

### **Bagged.PNG**

Did you know? Bagged recyclables are the top contaminant in #recycling streams

#KnowYourNos and keep your recyclables loose and free! Contact your recycling provider or solid waste management district for local recycling guidelines: <https://on.in.gov/SWMD>

---

### **Electronics.PNG**

#KnowYourNos - NEVER throw electronics into the trash or recycling bin! They can create dangerous situations for #recycling haulers 🗑️

Contact your solid waste management district for more information about electronic waste disposal on [on.IN.gov/SWMD](https://on.in.gov/SWMD)

---

### **Food Waste.PNG**

#KnowYourNos - Keep food waste out of your recycling bin!

Food waste can contaminate the #recycling stream. Dispose of food waste in your compost or trash bin instead. Visit [on.IN.gov/compost](https://on.in.gov/compost) for composting tips.

---

### **Napkins.PNG**

#KnowYourNos - Keep napkins, paper towels, and tissues out of the #recycling bin! If the plastic packaging they came in is dry and clean, you can recycle it at your local retailer.

For more tips, visit [on.IN.gov/recycle](https://on.in.gov/recycle)

---

### **Tanglers.PNG**

#KnowYourNos - Keep tanglers out! Hoses, cords, and holiday lights can tangle up and damage #recycling equipment. When in doubt, throw it out!

For more tips, visit [on.IN.gov/recycle](https://on.in.gov/recycle)

---

### **Textiles.PNG**

#KnowYourNos - Keep textiles out! Clothing can tangle or contaminate the recycling stream, so donate to a thrift store or community center instead. When in doubt, throw it out!

For more tips, visit [on.IN.gov/recycle](https://on.in.gov/recycle)
