Revised New RedCap Survey for Reporting COVID-19 **EFFECTIVE – MONDAY APRIL 20, 2020**

A new RedCap Survey for COVID-19 reporting for long-term care facilities, will be effective starting Monday, April 20, 2020. The current RedCap survey will be inactivated at that time. Historical data will remain from the original survey.

The new RedCap Survey will allow facilities to enter their facility demographics one time. The facility will then only need to add the client record information for their facility. This will help to reduce the time needed to enter each case. It will also allow the Indiana State Department of Health to access cases by facility much faster.
