SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

Determinations Calculation and Resulting RDA score:

The charts below detail the score range for each determination category, the LEA score, and the results determination category.

Compliance and Data Matrices	
Number of Findings of Noncompliance	0
Determination Category	Range
Meets Requirements*	70.71 - 100.00
Needs Assistance	58.51 - 70.70
Needs Intervention	0 – 58.50
Needs Substantial Intervention	N/A
RDA Determination Score	84.70
Determination Category	Meets Requirements
*In order to qualify for “Meets Requirements,” an LEA must score at or above 44.71 in the Results Matrix.	

Results Matrix	
Level of Differentiated Support and Technical Assistance	Range
Level 1	60.00 – 100.00
Level 2	40.51 - 59.99
Level 3	0.00 - 40.50

Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY
2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

Determinations Calculation and Resulting RDA score:

The charts below detail the score range for each determination category, the LEA score, and the results determination category.

Number of Findings of Noncompliance	1
Determination Category	Range
Meets Requirements*	70.71 - 100.00
Needs Assistance	58.51 - 70.70
Needs Intervention	0 – 58.50
Needs Substantial Intervention	N/A
RDA Determination Score	84.70
Determination Category	Meets Requirements
*In order to qualify for “Meets Requirements,” an LEA must score at or above 44.71 in the Results Matrix.	

Results Matrix	
Level of Differentiated Support and Technical Assistance	Range
Level 1	60.00 – 100.00
Level 2	40.51 - 59.99
Level 3	0.00 - 40.50
Level 4	N/A
RDA Results Score	73.33
Technical Assistance Level	Level 1

Based on the combined score of your RDA Compliance and Data Matrices, your LEA has been placed in: **Meets Requirements**. NOTE: In order to qualify for “Meets Requirements,” an LEA must score at or above 44.71 in the Results Matrix.

Based on your RDA Results Matrix, your LEA has been placed in **Level 1** for Technical Assistance.

A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY
2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

Determinations Calculation and Resulting RDA score:

The charts below detail the score range for each determination category, the LEA score, and the results determination category.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY
2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY
2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.

SUBJECT: RDA LEA Findings of Noncompliance and Determination for FFY 2020 (SY 2020-2021)

DATE: December 8, 2021

The Individuals with Disabilities Education Act (IDEA) requires Indiana Department of Education, Office of Special Education (IDOE/OSE) to determine if each local education agency (LEA) meets the requirements of Part B of the IDEA. Based on a LEA's score on several criteria, the LEA is ranked in one of four categories of determination: meets requirements, needs assistance, needs intervention, and needs substantial intervention.

IDOE/OSE implements this responsibility through the Results Driven Accountability (RDA) monitoring process. RDA includes three elements. Results Elements, including federal results indicators and other assessment data, Timely Data Elements, and as in prior years, Compliance Elements. The determination required under IDEA is based upon performance in the Compliance and Data Reporting matrices. A Level of Differentiated Support and Technical Assistance is further assigned based on scores from the Results matrix.

The RDA Compliance Matrix also notifies each LEA of any findings on noncompliance on indicators monitored by OSE as required by IDEA. **Findings of noncompliance must be corrected within one year of the date of this memo.** An LEA may have additional responsibilities depending on the technical assistance level assigned. OSE will be hosting data retreats and further technical assistance opportunities in support of improving outcomes for students with disabilities. Full information can be found in the RDA Guidance Document.

A summary of your LEA's determination can be found on page 2 of this memo.

Thank you for your attention to this matter. Please send any questions, comments, or concerns to specialeducation@doe.in.gov.
