Indianapolis, IN 46204

Dear Directors:

Pursuant to Indiana Code 3-11-18.1-3(h) enclosed please find the Johnson County Election Board Order 2012-01 and the Vote Center Plan that was unanimously adopted by the Johnson County Election Board. It means a great deal to the Board and to myself to be involved in this innovative, progressive change for Johnson County.

It is our intention to continuously modify this plan to fit current Indiana legislation and to revise the plan based on our experiences with vote centers and the needs of our voters.

Please let me know if you have questions or concerns regarding any of our documentation.

Regards,

Sue Anne Misiniec  
Johnson County Clerk

# MESSAGE FROM THE CLERK

Citizens of Johnson County,

Since the vote center concept became a reality in Indiana elections in 2007, leaders in Johnson County have been carefully observing its effect on voters, county budgets, and on the election process.

The following pages layout our plan to make vote centers a reality in Johnson County. The vote center concept gives any voter in Johnson County the opportunity to cast their ballot at any vote center location throughout the county. No one is restricted to one polling place on Election Day. In addition to making it easier for voters on Election Day, the vote center concept also calls for increased early voting opportunities at what are called "satellite vote centers" that are open prior to Election Day.

The most common question we hear in elections is "Where is my polling place?" or "Why can't I just vote at the polling place across from where I work or drop off the kids for school?" A common complaint we hear is "I can't make it back to the polls by 6:00pm on Election Day." Vote centers address these common voter concerns.

Another important part of the vote center concept is the financial impact it will have on Johnson County. Having to staff fewer locations and provide less equipment and support on Election Day will help the county to realize a cost savings on items such as rental costs, poll worker costs, and equipment costs.

By moving to vote centers, voter convenience is improved; election administration is streamlined and made simpler; and this improves the county's long-term fiscal stance when it comes to elections.

Most Americans have been voting under the same process for over 150 years. Vote centers represent a major step forward and bring elections into the 21<sup>st</sup> Century.

I want to thank all the wonderful people who have worked so hard and in a bipartisan manner to move the county toward vote centers. Johnson County should be proud of its community leaders who work together for what will be best for all citizens. To all the churches, libraries, community centers, and businesses that have willingly allowed us to use their facilities as vote centers, we are forever grateful.

Sincerely,

Sue Anne Misiniec  
Johnson County Circuit Court Clerk

# INTRODUCTION

## **What is a Vote Center?**

A vote center is a place where any registered voter in the county can vote on Election Day. Vote centers bring to bear new technologies to revolutionize the voting process. Instead of traditional precinct-based polling sites on Election Day, the vote center concept calls for vote center locations where any registered voter from any precinct can go to cast their ballot and retrieve their correct ballot style. Every precinct ballot style is available at every vote center location. In addition, because of electronic poll books, when a voter signs in at one vote center, every other vote center's electronic poll book is automatically updated to reflect that voter as having cast their ballot.

## **Why Johnson County?**

Since 2007, Indiana has been experimenting with the vote center concept through a pilot program launched by the Indiana Secretary of State's office and the Indiana General Assembly. In 2011, the Indiana General Assembly passed legislation to allow any Indiana county to pursue becoming a vote center county. Since 2007, government and civic leaders in Johnson County have been observing vote centers' impact on voters and election administration. The pilot programs showed that vote centers streamlined election administration and improved voter convenience. In addition, vote center counties have seen a cost reduction in their elections over time.

Because of these results from the pilot programs in Indiana (which can be found at [www.VoteCenters.IN.gov](http://www.VoteCenters.IN.gov)), leaders in Johnson County decided to pursue this exciting new approach to election administration for the 2012 Election Cycle.

## **What is required to become a Vote Center County?**

Indiana Code 3.11-18.1-3 sets forth the requirements for a county to become a vote center county. The first step to becoming a vote center county requires a draft vote center plan which details specifics of how such a transition would occur. This document serves as the vote center plan for Johnson County. Indiana Code 3-11-18.1-4 sets forth the requirements of a county's vote center plan. Once a draft plan is submitted for public review and comment at a public meeting of the County Election Board, the opportunity for the public to review the draft plan and submit comments must remain open for 30 days. After 30 days of opportunity for the public to review and comment on the draft plan, the County Election Board holds another public meeting to consider all public comments and then votes to adopt the vote center plan as is or as amended. In order for the county to become a vote center county, the County Election Board must by unanimous vote approve a vote center plan, and the County Commissioners and County Council must approve by majority vote resolutions approving the status of the county as a vote center county.

If all three of those things occur, the plan must be filed with the Indiana Election Division and Johnson County will officially become a vote center county. Any future amendments to the plan or a decision to return to traditional precinct-based elections must be voted on by unanimous vote of the County Election Board and filed with the Indiana Election Division.

# OVERVIEW OF THE PROCESS

## **The Vote Center Task Force**

Once a vote center plan is adopted by the County Election Board and filed with the Indiana Election Division, the County Election Board, the County Election Staff, County IT Staff, and the Indiana Team from Election Systems and Software (Collectively known as "the Vote Center Task Force") will move forward with preparing for this major change in Election Administration for the 2012 Election Cycle.

The Task Force is made up of people with tremendous experience in the election process. The County Election Board has a track record of working in a bipartisan way to ensure the process is free and fair. The County Election Staff works hard year round preparing Johnson County for elections. Our County IT Staff continue to be a tremendous asset to this process. Our voting machine vendor brings to the table experienced managers who both understand Indiana law, the vote center concept, and have an intimate knowledge of electronic poll books.

## **The Voting Equipment**

Johnson County's current voting system (the iVotronic) is perfectly suited for the vote center concept. The iVotronics have been used in numerous jurisdictions around the country in a vote center context. And, they were the very first machines in Indiana to be used in a vote center context when Wayne County, Indiana used them in the 2007 Municipal Election.

Since they are Direct-Recording Electronic (DRE) touch screen machines, Johnson County will have the unique advantage of being totally paperless in this transition (with the exception of the absentee-by-mail process). Provisional ballots for every ballot style in each election will also be available on iVotronics. Provisional ballots marked on iVotronics will be kept separate from regular ballots so that the County Election Board can make a determination whether to accept or reject each individual provisional ballot following Election Day.

We foresee no issues whatsoever with the voting system currently in place. In the long run, because we will have fewer voting locations on Election Day, when we prepare to update our voting system, we will buy fewer units. Currently, because the vote center concept will not call for the use of all our iVotronics at once, we will have the opportunity to rotate the use of iVotronics election to election and have multiple backup units available.

Because iVotronics are DRE touch screen machines, the requirement in Indiana Code 3-11-18.1-14 that requires ballots to be kept separately by precinct is easily met. Just as in traditional elections, at the end of Election Day, votes will still be tallied and reported by precinct.

## **Electronic Poll Book**

Johnson County has reviewed numerous electronic poll book options and has decided to recommend to the Johnson County Commissioners to utilize the Election Systems and Software ExpressPoll-5000s, pending contract negotiations ongoing with the Johnson County Commissioners. This electronic poll book will be securely connected to every vote center and to the County Election Board at the Johnson

County Courthouse on Election Day. It will securely connect every satellite vote center. The ExpressPoll-5000 meets all standards set out by Indiana law under IC 3-11-8-10.3. In addition, our vendor election managers have intimate knowledge and experience with electronic poll books.

### **E-Poll Book Description and Security Details**

The ExpressPoll-5000 Electronic Poll Book hardware and software is designed to function as a secure voter validation system. The ExpressPoll-5000 uses a dedicated hardware enclosure which provides a strong, secure enclosure for the unit.

The ExpressPoll-5000 enclosure stores voter validation data using redundant solid state non-volatile compact flash memory with "no moving parts." Solid state compact flash memory is used in place of a fragile hard disk drive, as the electronic poll books will receive the same rough handling as tabulation equipment. Hard disk drives, with moving parts, are prone to hard drive crashes when they receive rough handling. Electronic poll books must function properly to keep voter lines moving on Election Day, and the ExpressPoll-5000 ensures this.

When a poll worker turns on the Expresspoll-5000, the system will cycle to a screen containing one icon, labeled "Launch ExpressPoll". The poll worker simply touches this icon to boot-up the ExpressPoll software. This simplifies poll worker training, as a series of icons that are unrelated to the system's primary function, voter validation, are not accessible to the poll worker. During Election Day, a poll worker using the ExpressPoll system cannot open other programs on the unit, as it is a dedicated electronic poll book. If a standard laptop or notebook PC is used to support the electronic poll book software, a collage of icons can appear on the initial screen when boot-up occurs, confusing a poll worker and possibly enabling them to enter other software applications on the PC which could provide a security risk. In addition, the electronic poll books cannot be accessed without the coordinated action of two (2) precinct election officers who are not members of the same political party. The precinct election officers will be provided passwords.

When a voter arrives at the vote center, his/her eligibility will be brought up on an ExpressPoll-5000 screen. In a primary election, the clerk will indicate which party ballot the voter has requested (Republican or Democrat). The system will record the time that the voter was checked in and the records will be updated back to the Johnson County Clerk's Office/Voter Registration office main server. The updated record will be available instantly to the County Election Board and the electronic poll books used by precinct election officers at all other vote centers in Johnson County. If a voter attempts to vote again, the database will show him/her to be ineligible.

The dedicated ExpressPoll-5000 enclosure is not susceptible to theft, unlike an off-the-shelf notebook computer which can be enticing to a thief.

The removable compact flash memory card is physically stored in an enclosed compartment on the top of the ExpressPoll unit. The door covering the compact flash memory card compartment can be secured using a security tag with an audit number which will expose any attempt to physically tamper with the memory card.

Data stored in the ExpressPoll-5000 redundant compact flash memory can be encrypted using sophisticated RC-4 data encryption. In addition, Johnson County can deploy VPN routers on WAN to provide native data encryption to transmissions.

The use of an election official's or poll worker's user ID and password provides access to accomplish designated tasks within the system. Every log-on attempt generates an audit log event, so it is very easy to read the audit log and determine what activities were completed by a specific person. The ExpressPoll-5000 units are issued by device ID number in carrying cases, which can be sealed with a numbered seal.

Each ExpressPoll will have a unique device ID for controlling the log files after an election. This ID is numeric and should be 6 characters. This number becomes the title of the log file (#####.log), and also is the first six characters of the provisional ID when using the auto provisional ID option in ExpressPoll unit. The hard sided ExpressPoll-5000 carrying case can be locked, and has a latch that can be secured with security (numbered) seals.

A strong security plan with processes that guide usage in a recommended best practice is in the administrator's manual. Two levels of passwords and smart cards are required to set certain configuration options. Election officials can mandate using simple passwords, pass phrases, or two-phase authentication using smart cards and passwords.

Additional password protections are provided at the server and these passwords can be set to expire.

Encrypted user logs are available to identify who has used and modified the system and devices; reports of all election functions performed on the system are available; and statistics can be captured of open, close, log-on, log-off by user ID.

The audit log file contains a time stamp of every transaction, providing the date and time of each voter processed. This log file can be encrypted using one of the following industry standard algorithms

- RC4
- AES-128 in OFB mode
- AES-128 in CCM mode
- AES-256 in OFB mode

The ExpressPoll-5000 USB ports can be physically covered to restrict tampering.

In the future, should electronic poll books require federal certification; the use of a dedicated electronic poll book enclosure will become increasingly important to meet federal certification requirements, as internal hardware components will have to remain consistent to meet the certification standards. A dedicated enclosure will allow jurisdictions to continue to meet these strict standards, while the use of an off-the-shelf computer will not, as replacement components for an off-the-shelf computer will not provide the consistency required to meet federal certification standards.

## Method for Providing Data

The ExpressPoll-5000 comes with printers that will attach to each unit that will allow precinct election officials or officials at election central to print lists of voters who have voted by precinct.

## Satellite Vote Centers

A key element to the success of the vote center concept has been the concept of satellite vote centers. Satellite vote centers are places where any voter in the county may vote early absentee-in-person. As required under IC 3-11-10-26.3 and IC 3-11-18.1-4(16), Johnson County will designate at least two satellite vote centers, in addition to the courthouse, and at least one of those sites will also be a vote center on Election Day and will be open for voting the two preceding Saturdays to Election Day. In vote center counties, early voting percentages have risen dramatically, allowing the fewer locations on Election Day itself to work well. To review early voting percentages by county and election, visit <http://www.in.gov/sos/elections/2400.htm>.

## Poll Workers

Johnson County will require fewer poll workers to administer Election Day vote centers. However, the use of poll workers will increase during the week prior to an Election Day, in order to staff the satellite vote centers. Each satellite vote center and Election Day vote center will have at least one traditional precinct election board made up of an Inspector, at least two election judges of opposite parties, and then at least two clerks of opposite parties, depending on the election size and location of the vote center. Training procedures for poll workers will remain largely the same.

## Vote Center Layout

Vote centers will be set up differently based on location, but the general layout of a vote center in Johnson County will be as follows:

(Figure 1)

## Voter Education Efforts

Johnson County has a full media and community outreach strategy that will involve press releases to widely circulated newspapers, television stations, and radio stations. In addition, we will use our county website ([www.co.johnson.in.us](http://www.co.johnson.in.us)) and the state's voter information website ([www.IndianaVoters.com](http://www.IndianaVoters.com)) to prepare Johnson County citizens for this change. Moreover, voters may receive a postcard in the mail prior to the initial election, informing them of this change and where each vote center is located, based upon available funding. We will also plan to attend community events where the Circuit Court Clerk and her staff will speak about the change. Here is a copy of our **sample press release**:

### Johnson County to implement vote centers

FOR IMMEDIATE RELEASE  
DATE

*New voting concept will increase convenience and save county money*

(CITY)- Effective [Insert date of Indiana Election Division filing], Johnson County will officially gain status as a vote center county. Johnson County will be the sixth Indiana county to switch to the vote center model.

"I am so excited that Johnson County has decided to make the switch to vote centers," County Clerk Susie Misiniec said. "It's taken a lot of planning and hard work from all those involved, but the benefits to the voters of our county will be well worth the effort we have spent implementing the new model."

Simply put, vote centers are polling places where any eligible voter in the county may go to vote. They eliminate the need for traditional polling places and allow voters in the county more flexibility regarding when and where they cast their ballots. Vote centers throughout the county are linked by secure internet connections and an electronic poll book is instantaneously updated as ballots are cast. In addition, significant cost saving are expected over time.

Wayne, Tippecanoe and Cass counties piloted the vote center program in Indiana from 2007-2010. Now, because of the success those counties experienced, both the Indiana House and Senate passed legislation that allows all Indiana counties the option of becoming a vote center county.

Johnson County will implement the use of vote centers during the upcoming May 8, 2012 Primary Election.

"Ultimately, our goal is to make voting easier and more convenient for the voters of our county while also saving county money," County Clerk Misiniec said. "As always, we value the feedback of our constituents and encourage you to voice your questions or concerns."

To learn more about how vote centers operate, to review counties' vote center plans or to access research on vote centers and their success, visit [www.VoteCenters.IN.gov](http://www.VoteCenters.IN.gov) or [www.co.johnson.in.us](http://www.co.johnson.in.us).

# VOTE CENTER AND SATELLITE VOTE CENTER LOCATIONS

Johnson County plans to utilize 19 vote center locations for the 2012 Election Cycle. Indiana Code 3-11-18.1-6 only requires one vote center per 10,000 active voters, but the Johnson County Election Board plans to provide one vote center per roughly 4,800 active voters.

The following are vote center locations to be open on Election Day:

1. Mt. Pleasant Christian Church, 381 N. Bluff Road, Greenwood, IN 46143
2. White River Public Library, 1664 Library Boulevard, Greenwood, IN 46143
3. Greenwood Community Center, 100 Surina Way, Greenwood, IN 46143
4. Jonathon Byrd's Cafeteria, 100 Byrd Way, Greenwood, IN 46143
5. Rocklane Christian Church, 4430 Rocklane Road, Greenwood, IN 46142
6. Mt. Auburn Methodist Church, 3100 W. Stones Crossing Road, Greenwood, IN 46143
7. Greenwood Christian Church, 2045 Averitt Road, Greenwood, IN 46142
8. Clark Pleasant Public Library, 530 Tracy Road, New Whiteland, IN 46184
9. GracePoint Church, 330 Whiteland Road, New Whiteland, IN 46184
10. Bargersville Town Hall, 24 N. Main Street, Bargersville, IN 46106
11. Franklin Church of Christ, 3600 N. Morton Street (US31), Franklin, IN 46131
12. Franklin Community Center, 396 Branigan Boulevard and State Street, Franklin, IN 46131
13. Grace United Methodist Church, 1300 E. Adams Drive, Franklin, IN 46131
14. Johnson Memorial Hospital, Building 1159, 1159 W. Jefferson Street, Franklin, IN 46131
15. Fair Haven Christian Church, 1476 W. C.R. 300 S., Trafalgar, IN 46181
16. Trafalgar Public Library, 424 S. Tower Street, Trafalgar, IN 46181
17. Princes Lakes Town Hall, 14 E. Lakeview Drive, Nineveh, IN 46164
18. American Legion Post 233, 500 Memorial Drive, Edinburgh, IN 46124
19. Edinburgh Public Library, 119 W. Main Cross Street, Edinburgh, IN 46124

The following are satellite vote center locations to be open Saturday, April 28, 2012, Monday, April 30, 2012 through Saturday, May 5, 2012, and Election Day:

1. Mt. Pleasant Christian Church, 381 N. Bluff Road, Greenwood, IN 46143
2. Trafalgar Public Library, 424 S. Tower Street, Trafalgar, IN 46181

The following are satellite vote center locations to be open Monday, April 30, 2012 through Friday, May 4, 2012 and Election Day

1. Jonathan Byrd's Cafeteria, 100 Byrd Way, Greenwood, IN 46143
2. Franklin Church of Christ, 3600 N. Morton Street (US 31), Franklin, IN 46131
3. Franklin Community Center, 396 Branigan Boulevard and State Street, Franklin, IN 46131

4. Edinburgh Public Library, 119 W. Main Cross Street, Edinburgh, IN 46124

NOTE: Voters from every precinct may vote at any vote center location or satellite vote center location. Every ballot style for each precinct in Johnson County will be available at each vote center and each satellite vote center (Depending on the Election, the number of ballot styles varies greatly; therefore, this plan does not attempt to provide a specific number of ballot styles). Each vote center and early vote center will be connected to all other voter centers or early vote centers (as well as to the County Election Board) via electronic poll books connected via secured internet lines. At least two electronic poll book terminals will be available at each location. Each location, depending on the election, will also have at least one precinct election board, meaning one inspector, at least two judges of opposite parties, and at least two poll clerks of opposite parties. (See Appendix A for Certification that each location above is accessible to voters with disabilities as required by the Help American Vote Act and the Americans with Disabilities Act)

## SECURITY

### Key Players

The following narrative describes what would happen in case of an emergency during an election. The first responders to any emergency, either man-made or natural event, are local citizens. Poll workers, volunteers, and police and fire personnel will be the first to identify the problem. The next level of response will come from the Johnson County Commissioners and the Johnson County Election Board in cooperation with the local emergency management agency. If deemed necessary by the County Commissioners, the Office of the Governor (whose resources included IDHS, the Indiana National Guard, and the state police) and the Office of the Secretary of State's Election Division will be contacted for emergency assistance. In addition, any action taken either by the Office of the Governor or the Office of the Secretary of State may be taken in consultation with the Office of the Attorney General to ensure that interpretations of the laws are correct.

### General Situations

Five general situations exist in which decision-making may occur regarding the election process and activities in Johnson County:

- Situation Normal – the status quo exists and the process moves forward according to normal laws and procedures.
- Isolated Emergencies – individual precincts or parts of the county experience disruption to the election process and local agencies respond accordingly.
- Regional Emergencies – an emergency involving Johnson County and neighboring counties exists and a state-level response is required.
- Catastrophic Emergencies inside Indiana – a large disaster exists that diverts the resources and attention of the citizenry and a state-level response in cooperation with the federal government is required.
- Catastrophic Emergencies outside Indiana – a large disaster exists in the United States that diverts the resources and attention of the citizenry and a federal-level response is required.

## **Local Preparation and Response**

The Johnson County Commissioners have worked closely with the local emergency management director, the county sheriff, and local police and fire stations to ensure Johnson County is prepared for emergencies. In addition, the Johnson County Commissioners will be in close communication with the County Election Board should any emergency occur on or surrounding the election process.

In this endeavor to be prepared for an emergency that could occur on or surrounding an Election Day, Johnson County has taken the following steps prior to each Election Day:

- Review of IC 3-11-8-3.2 which outlines procedures for changing polling locations.
- Review of state's Quantity Purchasing Agreements (QPA) whereby Johnson County may buy or lease emergency generators and other supplies.
- Contact is made with power companies to ensure all vote centers have power on Election Day.
- The Johnson County Information Technology Department and Election Systems and Software will have employees at the Courthouse and in the field on Election Day in the event of any disruption.
- In the event of a power failure at a vote center, the voting machines and e-poll books will be switched automatically to a battery backup.
- In the event that the internet is inaccessible at a vote center location, the eligibility of a voter will be ascertained from records maintained by the Johnson County Voter Registration office via telephone/cell phone.

# **I.C. 3-11-18.1-4 COMPLIANCE CHECKLIST**

## **Explanation**

The following 17 items are the requirements for a vote center plan as defined in Indiana Code 3-11-18.1-4. Following each of the 17 requirements a page number listed in red type references where in this Johnson County Vote Center Plan the particular requirement(s) is met.

(1) The total number of vote centers to be established.

See Page 10

(2) The location of each vote center.

See Page 10

(3) The effective date of the order.

The order shall take effect immediately upon the filing of the order with the Indiana Election Division, pursuant to I.C. 3-11-18.1-8.

(4) The following information according to the computerized list (as defined in IC 3-7-26.3-2) as of the

date of the order: (A) The total number of voters within the county. (B) The number of active voters within the county. (C) The number of inactive voters within the county.

See Appendix D

(5) For each vote center designated under subdivision (2), a list of the precincts whose polls will be located at the vote center consistent with section 13 of this chapter.

See Page 11 "Note" for explanation that all precincts will be located at all vote centers. See Appendix D for a list of current county precincts.

(6) For each vote center designated under subdivision (2), the number of precinct election boards that will be appointed to administer an election at the vote center.

See Page 11 "Note" for an estimation of precinct election boards at each designated vote center location.

(7) For each precinct election board designated under subdivision (6), the number and name of each precinct the precinct election board will administer consistent with section 13 of this chapter.

See Page 11 "Note" for explanation that all precincts will be located at all vote centers. Therefore, all precinct election boards will administer elections for all precincts in the county. See Appendix D for a list of current county precincts.

(8) For each vote center designated under subdivision (2), the number and title of the precinct election officers who will be appointed to serve at the vote center.

See Page 11 "Note" for an estimation of the number of precinct election officials at each vote center location. Titles for precinct election officials will remain the same (also see Page 11 "Note").

(9) For each vote center designated under subdivision (2): (A) the number and type of ballot variations that will be provided at the vote center; and (B) whether these ballots will be: (i) delivered to the vote center before the opening of the polls; or (ii) printed on demand for a voter's use.

See Page 11 "Note" for the explanation that every ballot style will be available at each satellite vote center and each vote center. The exact number of ballot styles will vary by election. See Page 5 "The Voting Equipment" for a description of how ballots will be provided to voters. Provisional ballots will be issued digitally on iVotronics and kept separate from regular ballots so that each provisional ballot can be ruled on separately by the County Election Board following an election. All ballots will be delivered to the vote center before the opening of the polls.

(10) A detailed description of any hardware, firmware, or software used: (A) to create an electronic poll list for each precinct whose polls are to be located at a vote center; or (B) to establish a secure electronic connection between the county election board and the precinct election officials administering a vote center.

See Pages 5, 6, and 7 for a complete description of the e-poll book equipment and procedures to be used in Johnson County.

(11) A description of the equipment and procedures to be used to ensure that information concerning a voter entered into any electronic poll list used by precinct election officers at a vote center is immediately accessible to: (A) the county election board; and (B) the electronic poll lists used by precinct election officers at all other vote centers in the county.

See Pages 5, 6, and 7 for a complete description of the e-poll book equipment and procedures to be used in Johnson County.

- (12) For each precinct designated under subdivision (5), the number of electronic poll lists to be provided for the precinct.  
Each vote center will have every precinct's poll list in electronic form. At least two electronic poll books will be available at each vote center. (See Page 11 "Note")
- (13) The security and contingency plans to be implemented by the county to do all of the following: (A) Prevent a disruption of the vote center process. (B) Ensure that the election is properly conducted if a disruption occurs. (C) Prevent access to an electronic poll list without the coordinated action of two (2) precinct election officers who are not members of the same political party.  
See Pages 11 and 12 for a description of Johnson County's security process. See Pages 5 and 6 for a description of the security relating to the electronic poll book that will be used in Johnson County.
- (14) A certification that the vote center complies with the accessibility requirements applicable to polling places under IC 3-11-8.  
See Appendix A.
- (15) A sketch depicting the planned layout of the vote center, indicating the location of: (A) equipment; and (B) precinct election officers; within the vote center.  
See Page 8.
- (16) The total number and locations of satellite offices to be established under IC 3-11-10-26.3 at vote center locations designated under subdivision (2) to allow voters to cast absentee ballots in accordance with IC 3-11. However, a plan must provide for at least one (1) vote center to be established as a satellite office under IC 3-11-10-26.3 on the two (2) Saturdays immediately preceding an election day.  
See Page 10.
- (17) The method and timing of providing voter data to persons who are entitled to receive the data under this title. Data shall be provided to all persons entitled to the data without unreasonable delay.  
See Page 8.

## APPENDIX

- A. Resolution Certifying Vote Center and Satellite Vote Center Accessibility
- B. County Commissioner Resolution
- C. County Council Resolution
- D. Current Precincts, Total Voters, Total Active Voters, Total Inactive Voters
- E. Current Polling Places

## Johnson County Election Board

### Order 2012-01

WHEREAS, Indiana Code 3-11-18.1 grants permission for any Indiana county that so chooses to implement vote centers in their county; and

WHEREAS, the Johnson County Election Board held a public hearing to present a draft plan for the administration of vote centers in Johnson County on February 9, 2012, pursuant to Indiana Code 3-11-18.1-3(c); and

WHEREAS, after presentation of the draft plan, the Johnson County Election Board accepted written public comments on the draft plan; and

WHEREAS, pursuant to Indiana Code 3-11-18.1-3(e), the Johnson County Election Board held a public hearing to consider the draft plan, written public comments, and other public comments on the draft plan on March 14, 2012, said date being at least thirty (30) days after the February 9, 2012 public hearing; and

WHEREAS, the Johnson County Election Board determined that the secure electronic connection described under Indiana Code 3-11-18.1-4(10)(B) is sufficient to prevent any voter from voting more than once, and unauthorized access by any person to the electronic poll lists for a precinct whose polls are to be located at the vote centers or the computerized list of voters of Johnson County; and

WHEREAS, the Johnson County Election Board determined that the planned design and location of the equipment and precinct officers will provide the most efficient access for voters to enter the polls, cast their ballots, and leave the vote center and precinct election officials, watchers, challengers, and pollbook holders to exercise their rights and perform their duties within the vote centers; and

WHEREAS, after consideration of the draft plan and the public comments, the Election Board amended the draft plan; and

WHEREAS, the Johnson County Election Board so approves the Johnson County plan for the implementation vote centers in Johnson County, Indiana.

BE IT THEREFORE ORDERED BY THE JOHNSON COUNTY  
ELECTION BOARD:

The Election Board of Johnson County adopts this Order to approve the Johnson  
County Vote Center Plan, which is incorporated in this Order by reference.

ADOPTED THIS 14<sup>th</sup> DAY OF MARCH, 2012
