City gets 75 new golf carts for Cascades Park

The city of Bloomington is getting 75 new Club Car golf carts with help from state financing.

State Treasurer Richard Mourdock announced Wednesday the \$192,546 in financing through the Hoosier Equipment Lease Program (HELP).

HELP is a streamlined lease-purchase program through the Indiana Bond Bank, which allows local governments to acquire needed equipment at competitive interest rates with flexible payment schedules.

All 75 carts are up and running at Cascades Park.
