OVERVIEW

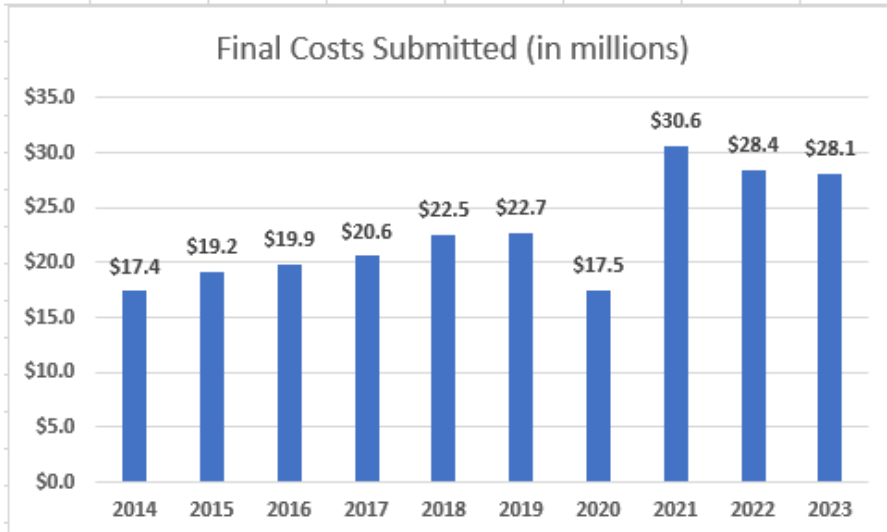

Summer school is a state-reimbursable program which allows Indiana school corporations and charter schools to provide summer academic courses for students in elementary, middle, and high school.

- The program description for summer school is in IC 20-30-7 and 511 IAC Article 12.
- The appropriation for summer school is established by the Indiana General Assembly.
- The appropriation is currently \$18,360,000.

OVERVIEW

School corporations and charter schools are reimbursed for approved summer school courses based on the actual instructional costs and tuition paid to online service providers multiplied by 1.05 and reduced proportionately if the appropriation is insufficient to fund all programs at 100%.

OVERVIEW

The final costs submitted and the number of schools participating in the summer school program increased each year from 2015 through 2019. The decrease in the costs reported and the decreased participation in 2020 was most likely due to the COVID-19 pandemic.

OVERVIEW

Each year, a memorandum with summer school information is posted on the website at <https://www.in.gov/doe/school-operations/finance/summer-school/>. The information is also posted in the Public School Finance Community on Moodle, in the folder for summer school.

The memo includes important dates, the courses that have been approved by the State Board of Education to be included in the summer school program, and financial provisions.

OVERVIEW

Steps to reimbursement:

In accordance with 511 IAC, Article 12, schools must complete these steps in order to be eligible to receive a payment for summer school costs:

1. Submit the Estimated Costs Report and List of Courses to be included in your summer school program on or before the posted deadline in the spring.
2. Conduct summer school.
3. Submit the Final Costs Report on or before the posted deadline in the fall.

ESTIMATED DISTRIBUTION

Estimated distributions are calculated using the expenditure estimates submitted by school corporations and charter schools.

Final costs may be greater than, less than, or equal to the amount of the estimated distribution.

The actual percentage of reimbursement will be determined when actual expenditure data is received on the final reports.

Actual expenditure data should be reported on the final instructional costs report, schools are not limited to the amounts posted on the estimated distributions list.

ESTIMATED DISTRIBUTION

The estimated distribution memo and list of estimated distribution amounts will be posted in the summer school folder in the Public School Finance Community in Moodle and announced in Dr. Jenner's Weekly Update in May.

Only schools listed on the estimated distribution list are eligible to submit a final costs report for reimbursement in the fall.

FINAL COSTS REPORT

In order to be eligible for summer school reimbursement, the Estimated Instructional Costs Report and List of Courses and the Final Instructional Costs Report must be submitted by the posted deadlines.

The window to submit the Final Instructional Costs Report for 2024 summer school opens Monday, July 29, and closes Sunday, September 15.

The actual percentage of reimbursement will be determined when actual expenditure data is received.

The reports must be submitted on or before the deadlines, late submissions will not be accepted.

Minimum Enrollment for Reimbursement

Classes must have an average enrollment of at least 15 students or more in all classes.

- For example, if Language Arts has an enrollment of 10 and Math has an enrollment of 20, both classes are eligible because the average enrollment is 15.

Two or more groups of students may be combined into a single class under a teacher of record in order to meet this requirement, but only the salary of the teacher of record, and not the salary of any other teachers, may be included in computing eligible costs.

This requirement cannot be waived.

- Add the total number of students enrolled in classes.
- Divide by the number of classes.
- In this example, it would be:
 $(579+333+128)/52 = 20$

FINAL COSTS REPORT

The window to submit the Final Costs Report for 2024 summer school opens Monday, July 29, and closes Sunday, September 15.

The report must be submitted on or before the deadline, late submissions will not be accepted.

FINAL DISTRIBUTION MEMO & LIST

Final distribution amounts will be calculated using data submitted by school on the Final Instructional Costs Reports.

Final costs submitted may be greater than, less than, or equal to the amounts submitted on the estimated costs reports in the spring.

If supported by the appropriation, final costs will be reimbursed at 105%.

If final costs submitted exceed the appropriation, then all submissions will be reduced proportionately.

In November, the distribution memo and list of reimbursement amounts by school corporation will be posted at www.in.gov/doe/school-operations/finance/summer-school. It will also be posted in the summer school folder in the Public School Finance Community in Moodle.

The summer school reimbursement payment will be made after the memo is posted in November.

QUESTIONS?
