, frequently referred to as the fund ledger, is used for the purpose of listing chronological entries to disclose receipts, disbursements and balances of cash.

The Ledger of Appropriations, Encumbrances, Disbursements and Balances is used for the classification of disbursements and also controls and limits disbursements to budgetary appropriations. This form is designed for use with purchase orders.

Chapter 6 lists and explains the use of all prescribed forms.

## DOUBLE-ENTRY MODIFIED ACCRUAL BASIS ACCOUNTING SYSTEM

A double-entry modified accrual basis accounting system has been prescribed and is available for use of all cities and towns.

## **ACCOUNTING BASIS**

The accounting basis to be followed in recording transactions in the various funds will vary according to the purpose for which the fund was established. Generally, the funds can be classified into two categories:

- 1. Funds using accrual basis:
  - A, Proprietary Funds:
    - 1. Enterprise funds (particularly utilities)
    - 2. Internal Service Funds
  - B. Fiduciary Funds:
    - 1. Pension Trust Funds
    - 2. Investment Trust Funds
    - 3. Private Purpose Trust Funds
    - 4. Agency Funds
- 2. Funds using modified accrual basis:
  - A General Fund
  - B. Special Revenue Funds
  - C. Debt Service Funds
  - D. Capital Projects Funds
  - E. Permanent Funds

Characteristics of the modified accrual basis include:

- A. Revenues are recorded as received in cash except:
  - Revenues susceptible to accrual which are those revenues that are both measurable and available, with "available" meaning collectible within the current period or soon enough thereafter to be used to pay liabilities of the current year. Few types of revenues in budgetary funds have the characteristics of being both measurable and available
  - 2. Revenues of a material amount that are not received at the normal time.
- B. Expenditures are recorded on the accrual basis except for:
  - 1. Inventory type disbursements, which may be considered expenditures at the time of purchase or at the time the items are used.
  - 2. Prepaid expenses, which are not normally recorded.
  - 3. Interest on long-term debt, which should be normally an expenditure when due.
  - 4. The encumbrance method of accounting, which may be adopted as an additional modification.

## RECORDS OF UTILITIES OR ENTERPRISES

When complete double-entry systems are kept by the bookkeeping department of the utility or enterprise, it will not be necessary for the chief disbursing officer of the governmental unit to maintain similar accounts for the utility or enterprise. However, the chief disbursing officer of the governmental unit must maintain, at a minimum, a cash account for each fund of the utility or enterprise plus a fund balance account. This procedure will result in the cash balance(s) being equal to the fund balance(s). If this procedure is followed, the bookkeeping department of the utility or enterprise must maintain the records in accordance with generally accepted accounting principles.

It is also acceptable for the chief disbursing officer to keep within his records a complete double-entry system for a utility or enterprise.

## ADDITIONAL RECORDS REQUIRED

All existing prescribed or approved records are continued. For some cities and towns additional records will be necessary to summarize financial transactions to develop monthly totals for posting to the general ledger. New records or software program revisions may be necessary to provide the following:

- 1. General Ledger. The General Ledger is to be established, posted monthly on the double-entry basis with a self-balancing group of accounts for each fund. The general ledger will usually contain only control accounts if detail accounts are maintained in subsidiary ledgers.
  - 2. Cash Receipts Journal. The Cash Receipts Journal is to be kept for each fund and will provide a systematic means of accumulating cash receipt information to be posted to the General Ledger. If detail receipt (revenue) accounts are maintained in the present accounting records from which the receipts for each month can be obtained for posting to the general ledger, the use of this form will not be required; however, cities and towns may use this journal in lieu of the present ledger accounts, if desired.

- 3. Accounts (Claims) Payable Journal. The Accounts Payable Journal is designed to accumulate expenditure and accounts payable information month to month for posting to the General Ledger and Appropriation Ledger or at year end if expenditures are recorded on a cash basis throughout the year.
- 4. Cash Disbursements Journal. The Cash Disbursements Journal provides a means for summarizing cash expenditures for posting to the General Ledger. If the present ledger contains appropriation, encumbrance and expenditure accounts in the detail currently prescribed, such record will provide the information for summarizing cash expenditures for posting to the general ledger, and accounts payable are recorded only at year end, this journal will not be required.
- 5. Purchase Order Register. This form provides the monthly totals of encumbrances (purchase orders issued) and purchase orders liquidated for posting to the General Ledger. If encumbrances and liquidations are recorded in the present prescribed ledgers, from which the monthly totals may be obtained for posting to the general ledger, the use of this register will not be required.
- 6. General Journal. This form is to be used to make entries into the General Ledger that are not made from other journals, ledgers or registers.
- 7. Capital Assets Ledger. This ledger is to provide a record of the capital assets of the governmental unit.

## SECTION F - CHART OF ACCOUNTS

Following is the chart of accounts and some illustrative journal entries. The chart of accounts for expenditures follows the numbering system of the budget forms except the number 4 has been added as the first digit. Suggested numbers for hand posted systems are also included.

Note: Use only those accounts needed for your municipality.

### **ILLUSTRATED ENTRIES**

In order to show the interrelationship of the balance sheet accounts and the method of posting them, some typical journal entries are illustrated below for the General Fund. Entries would be similar for other budgetary funds.

The first group of entries are those that would be required to initially set up the double-entry system.

The second group illustrates various transactions. These entries are presented in summary form for an entire period. Actual entries would be made from totals of postings to subsidiary ledgers or journals on a monthly basis.

The third group illustrates the method of closing the nominal or temporary accounts at the end of the year.

The following accounts have been selected from the chart of accounts to present the illustrated entries:

## Asset and Budgetary Accounts That Carry Debit Balances

- 101 Cash
- 101.1 Petty Cash
- 101.2 Cash Change
- 141 Inventories Materials and Supplies
- 151 Investments Noncurrent
- 171 Estimated Revenues
- 24 #Expenditures
- 243 #Encumbrances

## Liability, Budgetary and Fund Balance Accounts That Carry Credit Balances

- 172 #Revenues
- 202 Accounts Payable
- 241 #Appropriations
- 244 Fund Balance Reserved for Encumbrances Current Year
- 245 Fund Balance Reserved for Encumbrances Prior Year
- 246 Fund Balance Reserved for Inventories

## **ILLUSTRATED JOURNAL ENTRIES**

## **Opening Entries**

(1)	Cash	10,000	
	Petty Cash	100	
	Cash Change	500	
	Fund Balance		10,600
	To set up cash balances and fund balance.		

<sup>#</sup> These are control accounts for which detailed subsidiary accounts are provided in the budgetary accounting system previously prescribed.

(2)	Investments – Noncurrent Fund Balance To set up cost of investments not previously recorded.	5,000	5,000
(3)	Inventories - Materials and Supplies Reserved for Inventories To set up initial materials and supplies inventory (These accounts are optional and would not ordinarily be used).	2,000	2,000
(4)	Fund Balance    Accounts Payable    Reserve for Encumbrances - Prior Year Set up prior year encumbrances and accounts payable to be carried forward to current year. This entry would be made only when double entry records are established for the first time. The Reserve for Encumbrance Account will ordinarily be carried forward from the previous year.	1,500	1,000 500

The above entries set up the basic General Ledger for the first time.

## **Transaction Entries**

(5)	Estimated Revenues	100,000	
	Appropriations Fund Balance To establish estimated revenues and appropriations at the beginning of the budget year.		95,000 5,000
(5a)	Cash Revenues To record revenue received.	102,000	102,000
(6)	Encumbrances Fund Balance - Reserved for Encumbrances - Current Year To record purchase orders issued. Amount should be taken from Purchase Order Register or Ledger of Appropriations, Encumbrances, Disbursements and Balances.	70,000	70,000
(6a)	Fund Balance - Reserved for Encumbrance - Prior Year Expenditures Accounts Payable To record the claims filed per the Register of Claims.	400 69,000	69,400
(6b)	Expenditures Cash To record payroll paid. (May be recorded through Accounts Payable.)	22,000	22,000
(6c)	Fund Balance - Reserved for Encumbrances - Current Year Encumbrances To record encumbrances (Purchase Orders) liquidated for current year.	69,000	69,000
(7)	Accounts Payable Cash To record the payment of vendors claims.	65,000	65,000

(8) Fund Balance - Reserved for Encumbrances - Prior Year Fund Balance

100

100

NOTE: Rather than recording encumbrances and accounts payable throughout the year in the general ledger, the encumbered balance and the amount of accounts payable may be recorded at year end only. This would be done by the following entries:

Encumbrances 1,000

Fund Balance - Reserved for Encumbrances 1,000

To record the outstanding encumbrance at year end.

Expenditures 5,400

Accounts Payable 5,400

To record unpaid bills at year end.

If this procedure is followed cash disbursements throughout the year would be debited to expenditures. It is expected that most cities and towns will use this method initially.

(9) Cash 2,600 Investments

Investments 2,500
Revenues 100

To record liquidation of investments and interest received.

(10) Investments 3,000

Cash 3,000

To record purchase of investments.

### Closing Entries

(a) Appropriations 95,000

Fund Balance3,000Expenditures91,000Encumbrances1,000

(b) Revenues 102,100

Estimated Revenue 100,000 Fund Balance 2,100

**NOTE:** It may be desirable for the governmental unit to set up a separate appropriation sheet in the appropriation ledger in the new year in the amount of the encumbrance carried forward from the prior year for each expenditure classification. By doing this all expenditures would be matched with an appropriation rather than the expenditures relating to prior year encumbrances being charged directly to Reserve for Encumbrances.

NOTE: Amounts shown in parenthesis ( ) denote credit balance.

## LIST OF BALANCE SHEET ACCOUNTS

Following is a list of balance sheet accounts and an explanation of which fund types and funds might contain account activity. The fund types and account groups are abbreviated in the following manner:

G	General Fund
SR	Special Revenue
DS	Debt Service
CP	Capital Projects
PF	Permanent Funds
EF	Enterprise Funds
IS	Internal Service
PT	Pension Trust
IT	Investment Trust
PP	Private-Purpose Trust
AF	Agency Funds

# SECTION G - OPENING ACCOUNTING RECORDS FOR NEW YEAR

The following procedures shall be followed in opening your accounting records for each new budget (fiscal) year. In the following discussion, we will indicate prescribed forms for use in a manual, hand posted system with the understanding the same basic procedures are to be implemented for computerized systems. A new set of forms should be started for each year's financial and budgetary transactions.

A City and Town Form No. 208 (Rev. 1967), Ledger of Receipts, Disbursements and Balances, shall be prepared for each fund of the municipality. In the receipts section, the date January 1, 20XX with explanation "Balance Forwarded" shall be entered. The preceding year's December 31 closing cash balance shall be entered in the balance column. All cash receipts and disbursements of the fund during the year shall be posted individually or by the block posting to this fund control record. This record will furnish each fund's cash balance throughout the year. The columns of the ledger should be totaled each month with the monthly and year to date totals. The ledger sheets shall be opened and maintained for both budgeted and non-budgeted funds (such as investments, utilities, etc.).

A City and Town Form No. 209 (Rev. 1967), Ledger of Appropriations, Encumbrances, Disbursements and Balances, shall be prepared for each budgeted, appropriated fund of the municipality. (No appropriation ledger sheets will be needed for non-budgeted funds such as investments and utility funds.) The major appropriation categories for each fund and department certified to you by the Department of Local Government Finance (on the computer printout entitled 20XX Budget Appropriation) should be entered in date column "January 1, 20XX," description column (20XX Department of Local Finance Budget Order). The total for each appropriation category should be entered in the appropriation balance column. A separate ledger sheet should be prepared for each fund, department and budget class listed in the Department of Local Finance order. The following examples should be utilized for your particular needs.

## Departmental Budgets - All Cities and Larger Towns

General Fund - Control (Ledger Sheet) - All Departments

General Fund - Clerk-Treasurer - Control (Ledger Sheet)

General Fund - Clerk-Treasurer - 100-Personal Services

General Fund - Clerk-Treasurer - 200-Supplies

General Fund - Clerk-Treasurer - 300-Other Services and Charges

General Fund - Clerk-Treasurer - 400-Capital Outlay

General Fund - Mayor - Control (Ledger Sheet)

General Fund - Mayor - 100-Personal Services

General Fund - Mayor - 200-Supplies

General Fund - Mayor - 300-Other Services and Charges

General Fund - Mayor - 400-Capital Outlay

(Continue for each General Fund Department)

## Non-Departmental Budgets - Smaller Towns Only

General Fund - Control (Ledger Sheet)

General Fund - 100-Personal Services

General Fund - 200-Supplies

General Fund - 300-Other Services and Charges

General Fund - 400-Capital Outlay

# Departmental Budgets - All Cities and Larger Towns

For All Other Funds - All Municipalities

Motor Vehicle Highway Fund - Control (Ledger Sheet)

Motor Vehicle Highway Fund – 100-Personal Services

Motor Vehicle Highway Fund - 200-Supplies

Motor Vehicle Highway Fund – 300-Other Services and Charges

Motor Vehicle Highway Fund – 400-Capital Outlay

Local Road and Street Fund - Control (Ledger Sheet)

Local Road and Street Fund – 100-Personal Services

Local Road and Street Fund – 200-Supplies

Local Road and Street Fund - 300-Other Services and Charges

Local Road and Street Fund - 400-Capital Outlay

(Continue for each budgeted, appropriated fund.)

For those municipalities wishing to account for their disbursements in greater detail than provided in the foregoing budgetary accounting requirements, City and Town Form No. 209A (1981) may be used. This form may be used to supplement City and Town Form No. 209 (Rev. 1967), Ledger of Appropriations, Encumbrances, Disbursements and Balances. The form provides spaces for headings and several columns for spreading each disbursement into as much detail as needed.

## SECTION H - UNIFORM SYSTEM OF ACCOUNTS FOR WATER AND WASTEWATER UTILITIES

## CLASS A AND B WATER OPERATING REVENUE ACCOUNTS

## **Estimated Useful Lives of Capital Assets**

## Background:

Generally accepted accounting principles (GAAP) require, in most cases, that capital assets be depreciated. Depreciation is the systematic and rational allocation of the historical cost of a capital asset over its useful life. The estimated useful life assigned to a capital asset will directly affect the amount of depreciation expense reported each period in an accrual-based operating statement. Therefore, it is important to the quality of financial reporting that governments establish reasonable estimates of the useful lives of all of their depreciable capital assets.

## Recommendation:

The best source of relevant information on the estimated useful lives of a government's capital assets normally is its own past experience with similar assets. In situations where the documentation of a government's own past experience for a given type of capital asset is not adequate for this purpose, a government should profit as much as possible from the experience of other governments and private-sector enterprises. At the same time, a government should make whatever adjustments are needed to estimated useful lives that were obtained from others to ensure that such estimates are appropriate to its own particular circumstances. It is especially important that a government consider the potential effect of each of the following factors when depending on the experience of others:

- Quality. Similar assets may differ substantially in quality, and hence in their useful lives, because
  of differences in materials, design and workmanship. For example, an asphalt road will not have
  the same useful life as a concrete road. Likewise, the depth of the material used for paving
  purposes, as well as the quality of the underlying base, will also affect the useful life of a road;
- Application. The useful life of a given type of capital asset may vary significantly depending upon
  its intended use. For example, a residential street may be expected to have a longer useful life than
  a major arterial thoroughfare because of differences in the type and volume of traffic; and

# **Estimated Useful Lives of Capital Assets - Continued**

• Environment. Environmental differences among governments can have an important impact on the useful lives of their respective capital assets. For instance, the useful life of a road in a climate subject to extremes in temperature is likely to be different from that of a similar road located in a more temperate climate. Also, regulatory obsolescence may shorten the service life of some capital assets used in connection with highly regulated activities (e.g., utilities).

The potential effect of each of the factors just described may be mitigated or exacerbated as a consequence of a government's maintenance and replacement policy. For example, the potential for road damage is increased in a cold environment when cracks are not promptly repaired, because water settling in the cracks will expand and contract, thereby accelerating the initial deterioration represented by the crack itself.

Once established, estimated useful lives for major categories of capital assets should be periodically compared with a government's actual experience and appropriate adjustments should be made to reflect this experience.

Depreciation is a financial reporting concept. Therefore, all of the considerations just discussed are only of concern to the extent that they could have a material impact on a government's financial statements.

#### Committee:

Accounting, Auditing, and Financial Reporting (CAAFR)

#### Notes:

This best practice was previously titled Determining the Estimated Useful Lives of Capital Assets.
