Mooresville, IN 46158**Phone:** (317) 418-1452**How should we direct your inquiry?:** Other**Your message to the Office of the Attorney General (No attachments or HTML, text only please):**

There is an issue at Mooresville High School that needs immediate attention. At my granddaughters' request, both students at Mooresville High School, we met with the principal, Mr Upton, there last week regarding boys is the girls restrooms and locker rooms. They are very uncomfortable changing in the locker room or entering the girls restroom with boys in there. According to the principal, a student only has to verbally identify as the opposite gender to be allowed access to any restrooms.

While we want to be sensitive to our (truly) transgender community, we asked Mr. Upton what could be done to make all students comfortable. He is unwilling to designate one school bathroom as gender neutral, and he is unwilling to provide an avenue to establish whether or not a student is transgender such as changing their gender on school records. This is going to open a huge can of worms as students are given the message that transgender is fluid (it's not) and anyone can use any restroom or locker room if they identify as the opposite sex for the next ten minutes. My granddaughters have said they have yet to see a boy either enter a stall to use the restroom or change clothes or wash their hands. They just come in and stand and watch the girls. This is a daily occurrence.

I understand HR 14-56 died last year but perhaps it's time to revitalize that.

Regards,
