Agency Spotlight:

Volunteers of America

Indiana State
Department of Health

Who We Are!

Mental Health and Addiction Services Treatment Program Goal:

“To provide the full continuum of Mental Health and Addiction Services treatment services to Ryan White B eligible clients in the State of Indiana”

- Volunteers of America has provided direct care to marginalized and vulnerable populations in Indiana for over 100 years.

Services: The Simple Steps

AIDS Service Organizations Delivering Services at Point of Care:

1. Assess need

2. Complement ASO array of services

What happens if you refer?

- VOA may provide an on-site Case Manager/ Recovery Specialist
- A virtual or “live” comprehensive assessment and evaluation for mental health and addiction by Masters level treatment counselor
- Virtual psychiatric evaluation and med management by MD
- Assist Care Coordinators with MH/ SA treatment options and referral
- (Where needed) Assist with clients in recovery

Getting started

- On-site visit with VOA and the ASO to determine specific needs
- Identify Space / Technology Requirements
- Identify appropriate FTE (full time employee) based on caseload
- Assistance with outreach to community partners (I.D. docs, Pharmacies, ER's, etc.)

What we need from you!

- Secure space for VOA
- Collaboration with Care Coordinators
- Collaborative supervision
- Integration of VOA staff into ASO organization and culture

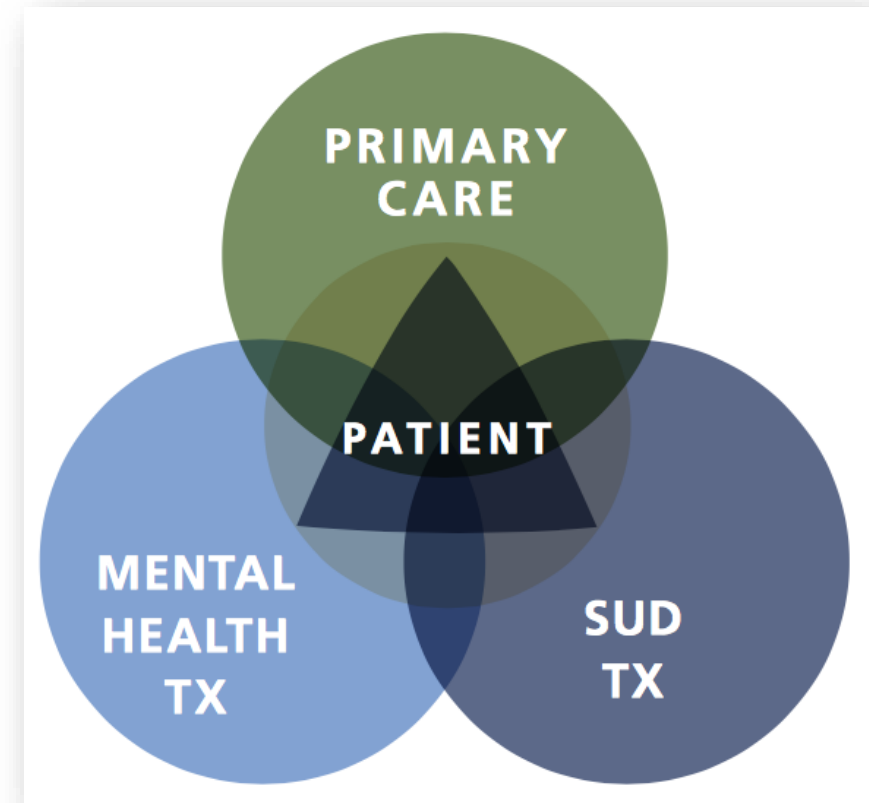

What's Happened and What's Next?

- Began with a pilot program in Evansville: May 10, 2018
- Roll out to South Bend/ Elkhart and Ft. Wayne: July, 2018
- Expansion to Terre Haute, Richmond, Lafayette and Bloomington: Fall, 2018
- Seamless referral process for Inpatient MH/ SA Care with Fayette County Hospital: October, 2018
- Completion of Statewide rollout: Winter-Spring 2018/ 2019

Behavioral Health Disorders and HIV Infection Are Syndemic at a Global Level

- Behavioral health disorders put people at risk for HIV infection.
- HIV infection puts people at risk for behavioral health disorders.
- These conditions are syndemic: They interact in a manner that worsens patient outcomes for each condition.
