Elected Indiana's 54th State Auditor in November of 2006, taking office January 1, 2007, Tim Berry serves as the Chief Financial Officer for the State of Indiana. Auditor Berry is a committed fiscal conservative who keeps taxpayers first in recognizing that they deserve a government that is equipped to do more with less. As Allen County treasurer, Berry cut budget expenditures to the lowest cost per capita of any Treasurer in Indiana. During his tenure as State Treasurer, Tim returned 12% of his budget appropriation back to the state general fund. Since taking office as State Auditor, he has cut office expenditures 17% to levels consistent with year 2000 spending.

Under the leadership of Tim Berry, in late fall of 2009 Indiana successfully implemented a fully integrated financial system – the first of its kind for all of Indiana government, providing more efficient and transparent government. Additionally, Indiana's annual financial reports have received the Certificate of Achievement for Excellence in Financial Reporting – the highest standard available - from the Government Finance Officers Association each year of Berry's tenure as State Auditor. Berry's initiatives in financial education and literacy have earned him recognition from the National Association of Government Defined Contribution plans. During his inauguration speech Berry said, "As Auditor we won't often make headlines, but we will continue to listen – continue to lead – continue to make a difference for all Hoosiers". This system transformed the ability of the public to see how their money is being spent through the Indiana Transparency Portal, which can be found at www.in.gov/itp. People can view items as diverse as employee salaries and local government financial records.

Prior to his election as State Auditor, Tim served two terms as Indiana's Treasurer. In that role, Berry earned a record \$1.7 billion for Hoosier taxpayers through the prudent investment of state dollars. Berry led the effort to obtain favorable legislation providing tax incentives for families saving for college through the CollegeChoice 529 plan. Through this 20% tax credit on contributions, more families will be financially prepared to meet the cost of higher education. Through his leadership as chair of the Wireless 911 Advisory Board, Indiana was recognized as a national leader for wireless 911 network technology.

Tim Berry's leadership has been recognized by many in Indiana and across the country. Berry was awarded the 2005 Jesse Unruh award, given to the nation's most outstanding state treasurer. Additionally, he was presented the 2003 Presidential Award of Excellence by the Association of Public Safety Officials, and the recipient of the American Heart Association's "Heartsaver Award". Berry served as President of the National Association of State Treasurers and Chair of the National College Savings Plans Network. His efforts led to recognition by the State of Israel Bonds in 2003 and the Indianapolis Business Journal recognized Tim with their "40 under 40" designation in 2000.

Tim Berry
Indiana Auditor of State

Tim and his wife Kim are both Fort Wayne natives and the parents of two sons, Ian, a student at Cathedral High School, and Colin, a 6th grader in the Lawrence Township school district. Kim serves as the executive director of the state chapter of the Juvenile Diabetes Research Foundation. Tim holds a degree in Business Administration from Bowling Green State University, and a MBA from Indiana University. A “hockey dad and lacrosse coach”, Tim is active in many organizations within the community.

AUDITOR OF STATE

Tim Berry

Telephone (317)232-3300
Facsimile (317)232-6097
<http://www.in.gov/auditor>

December 21, 2012

Governor,
Members of the General Assembly,
Citizens of the State of Indiana:

We are proud to present the Comprehensive Annual Financial Report (CAFR) for the State of Indiana's fiscal year ended June 30, 2012.

This Comprehensive Annual Financial Report has been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as prescribed in pronouncements by the Governmental Accounting Standards Board. While management remains primarily and ultimately responsible for the contents and presentation of this report, responsibility for both the accuracy of the data presented and completeness and fairness of the presentation rests with the State agencies that provide the data and are obligated to verify postings. We believe the information set forth in this report is accurate in all aspects and is presented in a manner designed to set forth the financial position and results of operations of the State as measured by the financial activity of its various funds.

State statute requires an annual audit by the Indiana State Board of Accounts. The Board is considered by federal and State government to be independent auditors. The Independent Auditor's Report on the financial statements is included in the financial section of this report and in the Statewide Single Audit Report of the State of Indiana.

The State is responsible for ensuring that an adequate internal control structure is in place to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized user disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the benefits likely to be derived and that the evaluation of costs and benefits requires management to make estimates and judgments.

This internal control structure is subject to periodic evaluation by management and internal audit staff of the various State agencies. As part of the Single Audit, tests are made to determine the adequacy of the internal control structure related to federal financial assistance programs, as well as to determine that the State of Indiana has complied with applicable laws and regulations.

The State has adopted GASB Statement No. 34 as required by Generally Accepted Accounting Principles. GASB 34 provides for two types of statements, government-wide and fund statements. The government-wide statements are very similar to the private sector's statements, using the full accrual basis of accounting and the economic resources measurement focus. The governmental funds financial statements use the modified accrual basis of accounting and the current financial resources measurement focus. In the government-wide statements, infrastructure (roads, bridges, dams) has been capitalized. Capital assets, except for infrastructure using the modified approach, are depreciated like the private sector.

GASB Statement No. 34 provides for the presentation of Management's Discussion and Analysis (MD&A) in the Financial Section. The MD&A introduces the basic financial statements and provides an analytical overview of the government's financial activities. It is presented before the basic financial statements. We encourage you to read it to get an in-depth analysis of the State of Indiana's finances.

Profile of the Government

Located in America's heartland in the Midwest, Indiana is a leading manufacturing state and a major agricultural producer. The latest U.S. Census Bureau estimate places Indiana's population at 6,516,922 which makes Indiana the nation's 15th largest State. The State is 78.4% urban and 21.6% rural. The five largest cities are Indianapolis, the capital, Fort Wayne, Evansville, South Bend and Carmel.

Indiana became the 19th State of the Union on December 11, 1816. The State Constitution establishes the government in three separate departments: legislative, executive including administrative, and judicial. The legislative power of the State is vested in the Indiana General Assembly, which consists of a 100 member House of Representatives and a 50 member Senate. The Indiana General Assembly has the power to enact laws which are not prohibited by the State Constitution and not in conflict with Federal laws and powers. The executive power of the State is vested with the Governor. The State Constitution and legislation establish the following Statewide elected administrative officials: Lieutenant Governor, Auditor of State, Secretary of State, Treasurer of State, Attorney General, and the Superintendent of Public Instruction. The judicial power of the State is vested in one Supreme Court consisting of five justices, one Court of Appeals consisting of 15 judges, 313 Trial Courts (including Circuit Courts), and one Tax Court.

The State government provides a wide range of services to the citizens of Indiana, including education, transportation, public health, public safety, welfare, conservation, and economic development.

This report includes the financial activities and balances of the State of Indiana and its component units. The component units are legally separate entities for which the State of Indiana has financial responsibility and include State funded colleges and universities, and other legally separate entities that provide services and benefits to local governments and the citizens of the State of Indiana. More information on the financial reporting entity can be found in Note I(A) in the notes to the financial statements.

The Indiana General Assembly meets every other year to adopt a biennial budget, which is submitted by the Governor. The General Assembly enacts the budget through passage of specific appropriations, the sum of which may not exceed estimated funding sources. Budgetary control is exercised in that agencies of the State may only expend appropriations as allotted by the Budget Agency or other statutory authority. The State Board of Finance, which consists of the Governor, Auditor of State, and Treasurer of State, is empowered to transfer appropriations from one agency of the State to another, with the exception of trust funds. The State Budget Agency may transfer, assign and reassign appropriations made for one specific purpose to another use or purpose within the same agency.

Factors Affecting Economic and Financial Conditions

The information presented in the financial statements is better understood within the context of the specific environment within which the State of Indiana operates. The following describes that environment.

Local Economy

With a 2010 Gross Domestic Product of \$278.1 billion, Indiana's economy ranked 17th largest in the U.S. in terms of the value of goods and services. In 2010, Indiana ranked 1st among the fifty states in terms of gross domestic product from primary metals production. Indiana also ranked 2nd in gross domestic product from motor vehicle manufacturing, 4th in chemical manufacturing, 8th in the value of fabricated metal products, and 9th in the production of manufacturing machinery. According to published U.S. Bureau of Economic Analysis data, Indiana ranked 6th in 2010 in terms of gross domestic product from manufactured goods.

In 2010, the manufacturing sector accounted for 16.4% of the jobs in Indiana compared to 20.3% in 2002 (2002 figure as revised by BLS in January, 2012). The share of employment accounted for by the health care and social services sector increased from 10.2% in 2002 (2002 figure as revised by BLS in January, 2012) to 12.6% in 2011. Between 2007 and 2011, per capita personal income increased at an average annual rate of 1.6%. In 2011, the State's unemployment rate averaged 9.0%.

Cash Management and Investments

Cash temporarily idle during the year was invested in deposit accounts, obligations of the U.S. Treasury and U.S. Agencies, money market mutual funds, and repurchase agreements. The pension trust funds' portfolios include other investments as outlined in Note I(E)(1) in the notes to the financial statements. The average yield on the General Fund's investments, except for the pension trust funds, was 0.15%. The State's investment policy is to minimize credit and market risks while maintaining sufficient liquidity and earning a competitive yield on its portfolio. Deposits are insured by federal and State depository insurance.

Debt Administration

The commissions and authorities, some of which are included as component units in the financial reporting entity of the State of Indiana, issue bonds for some of the State's capital needs. All of the bond issues are revenue bonds associated with specific State component units. The total of long-term revenue bonds and notes outstanding, net of amortized discounts, is \$12.2 billion at June 30, 2012.

Financial Policies

In 2005, Governor Daniels created the Office of Management and Budget (OMB) as an umbrella organization to better coordinate the State's financial policies. The OMB consists of the Department of Government Efficiency and Financial Planning, the Department of Local Government Finance, the Department of Revenue, the State Board of Accounts, the State Budget Agency, the Indiana Public Retirement System, and the Indiana Finance Authority.

In June 2012, Indiana closed the books with \$2.155 billion in reserves, and a balanced budget in both FY 2012 and FY 2013. Reducing general fund spending has enabled Indiana to not only maintain a prudent level of reserves, but also repay debts to local government, schools, and universities, which at their peak in FY 2005, totaled over \$750 million. One-time revenues, such as those generated by the Tax Amnesty program several years ago, have been used to repay one-time debt rather than being built into revenue forecasts to support on-going expenditures.

Indiana is one of nine states that has the highest credit rating assigned by all three independent credit rating agencies: Fitch, Moody's, and Standard & Poor's Ratings Service (S&P).

At the time of the upgrade by S&P, their report noted that the administration has made significant financial management changes and strengthened budgeting practices. S&P cited four areas in issuing the AAA credit rating: a stable and diversifying economic base despite continued manufacturing concentration, a conservative biennial budget that will add to the fund balance by the end of the biennium, property tax reform that has clarified the state's financial responsibilities, and low overall debt levels.

Long-Term Financial Planning

The Indiana Finance Authority is charged with developing, implementing, maintaining and monitoring a debt management plan for all non-conduit debt or debt-related obligations issued by State Issuers. This plan is intended to provide guidance in the structuring, sale, monitoring, and post-issuance compliance for all State-related debt.

The State of Indiana launched a new statewide accounting system in September 2009. The transition to the new system included a significant enhancement of internal controls, the implementation of a uniform chart of accounts, and the conversion of all financial data from the prior system into the new system. In addition to a successful go-live in September 2009, the state completed an upgrade in the spring of 2012 and again had a timely closing of the books in July 2012.

The OMB continues to make modifications and improvements to the capital budgeting process to provide a more comprehensive analysis of the State's capital assets and corresponding budgetary needs to maintain existing infrastructure. Comprehensive, 10-year master plans are being developed and/or updated for all

State facilities that consist of detailed information on each facility, including use, square footage, systems information, replacement reserve schedules, preventive maintenance, renovations, new construction, and how all of this aligns with available resources.

In 2008, the Pew Center on the States and *Governing* magazine released a report from the Government Performance Project assessing the quality of management in the 50 states. In this report, Indiana was highlighted as having “moved into fiscal balance by going beyond one-time budget fixes” and for having a four-year horizon to make fiscal decisions.

Major Initiatives

K-12 Education – In 2008, Governor Daniels and the Indiana General Assembly passed sweeping property tax reform in HEA 1001. Part of this reform included the assumption by the State’s general fund of the share of tuition support previously paid by local property tax dollars. Beginning January 2009, the State assumed 100% of K-12 tuition support, allowing school corporations to receive payments monthly and without delay.

HEA 1189 (2012) established a new charter school startup grant to new charter schools beginning in FY 2013. The program allows new charter schools to begin receiving tuition support funding for July through December of their opening year, rather than waiting for the next school funding formula in January or taking out a common school fund loan for the first six months to cover operational expenses.

HEA 1001 (2011), as modified by HEA 1189 (2012), provided a 0.24% increase in tuition support funding from FY 2011 to FY 2012 and a 0.74% increase from FY 2012 to FY 2013. Governor Daniels and the 2012 Indiana General Assembly further enhanced Indiana’s full day kindergarten program through HEA 1376 (2012), specifying that school corporations would receive \$2,400 per full day kindergarten student in addition to funding already providing through tuition support for half of the day. The additional funding per student more than doubles the FY 2012 full day kindergarten appropriation for an estimated increase of more than \$108 million in FY 2013. HEA 1001 (2011) also included \$6 million in FY 2012 and \$9 million in FY 2013 for Performance Awards for Teachers.

Higher Education – Indiana continued its commitment to Higher Education through annual increases in student financial aid related funding. Appropriations for state aid to students attending public and private colleges and universities, provided through the State Student Assistance Commission for Indiana, increased 2.3% in FY 2012 to \$275 million. Higher Education non-capital funding for FY 2012 totaled \$1,269 million.

HEA 1001 (2011) did not authorize any new higher education capital projects. The General Assembly did not appropriate debt service funds for any project that had not been reviewed by the State Budget Committee on or before April 15, 2011. Therefore, no fee replaced projects were approved by the State Budget Committee during FY 2012.

Public Safety – In FY 2012, the Indiana Department of Correction (IDOC) continued to improve its operational efficiency and reduce operating costs. In addition, the IDOC ramped up its Juvenile Transition program allowing more juvenile offenders to be treated outside the walls of confinement in a setting most suitable for their care. These steps contributed to a slowing in the growth of the offender population that resulted primarily from a decrease in the number of D felons sentenced to the IDOC following intense discussions about the need for sentencing reform.

In 2011, the Indiana General Assembly moved the Department of Toxicology out from under Indiana University (IU) and established the Indiana State Department of Toxicology as a new state agency. After a transitional period, the final termination of IU oversight occurred in January 2012. The Department continues to be responsible for testing blood samples for alcohol and/or drugs as well as inspection, maintenance, and certification of all breath-testing instruments used throughout the state.

Transportation – Seven years into Governor Daniels’ Major Moves program, Indiana has seen record construction, as the Indiana Department of Transportation (INDOT) is executing the \$12 billion construction

program made possible in part by the lease of the Indiana Toll Road. INDOT is aggressively working to advance as much work as possible from later construction years to take advantage of favorable price conditions. This also helps deliver the benefits of the new highways much earlier, and spurs job creation.

For a fifth consecutive year, State and federal program expenditures for engineering, right-of-way, construction, and maintenance exceeded one billion dollars. Actual FY 2012 expenditures and obligations were slightly more than \$1.6 billion, more than two and a half times the annual amount spent a decade ago.

Conservation and Environment - In FY 2012, the Department of Natural Resources (DNR) continued the largest land conservation initiative in the State's history, the Healthy Rivers Initiative (HRI). The HRI consists of two projects, one within the Wabash River and Sugar Creek floodplain (43,000 acres) and another along the Muscatatuck River known as Muscatatuck Bottoms (25,600 acres). Since the announcement by Governor Daniels in FY 2010, DNR has acquired nearly 9,200 acres along the Muscatatuck River and Wabash River corridors. Land acquisition efforts will continue for years into the future.

Governor Daniels also launched the Bicentennial Nature Trust (BNT) in FY 2012 as a statewide land conservation initiative to celebrate Indiana's upcoming 200th anniversary in much the same way as the first 100 years of statehood were marked in 1916 with establishment of the state park system. Governor Daniels committed \$20 million to help fund BNT and called on individuals, businesses and communities around the state to join the effort.

In 2011, the Indiana General Assembly created the Indiana State Museum and Historic Sites Corporation (Corporation) as a quasi-state agency providing the Corporation with additional fundraising opportunities. The State Museum and Historic Sites were previously divisions within the Department of Natural Resources. The transition was completed in early FY 2012.

Health and Human Services – On February 20, 2012, the Family and Social Services Administration (FSSA) expanded its hybrid welfare modernization system to Marion County, concluding a two year-long process of systematically extending this system statewide. This hybrid system combined updated technology and in-person assistance in order to determine welfare eligibility and to deliver benefits. These system improvements have substantially improved accuracy and timeliness at a time when applications for benefits have increased dramatically. Despite enrollment increasing (in at least one program) from 847,625 in June 2005 to 1,127,015 in June 2012, Indiana has been able to demonstrate improvement in quality and service as positive error rates (those that improperly receive benefits) and negative error rates (those that are improperly denied benefits) both remained below the national average in federal fiscal year 2011.

As of June 30, 2012, Medicaid enrollment was 1,040,512, which excludes the Children's Health Insurance Plan (CHIP), the Healthy Indiana Plan (HIP), and retroactive eligibility. This represents a 16% increase compared to average enrollment of 900,769 in FY 2011.

In its seventh year of operations, the Department of Child Services (DCS) continued the implementation of its practice to place children in the least restrictive, most family-like setting. During FY 2012, DCS further reduced the number of children placed in residential care by 121, from 844 to 723. In addition, DCS increased the use of relative care by 88, from 3,514 to 3,602. This trending is important because research among child-advocate experts has shown that placing children in the least restrictive, most family-like setting produces the best outcomes for children and families and, consequently, is more cost effective.

Since July 1, 2005, DCS has increased the total number of family case manager (FCM) positions by 838, from 792 to 1,632. According to IC 31-25-2-5, enacted in the spring of 2007, DCS is required to ensure that FCM staffing levels are such that each region can maintain 12 active assessments per FCM, or 17 children monitored and supervised in on-going cases per FCM. This 12/17 standard is consistent with the Child Welfare League of America's standards of excellence for services for abused and neglected children and their families. As of June, 2012, 94.4 percent, or 17 of 18 regions, were in compliance with the caseload averages of 12/17. Marion County (Region 10) ended the fiscal year within 7 staff of meeting the

12/17 standard. However, statewide FCM staffing levels were 105.6 percent of the 12/17 standard at the conclusion of FY 2012.

In January 2010, DCS established the Indiana Child Abuse and Neglect Hotline to serve as the centralized reporting channel for all allegations of child abuse or neglect in Indiana. The Hotline is staffed with trained intake specialists and at least one supervisor per shift, 24 hours per day, seven days per week, and 365 days per year. DCS has seen the number of calls reported to the Hotline increase more than 33 percent from 2009 to 2011, up from 109,489 to 146,070 in 2011.

DCS also works with the local counties to administer the Title IV-D child support program. Since federal FY 2005, Indiana has increased the percentage of child support cases paying current collections from 52.8 percent to 60.7 percent in federal FY 2012. DCS also works to reduce the amount of child support which is past due. The percentage of cases paying past due amounts has increased from 58 percent to 67.7 percent since federal FY 2005, exceeding the national average of 62.0 percent.

Economic Development – The Indiana Economic Development Corporation (IEDC) is the State of Indiana's chief economic development agency. The IEDC seeks to bring new job creation and capital investment opportunities to Indiana through competitive company attractions, expansions and consolidations. During FY 2012, the IEDC closed 208 competitive economic development projects. The companies undertaking these projects have committed to invest \$2.71 billion in Indiana and create 18,249 new jobs.

The IEDC uses an aggressive and strategic approach to attract and encourage new business investment and job attraction in Indiana. The IEDC in 2012 has placed emphasis on building the State of Indiana's brand outside of our borders. California, Illinois, New York, and New Jersey have all been targeted through various means in order to raise the awareness of decision-makers about the strength of Indiana's business climate.

While the IEDC has consistently been aggressive in pursuing new economic development opportunities, policies were further enhanced to ensure that state resources are being used as judiciously as possible. In 2004, prior to the establishment of the IEDC, the average incentive cost per new job commitment was \$36,652. That figure fell to \$11,699 per new job commitment in the first year of the Daniels administration and currently stands at \$8,806 per new job commitment based on competitive deals closed in 2012. Along with many pro-investment policies established under Governor Daniels' leadership, thorough cost benefit analysis for each project, and a business-like approach to interacting with client companies, the IEDC has achieved record success in securing new job commitments while maintaining the lowest level of incentives necessary to win the deal.

The IEDC has also developed a comprehensive approach to attracting new international investment and restructured our international presence in FY 2012 in order to generate new leads. To satisfy this goal, the IEDC first examined the historical performance of their international contractors, their capacity, and the market potential around the globe. Then, the IEDC chose which markets were most likely to provide leads and rebalanced their international personnel accordingly. Three agreements with contractors were not renewed in favor of either exiting that market (Australia) or increasing the focus by hiring full-time contractors focused on lead generation (Germany and China).

In addition to aggressively pursuing competitive business development projects, the IEDC is also actively engaged in supporting the growth of Indiana's entrepreneurial sector through the 21st Century Research and Technology Fund. In FY 2012, the 21st Century Fund made investments in five (5) new Indiana technology businesses totaling \$3.45 million and made 7 federal match funding awards through the Small Business Innovation Research (SBIR) or Small Business Technology Transfer (STTR) matching program totaling \$525,000.

Despite these challenging times, 21st Century Fund investments have attracted substantial federal and private sector matching funds on a 3 to 1 basis through which technical and business risks have been managed. The SBIR/STTR program, which provides early-stage proof-of-principle and product prototyping phases, results in a 4 to 1 leveraging of federal funds.

The IEDC's main challenge is to remain competitive in attracting job creation and investment opportunities in an economic climate characterized by a reticence to commence major capital investments. To that end, the IEDC has significantly enhanced market intelligence and lead generation. Additional focus is placed on outbound attraction strategy along four verticals in which Indiana has a competitive advantage: Biotechnology, Automotive, Defense, and Energy. By focusing efforts in those areas in which Indiana has a competitive advantage, the IEDC seeks to maximize return on effort and resources invested in business outreach.

General Government – Legislation creating an Automatic Taxpayer Refund (ATR) was enacted in FY 2011, requiring any reserves greater than 10% of FY 2013 appropriations to be divided equally between various pension plans and a refundable tax credit to eligible taxpayers. The total amount of excess reserves at the end of FY 2012 was \$721.28 million, with \$360.64 million going to specified pension plans and an equal amount set aside for taxpayer refunds. In the initial year of the ATR only, an amount necessary to attain an 80% funded status at June 30, 2012 was directed to the pensions for State Police Officers, Conservation Officers, Prosecutors, and Judges. The amount necessary to bring these plans to an 80% funded status was \$153.8 million, leaving \$206.8 to be transferred to the pre-1996 teachers' pension stabilization fund (in future years, the entire 50% of the excess reserves will be directed towards the pre-1996 teachers' pension). The remaining \$360.64 million will be issued as refundable tax credits to eligible taxpayers on their 2012 tax returns filed beginning January 1, 2013.

The State continues to administer Retirement Medical Benefits accounts, established as Health Reimbursement Arrangements (HRAs), for most employees and elected officials of the State. The purpose of this defined contribution plan is to allow retirees from State government to have a means to assist with the payment of health insurance premiums in retirement. Funding for the program has historically come from 5.74% of State cigarette tax revenues as well as charges to federal and dedicated funds for employees paid from those funds. However, because of historical overfunding of the plan (the funded status on 6/30/10 was 130%), cigarette tax revenues to the fund were statutorily suspended effective July 1, 2011, and will resume on July 1, 2013. Funding for the program in FY 2012 came from charges to federal and dedicated funds for employees paid from those funds, which were deposited directly into the retiree health trust fund, and from an accumulated balance held in the trust fund due to prior overfunding of the plan. The plan remained more than 100% funded at the end of FY 2012. These funds are then credited to each employee's account annually based upon their age. There is also a catch-up provision allowing for additional contributions based upon the number of years of service completed by the qualified retiree who retires prior to June 30, 2017.

Legislation effective in FY 2012 removed employees of the Indiana State Police who did not previously waive coverage under the department's healthcare plan, as well as all Conservation and Excise Officers from eligibility in this defined contribution plan. Accumulated and annual contributions that would have otherwise gone towards Retirement Medical Benefits accounts for these employees were directed instead to trust funds to reduce the Other Post-Employment Benefits (OPEB) unfunded liability attributed to each entity's respective retiree health plans.

Through adjustments to plan design, making annual required contributions, and setting aside assets to prefund retiree healthcare costs, the state's total OPEB liability was reduced from \$524.9 million at the end of FY 2010 to \$383.2 million at the end of FY 2011, and further reduced to \$314.7 million by the end of FY 2012, a reduction of 40% since FY 2010 and the lowest unfunded liability per capita in the nation.

Legislation enacted during FY 2011 effectively merged the administrative and management functions of the State's two retirement systems, the Public Employees Retirement Fund (PERF) and the Teachers Retirement Fund (TRF). Additional legislation effective in FY 2012 further integrated the management of the funds, including the creation of a combined board of trustees. While the individual funds are not comingled, this new entity, branded as the Indiana Public Retirement System (INPRS), has recognized significant savings from combined asset allocation and integrated investment managers for all PERF and TRF funds, as well as from consolidation and increased efficiency in administrative functions.

Awards and Acknowledgements

Certificate of Achievement Award

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Indiana for its comprehensive annual financial report for the fiscal year ended June 30, 2011. This was the nineteenth consecutive year that the State of Indiana has achieved this prestigious award.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

We acknowledge the cooperation and assistance of all State agencies in the preparation of this report.

Sincerely,

Tim Berry
Auditor of State
State of Indiana

Certificate of Achievement for Excellence in Financial Reporting

Presented to

State of Indiana

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2011

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

TO: The Honorable Mitchell E. Daniels, Jr.
The Members of the General Assembly, and
The Citizens of the State of Indiana

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Indiana, as of and for the year ended June 30, 2012, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State of Indiana's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the local government investment pool which represent 100% of the assets and revenues of the investment trust fund. We also did not audit certain component units of the State, as discussed in Note I(A), which represent 22.9% of the assets and 3.1% of the revenues of the colleges and universities and 99.6% of the assets and 99% of the revenues of the proprietary discretely presented component units. The financial statements of the investment trust fund and these component units were audited by other auditors whose reports thereon have been furnished to us and, our opinions, insofar as they relate to those units, are based upon the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Indiana Bond Bank, Indiana State Fair Commission, Indiana Political Subdivision Risk Management Commission, and Indiana Public Retirement System were not audited in accordance with Government Auditing Standards. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for purposes of expressing an opinion on the effectiveness of the State of Indiana's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and

significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Indiana as of June 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note I(A) to the financial statements, the Indiana Housing and Community Development Authority, Ports of Indiana, Indiana State Fair Commission, Indiana Comprehensive Health Insurance Association and the Indiana Political Subdivision Risk Management Commission, discretely presented component units, report on a December 31, 2011, year-end.

As discussed in Note IV(G) to the financial statements, the State of Indiana has restated certain beginning fund balances and net assets.

In accordance with Government Auditing Standards, we will also issue our report on our consideration of the State of Indiana's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the Management Discussion and Analysis, Schedules of Funding Progress for Employee Retirement Systems and Plans and Other Postemployment Benefit Plans, Schedule of Employer Contributions for Other Postemployment Benefits, and Budgetary Information and Comparison Schedule, and the Infrastructure Condition Rating and Needed-to-Actual Information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any

assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Indiana's financial statements. The combining and individual nonmajor and discretely presented component unit fund statements and budgetary comparison schedules are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor and discretely presented component unit fund statements and budgetary comparison schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Indiana's basic financial statements. The introductory and statistical sections are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

STATE OF INDIANA
Management's Discussion and Analysis
June 30, 2012

The following discussion and analysis of the State of Indiana's financial performance provides an overview of the State's financial activities for the fiscal year ended June 30, 2012. Please read it in conjunction with the transmittal letter at the front of this report and the State's financial statements, which follow this section. Because of prior period adjustments and reclassifications as described in Note IV(G) in the Notes to the Financial Statements, fiscal year (FY) 2011 numbers have been restated.

Financial Highlights

- For FY 2012, on a government-wide basis, the assets of the State of Indiana exceeded its liabilities by \$17.7 billion. This compares with \$17.2 billion for FY 2011, as restated. Of this amount, \$4.7 billion may be used to meet the government's ongoing obligations to citizens and creditors.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$2.3 billion, or 20.0% of the total general fund expenditures.
- On a government-wide basis for the primary government, the State incurred expenses net of program revenue of \$14.5 billion, which are offset by general revenues totaling \$14.8 billion, giving an increase in net assets of \$0.5 billion.
- General revenue for the primary government decreased by \$0.2 billion, or 1.1%, from FY 2011. The driving force was an increase in the allowance for doubtful accounts percentage for taxes. The State's unemployment rate dropped by 6.5% and sales tax revenues increased by \$154.4 million indicating the Indiana economy continued to recover from the recession.
- The State of Indiana closed FY 2012 with \$2.2 billion in total reserves. This resulted in the distribution of more than \$360 million to various pension funds and an Automatic Taxpayer Refund of an equal amount.
- In FY 2010 and FY 2011, states raised taxes by more than \$30 billion according to the National Association of State Budget Officers. While other states raised taxes, Indiana provided Hoosiers with the largest tax cut in state history through more than \$600 million of net property tax relief as well as a phased reduction of the corporate income tax and a phase-out of the inheritance tax.
- According to State Budget Solutions, Indiana had the 3rd lowest debt per capita and the 2nd lowest debt per private sector worker in 2011.
- Indiana is one of only nine states with the top bond rating from all three major credit rating agencies. According to the independent credit rating agency Standard & Poor's Ratings Service (S&P), the rating "reflects the state's continued strong management that has led to the property tax reform that has realigned state and local spending and is not expected to impact the state's long-term financial performance. As well, the state's commitment to attract diverse jobs through its economic development efforts has translated into a shift away from traditional manufacturing employment." The report said the administration has made significant financial management changes and strengthened budgeting practices.

Key Economic Indicators

	<u>Dec. 31, 2011</u>	<u>Dec. 31, 2010</u>	<u>% Change</u>
Total Employed Labor Force	3,189,619	2,814,409	13.3%
Total Goods and Service Employment	2,864,400	2,805,800	2.1%
Service-Providing Employment	2,262,100	2,241,600	0.9%
Goods-Producing Employment	602,300	564,200	6.8%
Unemployment Rate	8.6%	9.2%	-6.5%
Median Household Income	46,438	46,322	0.3%

Sources: Indiana Department of Workforce Development, Bureau of Labor Statistics, and U.S. Census Bureau.

Salaries and benefits for State employees represent approximately 7.9% of governmental fund expenditures. The following table shows a ten year history of the count of full time State employees.

**Full Time State Employees Paid
Through The Auditor of State's Office**

	<u>Governor's Authority</u>	<u>Judiciary</u>	<u>Other Elected Officials</u>	<u>On Disability Leave - In Pay Status</u>	<u>On Disability Leave - Not in Pay Status</u>	<u>Total</u>
2012	28,525	835	1,049	545	349	31,303
2011	28,472	830	1,067	610	351	31,330
2010	29,911	846	1,056	647	341	32,801
2009	31,254	835	1,093	624	358	34,164
2008	32,606	811	1,139	727	339	35,622
2007	31,524	772	1,123	789	313	34,521
2006	31,822	753	1,102	941	279	34,897
2005	34,673	743	1,058	1,077	269	37,820
2004	35,794	756	1,020	1,012	266	38,848
2003	34,909	741	1,003	988	248	37,889

For more information on people paid through the Auditor of State's Office, please read the Statistical Section.

Overview of the Financial Statements

This Financial Section consists of four parts: management's discussion and analysis (this part), the basic financial statements, required supplementary information, and other supplementary information. The basic financial statements include two kinds of statements that present different views of the State. The first two statements are government-wide financial statements that provide both long-term and short-term information about the State's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the State government, reporting the State's operations in more detail than the government-wide statements.

- The governmental fund statements tell how general government services such as public safety, education, and welfare were financed in the short term as well as what remains for future spending.
- Proprietary fund statements offer short and long-term financial information about the activities the government operates like businesses, such as the Unemployment Compensation Fund.
- Fiduciary fund statements provide information about the financial relationships in which the State acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong, such as the retirement plan for the State's employees.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* and *other supplementary information* that further explain and support the information in the financial statements.

Government-wide Financial Statements

The government-wide financial statements report information about the State as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the State's net assets and how they have changed. Net assets, the difference between the State's assets and liabilities, is one way to measure the State's financial health, or position. Over time, increases or decreases in net assets may serve as a useful

indicator of whether the financial position of the State of Indiana is improving or deteriorating. To assess the overall health of the State, additional non-financial factors should be considered, such as changes in the State's tax base, the condition of the State's roads and the State's student population. The government-wide financial statements of the State are divided into three categories:

- **Governmental activities.** Most of the State's basic services are included here, such as the State's roads and bridges, and health and environmental programs. State sales and income taxes and federal grants finance most of these activities.
- **Business-type activities.** The State provides goods and services through these activities that are financed or recovered primarily through fees and user charges. The Unemployment Compensation Fund, the Inns and Concessions Fund, and the Indiana Residual Malpractice Insurance Authority are included here.
- **Discretely Presented Component Units.** These are legally separate discretely presented entities for which the State is financially accountable. These include, among others, the Indiana Finance Authority, the Indiana Bond Bank, the Board for Depositories, the Indiana Housing and Community Development Authority, and colleges and universities that receive State funding.

Fund Financial Statements

The fund financial statements provide more detailed information about the State's most significant funds, not the State as a whole. Funds are accounting devices that the State uses to keep track of specific sources of funding and spending for particular purposes. The State of Indiana uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The State has three kinds of funds: governmental funds, proprietary funds, and fiduciary funds.

1. **Governmental funds.** Most of the State's basic services are included in governmental funds, which focus on (1) cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer

financial resources that can be spent in the near future to finance the State's programs.

Relationship and Reconciliation. Because the information provided in the governmental funds statements does not encompass the additional long-term focus of the government-wide statements, reconciliation pages are provided. On the page following each governmental fund's financial statement, these reconciliations explain the differences between the government-wide and the fund financial statement. Government-wide statements use full accrual accounting. Revenues are recognized when they are earned and expenses are recognized as soon as the liability is incurred, regardless of the timing of related cash inflows and outflows. Governmental fund financial statements use the modified accrual basis of accounting. Revenues are recognized when earned so long as they are collectible within the current period or soon enough afterwards to pay liabilities of the current period. Debt service payments and a number of specific accrued liabilities are recognized as expenditures when payment is due because that is when they are normally liquidated with expendable available financial resources.

Non-current assets such as infrastructure, land, and property, plant and equipment appear on the government-wide statements but not on the governmental fund statements where they are expensed as acquired rather than capitalized. Non-current liabilities such as revenue bonds payable and net pension obligations also appear on the government-wide statements but not on the fund statements. Internal service funds are included as part of the governmental activities in

the government-wide statements but not the governmental fund financial statements because they provide services to the governmental funds.

2. **Proprietary funds.** Services for which the State charges customers a fee are generally reported in proprietary funds. These funds use the economic resources measurement focus and the accrual basis of accounting. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. In fact, the State's enterprise funds (one type of proprietary fund) are the same as its business-type activities, but provide more detail and additional information such as cash flows. The State uses internal service funds (the other type of proprietary fund) to report activities that provide supplies and services for the State's other programs and activities. An example would be the State Employee Health Insurance Fund.
3. **Fiduciary funds.** The State is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State is responsible for ensuring that the assets reported in these funds are used for their intended purposes. Fiduciary funds use the economic resources measurement focus and the accrual basis of accounting. All of the State's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. These activities are excluded from the State's government-wide financial statements because the State cannot use these assets to finance its operations.

Financial Analysis of the State as a Whole

Net Assets

The following is condensed from the Statement of Net Assets:

State of Indiana Condensed Schedule of Net Assets (in millions of dollars)						
Primary Government						
	Governmental Activities		Business-type Activities		Total Primary Government	
	2012	2011	2012	2011	2012	2011
Current and other assets	\$ 11,314.1	\$ 11,336.5	\$ 209.0	\$ 217.9	\$ 11,523.1	\$ 11,554.4
Capital assets	13,360.1	12,573.9	0.1	0.1	13,360.2	12,574.0
Total assets	24,674.2	23,910.4	209.1	218.0	24,883.3	24,128.4
Current liabilities	2,660.8	2,329.6	1,727.0	1,878.9	4,387.8	4,208.5
Long-term liabilities	2,795.2	2,683.4	26.5	29.6	2,821.7	2,713.0
Total liabilities	5,456.0	5,013.0	1,753.5	1,908.5	7,209.5	6,921.5
Net assets:						
Invested in capital assets, net of related debt	12,150.1	11,344.7	0.1	0.1	12,150.2	11,344.8
Restricted	864.3	573.1	-	-	864.3	573.1
Unrestricted	6,203.8	6,979.7	(1,544.5)	(1,690.6)	4,659.3	5,289.1
Total net assets	\$ 19,218.2	\$ 18,897.5	\$ (1,544.4)	\$ (1,690.5)	\$ 17,673.8	\$ 17,207.0

At the end of the current fiscal year, net assets for the primary government were \$17.7 billion as compared to \$17.2 billion in 2011. There was an increase of \$0.5 billion.

Current and other assets decreased by \$31.3 million with decreases in taxes receivable and securities lending collateral making up the bulk of this.

Capital assets increased by \$786.2 million. The principal reason for the increase in capital assets was the increase in land, infrastructure, and construction

in progress at the Indiana Department of Transportation due to the State's Major Moves initiative.

Total liabilities increased by \$288.0 million. This increase is explained principally by an increase in accounts payable for Medicaid claims of \$643.0 million. This increase was offset in a reduction of the amount due to the federal government for unemployment compensation benefits of \$152.0 million and a decrease in securities lending payables of \$142.6 million.

Changes in Net Assets

The following is condensed from the Statement of Activities:

State of Indiana Condensed Schedule of Change in Net Assets (in millions of dollars)						
	Primary Government					
	Governmental Activities Activities		Business-type Activities		Total Primary Government	
	2012	2011	2012	2011	2012	2011
Revenues						
Program revenues:

Transportation	1,535.7	1,748.6	-	-	1,535.7	1,748.6
Interest expense	0.7	0.8	-	-	0.7	0.8
Unemployment compensation fund	-	-	1,844.7	3,217.6	1,844.7	3,217.6
Other	-	-	23.1	23.2	23.1	23.2
Total expenses	27,861.8	26,415.2	1,867.8	3,240.8	29,729.6	29,656.0
Excess (deficiency) before transfers	318.6	982.1	148.2	(77.8)	466.8	904.3
Transfers	2.1	2.6	(2.1)	(2.6)	-	-
Change in net assets	320.7	984.7	146.1	(80.4)	466.8	904.3
Beginning net assets, as restated	18,897.5	17,912.8	(1,690.5)	(1,610.1)	17,207.0	16,302.7
Ending net assets	\$ 19,218.2	\$ 18,897.5	\$ (1,544.4)	\$ (1,690.5)	\$ 17,673.8	\$ 17,207.0

Governmental Activities

Program expenses exceeded program revenues by \$14.5 billion. General revenues and transfers were \$14.8 billion. The increase in net assets was \$0.3 billion, which is 1.1% of total revenues and 1.2% of total expenses.

The increase to excess (deficiency) before transfers was \$318.6 million.

Revenues increased mainly because of the increase in program revenues from charges for services (PR-CS) of \$786.6 million. Medicaid PR-CS revenues increased from a new hospital assessment fee which

generated \$554.0 million and from an increase to the accrual to recognize accounts receivable of \$139.1 million. Also contributing to the increase in revenues was the increase in sales tax revenues of \$154.4 million.

Expenses increased by \$1.4 billion or 5.5%. Although General Government expenses increased by \$381.3 million, these expenses represent just 62% of the fiscal year 2009 level. Welfare expenses increased by \$1.4 billion due to increases in Medicaid assistance.

Tax revenues for governmental activities were broken down as follows:

Tax revenues of \$14.7 billion represent 52.3% of total revenues for governmental activities. This compares to \$14.9 billion in FY 2011 or 54.5% of total revenues in FY 2011. Program revenues accounted for \$13.3 billion or 47.4% of total revenues. In FY 2011, program revenues accounted for \$12.4 billion or 45.3% of total revenues. General revenues other than tax revenues were \$106.4 million or 0.4% of

total revenues. Of this \$16.3 million was investment earnings. This compares to 2011, when general revenues other than taxes were \$57.8 million or 0.2% of total revenues and \$22.5 million was investment earnings. Investment earnings decreased by \$6.2 million from FY 2011 to FY 2012 or 27.6% due to lower interest rates.

Total revenues for governmental activities were broken down as follows:

PR = program revenues
GR = general revenues

Total revenues were 101.1% of expenses which was a decrease from 103.7% in FY 2011. Total revenues increased 2.9% from \$27.4 billion in FY 2011 to \$28.2 billion in FY 2012. Expenses grew 5.5% from \$26.4 billion in FY 2011 to \$27.9 billion in FY 2012.

The largest portion of the State's expenses is for Welfare, which is \$11.2 billion, or 40.0% of total expenses. This compares with \$9.8 billion, or 37.1% of total expenses in FY 2011. The change in expenses was an increase of \$1.4 billion or 13.8%. \$2.7 billion of Welfare expenses in FY 2012 were funded from general revenues.

Some of the major expenses were Medicaid assistance, \$7.2 billion, the federal food stamp program in the U.S. Department of Agriculture Fund, \$1.5 billion, and the U.S. Department of Health and Human Services Fund, \$1.3 billion.

Education comprises 36.9%, or \$10.3 billion of the State's expenses. In FY 2011, Education accounted for 39.2%, or \$10.4 billion, of expenses. The change in expenses was a decrease of \$0.1 billion, or 0.9%. Some of the major expenses were tuition support,

\$6.3 billion, General Fund appropriations for State colleges and universities, \$1.4 billion, Teachers' Retirement Pension, \$660.1 million, federal grant programs from the U.S. Department of Education Fund, \$633.3 million, federal grant programs from the U.S. Department of Agriculture Fund, \$358.9 million, State Student Assistance Commission, which awards grants and scholarships to Hoosier students, \$287.2 million, full day kindergarten, \$82.0 million, and post-retiree pensions, \$65.3 million.

\$2.6 billion, or 9.5% of expenses, was spent for General Government. General Government comprised \$2.3 billion or 8.6% of expenses in FY 2011. General Government includes local distributions and money for State administration and those functions that serve the State as a whole. Some reasons for the increase were increases in expenditures for pensions, lease payments for state office buildings, and for grants made through the Lieutenant Governor's Office and to component units for housing and urban development projects.

Total expenses for governmental activities were broken down as follows:

Business-type Activities

Business-type activities represent 6.7% of the Primary Government’s revenues and 6.3% of the expenses. The Unemployment Compensation Fund accounts for 98.7% of business-type activities’ operating revenues and 99.0% of operating expenses. The change in net assets for business-type activities was an increase of \$146.0 million.

The Unemployment Compensation Fund collects employer taxes and the federal share of unemployment compensation. Benefits are paid to eligible individuals and the fund covers general and administrative expenses. Revenue in the fund exceeded benefits and administrative expenses paid

by \$141.2 million. This compares to FY 2011 when this fund’s expenses exceeded revenue by \$92.4 million. Employer contributions into the fund decreased by \$0.6 billion, from \$1.6 billion in FY 2011 to \$1.0 billion in FY 2012. Federal revenues into the fund decreased by \$0.5 billion, from \$1.5 billion in FY 2011 to \$1.0 billion in FY 2012. The increase in net assets is due primarily to the decrease in unemployment benefits paid to Hoosiers resulting from an improving economy. The amount due to the federal government also decreased to contribute to the increase in net assets.

Net Cost of Primary Government (in millions)			
	June 30, 2012	June 30, 2011	% Change
Governmental Activities:			
General government	\$ 1,600.7	\$ 1,430.9	11.9%
Public safety	720.4	725.9	-0.8%
Health	53.6	121.0	-55.7%
Welfare	2,654.1	2,207.8	20.2%
Conservation, culture, and development	160.4	96.9	65.5%
Education	9,069.3	8,942.3	1.4%
Transportation	257.0	479.0	-46.3%
Unallocated interest expense	0.7	0.8	-12.5%
Other	-	-	100.0%
Business-type Activities:			
Unemployment Compensation Fund	(141.2)	92.4	-252.8%
Malpractice Insurance Authority	(0.1)	(0.3)	-66.7%
Inns and Concessions	(3.1)	(2.7)	14.8%
TOTAL	\$ 14,371.8	\$ 14,094.0	2.0%

This schedule shows the net expense (revenue) attributable to each function of government. Each function of Indiana government is either self-supporting (a negative number) or requires additional general revenues to cover expenses (a positive number).

Financial Analysis of the State's Funds

The following is an analysis of the State's major governmental funds. Please note that transfers in and transfers out for these funds are explained in much greater detail in note IV(B) in the Notes to the Financial Statements.

General Fund

The General Fund is maintained to account for resources obtained and used for those services traditionally provided by State government which are not required to be accounted for in another fund. The fund balance of the General Fund at June 30, 2012 was \$3.4 billion, which is 79.8% of assets. This compares to a fund balance at June 30, 2011 of \$3.0 billion, which was 67.8% of assets. This indicates that the State's financial position in the General Fund increased from the prior year by \$341.6 million. The fund balance of \$3.4 billion is composed of restrictions of \$363.2 million, commitments of \$20.9 million, and assignments of \$652.0 million, leaving an unassigned balance of \$2.3 billion. The restricted amount consists of the State's Rainy Day Fund. For more information on the components of fund balance, see the chart in the Notes to the Financial Statements III(B).

The General Fund's revenues increased 5.4%, or \$0.7 billion, from FY 2011, because of the increase in total tax revenue which included a \$386.0 million (6.2%) increase in sales tax and a \$265.0 million (4.8%) increase in income tax. Sales tax revenues increased 6.2%, from FY 2011. The increase in tax revenues is explained by the continuing recovery in the State's economy.

General Fund expenditures increased \$536.0 million, or 4.8% from FY 2011. Distributions to local units of government were a reason for the increase in expenditures.

The General Fund had transfers in of \$1.4 billion compared to \$1.7 billion in FY 2011. Transfers out were \$3.1 billion and were the same in FY 2011. More detail on these transfers can be found in the Notes to the Financial Statements IV(B).

Overall, the increased position of the General Fund in the amount of \$341.6 million can be attributed to increases in the program revenues of the State.

Public Welfare-Medicaid Assistance Fund

Medicaid is an insurance program for low-income people. It is jointly funded by the Federal government and the State. The Medicaid Assistance Fund

received \$4.9 billion in Federal revenue as compared to \$4.5 billion in FY 2011. State funding comes through the \$2.0 billion of transfers in from the General Fund and was the same in FY 2011. Transfers out were \$177.7 million compared with \$198.3 million in FY 2011. The Fund distributed \$7.2 billion in Medicaid assistance during the year, which is an increase of \$1.3 billion over FY 2011. Hospital rates were increased in FY 2012 in coordination with the hospital assessment fee program accounting for the increase. The change in fund balance increased by \$275.1 million from FY 2011 to FY 2012.

Major Moves Construction Fund

The Major Moves Construction Fund was created in fiscal year 2006 as part of the leasing of the Indiana Toll Road to Cintra-Macquarie, a private company. This fund distributes money received from the Toll Road lease for new constructions and major preservation of highways and bridges throughout Indiana.

The Major Moves Construction Fund transferred \$543.3 million to the State Highway Fund. The fund received \$37.3 million in investment income and made distributions of \$31.8 million to IFA's toll subsidy account and \$10.0 million to the Northwest Indiana Regional Development Authority. The change in fund balance from FY 2011 to FY 2012 was a decline of \$548.1 million.

ARRA of 2009 Fund

The ARRA of 2009 Fund was created in FY 2009 upon the American Recovery and Reinvestment Act of 2009 becoming law on February 17, 2009. The objective for ARRA of 2009 Fund spending is to stimulate the economy and create jobs. The programs that received the largest amount of funds included Medicaid, Education, Infrastructure, and Energy/Environment.

The ARRA of 2009 Fund received \$348.3 million in federal grants revenues compared to \$1.1 billion in FY 2011. The fund expended \$304.9 million during the year, compared with \$1.1 billion in FY 2011. Grant revenues and expenditures of the fund decreased primarily due to the completion of grant programs under the act. The largest decreases in expenditures were for General Government of \$236.2 million, Transportation of \$218.4 million, Welfare of \$217.6 million, and for Education of \$111.4 million.

The fund balance increased by \$43.5 million from FY 2011 to FY 2012.

U.S. Department of Transportation Fund

The U.S. Department of Transportation Fund is a fund created during fiscal year 2010 with the implementation of the new statewide accounting system to implement State transportation programs. The fund collected \$1.1 billion in grants and received \$168.6 million in transfers in, which are taxes and revenues collected in other funds, compared with \$882.0 million and \$395.7 million in FY 2011, respectively. The fund expended \$1.3 billion during the year, which is an increase of \$0.3 billion from FY 2011. The fund balance decreased by \$173.9 million from FY 2011 to FY 2012. The decrease is principally from the increase in transportation expenditures.

U.S. Department of Health and Human Services Fund

The U.S. Department of Health and Human Services Fund is a fund created during fiscal year 2010 with the implementation of the new statewide accounting system to account for federal grants that are used to carry out health and human services programs.

The US DHHS Fund received \$934.1 million in federal grant revenues and expended \$1.4 billion. The US DHHS Fund received transfers in of \$352.2 million mostly from the General Fund for various health and human services programs. The change in fund balance from FY 2011 to FY 2012 was a decrease of \$124.7 million.

General Fund Budgetary Highlights

Actual State general fund revenue collections increased by \$850.9 million, or 6.4%, in FY 2012. Actual expenditure growth was 0.54% in FY 2012 compared with FY 2011, after remaining essentially flat (0.03%) in FY 2011 compared with FY 2010. Annual expenditure growth has averaged 1.3% over the past seven years in comparison to growth of

nearly 5.9% between FY 1996 and FY 2004. At year-end, the State had \$2.2 billion in reserves, with \$1.8 billion residing in the general fund and \$351.6 million residing in the Rainy Day Fund.

Capital Asset and Debt Administration

Capital Assets

Capital assets were \$13.4 billion, which was 53.7% of total assets for the primary government. Related debt was \$1.2 billion. Total capital assets net of related debt for the primary government was \$12.2 billion. Related debt was 9.1% of capital assets. Total capital assets increased by \$786.1 million or 6.3% and is attributable to increases in the Indiana Department of Transportation's land, infrastructure, and construction in progress (CIP). The net increase in capital assets is comprised of increases for INDOT's capital assets of \$839.9 million, software in development of \$19.9 million, and \$3.0 million in

DOA Public Works CIP with decreases of \$61.8 million for the primary government, \$13.2 million in capital lease assets, and \$1.7 million in internal service funds' capital assets. CIP consisting of right of way and work in progress increased \$211.5 million, infrastructure consisting of interstate roads, non-interstate roads, and bridges increased \$538.5 million, and land increased by \$89.9 million. More detailed information about the State's capital assets is presented in Note IV(D) to the Financial Statements.

The following table shows the percentage change from fiscal year 2011 to fiscal year 2012.

State of Indiana Capital Assets (in millions of dollars)							
	Governmental Activities		Business-type Activities		Total Primary Government		Total % Change
	2012	2011	2012	2011	2012	2011	
Land	\$ 1,710.0	\$ 1,671.5	\$ -	\$ -	\$ 1,710.0	\$ 1,671.5	2.3%
Infrastructure	8,946.8	8,408.5	-	-	8,946.8	8,408.5	6.4%
Construction in Progress	1,806.0	1,571.6	-	-	1,806.0	1,571.6	14.9%
Property, plant and equipment	2,110.7	2,119.6	0.4	0.4	2,111.1	2,120.0	-0.4%
Computer software	40.1	37.8	-	-	40.1	37.8	6.1%
Less accumulated depreciation	(1,253.5)	(1,235.1)	(0.4)	(0.3)	(1,253.9)	(1,235.4)	1.5%
Total	\$ 13,360.1	\$ 12,573.9	\$ -	\$ 0.1	\$ 13,360.1	\$ 12,574.0	6.3%

Long-term Obligations

Major long-term obligations items are included in the following table. These items comprised 100% of total long-term liabilities and 39.1% of total liabilities.

The following table shows the percentage change from fiscal year 2011 to fiscal year 2012.

State of Indiana Long-term Liabilities (in millions of dollars)							
	Governmental Activities		Business-type Activities		Total Primary Government		Total % Change
	2012	2011	2012	2011	2012	2011	
Accrued liability for compensated absences	\$ 63.8	\$ 62.4	\$ 0.3	\$ 0.3	\$ 64.1	\$ 62.7	2.2%
Intergovernmental payable	20.0	30.0	-	-	20.0	30.0	-33.3%
Capital lease payable	1,158.8	1,182.3	-	-	1,158.8	1,182.3	-2.0%
Claims payable	-	-	26.2	29.3	26.2	29.3	-10.6%
Net pension obligations	1,344.3	1,207.9	-	-	1,344.3	1,207.9	11.3%
Other postemployment benefits	119.6	118.2	-	-	119.6	118.2	1.2%
Pollution remediation	38.7	32.6	-	-	38.7	32.6	18.7%
Due to component units	50.0	50.0	-	-	50.0	50.0	0.0%
Total	\$ 2,795.2	\$ 2,683.4	\$ 26.5	\$ 29.6	\$ 2,821.7	\$ 2,713.0	4.0%

Total long-term liabilities increased by 4.0% or \$108.7 million. The largest increase was in net pension obligations of \$136.4 million. Other long-term liabilities to increase were pollution remediation by \$6.1 million, accrued liability for compensated absences by \$1.4 million, and OPEB by \$1.4 million.

The increase in net pension obligations is because

there were increases of \$89.3 million in the TRF Pre-1996 Plan and \$45.0 million in the PERF-State Plan.

The increase in the pollution remediation liability was because of increases of \$5.4 million for IDEM's Superfund and State Cleanup pollution sites and of \$1.3 million for DNR's pollution sites. INDOT's liability for pollution sites decreased by \$0.6 million.

Other postemployment benefits increased by \$1.4 million. This increase in OPEB liability is based on the OPEB financial report for the fiscal year ending June 30, 2012. The Indiana State Police Plan's (ISPP) liability increased by \$7.7 million and the Legislature Plan (LP) increased by \$0.3 million. The Indiana State Personnel Plan (SPP) decreased by \$3.2 million and the Conservation Excise Police Plan (CEPP) decreased by \$3.4 million. The CEPP joined the SPP and ISPP in pre-funding retiree health benefits.

Significant decreases in long-term liabilities were for capital leases payable of \$23.5 million and intergovernmental payables of \$10.0 million. The decrease in capital leases payable is because there was a decrease of \$42.7 million in the direct financing lease with the highway revenue bonds of the Indiana

Finance Authority along with a net decrease in other capital assets of \$3.0 million which were offset by an increase of \$22.3 million in the direct financing lease with the State Office Building Commission revenue bonds of the Indiana Finance Authority. The \$10.0 million decrease in intergovernmental payables resulted from the fulfillment of the statutory obligation to the Northwest Indiana Regional Development Authority.

Claims payable for business activities decreased by \$3.1 million. This was the amount of decrease in claims payable for the Indiana Residual Malpractice Insurance Authority.

More detailed information about the State's long term obligations is presented in Note IV(F) to the Financial Statements.

Infrastructure

As required by GASB Statement No. 34, the State has capitalized its infrastructure. This amounts to \$8.9 billion in roads and bridges using the modified approach, \$1.5 billion in right of way classified as land, and \$22.6 million in property (septic, sewer, and water systems; and streets/sidewalks/curbs) and dams being depreciated. In order to utilize the modified approach, the State is required to:

- Maintain an asset management system that includes an up-to-date inventory of eligible infrastructure assets.
- Perform condition assessments of eligible assets and summarize the results using a measurement scale.
- Estimate each year the annual amount to maintain and preserve the assets at the condition level established and disclosed by the State.
- Document that the assets are being preserved approximately at or above the established condition level.

Under the modified approach, the State expenses certain maintenance and preservation costs and does not report depreciation expense. Assets accounted for under the modified approach include approximately 11,000 centerline miles of pavement on 214 routes and approximately 5,300 bridges that the State is responsible to maintain.

The State has consistently maintained the assessed conditions of roads over the past three years. It is the State's policy to maintain a network average International Roughness Index (IRI) of no more than

95 for Interstate Roads, NHS Non-Interstate and Non-NHS Roads (a good rating is in the range of 80–115). The most recent condition assessment, completed for FY 2012, indicated that the average IRI for roads was in an acceptable range.

The State has maintained the assessed conditions of bridges at levels which are above the established benchmarks. It is the State's policy to maintain Interstate bridges at an average sufficiency rating of 87%, NHS Non-Interstate bridges at an average sufficiency rating of 85%, and Non-NHS bridges at an average sufficiency rating of 83% (a good rating is 80% - 90%). The most recent condition assessment, completed in FY 2012, indicated that the average sufficiency rating for bridges exceeded the minimum acceptable standard.

Total actual maintenance and preservation costs for roads exceeded plan. Actual maintenance costs for interstate roads were lower than planned due to moving some projects to fiscal year 2013; however, this roadway type maintained a good condition rating.

Total actual maintenance and preservation costs for bridges were lower than planned including on the NHS and non-NHS road classes. Several; bridge projects were postponed to fiscal year 2013. Total actual maintenance and preservation costs for bridges on interstate roads exceeded plan. Bridge sufficiency ratings were within the State's policy for the maintenance of bridges in all road classes

Economic Factors

The economic and revenue forecasts upon which the FY 2012 – FY 2013 State budget was based were presented to the State Budget Committee on April 15, 2011. At that time, real Gross Domestic Product (real GDP) was forecast to increase by 3.1% in FY 2012, while nominal GDP was forecast to increase by 4.8%. Corporate profits were forecast to increase by 2.7% and the S&P 500 was forecast to increase by 10.7%. Indiana personal income and Indiana personal income net of transfer payments were forecast to increase by 3.9% and 4.2%, respectively. The Indiana unemployment rate was forecast to average 8.5% for FY 2012.

The April 2011 forecast was last updated on December 14, 2011. Real GDP was forecast to increase by 1.7% in FY 2012. Corporate profits were forecast to increase by 6.5% and the S&P 500 was forecast to decrease by 0.2%. For FY 2012, the US personal savings rate was forecast to average 3.8%.

Contacting the Auditor of State

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. If you have questions about this report or need additional

Indiana personal income was forecast to increase by 3.2% in FY 2012, while transfer payments as a percent of Indiana personal income were forecasted to average 20.1%.

The U.S. Bureau of Economic Analysis (BEA) currently estimates that real GDP increased by 2.0% in FY 2012. Corporate profits and the S&P 500 increased by 7.7% and 4.7%, respectively, in FY 2012. The US personal savings rate averaged 3.7% during this time. BEA currently estimates that Indiana personal income increased by 4.4%. Transfer payments as a percent of Indiana personal income averaged 19.6% in FY 2012. The Indiana unemployment rate averaged 8.7% in FY 2012.

State of Indiana
Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Assets
June 30, 2012
(amounts expressed in thousands)

Total fund balances-governmental funds \$ 8,270,271

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:

Land	\$ 1,709,958	
Infrastructure assets	8,946,814	
Construction in progress	1,806,023	
Property, plant, and equipment	2,081,440	
Accumulated depreciation	<u>(1,202,846)</u>	
Total capital assets, net of depreciation		13,341,389

The State's pension funds have net pension assets not reported as assets in the funds. 29,042

Some of the state's receivables will be collected after year-end but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.

Taxes receivable	558,263	
Accounts receivable	<u>64,837</u>	
		623,100

Some liabilities reported in the statement of net assets do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

Accounts payable	(249,607)	
Litigation liabilities	(6,000)	
Pollution remediation	<u>(28,021)</u>	
		(283,628)

Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. 56,204

Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:

Accrued liability for compensated absences	(130,120)	
Other postemployment benefits	(91,903)	
Loan from the Indiana Board for Depositories	(50,000)	
Capital lease payable	(1,201,905)	
Net pension obligations	<u>(1,344,297)</u>	
Total long-term liabilities		<u>(2,818,225)</u>

Net assets of governmental activities \$ 19,218,153

The notes to the financial statements are an integral part of this statement.

State of Indiana
Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended June 30, 2012
(amounts expressed in thousands)

Net change in fund balances-total governmental funds	\$ 179,673
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report net capital outlays for infrastructure as expenditures. However in the statement of activities these outlays are capitalized and under the modified approach not depreciated. This is the amount of the net capital outlays for infrastructure under the modified approach in the current period.	839,935
Governmental funds report net capital outlays as expenditures. However in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which net capital outlays (\$119,771) exceeds depreciation of \$67,639 in the current period.	(52,132)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Tax revenue	(529,271)
Non-tax revenue	205
Expenses reported in the statement of activities that do not require the use of current financial resources are not reported as expenditures in the funds.	
Operating expenses	30,567
Statutory expenses	10,000
Amounts due to component units	15,145
The change in net pension assets and net pension obligations do not provide or require the use of current financial resources:	
Decrease in net pension assets	(1,572)
Increase in net pension obligations	(136,393)
The change in other postemployment benefits do not provide or require the use of current financial resources.	26,326
Internal service funds are used by management to charge the costs of certain activities, such as insurance, data processing, telecommunications, fleet management, and printing, to individual funds. The net revenue (expense) of internal service funds is reported with governmental activities.	(61,810)
Change in net assets of governmental activities.	<u>\$ 320,673</u>

The notes to the financial statements are an integral part of this statement.

STATE OF INDIANA
Notes to the Financial Statements
June 30, 2012
(schedule amounts are expressed in thousands)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

As required by generally accepted accounting principles, these financial statements present the government (State of Indiana) and its component units. Blended component units, although legally separate entities, are in substance part of the government's operations; data from these units are combined with data of the primary government. Discretely presented component units are reported in one column in the government-wide financial statements. This column contains the governmental fund types, proprietary fund types and colleges and universities. This is to emphasize that, as well as being legally separate from the government, they also provide services to and benefit local governments and/or the citizens of the State of Indiana. Of the component units, the Indiana Housing and Community Development Authority, Ports of Indiana, Indiana State Fair Commission, Indiana Comprehensive Health Insurance Association, and the Indiana Political Subdivision Risk Management Commission have a December 31, 2011, fiscal year-end.

Blended Component Units

The following component units are reported under the blended method as the primary government appoints a voting majority of the board and is able to impose its will. These units, although legally separate from the State, are reported as part of the State because they provide services entirely or almost entirely to the State. These component units are audited by the State Board of Accounts.

The Bureau of Motor Vehicle Commission (BMVC) was established by state law to develop and update Bureau of Motor Vehicles (BMV) policy, establish standards for the operation and maintenance of license branches, and submit budget proposals for the BMVC, BMV, and license branches. The BMVC has significant interrelated operations with the BMV and license branches. The BMV is responsible for the accurate and timely distribution of the fees and taxes (excise and wheel) collected at the license branches for driver licenses, auto and watercraft registrations, and license plates.

The BMVC consists of four individuals appointed by the governor and the chairperson who is the commissioner of the BMV. No more than three of the members may be of the same political party. The BMVC is reported as a non-major governmental fund.

The State Student Assistance Commission of Indiana (SSACI) was established by state law to assist the State in increasing the opportunities of higher education for every person who resides in Indiana and who, though being highly qualified and desiring to receive a higher education, is deterred by financial considerations. They provide data to the General Assembly to allow them to make educated policy decisions about financial aid. In addition, they assist the State in identifying which students qualify for financial aid enabling the State to efficiently distribute funds.

The SSACI consists of ten citizens appointed by the governor. Each of Indiana's nine congressional districts must be represented by a resident of the district. An at-large student member who is a student at an approved postsecondary educational institution is also an appointed member. The SSACI is reported as a non-major governmental fund.

Discretely Presented Component Units

The following are discretely presented component units of the State of Indiana. The primary government appoints a voting majority of their boards and is able to impose its will. All governmental and proprietary component units are audited by outside auditors except for the Indiana Economic Development Corporation and State Fair Commission which are audited by the State Board of Accounts. The State Board of Accounts audits the colleges, universities, and the discrete pension trust funds. College and university foundations are audited by outside auditors.

The Indiana Economic Development Corporation (IEDC) was created to improve the quality of life for the citizens of Indiana by encouraging the diversification of Indiana's economy, by the orderly

economic development and growth of Indiana, the creation of new jobs, the retention of existing jobs, the growth and modernization of existing industry and the promotion of Indiana. The IEDC is composed of 12 members, none of whom may be members of the general assembly. These members consist of the governor and 11 individuals appointed by the governor. At least five members must belong to the same political party as the governor. At least three members must belong to a major political party other than the party of which the governor is a member. The IEDC is reported as a non-major governmental fund. The IEDC does not issue their own separately audited financial statements.

Formed on May 15, 2005, the Indiana Finance Authority (IFA) combined five formerly independent bodies under one entity. The entities combined included the Indiana Development Finance Authority, State Office Building Commission, Indiana Transportation Finance Authority, Recreational Development Commission and the State Revolving Fund. Effective July 1, 2005, all records, money, and other property held by the Auditor of State with respect to the Supplemental Drinking Water and Wastewater Assistance Programs were transferred to the IFA as the successor entity. The IFA is a body both corporate and politic, and though separate from the State of Indiana (State); the exercise by the IFA of its powers constitutes an essential governmental function. Indiana's constitution restricts State incurrence of debt. As a result, the General Assembly created the IFA and authorized it to issue revenue bonds and other obligations to finance projects for lease to the State.

The IFA finances and refines state hospitals, state office buildings, state garages, correctional facilities, recreational facilities, highways, bridges, airport facilities, and other related facilities for the benefit of the State. The IFA also provides low interest loans to Indiana communities for environmental improvements. It also promotes business and employment opportunities by issuing tax-exempt financing for industrial development projects, rural development projects, childcare financing, and educational facility projects.

The IFA's revenue bonds and notes are special and limited obligations of the IFA, payable from lease rental revenue, bond or note proceeds and investment income. The IFA's revenue bonds are not general obligations of the IFA nor are they State debt within the meaning of any constitutional provision or limitation. The IFA cannot compel the General Assembly to make appropriations to pay

lease rentals. The Authority is reported as a proprietary fund.

The Indiana Bond Bank, created in 1984, is controlled by a board composed of the Treasurer of State, Director of Public Finance and five appointees of the Governor. The Bond Bank issues debt obligations and invests the proceeds in various projects of State and local governments. The unit is reported as a proprietary fund.

The Indiana Housing and Community Development Authority was created in 1978 for the purpose of financing residential housing for persons and families of low and moderate incomes. The Authority's board consists of the Public Finance Director of the Indiana Finance Authority, the Lieutenant Governor, the State Treasurer and four persons appointed by the Governor. The Lieutenant Governor chairs the board. The unit is reported as a proprietary fund.

The Indiana Board for Depositories was established to ensure the safekeeping and prompt payment of all public funds deposited in Indiana banks. The Board, consisting of the Governor, Treasurer of State, Auditor of State, Chairman of the Commission for Financial Institutions, State Examiner of the State Board of Accounts and four members appointed by the Governor, provides insurance on public funds in excess of the Federal Deposit Insurance Corporation limit. The unit is reported as a proprietary fund.

The Indiana Secondary Market for Education Loans, Inc. (ISM) was formed at the request of the Governor to purchase education loans in the secondary market. The Governor appointed the original Board of Directors. ISM provides in its articles of incorporation that changes in the composition of its directors or in its bylaws are subject to the approval of the Governor. The unit is reported as a proprietary fund.

The State Lottery Commission of Indiana is composed of five members appointed by the Governor. Net proceeds from the Lottery are distributed to the State to be used to supplement teachers' retirement, public employees' retirement, and the Build Indiana Fund. A portion of the Build Indiana Fund is then used to supplement the Motor Vehicle Excise Tax Replacement Fund. The Commission is reported as a proprietary fund.

Effective May 15, 2005, the Indiana Stadium and Convention Building Authority was established pursuant to House Bill 1120, which has now been codified at Indiana Code 5-1-17, as an entity of the

State to finance, design, construct and own the new Indiana Stadium in Indianapolis and the upcoming expansion of the adjacent Indiana Convention Center. The Building Authority is governed by a seven member board, comprised of four appointments by the Governor, two appointments by the Mayor of the City of Indianapolis and one appointment by the Governor following nomination from one of the counties surrounding Marion County. The Authority is reported as a proprietary fund.

The White River State Park Development Commission has the responsibility to design and implement a plan for the establishment and development of park, exposition, educational, athletic, and recreational projects to be located within one mile from the banks of the Indiana White River in a consolidated first-class city and county. The Commission is reported as a non-major proprietary fund.

The Ports of Indiana is created under Indiana Code 8-10-1-3 to construct, maintain, and operate public ports with terminal facilities and traffic exchange points for all forms of transportation on Lake Michigan and the Ohio and Wabash Rivers. The Commission consists of seven members appointed by the governor. The Commission is reported as a non-major proprietary fund.

The State Fair Commission was established per Indiana Code 15-13-2 as the trustee for and on behalf of the people of the State of Indiana to administer the State Fairgrounds as trust property of the State of Indiana. The Commission is responsible for holding the annual Indiana State Fair in August, as well as providing accessible, cost-effective, secure and modern facilities for the variety of events held at the Fairgrounds and other properties it owns. The Commission consists of eight members appointed by the governor. The Commission is reported as a non-major proprietary fund.

The Indiana Comprehensive Health Insurance Association was created by the State of Indiana to assure that health insurance is made available throughout the year to each eligible Indiana resident applying to the Association for coverage. The board of directors of the Association consists of nine members whose principal residence is in Indiana. Four members are appointed by the insurance commissioner from the members of the Association, one of which must be a representative of a health maintenance organization. Two members are appointed by the commissioner and shall be consumers representing policyholders.

Other members are the state budget director or designee and the commissioner of the department of insurance or designee. One member appointed by the commissioner must be a representative of health care providers. The Association is reported as a non-major proprietary fund.

The Indiana Political Subdivision Risk Management Commission was created per Indiana Code 27-1-29 to administer the Political Subdivision Risk Management Fund (Basic fund) and the Political Subdivision Catastrophic Liability Fund (Catastrophic fund). These funds aid political subdivisions in protecting themselves against liabilities. The Commission consists of eleven members appointed by the governor. The Commission is reported as a non-major proprietary fund.

The Indiana State Museum and Historic Sites Corporation was created per Indiana Code 4-37 and is responsible for operating and administering the twelve State Historic Sites including the Indiana State Museum. The twelve Historic Sites include Angel Mounds, Corydon Capitol, Culbertson Mansion, J.F.D. Lanier Mansion, Levi Coffin, Limberlost, New Harmony, T.C. Steele, Gene Stratton-Porter, Vincennes, Whitewater Canal and the Indiana State Museum. The Corporation is governed by a thirty member board of trustees of which twenty-five are voting members and five are non-voting members. Of the twenty-five voting members, thirteen persons are appointed by the governor and twelve are appointed by the board. The five non-voting members include the chief executive officer, the governor or governor's designee, one member of the House of Representatives, one member of the Senate, and the director of the Department of Natural Resources or the director's designee. The Corporation is reported as a non-major proprietary fund.

Each of the seven colleges and universities included in this report was established by individual legislation to provide higher education opportunities to the citizens of Indiana. The authority to administer the operations of each institution is granted to a separate board of trustees for each of the seven institutions. The number and makeup of the board of trustees of each college and university is prescribed by legislation specific for that institution. Four universities have nine member boards; two have ten member boards; Ivy Tech Community College has a fourteen-member board of trustees. Appointments to the boards of trustees are made by the Governor and by election of the alumni of the respective universities. Indiana

University and Purdue University are reported as a major discretely presented component unit.

Fiduciary in Nature Component Unit

Effective July 1, 2011, the Indiana Public Retirement System (INPRS) was established as an independent body corporate and politic. INPRS is not a department or agency for the State, but is an independent instrumentality exercising essential government functions. The INPRS board is composed of nine trustees appointed by the Governor which includes the director of the budget agency or the director's designee as an ex officio voting member of the board. The board of trustees administers the following plans: Public Employees' Retirement Fund, Teachers' Retirement Fund, Judges' Retirement System, State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan, the 1977 Police Officers' and Firefighters' Pension and Disability Fund, the Legislators' Retirement System Defined Benefit Plan, the

Legislators' Retirement System Defined Contribution Plan, the Prosecuting Attorneys' Retirement Fund, the Pension Relief Fund, and two death benefit funds. For more information on the plans see Note V(E) Employee Retirement Systems and Plans. All of these funds have been aggregated for presentation from INPRS' financial statements.

The Indiana Public Retirement System was determined to be significant for note disclosure purposes involving the fiduciary in nature component units.

The primary government's officials are also responsible for appointing the members of the boards of other organizations, but the primary government's accountability for these organizations does not extend beyond making the appointments.

The financial statements of the individual component units whom issue separately audited financial statements may be obtained from their administrative offices as follows:

B. Government-Wide and Fund Financial Statements

The government-wide financial statements consist of a statement of net assets and a statement of activities. These statements report information about the overall government. They exclude information about fiduciary activities, including component units, which are fiduciary in nature, such as the public employee retirement systems. They distinguish between the primary government and its discretely presented component units as defined

under the reporting entity above. They also distinguish between governmental activities and business-type activities of the State. Governmental activities rely on taxes and intergovernmental revenues for their support. Business-type activities, on the other hand, rely on fees and charges for services provided for their support.

The statement of activities matches the State's direct functional expense with the functional program revenue to identify the relative financial burden of each of the State's functions. This format identifies the extent to which each function of the government draws from the general revenues of the government or is self-financing through fees and intergovernmental aid. Certain indirect costs are included in the program expense reported for individual functions of government. Program revenues derive directly from the program itself or from parties outside the State's taxpayers, as a whole. They reduce the net cost of the function to be financed from the general revenues. Program revenues include charges for services, program-specific operating grants and contributions, and program-specific capital grants and contributions. Revenues that do not meet the criteria of program revenues are general revenues. These include all taxes, even those levied for a specific purpose and are reported by type of tax. Investment income is also a general revenue.

Separate financial statements are presented for the State's governmental, proprietary and fiduciary funds. Governmental fund financial statements are the balance sheet and the statement of revenues, expenditures, and changes in fund balances. Major governmental funds are presented in separate columns and non-major funds are aggregated in a separate column. Proprietary and fiduciary funds are reported using the statement of net assets and the statement of changes in net assets. In addition proprietary funds include a statement of cash flows.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Measurement Focus and Basis of Accounting

The government-wide statements and the proprietary and fiduciary fund statements use the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Government-mandated nonexchange revenues and voluntary nonexchange revenues, including federal government mandates on the State, certain grants and entitlements, and most donations, are recognized in the period when all applicable eligibility requirements have been met.

For the government-wide financial statements and enterprise and fiduciary fund statements, the State applies all applicable FASB pronouncements issued before December 1, 1989, and those issued after

that date which do not contradict any previously issued GASB pronouncements.

Governmental funds are used to account for the government's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For the State of Indiana, "available" means collectible within one month of the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, and certain compensated absences and related liabilities, and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Individual and corporate income tax, sales tax, inheritance tax, cigarette tax, alcoholic beverage tax, motor fuel tax, fines, and penalties are accrued using one month's revenues.

Gaming taxes and fees and vehicle licenses are received daily via electronic funds transfer with a one to three working day delay, so the first several working days in July revenues are reviewed for materiality and accrued accordingly.

Financial Statement Presentation

A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

Governmental funds are used to account for the government's general government activities. Governmental funds include the general fund, special revenue funds, capital projects funds, debt service funds and permanent funds.

The *General Fund* is the State's primary operating fund. It is maintained to account for resources obtained and used for those services traditionally provided by State government, which are not required to be accounted for in another fund. The General Fund is a major fund.

The *special revenue* funds account for specific revenue sources that are legally restricted or committed to expenditure for specific purposes except for major capital projects.

The following special revenue funds are presented as major.

- The *Public Welfare-Medicaid Assistance Fund* receives federal grants and State appropriations which are used to administer the Medicaid program. Federal grant revenues, quality assessment fees, Intermediate Care Facility for the Mentally Retarded fees, and other resources disclosed under interfund transfers in Note IV(B) are reported in this fund.
- The *Major Moves Construction Fund* distributes money received from the Toll Road lease. This money is used for new construction and major preservation of highways and bridges throughout Indiana. Interest income and other resources disclosed under interfund transfers in Note IV(B) are reported in this fund.
- The *ARRA of 2009 Fund* is used to account for funds received under the American Recovery and Reinvestment Act of 2009 which became law on February 17, 2009. These funds are supplementing existing federal programs in areas such as Medicaid, education, transportation, housing, and employment services. Federal grant revenues and other resources disclosed under interfund transfers in Note IV(B) are reported in this fund.
- The *U.S. Department of Transportation Fund* receives federal grants and State appropriations that are used for State transportation programs. Federal grant revenues and other resources disclosed under interfund transfers in Note IV(B) are reported in this fund.
- The *U.S. Department of Health and Human Services Fund* receives federal grants that are used to carry out health and human services programs. Federal grant revenues, child support annual fees, and other resources disclosed under interfund transfers in Note IV(B) are reported in this fund.

The *capital projects funds* account for financial resources that are restricted, committed, or assigned to expenditures for the acquisition of fixed assets or construction of major capital projects not being financed by proprietary or fiduciary funds. There are no major capital project funds.

The *permanent funds* are used to account for resources that are legally restricted to the extent that only earnings and not principal may be used for the benefit of the government or its citizens. There are no major permanent funds.

Proprietary funds focus on the determination of operating income, changes in net assets, financial position and cash flows. Operating revenues and expenses are the revenues and expenses that pertain to the fund's principal operations. Nonoperating revenues and expenses are those revenues resulting from secondary or auxiliary activities of the fund. Nonoperating items include interest/investment revenue and expense. Proprietary funds include both enterprise funds and internal service funds.

Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the board has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The State reports the following major enterprise fund:

- The *Unemployment Compensation Fund* collects employer taxes and the federal share of unemployment compensation. Benefits are paid to eligible individuals.

Internal service funds account for operations that provide goods and services to other departments or agencies of the government, or to other governments, on a cost-reimbursement basis. The goods and services provided include fleet management, information technology and communication, aviation, printing, products of correctional industries, self-insurance, and centralized accounting. Major fund reporting requirements do not apply to internal service funds. Combined totals for all internal service funds are reported as a separate column on the face of the proprietary fund financial statements.

Fiduciary funds account for assets held by or on behalf of the government in a trustee capacity or as an agent on behalf of others. They cannot be used to support the State's own programs. Fiduciary funds include pension (and other employee benefit) trust funds, private-purpose trust funds, investment trust funds, and agency funds.

Pension (and other employee benefit) trust funds are used to report resources held in trust for the members and beneficiaries of defined benefit pension plans, and defined contribution pension

plans. Pension and other employee benefits trust funds include the Indiana Public Retirement System, State Police Pension Fund, State Employee Retiree Health Benefit Trust Fund – DB, and the State Employee Retiree Health Benefit Trust Fund – DC.

Private-purpose trust funds are used to account for trust arrangements in which both the principal and interest may be spent for the benefit of individuals, private organizations or other governments. Private Purpose funds include the Abandoned Property Fund and the Private Purpose Trust Fund.

Investment trust funds are used to report the external portion of investment pools operated by a sponsoring government. The Treasurer of State, local units of government, and quasi-governmental units in Indiana have the opportunity to invest in a common pool of investments that preserves the principal of the public's funds, remains highly-liquid, and maximizes the return on the investment of public funds. The State's investment trust fund is TrustIndiana operated by the state treasurer. The amounts reported represent the external portion of the pool.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. These funds are used to account for assets that the government holds for others in an agency capacity. Agency Funds include Employee Payroll Withholding and Benefits, Local Distributions, Child Support and Department of Insurance.

D. Eliminating Internal Activity

Interfund loans including those from cash overdrafts in funds, interfund services provided or used, and prepaid expenditures of internal service funds are eliminated as internal balances in the government-wide statement of net assets. This is to minimize the "grossing-up" effect on assets and liabilities within the governmental and business-type activities columns of the primary government. As a result, interfund loans and interfund services provided and/or used reported in the governmental funds balance sheet have been eliminated in the government-wide statement of net assets.

Eliminations were made in the statement of activities to remove the "doubling-up" effect of internal service fund activity. The effect of similar internal events that are, in effect, allocations of overhead expenses from one function to another or within the same function have also been eliminated, so that the allocated expenses are reported only by the function to which they were allocated. The

effect of interfund services provided and used between functions has not been eliminated in the statement of activities since to do so would misstate both the expenses of the purchasing function and the program revenues of the selling function.

E. Assets, Liabilities and Equity

1. Deposits, Investments and Securities Lending

For purposes of reporting cash flows, cash and cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash and near their maturity (generally three months or less from the date of acquisition).

Cash balances of most State funds are commingled in general checking accounts and several special purpose banking accounts. The available cash balance not necessary beyond immediate need is pooled and invested. Interest earned from investments purchased with pooled cash is deposited in the general fund, except as otherwise provided by statute.

Investments and secured lending transactions are stated at fair value. However, money market investments and participating interest-earning investment contracts that mature within one year of acquisition are reported at amortized cost, which approximates fair value. Fair value is determined by quoted market prices which approximate fair value.

Indiana Code 5-13-9 and 5-13-10.5 authorizes the Treasurer to invest in deposit accounts issued or offered by a designated depository; securities backed by the full faith and credit of the United States Treasury; securities issued by any U.S. government agency; AAA money market mutual funds with a portfolio limited to direct obligations of the U.S., obligations of any federal agency, and/or repurchase agreements fully collateralized with U.S. government obligations or U.S. agency obligations; AAA rated commercial paper, and repurchase agreements that are fully collateralized, as determined by the current market value computed on the day the agreement is effective, by interest-bearing obligations that are issued, fully insured or guaranteed by the United States or any U.S. government agency.

The Treasurer of State is authorized by statute to accept as collateral safekeeping receipts for securities from: (1) a duly designated depository or (2) a financial institution located either in or out of Indiana, having physical custody of securities, with

a combined capital and surplus of at least \$10 million, according to the last statement of condition filed by the financial institution with its governmental supervisory body. The Treasurer may not deposit aggregate funds in deposit accounts in any one designated depository in an amount aggregating at any one time more than 50% of the combined capital, surplus and undivided profits of that depository as determined by the last published statement.

The Indiana Public Retirement System (INPRS) Board of Trustees administers seven retirement systems and three non-retirement funds. Indiana law requires the Board to establish investment guidelines and limits on all types of investments and take other actions necessary to fulfill its duty as fiduciary for all assets under its control. The INPRS Board of Trustees is required to diversify investments in accordance with the prudent investor standards. At June 30, 2012, cash and investments of the funds were held by banks or trust companies under custodial agreements with INPRS. The INPRS Board of Trustees contracts with investment counsel, trust companies or banks to assist INPRS in its investment program. The Investment Policy Statement adopted by the INPRS Board of Trustees and the asset allocation approved by the Board of Trustees contains target allocations and allowable ranges that are expected to meet target rates of return over a long period of time while minimizing risk. The investments of INPRS are subject to the provisions of IC 5-10.3-5-3 and IC 5-10.4-3-10. See Note IV(A)(3) for more information.

Investments which are authorized for the State Police Retirement fund include: U.S. Treasury and Agency obligations, State and municipal obligations, domestic corporate bonds/notes, common stock and equity securities, foreign stocks and bonds, mortgage pool investments, and repurchase agreements. The investments of the State Police Retirement fund are subject to the provisions of IC 10-12-2-2.

2. Receivables and Payables

In the government-wide and proprietary fund financial statements, revenues are recognized on the flow of economic resources measurement focus. Material receivables are recognized as follows. Uncollected taxes due in the following periods are subject to accrual.

Individual income tax – Individual withholding tax is due from employers by the 20th day after the end of the month collected. Estimated payments are due from individuals by the 15th

of the month immediately following each quarter or the calendar year.

Corporate income tax - Due quarterly on the 20th day of April, June, September, and December with the last payment due on April 15th for a calendar year taxpayer.

Sales tax – Due by the 20th day after the end of the month collected.

Fuel tax – Gasoline tax is due the 20th day after the end of the month collected. Special fuel tax, depending on the status of the taxpayer, is due by the 15th day after the end of the month collected or the 15th day after the end of the quarter collected. Motor carrier surtax is due at the end of the month following the end of the quarter.

Financial institutions tax – same laws as corporate income taxes (see above) for making payments.

Alcohol and tobacco taxes – Cigarette distributors must purchase tax stamps within 6 days after they accept delivery of the cigarettes. Cigarette tax is due within 30 days of the issuance of the tax stamp. Alcoholic beverage tax is due by the 20th day after the end of the month collected.

Inheritance tax – except as otherwise provided in IC 6-4.1-6-6(b), the inheritance tax imposed as a result of a decedent's death is due twelve (12) months after the person's date of death.

In the governmental fund financial statements, revenue is recognized on the flow of current financial resources. Material receivables are subject to accrual for receipts collected in the month of July.

The State of Indiana does not collect property tax, which is collected by local units of government.

Deferred revenue is the liability for the full accrual income taxes receivable net of the allowance for doubtful accounts plus cash on hand from federal grant programs.

3. Interfund Transactions and Balances

The State has the following types of interfund transactions in the governmental fund and proprietary financial statements:

Interfund services provided and used (reciprocal interfund activity) – Charges for goods or services rendered by one fund to another are treated as

revenues of the recipient fund and expenditures/expenses of the disbursing fund.

Interfund Transfers (non-reciprocal interfund activity) – Legally authorized transfers whereby the two parties do not receive equivalent cash, goods or services are reported as transfers.

The types of assets and liabilities resulting from these transactions are:

Interfund loans – These are balances arising from the short-term and long-term portion of interfund transactions.

Interfund services provided/used – These are balances arising in connection with reciprocal interfund activity or reimbursements. Balances relating to discretely presented component units are presented as ‘Due from/to component units’.

Interfund services provided and interfund loans are eliminated in the government-wide statements because they are provided by one governmental activity on behalf of another or by one business-type activity on behalf of another.

4. Inventories and Prepaid Items

Inventories for the Inns & Concessions, Institutional Industries and Administrative Services Revolving funds are valued at cost. The costs of governmental fund-type inventories are recorded as expenditures when purchased. The first in/first out (FIFO) method is used for valuation of inventories.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

5. Restricted Net Assets

Certain net assets are classified as restricted net assets because their use is completely restricted by bond indentures, contracts, grantors, contributors, laws or regulations of other governments, or through constitutional provisions or enabling legislation. Net assets restricted by enabling legislation for governmental activities totals \$0.9 billion, of which \$0.5 billion is permanent funds principal and \$0.4 billion is for the Economic Stabilization Fund as discussed in Note V(D).

6. Capital Assets

Capital outlays are reported as expenditures in the governmental funds and as assets in the government-wide statements to the extent the State’s \$20,000 capitalization threshold for external

financial reporting is met. In accordance with GASB Statement No. 34, all infrastructure assets have been capitalized retroactively.

The Indiana Department of Transportation (INDOT) uses the modified approach for reporting its infrastructure. The Department of Natural Resources (DNR) uses the depreciation approach for reporting its infrastructure.

Under the modified approach, the State has determined that the condition level for INDOT infrastructure assets to be maintained is:

- a network average International Roughness Index (IRI) of no more than 95 and no more than 10% of all pavements in the unacceptable range for Interstates, National Highway Safety (NHS) Non-Interstate roads, and Non-NHS roads,
- an average sufficiency rating of 87% for interstate bridges,
- an average sufficiency rating of 85% for NHS Non-Interstate bridges, and
- an average sufficiency rating of 83% for Non-NHS bridges.

The Asset Management, Program Engineering, and Road Inventory Division of INDOT is responsible for determining the appropriate condition level of the infrastructure assets.

No amounts are capitalized in connection with improvements that lengthen the lives of such assets, unless the improvements also increase their service potential.

INDOT projects are capitalized based on capitalization and preservation percentages assigned to three hundred seventy-seven (377) work types. For example, the cost for constructing a new bridge would likely be 100% capitalized; whereas, the cost for adding travel lanes to a road would likely be assigned a work type code resulting in capitalization at 50% and preservation at 50%.

The State maintains an inventory of these infrastructure assets and performs periodic condition assessments to establish that the predetermined condition level is being maintained. Road pavement condition assessments are performed annually on all INDOT state routes, including interstates. Condition assessments of all bridges are determined on a bi-annual basis. Sufficiency ratings of all bridges are determined on an annual basis by the Federal Highway Administration based on annual submittal of bridge condition data.

The State makes annual estimates of the amounts that must be expended to preserve and maintain these infrastructure assets at the predetermined condition levels.

Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated fixed assets are recorded at their estimated fair value at the date of donation.

Capital assets are depreciated in the proprietary and similar trust funds using the straight-line method on both the fund basis and the government-wide basis. Both the government-wide statements and proprietary and similar trust funds use the following estimated useful lives:

<u>Assets</u>	<u>Months</u>
Buildings and other structures including improvements to buildings and other structures	240-480
Computer software	36
Infrastructure (not using modified approach)	240-720
Furniture, machinery and equipment	12-168
Motor pool vehicles	96-168

The State of Indiana maintains several collections of works of art, historical treasures, and similar assets that are not capitalized. While the collections are maintained by different agencies, each collection is:

- Held for public exhibition, education, or research in furtherance of public service, rather than financial gain.
- Protected, kept unencumbered, cared for, and preserved.
- Subject to an organizational policy that either prohibits sale or requires the proceeds from sales of collection items to be used to acquire other items for collections.

The State's major collections are:

- The Commission on Public Records, State Archives Collection consists of historical and legal documents, that are generated on: paper or paper substitutes; photographic or chemically based media; magnetic or machine readable media; or any other materials, regardless of form or characteristics.
- The State Library has two collections, the Manuscript Collection and the Indiana History Collection. These collections include historical documents and works of art, most of it of Indiana origin.

Other collections include the Historical Bureau's Indiana Governors' Portrait Collection, the Department of Administration's Statehouse Collection, and the Indiana Arts Commission's Collection. These collections consist primarily of art objects.

7. Compensated Absences

Full-time employees of the State of Indiana are permitted to accumulate earned but unused vacation and sick pay benefits. Vacation leave accumulates at the rate of one day per month and sick leave at the rate of one day every two months plus an extra day every four months. Bonus vacation days are awarded upon completion of five, ten and twenty years of employment.

Personal leave days are earned at the rate of one day every four months; any personal leave accumulated in excess of three days automatically becomes part of the sick leave balance. Upon separation of service, in good standing, employees will be paid for a maximum of thirty (30) unused vacation leave days. In addition, qualifying retiring employees are paid an additional payment up to a maximum of \$5,000, which is made up of unused vacation leave over 30 days, unused personal leave, and unused sick leave.

Employees of the legislative and judicial branches as well as those of the separately elected officials (i.e., Auditor of State) may convert a portion of accrued but unused vacation and sick leave into the deferred compensation plan. An employee must have at least 300 hours of vacation or sick leave accrued in order to participate in this plan. There is a sliding scale which determines how many hours are converted from those hours the employee has accrued. The hours converted are deposited into the deferred compensation program's 401(a) plan at 60% of the employee's hourly rate. Employees of the legislative branch of government have elected to participate in this program for FY 2013.

Vacation and personal leave and salary-related payments that are expected to be liquidated with expendable available financial resources are reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts not expected to be liquidated with expendable available financial resources are reported as long term liabilities in the government-wide, proprietary, and fiduciary fund financial statements.

8. Long-Term Obligations

Long-term debt and other obligations are reported in the government-wide statements and the

proprietary funds statements as liabilities in the applicable governmental activities, business-type activities, or proprietary fund.

In the governmental fund financial statements, bond issuance costs and bond discounts are treated as period costs in the year of issue. Proceeds of long term debt, issuance premiums or discounts and certain payments to escrow agents for bond refundings are reported as other financing sources and uses.

9. Fund Balance

In the fund financial statements, fund balances are categorized as nonspendable, restricted, committed, assigned, or unassigned. A brief description of each category is as follows:

Nonspendable – represents amounts that are either not in spendable form, such as inventories, and activity that is legally or contractually required to be maintained intact, such as a principal balance in a permanent fund.

Restricted – represents amounts restricted to specific purposes because of constraints placed on their use that are either externally imposed such as by grantors or imposed by law through constitutional provisions or enabling legislation.

Committed – represents amounts that can only be used for a specific purpose pursuant to constraints imposed by the government's highest level of decision making authority. The State of Indiana's highest level of decision making authority is the General Assembly. The formal action necessary would be the enactment of a State law that specifically establishes, modifies, or rescinds a fund balance commitment.

Assigned – represents amounts that are constrained by the government's intent to be used for specific purposes as expressed by the governing body itself or the official to which the governing body has delegated the authority to assign amounts to be used for specific purposes. The State Budget Agency has the authority per the biennial budget bill to make assignments of fund balances for specific purposes except for those restricted by law. The State Board of Finance comprised of the Governor, Auditor of State and Treasurer of State is empowered to make assignments of funds except for trust funds per I.C. 4-9.1-1-7.

Unassigned – represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. Only the general fund may report a positive unassigned fund balance; whereas, other governmental funds may need to report a negative unassigned fund balance if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes.

Funds on the State's accounting system are assigned one of the five fund balance classifications. If a fund has resources that are both restricted and unrestricted, then expenditures are applied first to restricted fund balance and then unrestricted amounts. A fund's unrestricted fund balance would have committed amounts reduced first, assigned amounts second, and unassigned amounts third when expenditures are incurred for purposes for which amounts in any of these unrestricted fund balance classifications could be used.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

As described in Note I, Summary of Significant Accounting Policies, differences exist between the government-wide and the governmental fund financial statements. These differences are summarized in the reconciliations that follow the governmental fund financial statements.

A. Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets

In the government-wide financial statements, capital assets are considered economic resources and are capitalized at cost or estimated historical cost at time of acquisition. Where applicable these costs are offset by accumulated depreciation.

The government-wide statements use the flow of economic resources and accrue receivables that are not available soon enough in the subsequent period to pay for the current period's expenditures. Also under the flow of economic resources, expenses reported in the statement of activities do not require the use of current financial resources. Both these receivables and payables are accrued in the government-wide statements, but not in the fund financial statements.

Internal service funds are used by management to charge the costs of certain activities to individual funds. In the government-wide financial statements, the assets and liabilities of internal service funds are included in governmental activities in the statement of net assets. In the proprietary fund financial statements internal service fund balances are segregated and reported as their own fund type.

B. Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

In the government-wide financial statements, the cost for capital outlays, except for governmental infrastructure, is allocated over the assets' useful lives and is reported as depreciation expense. In the fund financial statements, capital outlays are reported as expenditures in the functional line items.

The government-wide statements use the flow of economic resources and therefore do not report revenues and expenses dependent on the availability of financial resources, as is reported in the fund financial statements. Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund financial statements. Expenses reported in the statement of activities that do not require the use of current financial resources are not reported as expenditures in the fund financial statements. Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental fund financial statements, but the repayment reduces long-term liabilities in the statement of net assets.

Internal service funds are used by management to charge the costs of certain activities to individual funds. In the government-wide financial statements, the expenses of internal service funds are included in governmental activities in the statement of activities. In the proprietary fund financial statements internal service fund balances are segregated and reported as their own fund type.

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Deficit Fund Equity

At June 30, 2012, various funds had a deficit fund balance caused by overdrafts from pooled cash and investments and the posting of accruals to the

balance sheet. Temporary cash overdrafts are reported as interfund loans from the general fund.

Fund	Overdraft from pooled cash	Accrual deficits
Governmental Funds		
US Department of Transportation	\$ (18,582)	\$ (62,184)
US Department of Health & Human Services	(58,560)	(22,038)
US Department of Agriculture	-	(88,464)
S&S Children Home Construction	(709)	-

B. Fund Balance

The State of Indiana reports its fund balances for governmental funds as nonspendable, restricted, committed, assigned, and unassigned. The detail

of the fund balance classifications at June 30, 2012 is as follows:

	Major Special Revenue Funds						
	General Fund	Public Welfare- Medicaid Assistance Fund	Major Moves Construction Fund	ARRA of 2009	US Department of Transportation	US Department of Health & Human Services	
Fund balances:							
Nonspendable:							
Permanent fund principal	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 501,125
Restricted:							
General Government	363,212	-	-	-	-	-	-
Committed:							
General Government	20,859	-	-	-	-	-	580,218
Welfare	-	-	-	-	-	-	306,793
Conservation, culture and developm	-	-	-	-	-	-	103
Education	-	-	-	-	-	-	72
Transportation	-	-	-	-	-	-	171,733
Assigned:							
General Government	96,629	-	-	-	-	-	408,602
Public Safety	14,600	-	-	-	-	-	538,959
Health	985	-	-	1,910	-	-	20,357
Welfare	72,317	414,034	-	8,135	-	-	324,787
Conservation, culture and develop.	18,717	-	-	1,600	-	-	318,116
Education	6,304	-	-	2,286	-	-	65,967
Transportation	1,068	-	1,181,837	-	-	-	307,495
Encumbrances	441,412	-	-	-	-	-	-
Unassigned:	2,338,589	-	-	-	(80,766)	(80,598)	(97,186)
Total fund balance	\$ 3,374,692	\$ 414,034	\$ 1,181,837	\$ 13,931	\$ (80,766)	\$ (80,598)	\$ 3,447,141

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits, Investments and Securities Lending

1. Primary Government – Other than Major Moves Construction Fund and Next Generation Trust Fund, Investment Trust Funds, and Pension and Other Employee Benefit Trust Funds.

Investment Policy

Indiana Code, Title 5, Article 13, Chapters 9, 10, and 10.5, establishes the investment powers and guidelines regarding the State of Indiana investments. However, the Major Moves Construction Fund and the Next Generation Trust Fund have separate investment authority as established under Indiana Code 8-14-14 and Indiana Code 8-14-15, respectively. The Treasurer of State shall invest these funds in the same manner as the public employees' retirement fund under Indiana Code 5-10.3-5 with the exception that monies may not be invested in equity securities. For more information, please see the PERF policy in note IV(A)3. There are no formal deposit or investment policies for the investment of these

funds other than compliance to State statute. State statute does not establish any parameters or guidelines related to the concentration of investment risk, investment credit risk, nor interest rate risk.

Indiana Code 5-13-9 authorizes the Treasurer to invest in deposit accounts issued or offered by a designated depository; securities backed by the full faith and credit of the United States Treasury; and repurchase agreements that are fully collateralized, as determined by the current market value computed on the day the agreement is effective, by interest bearing obligations that are issued, fully insured or guaranteed by the United States or any U.S. government agency.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State statute does not establish any parameters or guidelines related to interest rate risk.

The following is a summary of the Interest Rate Risk Disclosure as of June 30, 2012:

Investment Type	Fair Value Totals	Investment Maturities (in Years)		
		Less than 1	1 - 5	6 - 10
U.S. Treasuries	\$ 149,943	\$ 149,943	\$ -	\$ -
U.S. Agencies	4,110,068	3,864,378	245,690	-
Supranationals	118,502	99,993	18,509	-
Municipal Bonds	39,180	19,736	-	19,444
Local Govt Investment Pool	200,000	200,000	-	-
Non-U.S. Fixed Income	30,072	5,006	25,066	-
Certificate of Deposits	161,722	161,722	-	-
Money Market Mutual Funds	395,400	395,400	-	-
Total	\$ 5,204,887	\$ 4,896,178	\$ 289,265	\$ 19,444

Custodial Credit Risk

Deposits – The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the

possession of an outside party.

At June 30, 2012, the balance of the State of Indiana's deposits was covered in full by federal depository insurance or by the Public Deposit Insurance Fund, which covers all public funds held in approved depositories.

Investment Custodial Credit Risk – The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered and are either held by the counterparty's trust department or agent, but not in the name of the State of Indiana. None of the State's investments are exposed to custodial credit risk because they are held in the name of the State of Indiana. Additionally, the Treasurer of State requires all custodians to indemnify the State against all out-of-pocket expenses or losses incurred as a result of (i) the custodian's operational failure, (ii) custodians failure to carry out the credit analysis, (iii) custodian's failure to maintain proper collateral for each loan, or (iv) failure of an approved counterparty to comply with its obligations under the applicable securities lending agreement.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its

obligations. Indiana Code 5-13-9-2 authorizes the State Treasurer to invest or reinvest in securities fully guaranteed and issued by (1) the United States Treasury, (2) a federal agency, (3) a federal instrumentality, or (4) a federal government sponsored enterprise. The State Treasurer also may invest or reinvest in money market mutual funds that are in the form of securities of or interests in an open-end, no-load, management-type investment company or investment trust registered under the provisions of the federal Investment Company Act of 1940. The portfolio of the investment company or investment trust must be limited to direct obligations of the United States, a federal agency, a federal instrumentality, a federal government sponsored enterprise, or repurchase agreements fully collateralized by obligations described in numbers (1) through (4) above. The statute also states the securities of or interests in an investment company or investment trust must be rated as one of the following: (1) AAA, or its equivalent, by Standard & Poor's Corporation or its successor; or (2) Aaa, or its equivalent, by Moody's Investors Service, Inc. or its successor.

The following table provides information on the credit quality ratings for investments in debt securities as well as investments in external investment pools, money market funds, bond mutual funds, and other pooled investments of fixed-income securities as of June 30, 2012. The following table reflects the greatest risk rating (the credit rating reflecting the greatest degree of risk) as set by three nationally recognized rating organizations (S&P, Moody, and Fitch) for each type of investment:

Investment Type	Greatest Risk	
	Rating	Fair Value
U.S. Treasuries	AA	\$ 149,943
U.S. Agencies	AAA	50,003
	AA	4,060,065
Supranationals	AAA	65,008
	NR	53,494
Certificate of Deposits	NR	161,722
Municipal Bonds	NR	39,180
Non-US Fixed Income Bonds	A	30,072
Local Govt Investment Pool	NR	200,000
Money Market Mutual Funds	AAA	395,400
Total		\$ 5,204,887

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Indiana Code 5-13-10-3 states that the State Treasurer may not deposit aggregate funds in deposit accounts in any one designated depository in an amount aggregating at any one time more than fifty percent (50%) of the combined capital, surplus, and undivided profits of that depository as determined by its last published statement of condition filed with the State Board for Depositories.

Investments in any one issuer, other than securities issued or guaranteed by the US government, that represent 5% or more of the total investments are:

FHLMC	27.93%	\$1,702,364
FHLB	22.46%	\$1,368,786
FNMA	12.38%	\$754,208

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. As of June 30, 2012, there were no deposits or investments denominated in foreign currencies, thus there was no foreign currency risk.

Securities Lending

The Treasurer of State is authorized by Indiana Code 5-13-10.5-13 to lend securities. Securities may be lent only if the agreement under which the securities are lent is collateralized by (1) cash or (2) interest bearing obligations that are issued by, fully insured by, or guaranteed by the United States, an agency of the United States, a federal instrumentality, or a federal government sponsored enterprise, in excess of the total market value of the loaned securities. The Treasurer of State is authorized by statute (IC 5-13-10.5) to accept as collateral safekeeping receipts for securities from: (1) a duly designated depository, having physical custody of securities, with a combined capital and surplus of at least \$10 million, according to the last statement of condition filed by the financial institution with its governmental supervisory body. The Treasurer may not deposit aggregate funds in deposit accounts in any one designated depository in an amount or (2) a financial institution located either in or out of Indiana aggregating at any one time more than 50% of the combined capital, surplus and undivided profits of that depository as determined by the last published statement.

Indiana Code 5-13-10.5-13 states that securities may be lent only if the agreement under which the securities are lent is collateralized by (1) cash or (2) interest bearing obligations that are issued by, fully insured by, or guaranteed by the United States, an agency of the United States government, a federal instrumentality, or a federal government sponsored enterprise; in excess of the total market value of the loaned securities. State statutes and policies permit the State to lend securities to broker-dealers and other entities (borrowers) for collateral with a simultaneous agreement to return the collateral for the same securities in the future.

The State's custodial banks manage the securities lending programs and receive cash or securities as collateral. The types of securities lent during the year may include U.S. Treasury and agency obligations, corporate bonds/notes, and foreign bonds. Collateral securities and cash are initially pledged at 102% of the market value of the securities lent. Cash received as collateral is reported as an asset and a liability on the balance sheet. Securities received as non-cash collateral are not reported on the balance sheet because the State does not have the ability to pledge or sell them without a borrower default. Generally, there are no restrictions on the amount of assets that can be lent at one time, except for the Indiana Public Retirement System (fiduciary in nature component unit), which allow no more than 40% to be lent at one time.

Cash collateral may be invested. Cash collateral is generally invested in securities of a longer term with the mismatch of maturities generally 0-35 days. The weighted average maturity gap at June 30, 2012 was 12 days. The contracts with the State's custodians requires them to indemnify the funds if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the funds for income distributions by the securities' issuers while the securities are on loan.

At year end, the State had no credit risk exposure to any borrowers because the amount the State owes the borrowers exceeds the amounts the borrowers owe the State.

As of June 30, 2012, the fair values of the underlying securities on loan were:

Security Type	Fair Value
U.S. Governments	\$ 98,722
U.S. Agencies	80,707
Total	\$ 179,429

The fair values of the cash and non-cash collateral received were:

Security Type	Fair Value
U.S. Governments	\$ 100,744
U.S. Agencies	82,386
Total	\$ 183,130

Collateral percentage: 102.06%

Collateral Type	Fair Value
Non-cash collateral	\$ 100,744
Cash collateral	82,386
Total	\$ 183,130

Major Moves Construction Fund/Next Generation Trust Funds

Investment Policy

Indiana Code, Title 5, Article 13, Chapters 9, 10, and 10.5, establishes the investment powers and guidelines regarding the State of Indiana investments. However, the Major Moves Construction Fund and the Next Generation Trust Fund have separate investment authority as established under Indiana Code 8-14-14 and Indiana Code 8-14-15, respectively. The Treasurer of State shall invest these funds in the same manner as the public employees' retirement fund under Indiana Code 5-10.3-5, except the funds may not be invested in equity securities. Investment Policy Statements for the investment of these two funds has been adopted by the Treasurer of State. The Investment Policy Statements are written in conformity with the applicable investment statutes and in accordance with prudent investor standards. There is no formal deposit policy other than compliance to State statute. State statute does not establish any parameters or guidelines related to the concentration of investment risk, investment credit risk, nor interest rate risk. The Investment Policy Statements establish asset allocations for

both Funds and set limits for the exposure in securities from any one issuer to not more than 5% of a Core Fixed Income Investment Manager's portfolio and not more than 10% of a Core Plus Fixed Income Investment Manager's portfolio.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. The Fund's policy for controlling its exposure to interest rate fluctuations should be viewed with the appropriate perspective. A long-term strategy was employed to achieve the Fund's objectives, but there was consideration given to the short-term liquidity needs to meet disbursements required by the Fund. The asset allocation and investment manager structure was designed to tolerate some interim fluctuations in market value while maintaining a long-term return objective of 5.25%.

The following table provides the interest rate risk disclosure for the Major Moves/Next Generation Trust Fund as of June 30, 2012:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1 - 5	6- 10	More than 10

	<u>\$ 1,784,618</u>	<u>\$ 422,328</u>	<u>\$ 827,982</u>	<u>\$ 189,869</u>	<u>\$ 344,439</u>

Custodial Credit Risk

Deposits – The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party.

At June 30, 2012, the balance of the State of Indiana's deposits was covered in full by federal depository insurance or by the Public Deposit Insurance Fund, which covers all public funds held in approved depositories.

Investment Custodial Credit Risk – The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered and are either held by the counterparty's trust department or agent, but not in the name of the State of Indiana. None of the State's investments are exposed to custodial credit risk because they are held in the name of the State of Indiana. Additionally, the Treasurer of State requires all custodians to indemnify the State against all out-of-pocket expenses or losses incurred as a result of (i) the custodian's operational failure, (ii) custodians failure to carry out the credit analysis, (iii) custodian's failure to maintain proper collateral for each loan, or (iv) failure of an approved counterparty to comply with its obligations under the applicable securities lending agreement.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

The investment managers must adhere to the following guidelines:

Intermediate and Core Fixed Income Managers

- The average credit quality of each manager's portfolio shall not be lower than Aa3/AA-
- All securities at the time of purchase shall have a Moody's, S&P's and/or Fitch's credit quality rating of no less than BBB
- In the event a holding is downgraded to less than BBB, the manager will have the discretion over when to sell the security, generally, no later than 90 days following the downgrade.

Core Plus Fixed Income Managers

- At least 60% of the securities held in the portfolio shall have a credit rating of no less than BBB
- Investments in high-yield and non-US debt are permitted, but combined exposure to those sectors should not exceed 40%
- The average credit quality of each manager's portfolio shall not be lower than single A

Hybrid Fixed Income Managers

- High-yield and non-US debt securities are permitted
- Non US-dollar currency exposure is permitted

The following table provides information on the credit quality ratings for investments in debt securities, short-term money market funds, bond mutual funds and bond commingled funds, municipal securities, asset-backed, and mortgage-backed securities as of June 30, 2012. The following table below reflects the "greatest risk" rating (the credit rating reflecting the greatest degree of risk) as set by three nationally recognized rating organizations (S&P, Moody, and Fitch) for each type of investment.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer representing 5% or more of the total investments. The only exemptions from disclosures are US Government Debt, US Government Guaranteed Investments, Mutual Funds, or External Investment Pools. For Intermediate and Core Fixed Income Managers, securities in any one issuer should be limited to not more than 5% of the investment manager's portion of the Fund portfolio measured at market value. For Core Plus Fixed Income Managers, the exposure of each manager's portfolio should be limited to not more than 10% of the manager's portion of the Fund portfolio measured at market value.

Investments in any one issuer that represent 5% or more of the total investments are:

FNMA 7.31% \$128,410,810

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The Major Moves/Next Generation Trust Fund's foreign currency exposure is focused primarily in fixed income securities. The exposure to foreign currency fluctuation is as follows:

Currency	Combined Total	% of Total Market Value
Brazil Real	\$ 2,709	0.16
Chilean Peso	213	0.01
Columbian Peso	1,544	0.09
Euro	(3,370)	-0.19
Hungarian Forint	316	0.02
Indonesian Rupian	738	0.04
Malaysian Ringgit	1,628	0.09
Mexico New Peso	5,766	0.33
New Turkish Lira	336	0.02
Philippines Peso	723	0.04
Russian Rubel	829	0.05
South African Comm	866	0.05
South Korean Won	1,027	0.06
Uruguayan Peso	2,157	0.12
Others	74	0.01
Total	\$ 15,556	0.90

Securities Lending

The Treasurer of State is authorized by Indiana Code 5-13-10.5-13 to lend securities. Securities may be lent only if the agreement under which the securities are lent is collateralized by (1) cash or (2) interest bearing obligations that are issued by, fully insured by, or guaranteed by the United States, an agency of the United States, a federal instrumentality, or a federal government sponsored enterprise, in excess of the total market value of the loaned securities.

At year end, the State had no credit risk exposure to any borrowers because the amount the State owes the borrowers exceeds the amounts the borrowers owe the State.

As of June 30, 2012, the fair values (in thousands) of the underlying securities on loan were:

Security Type	Fair Value
U.S. Governments	\$ 324,031
U.S. Corporates	16,439
Total	\$ 340,470

The fair values of the cash and non-cash collateral received were:

Security Type	Fair Value
U.S. Governments	\$ 330,677
U.S. Corporates	16,885
Total	\$ 347,562

Collateral percentage: 102.08%

Collateral Type	Fair Value
Non-cash collateral	\$ 287,610
Cash collateral	59,952
Total	\$ 347,562

*TrustIndiana, Local Government Investment Pool (Investment Trust Funds)**Investment Policy*

Indiana Code, Title 5, Article 13, Chapter 9, Section 11 established the local government investment pool (TrustIndiana) within the office and custody of the Treasurer of State. The Treasurer of State shall invest the funds in TrustIndiana in the same

manner, in the same type of instruments, and subject to the same limitations provided for the deposit and investment of state funds by the Treasurer of State under Indiana Code 5-13-10.5. State statute does not establish any parameters or guidelines related to the concentration of investment risk, investment credit risk, nor interest rate risk. However, pursuant to IC 5-13-9-11(g)(7), no less than fifty percent of funds available for investment shall be deposited in banks qualified to hold deposits of participating local government entities. Investment criteria have been established to create the principles and procedures by which the funds of TrustIndiana shall be invested and to

comply with state statute relating to the investment and deposit of public funds.

Valuation of Investments

Consistent with the provisions of a 2a-7 like pool as defined by GASB Statement No. 31, TrustIndiana securities are valued at amortized cost, which approximates market value.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

The following is a summary of the Interest Rate Risk Disclosure as of June 30, 2012:

TrustIndiana - Local Government Investment Pool			
Investment Type	Amortized Cost	Investment Maturity (in Years)	
		Less than 1	
U.S. Agencies	\$ 39,079	\$	39,079
Commercial Paper	110,667		110,667
Total	\$ 149,746	\$	149,746

Custodial Credit Risk

Deposits – The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party.

At June 30, 2012, the balance of all bank deposits were covered in full by federal depository insurance or by the Public Deposit Insurance Fund, which covers all public funds held in approved depositories.

Investment Custodial Credit Risk – The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered and are either held by the counterparty's trust department or agent, but not in the name of the

State of Indiana. None of the State's investments are exposed to custodial credit risk because they are held in the name of the State of Indiana. Additionally, the Treasurer of State requires all custodians to indemnify the State against all out-of-pocket expenses or losses incurred as a result of (i) the custodian's operational failure, (ii) custodians failure to carry out the credit analysis, (iii) custodian's failure to maintain proper collateral for each loan, or (iv) failure of an approved counterparty to comply with its obligations under the applicable securities lending agreement.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. TrustIndiana limits its investments in any one issuer to the highest rating category issued by one nationally recognized statistical rating organization.

The following table provides information on the credit quality ratings for investments in TrustIndiana:

TrustIndiana - Local Government Investment Pool		
Investment Type	Greatest Risk	
	Ratings	Fair Value
U.S. Agencies	AA+	\$ 39,079
Commercial Paper	A1	110,667
Total		<u>\$149,746</u>

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer representing 5% or more of the total investments. As noted above, TrustIndiana is required to be comprised of no less than 50% of deposits in banks from an approved list maintained by the State of Indiana. In addition, TrustIndiana limits its investments in any one issuer to 40% of net assets if the issuer is rated A1+/P1 and 25% of net assets if the issuer is rated A1/P1. The only exemptions from disclosures are US Government Debt, US Government Guaranteed Investments, Mutual Funds, or External Investment Pools.

Investments in any one issuer, not exempt from disclosure, that represents 5% or more of the total investments were (amount in thousands):

Federal Farm Credit Bank	8.71%	\$	32,564
--------------------------	-------	----	--------

Securities Lending

The Treasurer of State is authorized by Indiana Code 5-13-10.5-13 to lend securities. Securities may be lent under an agreement which requires the loaned securities to be collateralized in the form of (1) cash or (2) interest bearing obligations that are issued by, fully insured by, or guaranteed by the United States, an agency of the United States, a federal instrumentality, or a federal government sponsored enterprise, in an amount at least equal to 102% of the current market value of the loaned securities. The net income earned through securities lending is recorded as additional income to the Pool. As of June 30, 2012, there were no securities on loan and therefore, no credit risk exposure.

2. Pension and Other Employee Benefit Trust Funds – Primary Government

State Police Pension Fund

Investment Policy – The Indiana State Police Pension Trust was established in 1937 to provide pension, death, survivor, and other benefits to present and former employees of the department and their beneficiaries who meet the statutory requirement for such benefits.

Indiana Code 10-1-2-2(c), established the prudent investor standard as the primary statutory provision governing the investment of the Trust's assets. IC 10-1-2-2 (c) reads as follows:

The trust fund may not be commingled with any other funds and shall be invested only in accordance with Indiana laws for the investment of trust funds, together with such other investments as are specifically designated in the pension trust. Subject to the terms of the pension trust, the Trustee, with the approval of the Department and the Pension Advisory Board, may establish investment guidelines and limits on all types of investments (including, but not limited to, stocks and bonds) and take other action necessary to fulfill its duty as a fiduciary for the trust fund. However, the Trustee shall invest the trust fund assets with the same care, skill, prudence, and diligence, that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character with like aims. The Trustee shall also diversify such investments in accordance with prudent investment standards. There is no formal deposit policy other than compliance to State statute.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

The following table provides information on the credit quality ratings for investments in debt securities, short term money market funds, bond mutual/commingled funds, municipal securities, asset-backed, and mortgage backed securities for the State Police Pension Trust. The table reflects the "greatest risk" rating (the credit rating reflecting the greatest degree of risk) as set by three nationally recognized rating organizations (S&P, Moody, and Fitch) for each investment type.

Investment Type	Greatest Risk

Custodial Credit Risk

Deposits – The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party.

At June 30, 2012, the balance of the State Police Pension Trust deposits was covered in full by federal depository insurance or by the Public Deposit Insurance Fund, which covers all public funds held in approved depositories.

Investment Custodial Credit Risk – The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered and are either held by the counterparty's trust department or agent, but not in the name of the customer. None of the Indiana State Police Pension Trust's investments are exposed to custodial credit risk because they are held in the name of the Indiana State Police Pension Trust. Additionally, the Treasurer of State requires all custodians to indemnify the State against all out-of-pocket expenses or losses incurred as a result of (i) the custodian's operational failure, (ii) custodians failure to carry out the credit analysis, (iii) custodian's failure to maintain proper collateral for each loan, or (iv) failure of an approved counterparty to comply with its obligations under the applicable securities lending agreement.

Concentration of Credit Risk – Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Indiana State Police Trust has thirteen different investments managers. The purchase of securities in any one nongovernmental corporation shall be limited to an initial cost of 5% of the market value of an investment manager's portfolio. Additionally, the following limits are set to further limit credit exposure:

Large/Mid/Small Capitalization Equity Managers: equity holdings in any one company should not exceed 7.5% of the market value of the investment manager's portion of the Fund's portfolio. Equity holdings in any one industry should not exceed 25% of the market value of the investment manager's portion and equity holdings in any one sector should not exceed 35% of the investment manager's portfolio market value.

Non-US Equity Investment Managers: equity holdings in any one international company shall not exceed 7.5% of the total value of all investments in international equity securities and equity holdings in any one country shall not exceed 35% of all investments in international equity securities.

Domestic Core Fixed/ Domestic Core Plus/Hybrid Managers: securities of any one issuer are limited to not more than 5% of the investment manager's portion of the portfolio measured at market value. Securities backed by the full faith and credit of the United States Government or any of its instrumentalities shall not be subject to exposure limitations. Investments in high-yield and non-US debt securities should be limited to 20% high-yield and 20% non-U.S. debt with a combined exposure to those sectors not to exceed 30%.

There were no investments in any one issuer that represents 5% or more of the total investments.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. The Fund's policy for controlling its exposure to interest rate fluctuations should be viewed with the appropriate perspective. A long-term strategy was employed to achieve the Fund's objectives, but there was consideration given to the short-term liquidity needs to meet disbursements required by the Fund. The asset allocation and investment manager structure was designed to tolerate some interim fluctuations in market value while maintaining a long-term return objective to exceed the actuarial assumed interest rate of 6.75%.

The following table provides the interest rate risk disclosure for the Indiana State Police Pension Fund:

State Police Pension		Investment Maturities (in Years)			
		Less than 1	1 - 5	6- 10	More than 10
Investment Type	Fair Value				
U.S. Treasuries	\$ 10,885	\$ 110	\$ 4,005	\$ 3,766	\$ 3,004

Total	<u>\$ 9,335</u>	<u>2.43%</u>

Securities Lending - The Treasurer of State is authorized by Indiana Code 5-13-10.5-13 to lend securities. Securities may be lent only if the agreement under which the securities are lent is collateralized by (1) cash or (2) interest bearing obligations that are issued by, fully insured by, or guaranteed by the United States, an agency of the United States, a federal instrumentality, or a federal government sponsored enterprise. The market value of the required collateral must be in an amount at least equal to 102% of the current market

value of the loaned securities. As of June 30, 2012, the State Police Pension Trust had received cash as collateral in an amount exceeding 102% of the fair value of the underlying securities on loan. The State Police Pension Trust recorded the value of the cash collateral received as an asset in the accompanying financial statements. A corresponding liability has also been recorded because the cash collateral must be returned to the borrower upon expiration of the loan. The lending agent invests the cash collateral received by the borrowers. The weighted average maturity of the cash collateral investments generally matched the term of the securities loans.

At year end, the State Police Pension Trust had no credit risk exposure to any borrowers because the amount the State Police Pension Trust owes the borrowers exceeds the amounts the borrowers owe the State Police Pension Trust.

As of June 30, 2012, all lent securities were collateralized with cash. The fair value of the securities on loan was:

Security Type	Fair Value
U.S. Governments	\$ 2,431
U.S. Equities	2,317
Total	<u>\$ 4,748</u>

State Employee Retiree Health Benefit Trust Fund-DB

Investment Policy – The State Retiree Health Benefit Trust Fund – DB fund is comprised of the State Police Retiree Health Benefit Trust Fund, the

SPD OPEB Trust Fund, the DNR OPEB Trust Fund, and the ATC/Excise OPEB Trust Fund.

The State Police Retiree Health Benefit Trust Fund consists of sections 401(h) and 115 established pursuant to the Internal Revenue Service that are separate accounts established within the State Police Pension Fund for the purpose of paying benefits for sickness, accident, hospitalization, and medical expenses. The assets in this account may be commingled for investment purposes only with the other accounts of the Indiana State Police Pension Fund. The investment authority for this Fund, since it is to be invested in the same manner as the State Police Pension Fund, is established under Indiana Code IC 10-12-2-2(c). There is no formal deposit policy other than compliance to State statute.

IC 10-12-2-2(c) reads as follows:

The trust fund shall be invested only in accordance with Indiana laws for the investment of trust funds, together with such other investments as are specifically designated in the pension trust. Subject to the terms of the pension trust, the Trustee, with the approval of the Department and the Pension Advisory Board, may establish investment guidelines and limits on all types of investments (including, but not limited to, stocks and bonds) and take other action necessary to fulfill its duty as a fiduciary for the trust fund. However, the Trustee shall invest the trust fund assets with the same care, skill, prudence, and diligence, that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character with like aims. The Trustee shall also diversify such investments in accordance with prudent investment standards.

The SPD, DNR, and the ATC/Excise OPEB Trust Funds were established pursuant to HEA 1123 of the 2012 Indiana General Assembly. The State Personnel Department administers the SPD OPEB Trust Fund. The Department of Natural Resources administers the DNR OPEB Trust Fund. The ATC/Excise OPEB Trust Fund is administered by the Alcohol and Tobacco Commission. These trust funds were created to provide for the prefunding of annual required contributions and for covering the OPEB liability of covered individuals. The Treasurer of State shall invest monies in these trust funds not currently needed to meet the obligations of the trust funds in the same manner as other public money may be invested. Indiana Code, Title 5, Article 13, Chapters 9, 10, and 10.5, establishes the investment powers and guidelines regarding the State of Indiana investments. There are no formal

deposit and investment policies for the investment of these funds other than compliance to State statute. State statute does not establish any parameters or guidelines related to the concentration of investment risk, investment credit risk, nor interest rate risk.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

The following table provides information on the credit quality ratings for investments in the State Retiree Health Benefit Trust Fund-DB:

Investment Type	Greatest Risk	
	Ratings	Fair Value
U.S. Agencies	AA+	\$ 13,755
Certificate of Deposits	NR	685
Total		<u>\$ 14,440</u>

Custodial Credit Risk

Deposits – The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party.

At June 30, 2012, the balance of any bank deposits was covered in full by federal depository insurance or by the Public Deposit Insurance Fund, which covers all public funds held in approved depositories.

Investment Custodial Credit Risk – The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered and are either held by the counterparty's trust department or agent, but not in the name of the State of Indiana. None of the State's investments are exposed to custodial credit risk because they are held in the name of the State of Indiana. Additionally, the Treasurer of State requires all custodians to indemnify the State against all out-of-pocket expenses or losses incurred as a result of (i) the custodian's operational failure, (ii) custodians failure to carry out the credit analysis, (iii) custodian's failure to maintain proper collateral for

each loan, or (iv) failure of an approved counterparty to comply with its obligations under the applicable securities lending agreement.

Concentration of Credit Risk – Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer representing 5% or more of the total investments. The only exemptions from disclosures are US Government Debt, US Government Guaranteed Investments, Mutual Funds, or External Investment Pools.

Investments in any one issuer, not exempt from disclosure, that represent 5% or more of the total investments were:

Federal Home Loan Banks	48.47%	\$ 6,999
Federal National Mortgage Assoc.	20.13	2,906
Federal Agricultural Mortgage Corp.	26.66	3,849

Foreign Currency Risk – Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. There was no foreign currency risk.

Securities Lending - The Treasurer of State is authorized by Indiana Code 5-13-10.5-13 to lend securities. Securities may be lent only if the agreement under which the securities are lent is collateralized by (1) cash or (2) interest bearing obligations that are issued by, fully insured by, or guaranteed by the united states, an agency of the United State, an agency of the united States government, a federal instrumentality, or a federal government sponsored enterprise in excess of the total market value of the loaned securities.

At year end, there were no securities on loan and therefore, no credit risk exposure.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

The following is a summary of the Interest Rate Risk Disclosure as of June 30, 2012:

Investment Type	Fair Value	Investment Maturities (in Years)	
		Less than 1	1 - 5
U.S. Agencies	\$ 13,754	\$ 11,848	\$ 1,906
Certificate of Deposits	685	685	-
Total Fixed Income Securities	\$ 14,439	\$ 12,533	\$ 1,906

State Employee Retiree Health Benefit Trust Fund-DC

Investment Policy – Indiana Code, Title 5, Article 13, Chapters 9, 10, and 10.5, establishes the investment powers and guidelines regarding the State of Indiana investments. However, the Retiree Health Benefit Trust Fund has separate investment authority as established under Indiana Code 5-10-8-8.5 (b). The Treasurer of State shall invest the money in the trust fund not currently needed to meet the obligations of the trust fund in the same manner as other public money may be invested. There are no formal deposit and investment policies for the investment of these funds other than compliance to State statute. State statute does not establish any parameters or guidelines related to the concentration of investment risk, investment credit risk, nor interest rate risk.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

The following table provides information on the credit quality ratings for investments in State Retiree Health Benefit Trust Fund:

State Employee Retiree Health Benefit Trust Fund - DC		
Investment Type	Greatest Risk Rating	Fair Value
U.S. Agencies	AAA	\$ 5,002
	AA+	155,839
Total		\$ 160,841

Custodial Credit Risk

Deposits – The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party.

At June 30, 2012, the balance of any bank deposits was covered in full by federal depository insurance or by the Public Deposit Insurance Fund, which covers all public funds held in approved depositories.

Investment Custodial Credit Risk – The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside

party. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered and are either held by the counterparty's trust department or agent, but not in the name of the State of Indiana. None of the State's investments are exposed to custodial credit risk because they are held in the name of the State of Indiana. Additionally, the Treasurer of State requires all custodians to indemnify the State against all out-of-pocket expenses or losses incurred as a result of (i) the custodian's operational failure, (ii) custodians failure to carry out the credit analysis, (iii) custodian's failure to maintain proper collateral for each loan, or (iv) failure of an approved counterparty to comply with its obligations under the applicable securities lending agreement.

Concentration of Credit Risk – Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer representing 5% or more of the total investments. The only exemptions from disclosures are US Government Debt, US Government Guaranteed Investments, Mutual Funds, or External Investment Pools.

Investments in any one issuer, not exempt from disclosure, that represent 5% or more of the total investments were:

Federal Home Loan Banks	31.11%	\$	50,038
Federal Home Loan Mortgage Corp.	24.94%		40,112
Federal National Mortgage Association	40.84%		65,689

Foreign Currency Risk – Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. There was no foreign currency risk.

Securities Lending - The Treasurer of State is authorized by Indiana Code 5-13-10.5-13 to lend securities. Securities may be lent only if the agreement under which the securities are lent is collateralized by (1) cash or (2) interest bearing obligations that are issued by, fully insured by, or guaranteed by the United States, an agency of the United States, an agency of the United States government, a federal instrumentality, or a federal government sponsored enterprise in excess of the total market value of the loaned securities.

At year end, there were no securities on loan and therefore, no credit risk exposure.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

The following is a summary of the Interest Rate Risk Disclosure as of June 30, 2012:

State Employee Retiree Health Benefit Trust Fund - DC			
Investment Type	Fair Value	Investment Maturities (in Years)	
		Less than 1	1 - 5
U.S. Agencies	\$ 160,841	\$ 70,046	\$ 90,795
Total Fixed Income Securities	\$ 160,841	\$ 70,046	\$ 90,795

3. Pension Trust Funds – Fiduciary in Nature Component Unit

Indiana Public Retirement System

Investment Guidelines and Limitations – The Indiana General Assembly enacted the prudent investor standard to apply to the INPRS Board of Trustees and govern all its investments. Under statute (IC 5-10.3-5-3(a)) for PERF and (IC 5-10.4-3-10(a)) for TRF, the Board of Trustees must “invest its assets with the care, skill, prudence and diligence that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character with like aims.” The Board of Trustees also is required to diversify such investments in accordance with the prudent investor standard.

Within these governing statutes, the INPRS Board of Trustees has broad authority to invest the assets of the plans. The INPRS Board of Trustees utilizes external investment managers, each with specific mandates to achieve the investment objectives of the retirement funds. Depending on the mandate and the contractual agreement with the investment manager, investments may be managed in separate accounts, commingled accounts, mutual funds or other structures acceptable to the INPRS Board of Trustees. An asset allocation review is conducted periodically.

Effective January 1, 2012, the INPRS Board of Trustees adopted a new Investment Policy Statement and the new strategic asset allocation for the Consolidated Defined Benefit Assets is as follows:

Asset Classes	Target	
	Allocation - %	Allowable Ranges - %
Public Equity	22.5	20-25
Private Equity	10	7-13
Fixed Income - Ex Inflation - Linked	22	19-25
Fixed Income - Inflation - Linked	10	7-13
Commodities	8	6-10
Real Estate	7.5	4-11
Absolute Return	10	6-14
Risk Parity	10	5-15

Contributions and asset reallocation in the PERF and TRF Annuity Savings Accounts and the Legislators' Defined Contribution Plan (LEDC) are directed by the members in each plan and as such, the asset allocation will differ from that of the Consolidated Defined Benefit Assets.

The Pension Relief Fund (PR Fund) is invested 100 percent in a money market fund. The State Employees' Death Benefit Fund and the Public Safety Officers' Special Death Benefit Fund are 100 percent invested in fixed income investments.

The following key factors are used in the analysis of the investment performance of the retirement funds:

- Net of fees, 10-year rolling annual rate of return equal to the target rate of return for the retirement funds.
- Net of fees, 1-year and 3-year rolling investment rate of return of the retirement funds, no less than a weighted average of benchmark indices which best describe the retirement funds' asset allocation.
- Net of fees, 3-year and 5-year Sharpe Ratio of the retirement funds, no less than a weighted average of benchmark indices' Sharpe Ratio which best describe the retirement funds' asset allocation.

Custodial Credit Risk – Deposits, investment securities, and collateral securities are exposed to custodial credit risk if they are uninsured and uncollateralized. Custodial credit risk is the risk that, in the event of a failure of the counterparty, that INPRS will not be able to recover the value of its deposits, investments or collateral securities that are in the possession of an outside party. Investment securities are exposed to risk if the securities are uninsured, are not registered in the name of INPRS and are held by either the counterparty or the counterparty trust department's agent, but not in INPRS' name.

Per IC 5-10.3-5-4(a) and IC 5-10.3-5-5 for PERF and IC 5-10-4-3-14(a) and IC 5-10.4-3-13 for TRF, securities are required to be held for the fund under custodial agreements. INPRS' custody agreement with the custodian requires that the custodian

segregate the securities on the custodian's books and records from the custodian's own property. In addition, any investment manager for INPRS is not allowed, under any circumstances, to take possession, custody, title, or ownership of any managed assets.

There was no custodial credit risk for investments including investments related to securities lending collateral as of June 30, 2012.

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized or collateralized with securities held by the pledging financial institution. Deposits held in the demand deposit accounts are carried at cost and are insured up to \$250 thousand for each institution. Deposits in the demand accounts held in excess of \$250 thousand are not collateralized. Deposits with the Indiana Treasurer of State are entirely insured. Deposits held with the investment custodian are insured up to \$250 thousand. Deposits held with brokers and counterparties are carried at cost and are not insured or collateralized.

Cash Deposits	Total
Demand Deposit Account – Bank Balances	\$ 12,684
Held with Treasurer of State	15,451
Held with Counterparties	10
Held with Brokers	323,859
Total	\$ 352,004

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. Duration is a measure of interest rate risk. The longer the maturity, the more the value of the fixed-income investment will fluctuate with interest rate changes. The INPRS Investment Policy Statement recognizes interest rate risk as a market risk factor that is monitored on an absolute and relative basis.

As of June 30, 2012 the debt securities had the following duration information:

Debt Security Type	Fair Value 6/30/2012	% of All Debt Securities	Portfolio Weighted Average Effective Duration (Years)
Short Term Investments			
Cash at Brokers	\$ 323,859	2.3%	0
Money Market Sweep Vehicle	1,749,484	12.3%	0.01
Commercial Paper	3,000	0.0%	0.01
U.S. Treasury Obligations	413,976	2.9%	0
Non-U.S. Government	3,720	0.0%	0
Total Short Term Investments	2,494,039	17.6%	
Fixed Income Investments			
U.S. Governments	3,497,061	24.7%	1.78
Non-U.S. Government	723,737	5.1%	0.43
U.S. Agencies	1,589,888	11.2%	0.42
Corporate Bonds	3,451,561	24.4%	1.12
Asset-Backed Securities	1,141,669	8.1%	0.19
Duration Not Available	1,268,918	9.0%	N/A
Total Fixed Income Investments	11,672,834	82.4%	
Total Debt Securities	\$ 14,166,873	100.0%	

The \$1,269 million, for which no duration was available, is primarily made up of commingled debt funds.

Credit Risk – The credit risk of investments is the risk that the issuer will default and not meet their obligations. The INPRS Investment Policy Statement recognizes credit (quality) risk as a market and strategic risk factor that is monitored on an absolute and relative basis.

The quality rating of investments in debt securities as described by Moody's at June 30, 2012 is as follows:

Moody's Rating	Total	Percentage of Debt & Cash Equivalents
Aaa	\$ 6,490,994	45.7%
US Government Guaranteed	433,768	3.1%
Aa	363,980	2.6%
A	1,134,046	8.0%
Baa	1,643,343	11.6%
Ba	224,041	1.6%
B	151,288	1.1%
Below B	61,090	0.4%
Unrated	3,664,323	25.9%
Subtotal	14,166,873	100.0%
Cash - not applicable	-	
Total	\$14,166,873	

The \$3,664 million not rated by Moody's is primarily in the following security types: cash at broker, money market sweep vehicles, asset-backed securities, commercial mortgages, CMO/Remics and commingled debt funds.

Concentration of Credit (Issuer) Risk – Concentration of credit risk is the risk of loss that may arise in the event of default by a single issuer. The INPRS Investment Policy Statement recognizes issuer risk as a strategic risk factor that is monitored on an absolute and relative basis.

INPRS Investment Policy Statement has placed an upper limit on the concentration of assets placed with an investment manager.

No investment manager shall manage more than 10 percent of the system's assets in actively managed portfolios at the time of funding. Through capital

appreciation and additional purchases, no investment manager shall be allowed to manage in excess of 15 percent of the systems' assets in actively managed portfolios without Board approval.

No investment manager shall manage more than 15 percent of the system's assets in passively managed portfolios at the time of funding. Through capital appreciation and additional purchases, no investment manager shall be allowed to manage in excess of 20 percent of the system's assets in passively managed portfolios without Board approval

No investment manager shall manage more than 25 percent of the system's assets in a combination of actively and passively managed portfolios.

At June 30, 2012, there was no concentration of credit (issuer) risk for the Consolidated Defined Benefit Assets.

Foreign Currency Risk – Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. INPRS' foreign currency exposure is focused primarily in international equity holdings.

The INPRS Investment Policy Statement recognizes foreign exchange risk and the impact on incremental risk and return is assessed based on overall portfolio exposure. Unless otherwise approved by the Board, management of foreign currency exposure will only be implemented (1) by an Investment Manager on its Portfolio when the Investment Manager possesses recognized foreign exchange experience or (2) by an overlay manager or other third-party expert for a specific Portfolio or Retirement Fund. Any hedging strategy recommendation will be presented to the Board for approval and incorporated into the benchmark. The management and implementation of Board approved hedging activities will be implemented by the CIO, with the advice of the Executive Director and Consultants who are approved by the Board.

INPRS has exposure to foreign currency fluctuation as follows:

Currency	Short Term Investments	Debt Securities	Equity Securities	Other Investments	Grand Total	% of Total
Australian Dollar	\$ 2,206	\$ 16,093	\$ 76,300	\$ -	\$ 94,599	0.4%

Total	\$ 2,494,039	\$ 11,672,834	\$ 6,281,118	\$ 6,219,243	\$ 26,667,234	100.0%

Securities Lending – Indiana Code 5-10.2-2-13(d) provides that the INPRS Board of Trustees may authorize a custodian bank to enter into a securities lending program agreement under which certain securities held by the custodian on behalf of INPRS may be loaned. The statute requires that collateral initially in excess of the total market value of the loaned securities must be pledged by the borrower and must be maintained at no less than the total market value of the loaned securities.

The purpose of such a program is to provide additional revenue for the Consolidated Defined Benefits Assets. The INPRS Investment Policy Statement requires that collateral securities and cash be initially pledged at 102 percent of the market value of the securities lent for domestic securities and 105 percent for international securities. No more than 40 percent of the Consolidated Defined Benefit Assets may be lent at one time. The custodian bank and/or its securities lending sub-agents provide 100 percent

indemnification of the Consolidated Defined Benefit Assets against borrower default, overnight market risk and failure to return loaned securities. Securities received as collateral cannot be pledged or sold unless the borrower defaults. INPRS retains the market value risk with respect to the investment of the cash collateral.

Cash collateral investments are subject to the investment guidelines specified by the INPRS Investment Policy Statement. It states that the maximum weighted average days to maturity may not exceed 60. The securities lending agent matches the maturities of the cash collateral investments with stated securities loans' termination dates. Cash collateral received for open-ended loans that can be terminated on demand are invested with varying maturities.

Securities Lending as of June 30, 2012	
Market value of securities on loan	\$ 1,692,637
Fair value of cash and non-cash collateral by investment type:	
U.S. Governments	\$ 1,077,653
Domestic Equities	486,010
Corporate Bonds	104,316
International Equities	66,305
Fair value of cash and non-cash collateral	1,734,284
Fair value of non-cash collateral that is not included in the Statements of Fiduciary Plan Net Position	836,553
Fair value of cash collateral (liability to borrowers)	897,731
Fair value of reinvested cash collateral by type:	
Commercial Paper	376,699
Repurchase Agreements	248,954
Floating Rate Notes	139,744
Certificate of Deposits	132,334
Fair value of reinvested cash collateral	\$ 897,731
Net unrealized gain	-

The quality rating of the reinvested cash collateral investments as described by Standard and Poor's at June 30, 2012 is as follows:

Standard and Poor's Rating	Fair Value of Reinvested	
	Cash Collateral	Percent of Portfolio
A-1 and A-1+	507,045	56.5%
AA+	10,636	1.1%
AA-	114,552	12.8%
A+	11,419	1.3%
A	3,115	0.3%
Unrated	250,964	28.0%
Total	897,731	100.0%

The majority of the unrated reinvested cash collateral investments consist of repurchase agreements.

Repurchase Agreements – A repurchase agreement is an agreement in which INPRS transfers cash to a broker-dealer or financial institution. The broker dealer or financial institution transfer securities to INPRS and promises to repay the cash plus interest in exchange for the same securities. Repurchase agreements are assets with the security collateral held at INPRS' custodian bank.

A reverse repurchase agreement is the same as a repurchase agreement, but from the perspective of the buyer rather than the seller. Repurchase agreements are secured loans with INPRS' collateral held at the broker dealer or financial

institution's custodian bank.

The amounts held at June 30, 2012, exclusive of securities lending reinvested cash collateral, are as follows:

Repurchase Agreements by Collateral Type	Cash Collateral Received	Market Value
U.S. Agencies	\$ 96,400	\$ 98,731
Corporate Bond	1,090	1,111
Total Repurchase Agreements	\$ 97,490	\$ 99,842

Reverse Repurchase Agreements by Collateral Type	Market Value	Cash Collateral Posted
US Inflation Linked Bonds	\$ 147,680	\$ 148,198
Total Reverse Repurchase	\$ 147,680	\$ 148,198

Derivative Financial Instruments – Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates, or financial indices. The fair value of all derivative financial instruments is reported in the Statement of Fiduciary Net Position as either assets or liabilities, and the change in the fair value is recorded in the Statement of Changes in Fiduciary Net Position as investment income. A derivative instrument could be a contract negotiated on behalf of the Master Trust and a specific counterparty. This would typically be referred to as an "OTC contract" (Over the Counter) such as swaps, forward contracts and TBAs (Mortgage To Be Announced). Alternatively, a derivative instrument, such as futures, could be listed and traded on an exchange and referred to as "exchange traded". Due to the level of risk associated with certain derivative investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term, and such changes could affect the amounts reported in the financial statements. Investments in limited partnerships may include derivatives that are not shown in the derivative total.

During the year, the Fund's derivative investments included:

Futures

A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date.

INPRS' investment managers use financial futures to replicate an underlying security or index they intend to hold or sell in the portfolio. In certain instances, it may be beneficial to own a futures contract rather than the underlying security. Additionally, INPRS' investment managers use

futures contracts to adjust the portfolio risk exposure. Futures contracts may be used for the purpose of investing cash flows or modifying duration, but in no event may leverage be created by any individual security or combination of securities. No short sales of equity securities or equity index derivatives are permitted.

As the market value of the futures contract varies from the original contract price, a gain or loss is recognized and paid to, or received from, the clearinghouse. The cash or securities to fulfill these obligations are held in the investment portfolio.

Options

Options are agreements that give the owner of the option the right, but not obligation, to buy (in the case of a call) or to sell (in the case of a put) a specific amount of an asset for a specific price on or before a specified expiration date.

The purchaser of put options pays a premium at the outset of the agreement and stands to gain from an unfavorable change (i.e., a decrease) in the price of the instrument underlying the option. The writer of a call option receives a premium at the outset of the agreement and bears the risk of an unfavorable change (i.e., an increase) in the price of the instrument underlying the option. An interest rate swaption is the option to enter into an interest rate swap based off a set of predetermined conditions.

Options are generally used to manage interest rate risk, adjust portfolio duration, or rebalance the total portfolio to the target asset allocation. The fair value of exchange traded options is determined based upon quoted market prices.

The fair value of over the counter options is determined by external pricing services, using various proprietary methods, based upon the type of option.

Rights/Warrants

Rights provide the holder with the right, but not the obligation, to buy a company's common stock at a predetermined price, the subscription price. The right is good until its expiration date. A right permits the investor to buy at a price that may be below the actual market price for that stock. A warrant is an option to buy an underlying equity security at a predetermined price for a finite period of time.

Forwards

Foreign Currency

A forward exchange contract is a commitment to purchase or sell a foreign currency at a future date

at a negotiated forward rate. A contract is classified as a forward contract when the settlement date is more than two days after the trade date. Risks associated with such contracts include movement in the value of a foreign currency relative to the U.S. dollar. The contracts are valued at forward exchange rates and include net appreciation / depreciation in the Statement of Fiduciary Net Position. Realized gains or losses on forward currency contracts is the difference between the original contract and the closing value of such contract and is included in the Statement of Changes in Fiduciary Net Position.

The Fund enters into forward currency forwards to manage exposure to fluctuations in foreign currency exchange rates on portfolio holdings and to settle future obligations.

TBA

A TBA (Mortgage To Be Announced) is a contract for the purchase or sale of agency mortgage-backed securities to be delivered at a future agreed upon date. Associated gains are derived from the change in market value of the contract due to a change in price of the underlying security. Future settlement risk is the risk of not receiving the asset or associated gains specified in the contract.

TBA's are used to achieve the desired market exposure of a security or asset class or adjust portfolio duration. The fair value is determined by external pricing services using various proprietary methods.

TBA's are classified as fixed income investments.

Swaps

Interest Rate Swaps

Interest rate swaps are derivative instruments in which one party exchanges a stream of fixed interest rate cash flows for floating interest rate cash flows. A notional amount of principal is required to compute the actual cash amounts and is determined at the inception of the contract.

Interest rate swaps are generally used to manage interest rate risk, adjust portfolio duration, or rebalance the total portfolio to the target asset allocation.

The fair value is determined by external pricing services using various proprietary methods.

Inflation Swap

An inflation swap is a derivative used to transfer inflation risk from one party to another through an

exchange of cash flows. In an inflation swap, one party pays a fixed rate on a notional principal amount, while the other party pays a floating rate linked to an inflation index, such as the Consumer Price Index (CPI) or an inflation bond.

Credit Default Swaps

Credit default swap agreements involve one party (referred to as the buyer of protection) making a stream of payments to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other predetermined credit event for the referenced entity, obligation or index.

Credit default swaps are used to achieve the desired credit exposure of a security or basket of securities. One of the main advantages of a credit default swap is it allows for exposure to credit risk while limiting exposure to other risks, such as interest rate and currency risk.

The fair value is determined by external pricing services using various proprietary methods.

The table below summarizes INPRS' derivative information for the year ending June 30, 2012 (dollars in thousands):

Investment Derivatives	Changes in Fair Value	Fair Value	Notional (USD)

Credit Risk

Counterparty credit risk exists on all open OTC positions. Counterparty credit risk is the risk that a derivative counterparty may fail to meet its payment obligation under the derivative contract.

INPRS' investment managers use International Swaps and Derivative Association Master Agreements to further reduce counterparty risk by specifying credit protection mechanisms and providing standardization that improves legal certainty, thereby reducing the probability of unforeseen losses. Furthermore, the master agreements can provide additional credit protection through the requirement of collateral exchange and

certain event of default and mutual termination provisions. Securities eligible as collateral are typically United States government bills and U.S. dollar cash.

The maximum amount of loss due to credit risk that the Fund would incur if the counterparty to the derivative instrument failed to perform according to the terms of the contract, without respect to any collateral or other security, or netting arrangements, is the total unrealized gain of derivatives at the end of the reporting period. The aggregate fair value of investment derivative instruments in asset positions at June 30, 2012, was \$19,072 thousand of which \$13,336 thousand was uncollateralized.

The tables below summarize INPRS's swap positions as of June 30, 2012:

Swaps Counterparty	S&P Rating	Fair Value			Collateral

Foreign Currency Risk

The Fund is exposed to foreign currency risk on its foreign currency forward contracts and futures contracts. The required risk disclosures are included in the Foreign Currency Risk schedule in Note 5.

At June 30, 2012, INPRS' investments included the following currency forwards balances:

Foreign Currency Contract Receivable	\$ 963.7
Foreign Currency Contract Payable	967.1

Long Term Commitments for Alternative Investments – INPRS enters into long term commitments for funding other investments in private equity and private real estate. These amounts include Euro-currency denominated, Norwegian Krone denominated and British Pound Sterling denominated commitments to limited liability partnerships. The remaining amount of unfunded commitments, converted to U.S. dollars using the closing exchange rate, as of June 30, 2012 is as follows:.

Currency	Total Unfunded Commitments
Euro Currency Unit	\$ 102,907
Norwegian Krone	19,624
British Pound Sterling	2,222
U.S. Dollar	1,763,899
Total	\$ 1,888,652

B. Interfund Transactions

Interfund Loans

As explained in Note III(A) above, temporary cash overdrafts in various funds are reported as interfund loans from the General Fund. As of June 30, 2012, the following funds had temporary cash overdrafts covered by loans from the General Fund: US Department of Transportation Fund, \$18.6 million,

US DHHS Fund, \$58.6 million, US Department of Labor Fund, \$.2 million, U.S. Department of Education Fund, \$3.8 million, and S&S Children’s Home Construction Fund, \$0.7 million.

The following is a summary of the Interfund Loans as of June 30, 2012:

Interfund Loans - Current		
	Loans To Governmental Funds	Loans From Governmental Funds
Governmental Funds		
General Fund	\$ 81,915	\$ -
US Department of Transportation	-	18,582
US DHHS	-	58,560

Due From/Due Tos

Current – Indiana University owed \$1.7 million to the General Fund for the State Department of Toxicology per IC 10-20-2-7(c). The interfund balance of \$3.1 million represents the accrued distribution amount from the State Lottery Commission to the Build Indiana Fund.

Non-current – The interfund balance of \$50.0 million represents funds the General Fund borrowed in June 2004, interest free, from the Indiana Board for Depositories, a discretely

presented component unit. This money is due to be repaid, either from the General Fund prior to January 1, 2023, or by a budget request submitted to the 2023 session of the general assembly. This non-current interfund balance appears on the government-wide statements, but not the General Fund statements.

The following are current and non-current schedules of Due From/Due Tos of Component Units, as of June 30, 2012:

Component Units - Current		
	Due From Component Units	Due To Primary Government

Total Due From/To	<u>\$ 50,000</u>	<u>\$ 50,000</u>

Interfund Transfers

Major Governmental Funds

Transfers constitute the movement of money from the fund that receives the resources to the fund that utilizes them. These numerous transfers generally result from legislation passed by the Indiana General Assembly that directs how the transfers are made. In the case of the General Fund, many appropriations are made in the General Fund and then are transferred during the year to the funds where these appropriations are used. Also in the case of the General Fund, various taxes and other revenues are collected in other funds and transferred to the General Fund. Following are the principal purposes of the State's interfund transfers:

General Fund – \$614.1 million was transferred in from the State Gaming Fund which was wagering taxes from riverboats and slot machines at horse tracks. The Build Indiana Fund transferred in \$236.2 million as Motor Vehicle Excise Tax Cut Replacement distributions. \$177.7 million was transferred in from the Public Welfare-Medicaid Assistance Fund of which \$154.1 million was a return of funds at fiscal year end and \$23.6 million was qualifying assessment fees that can only be used for the State's share of Medicaid services under Title XIX of the Social Security Act. \$85.6 million was received from the Fund 6000 Programs of which \$48.2 million was distribution of financial institutions tax per IC 6-5.5; \$14.4 million was transferred in for Indiana Veterans' Home administration from the Comfort-Welfare Fund's receipts of resident fees and Medicaid and Medicare reimbursements; \$12.0 million was the recapture of financial institutions tax based on the FIT distribution that would have been based on property tax levies that were assumed by the State in 2009; \$5.7 million was transferred to the Office of Medicaid Policy and Planning's State Medicaid General Fund which was appropriation transfers; and \$5.3 million was transferred in from permit fees collected from business that sell alcoholic beverages per IC 7.1-4-9-4. \$46.5 million was transferred in from the Tobacco Master Settlement Fund for various health and welfare purposes including residential services for the developmentally disabled, Indiana's Children with Special Health Care Needs health insurance coverage, and substance abuse treatment. \$46.3 million was transferred in from the Mental Health Center Fund to the Office of Medicaid and Policy and Planning's State Medicaid General Fund to fund the state match of Medicaid expenditures for services to adults who are seriously mentally ill.

\$40.0 million was a reversion of funds at fiscal year end from the Administrative Services Revolving Fund. \$32.8 million was transferred in from the Medicaid Indigent Care Trust Fund for the State's share of supplemental payments and to fund Safety Net payments made in fiscal year 2012. \$27.0 million was transferred in from the Motor Vehicle Commission Fund at the request of the Bureau of Motor Vehicles which was unobligated funds. \$15.0 million was transferred in from the U.S. Department of Health and Human Services Fund of which \$12.7 million was reimbursement of federal indirect costs to the State Budget Agency; \$1.6 million was the return of Temporary Assistance for Needy Families program state match; \$0.5 million was for the Attorney General's Office's Medicaid and welfare fraud units; and \$0.2 million was returned to the Indiana Soldiers' and Sailors' Children's Home at fiscal year end.

The following were transfers out from the General Fund: The Public Welfare Medicaid Assistance Fund received \$2.0 billion in transfers for Medicaid current obligations and for Medicaid administration to enable the Office of Medicaid Policy and Planning to carry out all services under IC 12-8-6. These services include, but may not be limited to the provision of care and treatment for individuals with mental illness, developmental disability, long term care needs, and family and child services needs. \$314.2 million was transferred to the U.S. Department of Health and Human Services Fund in support of: the State Medicaid program; child care services and the temporary assistance for needy families program both administered through the FSSA's Division of Family Resources; case management services to children by the Department of Child Services (DCS); the Family and Children Fund of the Department of Child Services; DCS administrative costs; Social Security Title IV-D services to needy families with children; county prosecutors' and local judges' salaries; children psychiatric services through FSSA's Division of Mental Health; information systems for the Department of Child Services; Medicare/Medicaid certification program administered by the Indiana State Department of Health; child welfare training administered by DCS; and other health and human services programs and services. \$275.2 million was transferred to the State Student Assistance Commission of Indiana mostly for the awarding of the State's grants and scholarships for Hoosier students to attend colleges. The Mental Health Center Fund received appropriation transfers in totaling \$93.1 million to

fund services to adults who are seriously mentally ill in comprehensive community health centers and for the administration of services by the Department of Mental Health. The Build Indiana Fund received \$99.4 million from riverboat wagering and pari-mutuel taxes which went to the Lottery and Gaming Surplus Account. \$63.0 million was transferred from the General Fund to the Motor Vehicle Highway Fund primarily for State Police administration and pensions. \$57.0 million was transferred to the Hospital Care for the Indigent Fund for the Hospital Care for the Indigent Program. \$55.9 million was transferred to the U.S. Department of Agriculture Fund for the Federal Food Stamp Program administered by FSSA's Division of Family Resources. \$41.4 million was received by the Indiana Department of Transportation for the Public Mass Transportation Fund, which is used for the promotion and development of public transportation.

Medicaid Assistance Fund – The Medicaid Assistance Fund had a transfer in of \$2.0 billion from the General Fund to support the state Medicaid program administered through the Office of Medicaid Policy and Planning. \$30.0 million was transferred in from the Medicaid Indigent Care Trust Fund, which is part of the U.S. Department of Health and Human Services Fund, for reimbursement of hospital care for the indigent supplement payments made from the Medicaid Assistance Fund.

Transfers out included \$177.7 million to the General Fund of which \$154.1 million was a return of funds at fiscal year end and \$23.6 million was qualifying assessment fees that can only be used for the State's share of Medicaid services under Title XIX of the Social Security Act.

Major Moves Construction Funds – The Major Moves Construction Fund had a transfer out of \$543.3 million to the State Highway Department for construction and maintenance of the State's highways, roads, and bridges.

ARRA of 2009 Fund – The American Recovery and Reinvestment Act of 2009 Fund transferred out \$33 thousand to the General Fund for payment of federal indirect costs and \$3 thousand to the U.S. Department of Labor Fund for expenditure adjustments made by the Indiana Department of Workforce Development.

U.S. Department of Transportation Fund – The U.S. Department of Transportation Fund received \$165.9 million of state and local match money from the State Highway Fund for use by the Indiana

Department of Transportation for transportation projects.

The U.S. Department of Transportation Fund returned \$88.9 million of state and local match money to the State Highway Fund at fiscal year end.

U.S. Department of Health and Human Services Fund – The U.S. Department of Health and Human Services (USDHHS) Fund had transfers in totaling \$314.2 million from the General Fund. Of this \$314.2 million, \$111.9 million was for the state's share of the Medicaid administrative payments; \$34.4 million was for child care services; \$28.0 million was for the state's share of Temporary Assistance for Needy Families payments; \$28.1 million is to provide adoption services grants and assistance; \$26.7 million for case management services to children by the Department of Child Services (DCS); \$25.4 million for family and children services through DCS; \$21.1 million for DCS administrative costs; \$7.5 million for Social Security Title IV-D services to needy families with children; \$7.1 million for county prosecutors' salaries; \$5.4 million for children psychiatric services; \$4.8 million for the Indiana Support enforcement tracking system established by DCS as the official record for child support payments; \$4.8 million for local judges' salaries; \$1.6 million for Medicare/Medicaid Certification; \$1.4 million for the Child Protection Automation Project of DCS; \$1.4 million for child welfare training; and \$4.6 million was for various other health and human services programs. \$37.0 million was received from the Tobacco Settlement Fund for the Children's Health Insurance Program administered by the Indiana Family and Social Services. \$0.9 million was received from the Tobacco Master Settlement Fund for the Indiana Department of Health's U.S. Department of Health and Human Services Fund.

The U.S. Department of Health and Human Services transferred out to the General Fund \$15.0 million of which: \$12.8 million was reimbursement of federal indirect costs to the State Budget Agency; \$1.6 million was the return of state match from the Temporary Assistance for Needy Families program; \$0.5 million was for the Attorney General's Office's Medicaid and welfare fraud units; and \$0.2 million was returned to the Soldiers' and Sailors' Children's Home at fiscal year end. \$30.0 million was transferred to the Medicaid Assistance Fund to reimburse indigent supplement payments for hospital care.

Proprietary Funds

Non-Major Enterprise Funds

The Inns and Concessions Fund – This fund had transfers out of \$2.1 million, representing cash contributions to the Department of Natural Resources (DNR) which are to be used for repayments of bonds made by the Indiana Finance Authority.

Internal Service Funds

\$0.6 million was transferred to the Administrative Services Revolving Fund from the pay phone fund to cover a shortfall of information technology services. \$40.0 million was transferred from the Administrative Services Revolving Fund to the General Fund for a reversion of funds at fiscal year end.

A summary of interfund transfers for the year ended June 30, 2012 is as follows:

	<u>Operating transfers in</u>	<u>Operating transfers (out)</u>	<u>Net transfers</u>
Governmental Funds			
General Fund	\$ 1,401,233	\$ (3,116,679)	\$ (1,715,446)

Tax refunds payable	<u>\$ 27,807</u>	<u>\$ 13,729</u>	<u>\$ -</u>	<u>\$ 41,536</u>

D. Capital Assets

Capital asset activity for governmental activities for the year ended June 30, 2012, was as follows:

Primary Government – Governmental Activities

	Balance, July 1, As restated	Increases	Decreases	Balance, June 30
Governmental Activities:				
Capital assets, not being depreciated/amortized:				
Land	\$ 1,658,421	\$ 93,155	\$ (41,618)	\$ 1,709,958
Infrastructure	8,385,668	555,708	(17,211)	8,924,165
Construction in progress	1,571,645	798,875	(564,497)	1,806,023
Total capital assets, not being depreciated/amortized	11,615,734	1,447,738	(623,326)	12,440,146
Capital assets, being depreciated/amortized:				
Buildings and improvements	1,614,088	36,457	(49,941)	1,600,604
Furniture, machinery, and equipment	518,249	17,550	(25,749)	510,050
Computer software	38,099	3,511	(1,497)	40,113
Infrastructure	22,860	-	(211)	22,649
Total capital assets, being depreciated/amortized	2,193,296	57,518	(77,398)	2,173,416

Business-type activities:	
Inns and Concessions	<u>\$ 24</u>
Total depreciation expense - business-type activities	<u>\$ 24</u>

E. Leases

The future minimum lease obligations, the net present value of these minimum lease payments as of June 30, 2012 and the assets acquired through capital leases are as follows:

Future minimum lease payments		
Year ending June 30,	Operating leases	Capital leases Governmental Activities
2013	\$ 33,717	\$ 106,368
2014	27,954	107,052
2015	24,155	108,142
2016	22,117	106,843
2017	20,470	105,538
2018-2022	34,817	510,672
2023-2027	274	510,169
2028-2032	-	209,733
2033-2037	-	2,718
Total minimum lease payments (excluding executory costs)	\$ 163,504	1,767,235
Less:		
Remaining premium(discount)		(17,761)
Amount representing interest		(539,497)
Present value of future minimum lease payments		\$ 1,209,977
Assets acquired through capital lease		
Building		\$ 29,849
Machinery and equipment		2,077
Infrastructure		1,184,129
less accumulated depreciation		(9,348)
		\$ 1,206,707

Operating Leases

The State leases building and office facilities and other equipment under non-cancelable operating leases. Total payments for such leases with aggregate payments of \$20,000 or more were \$37.3 million for the year ended June 30, 2012. A table of future minimum lease payments (excluding executory costs) is presented above.

Capital Leases Liabilities

The State has entered into various lease agreements with aggregate payments of \$20,000 or more to finance the acquisition of buildings, land and equipment. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the inception date in the government-wide statements.

F. Long-Term Obligations

Changes in long-term obligations for the primary government for the year ended June 30, 2012 were as follows:

Changes in Long-Term Obligations	Balance, July 1, as Restated	Increases	Decreases	Balance, June 30	Amounts Due Within One Year	Amounts Due Thereafter
Governmental activities:						
Compensated absences	\$ 135,713	\$ 75,568	\$ (70,232)	\$ 141,049	\$ 77,295	\$ 63,754
Due to component unit	66,637	-	(16,637)	50,000	-	50,000
Net pension obligation	1,191,515	152,782	-	1,344,297	-	1,344,297
Other postemployment benefits	118,229	8,023	(6,621)	119,631	-	119,631
Pollution remediation	41,308	4,643	-	45,951	7,260	38,691
Intergovernmental payable	187,552	12,118	(10,000)	189,670	169,670	20,000
Capital leases	1,229,314	31,817	(51,154)	1,209,977	51,198	1,158,779
	<u>\$ 2,970,268</u>	<u>\$ 284,951</u>	<u>\$ (154,644)</u>	<u>\$ 3,100,575</u>	<u>\$ 305,423</u>	<u>\$ 2,795,152</u>
Business-type activities:						
Compensated absences	\$ 472	\$ 187	\$ (203)	\$ 456	\$ 205	\$ 251
Claims liability	33,063	1,501	(4,393)	30,171	3,888	26,283
	<u>\$ 33,535</u>	<u>\$ 1,688</u>	<u>\$ (4,596)</u>	<u>\$ 30,627</u>	<u>\$ 4,093</u>	<u>\$ 26,534</u>

Long term obligations of governmental activities include capital lease obligations of governmental funds as presented in Note IV(E), net pension obligations for the State Police Retirement Fund, Public Employees Retirement Fund-State, Prosecuting Attorney's Retirement Fund, and the State Teachers' Retirement Fund (Pre-1996 Account) as presented in Note V(E), other postemployment benefits, pollution remediation, amounts due to component units, and compensated absence obligations. The General Fund typically has been used to liquidate any other long-term liabilities.

Long-term obligations of the business-type activities consist of claims liability of the Indiana Residual Malpractice Insurance Authority and compensated absences of the Inns and Concessions Fund.

Revenue bonds are issued by entities established by statute as corporate and politic units with the separate legal authority to finance certain essential governmental functions. Income from the acquired or constructed assets is used to pay debt service.

G. Prior Period Adjustments and Reclassifications

For the fiscal year ended June 30, 2012, certain changes have been made to the financial statements to more appropriately reflect financial activity of the State of Indiana. These prior period adjustments and restatements are reflected in the beginning net assets in the government-wide statement of activities.

Prior Period Adjustments

In the fund statements for governmental funds, there is an increase of \$29.9 million in net assets of the General Fund and a corresponding decrease in net assets of the Non-major Governmental funds for revenues not properly reported by the Department of Revenue in prior years.

In the fund statements for governmental funds, and the government-wide statements, there is a decrease of \$64.9 million in net assets of the

General Fund due to incorrect reporting of local income tax receipts held in the local distributions agency fund.

In the fund statements for governmental funds, and the government-wide statements, net assets of the ARRA of 2009 Fund decreased \$5.2 million for adjustments for cash overstated in prior years due to errors in recording transfers to component units.

In the fund financial statements for Special Revenue Funds, and the government-wide statements, net assets increased by \$12.2 million due to errors in the presentation of cash in the BMV holding fund.

In the fund statements for Special Revenue funds, and the government-wide statements, there is a decrease of \$11.3 million in net assets for cash that

was incorrectly transferred in the prior year from the Indiana Economic Development Fund, a discrete governmental component unit.

In the fund statements for Special Revenue funds and the government-wide statements, there is a decrease of \$276 thousand due to errors relating to current receivable and payable accruals in 2011.

For the government-wide statements, there is a decrease of \$70.2 million in net assets for infrastructure assets included in INDOT infrastructure as of June 30, 2011.

For the government-wide statements, there is an increase of \$2.5 million in net assets for Department of Administration (DoA) work in process. This was the result of omission in projects that were in progress as of June 30, 2011.

For the government-wide statements, there is an increase of \$90.9 million in net assets for capital assets. This was the result of not capitalizing capital assets by June 30, 2011 that were acquired prior to this date and for corrections to acquisition cost by state agencies.

For the government-wide statements, there is an increase of \$34.8 million for software that was in development by June 30, 2011 that was omitted

from presentation in the prior year.

For the government-wide statements, there is a decrease of \$4.0 million in net assets for liabilities for assets acquired through leases that were incorrectly reported in the prior year.

For the government-wide statements, there is a decrease of \$198 million in net assets to recognize the 2011 actuarial liability for net pension obligations.

For the Internal Service funds and the government-wide statements, there is an increase of \$38 thousand in net assets for the correction of errors.

For the discrete component units, the Indiana Economic Development Corporation's net assets increased by \$5.8 million for loans receivable not included in their 2011 financial statements.

There was an increase of \$3.5 million in beginning net assets for the inclusion of the Indiana State Museum and Historical Sites Corporation which is a new discrete component unit of the State. The corporation's foundation which was not previously reported had beginning net assets of \$3.4 million and \$180 thousand was reclassified from a previously reported governmental fund.

The following schedule reconciles June 30, 2011 net assets as previously reported, to beginning net assets, as restated:

	Governmental Activities	Business- Type Activities	Discretely Presented Component Units (Non Fiduciary)
June 30, 2011, fund balance/retained earnings/net assets as reported	\$ 19,112,313	\$ (1,690,456)	\$ 11,083,658
Correction of errors	(214,653)	-	9,261
Reclassifications of funds	(180)	-	180
Balance July 1, 2011 as restated	<u>\$ 18,897,480</u>	<u>\$ (1,690,456)</u>	<u>\$ 11,093,099</u>

V. OTHER INFORMATION

A. Risk Management

The State of Indiana is exposed to various risks of loss. This includes damage to property owned by the agencies, personal injury or property damage liabilities incurred by a State officer, agent or employee, errors, omissions and theft by employees, certain employee health benefits, employee death benefits, and unemployment and worker's compensation costs for State employees.

The State records an expenditure for any loss as the liability is incurred or replacement items are purchased. The State purchases commercial insurance coverage for certain DNR Inns properties. The State also purchases immaterial amounts of commercial insurance related to errors, omissions, and theft by employees. Settlements related to commercial insurance have not exceeded coverage in the past three fiscal years.

The State does have risk financing activity for the State employees' disability, certain State employees' health benefits, and certain health, disability and death benefits for State Police officers. These are reported in three individual Internal Service Funds.

The State employees' disability program is financed partially by State employees through payroll withholdings and by the funds from which employees are paid. The employees' health benefits and the State Police traditional health plan are funded by the employees who have selected certain health care benefit packages and the funds from which those employees are paid. (An insurance carrier does provide claims administration services for the health insurance programs.)

Located below is the table of claim liabilities. The liabilities are not maintained in the accounting records of the State. The claim liabilities for the health insurance programs and the State Disability fund were estimated based on the historical experience rate of claims paid that were for service dates incurred during a prior fiscal year. The surplus retained earnings in these funds are reserved for future catastrophic losses.

	<u>State Police Health Insurance Fund</u>	<u>State Employees' Health Insurance Fund</u>	<u>State Employee Disability Fund</u>	<u>Total</u>
<u>2012</u>				
Unpaid Claims, July 1	\$ 4,144	\$ 33,745	\$ 5,131	\$ 43,020

B. Contingencies and Commitments

Litigation

The State does not establish reserves for judgments or other legal or equitable claims against the State. Judgments and other such claims must be paid from the State's unappropriated balances and reserves, if any.

With respect to tort claims only, the State's liability is limited to: (A) \$300,000 for a cause of action that accrues before January 2006; (B) \$500,000 for a cause of action that accrues between 2006 and 2008; or (C) \$700,000 for a cause of action that accrues on or after January 2008, for injury to or death of one person in any one occurrence and \$5 million for injury to or death of all persons in that occurrence.

The Indiana Attorney General's office estimates a total payment for liabilities and litigation expenses of \$6.5 million to be made from the Tort Claim Fund during the next fiscal year. During the fiscal year ending June 30, 2012, the State paid \$8.8 million for settlements, judgments, claims and litigation expenses from the Tort Claim Fund.

In addition, the State paid \$4.7 million to settle claims arising from the Indiana State Fair tragedy during the fiscal year ending June 30, 2012. The 2012 General Assembly approved an additional \$6 million as a supplemental fund to be paid to Indiana State Fair claimants during the next fiscal year.

The following is a summary of certain significant litigation and claims currently pending against the State involving amounts exceeding \$5 million individually or in the aggregate. This summary is not exhaustive, either as to the description of the specific litigation or claims described or as to all of the litigation or claims currently pending or threatened against the State.

The Indiana Attorney General's office is currently handling the following cases that could result in significant liabilities to the State:

In 1968, a lawsuit seeking to desegregate the Indianapolis Public Schools was filed in the United States District Court for the Southern District of Indiana. Since 1978, the State has paid several million dollars per year for inter-district busing that is expected to continue through 2016. The District Court entered its final judgment in 1981 holding the State responsible for most of the costs of its desegregation plan, and those costs have been part

of the State's budget since then. In June 1998, the parties negotiated an 18-year phase out of the desegregation plan that was approved by the Court for some school corporations and a 13-year phase out of the desegregation plan for the school corporations that had already begun the desegregation plan. State expenditures will be gradually reduced as the plan is phased out.

In 1993, Plaintiffs filed a breach of employment contract lawsuit in a state trial court alleging that the State has failed to pay certain similarly classified state employees at an equal rate of pay from 1973 to 1993. The Court certified Plaintiffs' class and class notification was completed. Plaintiffs seek to recover damages as well as attorney fees and costs. A four-day bench trial was conducted. The Court took the matter under advisement and gave the parties time to submit proposed findings of fact and conclusions of law. In July 2009, the Court entered judgment against the State in the total amount of \$43 million (\$21 million awarded to merit, overtime eligible employees; \$17 million awarded to non-merit, overtime eligible employees; \$3 million awarded to merit, overtime exempt employees; \$2 million awarded to non-merit, overtime exempt employees). In November 2009, Plaintiffs reduced their settlement demand to \$20 million. The State responded with an offer of \$8.5 million (inclusive of fees and costs) and later increased the offer to \$10 million. The matter is fully briefed in the Court of Appeals. In its October 2010 opinion, the Court of Appeals reversed in part, affirmed in part and remanded to trial court for determination of damages; excused exhaustion of administrative remedies, but limited back pay to 10 days (instead of 20 years) for merit employees; affirmed 20 years of back pay for non-merit employees. Impact of the opinion is a reduction in the trial court's judgment from \$43 million to approximately \$19 million. In November 2010, both Plaintiffs and the State filed Petitions for Rehearing. Defendants' Petition for Rehearing denied. Plaintiff's Petition for Rehearing granted in part remanding to trial court for determination of if/when individual merit plaintiffs filed administrative complaints. Plaintiffs and the State each filed Petitions for Transfer to the Indiana Supreme Court, which were granted in June 2011. Oral argument was held in the Supreme Court in September 2011. The Indiana Supreme Court ruled in February 2012 that both the "Merit and Non-Merit" employees, overtime-exempt and overtime-eligible, are all owed back pay on their claims for the same period (ten days prior to each class member filing claims or, if no claims filed, ten days prior to filing the lawsuit). This opinion further reduced the amount of damages owed to the

plaintiffs. Plaintiffs' and the State's Petitions for Rehearing filed with Supreme Court in March 2012 were denied. The matter is now remanded to the trial court to determine damages in accordance with the ten-day limit on back pay. Parties are involved in informal discovery related to back pay.

In August 2011, due to a sudden wind gust resulting from inclement weather conditions, an outdoor stage collapsed at the Indiana State Fair resulting in multiple injuries and deaths. Tort claim notices against the Indiana State Fair Commission and the State were filed with the Indiana Attorney General. Lawsuits against the State and other parties were filed. The State contends that immunities and limitations on damages under the Indiana Tort Claims Act apply to these claims. Under the Indiana Tort Claims Act, Indiana Code 34-13-3, claims are capped at \$5 million per event and \$700,000 per person. The State, on behalf of the Commission, settled with many of the claimants, distributing \$4.7 million during fiscal year 2012 with one case remaining under litigation. The 2012 General Assembly supplemented this amount with an additional \$6 million which will be distributed pursuant to legislative directives during the next fiscal year. \$6 million has been accrued as an expense and payable in the government-wide financial statements for this distribution. Tort claims were paid from the State General Fund and not the funds of the Commission. The remaining open litigation concerns the constitutionality of the tort claim caps and indemnification claims as a result of this incident.

Other Litigation

The State on behalf of the Indiana Family and Social Services Administration (FSSA) is currently involved in the following case that could result in significant liability to the State:

In May 2010 the State of Indiana, on behalf of the Indiana Family and Social Services Administration (FSSA), and counterclaim Plaintiff sued each other regarding counterclaim Plaintiff's state welfare system contract entered into in 2006. In October 2009 the State announced its intention to terminate the 10-year contract early effective December 2009 due to counterclaim Plaintiff's deficient performance. The court issued rulings in July and August of 2012 awarding the counterclaim Plaintiff \$62.7 million. This amount includes \$9.5 million for equipment retained by the state, \$2.5 million in early termination close-out payments, \$40 million in subcontractor assignment fees (previously granted to the counterclaim Plaintiff on summary judgment), and \$10.7 million in prejudgment interest. The

court also ruled that the counterclaim Plaintiff was not entitled to recover \$43 million claimed for deferred fees. The court also ruled that there was no material breach so the State could not recover damages from the counterclaim Plaintiff for breach of contract. The State has appealed. The court granted the State's motion to stay the enforcement of the judgment pending appeal.

Other Loss Contingencies

The U.S. Office of Inspector General (USOIG) has issued multiple audit reports on Indiana's Medicaid Assistance Program. Findings in these reports identify several issues including state psychiatric hospitals that were ineligible to receive Medicaid inpatient payments and unreported Medicaid overpayments. The State has worked with Centers for Medicare and Medicaid Services (CMS) to resolve the findings. As of June 30, 2012 there was \$55.5 million in findings that CMS had not recommended for closure, but FSSA believes the possible loss contingency for these findings totals \$16.7 million. FSSA management is continuing to work with CMS on a settlement of these findings. It is unknown how much of this loss contingency, if any, will have to be repaid to the federal government.

Construction Commitments

As of June 30, 2012, the Indiana Department of Transportation had outstanding construction commitments totaling \$1.3 billion for road and bridge projects. It is anticipated that these projects will be financed with approximately 3% State funds, 2% local funds, 54% traditional Federal funds, 1% ARRA of 2009 fund, and 40% from the Major Moves Construction Fund.

The Indiana Department of Administration, Public Works Division, had remaining construction commitments totaling \$10.1 million for building and improvement projects of the State's agencies as of June 30, 2012. These projects are to be funded through State appropriations, the State Highway Department Fund, capital projects funds, and federal funds.

The State had \$32.2 million in total commitments for software in development as of June 30, 2012. These commitments are to be funded through federal funds and state dedicated funds.

Encumbrances

Significant encumbrances by major funds and non-major funds in the aggregate as of June 30, 2012

were as follows:

<u>Governmental Funds</u>	<u>Encumbrances</u>
General Fund	\$ 561,876
ARRA of 2009	28,068
US Department of Transportation	1,052,618
US Department of Health & Human Services	225,644
Non-Major Governmental Funds	1,229,390
Total	\$ 3,097,596

C. Other Revenue

Other revenue represents revenue received which cannot accurately be included with any of the other revenue sources. In most cases, the amount of "other revenue" received by a fund is insignificant in comparison with total revenues received.

D. Economic Stabilization Fund

In 1982 the Indiana General Assembly adopted Indiana Code 4-10-18, which established the Counter-Cyclical Revenue and Economic Stabilization Fund ("Rainy Day Fund").

This fund was established to assist in stabilizing revenue during periods of economic recession and is accounted for within the State general fund.

Each year the State Budget Director determines calendar year Adjusted Personal Income (API) for the State and its growth rate over the previous year, using a formula determined by the legislature.

In general, monies are deposited automatically into the Rainy Day Fund if the growth rate in API exceeds 2%; monies are removed automatically from the Rainy Day Fund if API declines by more than 2%. If the balance in the fund at the end of the fiscal year exceeds 7% of total general fund revenues for the same period, the excess is transferred from the Rainy Day Fund to the State General Fund.

Loans can be made from the Rainy Day Fund to local units of government for specific purposes. The Rainy Day Fund cash and investment balance at the end of fiscal year 2012 was \$351.6 million. Total outstanding loans were \$11.6 million, resulting in total assets of \$363.2 million. Because the API increased by more than 2%, \$291.0 million was transferred from the General Fund to the Rainy Day Fund.

E. Employee Retirement Systems and Plans

The State of Indiana sponsors eight public employee retirement systems (PERS) that are included in the State's financial statements. They are reported and administered as described in Note I(A).

Summary of Significant Accounting Policies (Primary government and fiduciary in nature component units)

The accrual basis is used for financial statement reporting purposes. Contributions are recognized as revenues when due, pursuant to formal commitments, as well as statutory or contractual requirements. Throughout the year, the investments are maintained on the accounting records at the net asset value per the custodian banks. The custodian banks maintain records of the detailed holdings and accounts that comprise the net asset value. At fiscal year end, the accounting records and financial statements recognize investment assets and liabilities using investment unit trust accounting. Investments of defined benefit plans are reported at fair value. Short-term investments are reported at market value when available, or at cost, which approximates fair value.

Securities traded on a national or international exchange are valued at the official closing price at current exchange rates. Collective trust funds' fair values are determined by the fair value per share of the pool's underlying portfolio as provided by the trustee. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Values for limited partnership interests are those estimates most recently provided by the general manager, plus or minus cash flows transacted since the valuation date. Investments that do not have an established market are reported at estimated fair value.

The State sponsors the following defined benefit single-employer plans:

State Police Retirement Fund (Presented as a pension fund)

Plan Description The State Police Retirement Fund (SPRF) is a defined benefit, single-employer PERS, and is administered by the Treasurer of the State of Indiana as Trustee under a Pension Trust Agreement with the Indiana Department of State Police. Indiana Code 10-12-2-2 grants authority to the Department to establish and operate an

actuarially sound pension plan governed by a pension trust. It also authorizes the Department to make annual contributions as necessary to prevent any deterioration in the actuarial status of the trust.

The State Police Retirement Fund does not issue a stand-alone financial report. The SPRF's financial statements are included in the State of Indiana's CAFR as part of the statements presented with fiduciary funds.

Funding Policy The pre-1987 plan required employee contributions of five percent of the salary of a sixth-year trooper. The 1987 plan applies to all officers hired after June 30, 1987. In addition, State police officers hired prior to July 1, 1987 could elect to be covered under this plan if the employee filed an election with the trustee before July 1, 1989. Participants under the 1987 plan contribute six percent of their monthly salary.

Periodic employer contributions to the pension plan are determined on an actuarial basis using the entry age normal cost actuarial method. Normal cost is funded on a current basis. Under the terms of the Trust Agreement, in the event the Department fails to make the minimum contribution for five successive years, the Trust shall terminate and the fund shall be liquidated. The unfunded actuarial accrued liability is being funded over a thirty-year closed period which commenced July 1, 2010. Periodic contributions for both normal cost and the amortization of the unfunded actuarial accrued liability are based on the level dollar of payroll method. The funding policy for normal cost and unfunded actuarial accrued liability should provide sufficient resources to pay employee pension benefits on a timely basis.

Funded Status and Funding Progress As of June 30, 2012, the most recent actuarial valuation date, the plan was 74 percent funded. The actuarial accrued liability for benefits was \$504.8 million, and the actuarial value of assets was \$372.2 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$132.6 million. The covered payroll (annual payroll of active employees covered by the plan) was \$66.1 million, and the ratio of the UAAL to the covered payroll was 201 percent.

The schedule of funding progress, presented as RSI following the notes to the financial statement, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan (Presented as part of INPRS – a fiduciary in nature component unit)

Plan Description The State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan (EG&C) is a single employer defined benefit plan administered by the Board of Trustees of the Indiana Public Retirement System. The retirement fund is for certain employees of the Indiana Department of Natural Resources, the Indiana Alcohol and Tobacco Commission, and any State excise police officer, Indiana state conservation enforcement officer, gaming agent or any gaming control officer who is engaged exclusively in the performance of law enforcement duties.

The State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan provides retirement, disability, and survivor benefits. Indiana Code 5-10-5.5 governs the requirements of the Fund. The Indiana Public Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole. That report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling 888-526-1687, or by visiting INPRS' website, www.in.gov/inprs.

Funding Policy The funding policy for the EG&C Plan is in accordance with IC 5-10-5.5-8.5. Members are required by statute to contribute 4 percent of the member's annual salary to the Plan. The employer contribution rate is actuarially determined. The required contributions are determined by the INPRS Board of Trustees based on actuarial investigation and valuation. During fiscal year 2012, all participating employers were required to contribute 20.75 percent of covered payroll.

Funded Status and Funding Progress As of June 30, 2012, the most recent actuarial valuation date, the plan was 67 percent funded. The actuarial accrued liability for benefits was \$113.3 million, and the actuarial value of assets was \$76.0 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$37.3 million. The covered payroll (annual payroll of active employees covered by the plan) was \$25.8 million, and the ratio of the UAAL to the covered payroll was 145 percent.

The schedule of funding progress, presented as RSI following the notes to the financial statement,

presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Prosecuting Attorneys' Retirement Fund (Presented as part of INPRS – a fiduciary in nature component unit)

Plan Description The Prosecuting Attorneys' Retirement Fund (PARF) is a defined benefit single-employer plan administered by the Board of Trustees of the Indiana Public Retirement System. The Prosecuting Attorneys' Retirement Fund provides retirement, disability, and survivor benefits for individuals who serve as a prosecuting attorney or chief deputy prosecuting attorney; or serve as the executive director or assistant executive director of the Indiana Prosecuting Attorneys Council or as a state-paid deputy prosecuting attorney.

These individuals' salaries are paid from the General Fund of the State of Indiana. Indiana Code 33-39-7 governs the requirements of the Fund. The Indiana Public Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole. That report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling 888-526-1687, or by visiting INPRS' website, www.in.gov/inprs.

Funding Policy Contributions made by or on the behalf of members are not actuarially determined but are set by statute at six percent (6%) of wages. The amount required to actuarially fund participants' retirement benefits, as determined by the INPRS Board of Trustees on the recommendations of the actuary, is to be appropriated from the State's General Fund.

Funded Status and Funding Progress As of June 30, 2012, the most recent actuarial valuation date, the plan was 49 percent funded. The actuarial accrued liability for benefits was \$56.1 million, and the actuarial value of assets was \$27.5 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$28.6 million. The covered payroll (annual payroll of active employees covered by the plan) was \$21.7 million, and the ratio of the UAAL to the covered payroll was 132 percent.

The schedule of funding progress, presented as RSI following the notes to the financial statement, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial

accrued liability for benefits.

Legislators' Retirement System – Legislators' Defined Benefit Plan (Presented as part of INPRS – a fiduciary in nature component unit)

Plan Description The Legislators' Defined Benefit Plan (IC 2-3.5-4), a single-employer defined benefit plan, applies to each member of the Indiana General Assembly who was serving on April 30, 1989 and filed an election under IC 2-3.5-3-1(b). The Legislators' Defined Benefit Plan provides retirement, disability and survivor benefits. The plan is administered by the Board of Trustees of the Indiana Public Retirement System. The Indiana Public Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole. That report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling 888-526-1687, or by visiting INPRS' website, www.in.gov/inprs.

Funding Policy The amount required by the funding policy to actuarially fund participants' retirement benefits, as determined by the INPRS Board of Trustees on the recommendation of the actuary, is to be appropriated from the State's General Fund.

Funded Status and Funding Progress As of June 30, 2012, the most recent actuarial valuation date, the plan was 75 percent funded. The actuarial accrued liability for benefits was \$4.5 million, and the actuarial value of assets was \$3.4 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$1.1 million. The benefit formula is determined based on service rather than compensation. The unfunded liability per active participant was \$187,726 as of the most recent actuarial valuation.

The schedule of funding progress, presented as RSI following the notes to the financial statement, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Judges' Retirement System (Presented as part of INPRS – a fiduciary in nature component unit)

Plan Description The Judges' Retirement System (JRS) is a defined benefit single-employer public employee retirement system administered by the Board of Trustees of the Indiana Public Retirement System, and is governed by IC 33-38-6, 33-38-7, and IC 33-38-8. The Judges' Retirement System

provides retirement, disability, and survivor benefits. Coverage is for any person who has served, is serving or shall serve as a regular judge or justice of any of the following courts: Supreme Court of the State of Indiana; Court of Appeals; Circuit Court of a Judicial Circuit; Indiana Tax Court; or county courts including Superior, Criminal, Probate, Juvenile, Municipal and County Courts. The system consists of two plans: the 1977 system and the 1985 system. IC 33-38-7 applies to judges who began service before September 1, 1985. IC 33-38-8 applies to judges beginning service after August 31, 1985. The Indiana Public Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole. That report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling 888-526-1687, or by visiting INPRS' website, www.in.gov/inprs.

Funding Policy Member contributions are established by statute at six percent of total statutory compensation paid by the state of Indiana, deducted from the member's salary and remitted by the Auditor of State. However, no contribution is required and no such amounts shall be paid by the member for more than 22 years of service.

Employer contributions are actuarially determined and approved by the INPRS Board of Trustees and by the Indiana General Assembly as biennial appropriations from the State's General Fund. Indiana Code 33-38-6-17 provides that this appropriation only include sufficient funds to cover the aggregate liability of the fund for benefits to the end of the biennium, on an actuarially funded basis. The statute also provide for remittance of docket fees and court fees. These are considered employer contributions.

Funded Status and Funding Progress As of June 30, 2012, the most recent actuarial valuation date, the plan was 59 percent funded. The actuarial accrued liability for benefits was \$437.9 million, and the actuarial value of assets was \$260.1 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$177.8 million. The covered payroll (annual payroll of active employees covered by the plan) was \$45.1 million, and the ratio of the UAAL to the covered payroll was 394 percent.

The schedule of funding progress, presented as RSI following the notes to the financial statement, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial

accrued liability for benefits.

The State sponsors the following defined benefit agent multiple-employer plan:

Public Employees' Retirement Fund (Presented as part of INPRS – a fiduciary in nature component unit)

Plan Description The Public Employees' Retirement Fund (PERF) is a defined benefit agent multiple-employer plan for units of state and local governments administered by the Indiana Public Retirement System Board of Trustees. PERF provides retirement, disability, and survivor benefits. Indiana Code 5-10.2, 5-10.3, and 5-10.5 governs the requirements of the Fund. The Indiana Public Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole. That report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling 888-526-1687, or by visiting INPRS' website, www.in.gov/inprs. At June 30, 2012, the number of participating political subdivisions was 1,121, and there were also 17 State-related participating employers.

Funding Policy The State of Indiana and any political subdivision that elects to participate in the PERF fund is obligated by statute to make contributions to the plan. The required contributions are determined by the INPRS Board of Trustees based on actuarial investigation and valuation. The funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to fund the pension benefits when they become due.

Contributions made by or on the behalf of members are not actuarially determined but are set by statute at three percent (3%) of compensation. These contributions are credited to the member's annuity savings account that is a separate benefit from the defined pension benefit. The State is required to contribute for State employees at an actuarially determined rate; during fiscal year 2012, State-related participating employers were required to contribute 8.6% of covered payroll.

Funded Status and Funding Progress Funded status and funding progress information is being disclosed for the State of Indiana employee portion of the plan. The funded status and funding progress information presented is for active and retired assets.

State of Indiana Employees: As of June 30, 2012, the most recent actuarial valuation date, the state employees portion of the plan was 75 percent funded. The actuarial accrued liability for benefits was \$5.5 billion, and the actuarial value of assets was \$4.1 billion, resulting in an unfunded actuarial accrued liability (UAAL) of \$1.4 billion. The covered payroll (annual payroll of active employees covered by the plan) was \$1.6 billion, and the ratio of the

UAAL to the covered payroll was 85 percent.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Annual Pension Cost and Net Pension Obligation The annual pension cost and net pension obligations, the significant actuarial assumptions, and three-year historical trend information of the single and agent multiple employer defined benefit plans are as follows:

The State sponsors the following cost-sharing multiple-employer plans:

State Teachers' Retirement Fund (Presented as part of INPRS – a fiduciary in nature component unit)

Plan Description The State Teachers' Retirement Fund (TRF), is a defined benefit, multiple-employer cost-sharing PERS, administered by the Indiana Public Retirement System Board of Trustees. Indiana Code 5-10.2, IC 5-10.4, and IC 5-10.5 govern the requirements of the Fund. The Indiana Public Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole. That report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling 888-526-1687, or by visiting INPRS' website, www.in.gov/inprs.

At June 30, 2012, the number of participating employers was 367.

Funding Policy Each member is required to contribute 3% of his/her compensation to the plan. The Indiana State Teachers' Retirement Fund is funded on a "pay as you go" basis for employees hired prior to July 1, 1995, and who have maintained continuous employment with the same school corporation or covered institution since that date (Pre-1996 Account). State appropriations are made for the amount of estimated pension benefit payouts for each fiscal year. If the actual pension benefit payout for the fiscal year exceeds the amount appropriated, the difference is paid from the Pension Stabilization Fund.

For employees hired on or after July 1, 1995; or hired before July 1, 1995, and prior to June 30, 2005, were either hired by another school corporation or institution covered by the Fund or were re-hired by a covered prior employer (1996 Account); the employer contribution rate is actuarially determined. The required contributions are determined by the INPRS Board of Trustees based on actuarial investigation and valuation. The funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to fund the pension benefits when they become due. During fiscal year 2012, all participating employers in the TRF 1996 account were required to contribute 7.5% of covered payroll.

As of June 30, 2012, TRF was 43% funded. Members in the Pre-1996 Account are funded on a "pay as you go" method for the employer portion of

the pension and members in the 1996 Account are funded with employer contributions as they work. TRF accounts for these two classes of members as "Pre-1996 Account" and "1996 Account", respectively. The Pre-1996 Account is 30% funded and the 1996 Account is 91% funded.

The funded ratio of the Fund has decreased from 45% at June 30, 2004, to the ratio of 43% at June 30, 2012. The actuarial value of the Fund's assets as of the June 30, 2011 valuation was \$8.9 billion and the actuarial accrued liability was \$20.8 billion. The difference is the Fund's unfunded actuarial accrued liability of \$11.9 billion. The annual covered payroll as of the June 30, 2012, actuarial valuation was \$4.2 billion and the ratio of the unfunded actuarial liability to the annual covered payroll was 282%.

1977 Police Officers' and Firefighters' Pension and Disability Fund (Presented as part of INPRS – a fiduciary in nature component unit)

Plan Description The 1977 Police Officers' and Firefighters' Pension and Disability Fund (1977 Fund) is a defined benefit, multiple employer cost sharing public employees retirement system administered by the Indiana Public Retirement System Board of Trustees. Indiana Code 36-8-8 governs the requirements of the Fund that provides retirement, disability, and survivor benefits. The Indiana Public Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole. That report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling 888-526-1687, or by visiting INPRS' website, www.in.gov/inprs.

At June 30, 2012, the number of participating employer units totaled 162 (which includes 257 police and fire departments).

Funding Policy A participant is required by statute to contribute six percent of a first class officer's or firefighter's salary for the term of their employment up to 32 years. Employer contributions are determined actuarially and during fiscal year 2012, all participating employers were required to contribute 19.5% during the period of July 1 – December 31, 2011 and 19.7% during the period of January 1 – June 30, 2012 of the salary of a first-class officer or firefighter. The funding policy mandated by statute requires quarterly remittances of member and employer contributions based on percentages of locally established estimated salary rates, rather than actual payroll.

The annual required contributions, percentage contributed, and three-year historical trend information, for the cost sharing, multiple-employer plans are as follows:

<u>Historical Trend Information</u>	<u>Discretely Presented Component Units</u>	
	<u>STRF</u>	<u>PFPF</u>
<u>Year ended June 30, 2012</u>

The State sponsors the following defined contribution plan:

Legislators' Retirement System – Legislators' Defined Contribution Plan (Presented as part of INPRS – a fiduciary in nature component unit)

Plan Description The Legislators' Defined Contribution Plan (IC 2-3.5-5), a single employer defined contribution plan applies to each member of the General Assembly who was serving April 30, 1989 and files an election under IC 2-3.5-3-1(b), and each member of the General Assembly who is elected or appointed after April 30, 1989. The plan is administered by the Board of Trustees' of the Indiana Public Retirement System. The Indiana Public Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole. That report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling 888-526-1687, or by visiting INPRS' website, www.in.gov/inprs.

Funding Policy For the Legislators' Defined Contribution Plan, each participant is required to contribute 5 percent of annual salary. In addition, the state of Indiana is required to contribute a percentage of the member's annual salary on behalf of the participant as determined by INPRS Board of Trustees and confirmed by the State Budget Agency each year. Effective January 1, 2012 the rate was established at 11.6 percent.

F. Other Postemployment Benefits

Defined Benefit Plans

Plan Descriptions The State of Indiana sponsors and contributes to four single-employer defined benefit healthcare plans: State Personnel Plan (SPP); Legislature Plan (LP); Indiana State Police Plan (ISPP); and the Conservation and Excise Police Plan (CEPP). The SPP and LP are administered by the State Personnel Department. The Indiana State Police administer the ISPP. The CEPP is administered by the Indiana State Excise Police and Indiana Conservation Officers Health Insurance Committee. All four plans provide medical plan health care benefits to eligible State employee retirees and beneficiaries. The medical benefits provided to retirees are the same benefit options afforded active employees. Benefit provisions for each plan are established and may be amended by Indiana Code 5-10-8 *et seq.*

Separate financial reports are not issued for these plans.

Funding Policy and Annual OPEB Cost The contribution funding policy for each of the four plans is on a pay-as-you-go cash basis. However, trust funds as authorized by the Indiana General Assembly were created during the last few years to start pre-funding the SPP, ISPP, and CEPP plans. The State of Indiana's annual other postemployment benefit (OPEB) cost (expense) for each plan is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The State of Indiana's annual OPEB cost for the current year and the related information for each plan are as follows:

	State Personnel Healthcare Plan	Legislature's Healthcare Plan	Indiana State Police Healthcare Plan	Conservation and Excise Police Health Care Plan

Change in net OPEB obligation	(30,919)	314	7,709	(3,430)
Net OPEB obligation - beginning of year	3,191	806	101,131	13,101
Net OPEB obligation - end of year	<u>\$ (27,728)</u>	<u>\$ 1,120</u>	<u>\$ 108,840</u>	<u>\$ 9,671</u>

The plan administrators (see plan descriptions above) establish the contribution requirements of plan members. Plan members (retirees and eligible dependents) who participate in these healthcare plans must pay the full 2012 monthly premiums (except for grandfathered LP current retirees) as shown in the following chart.

	<u>Monthly Premium</u>
State Personnel Healthcare Plan (SP) and Legislature's Healthcare Plan (LP)	
Consumer Driven Health Plan #1	
Single (Non-Tobacco)	\$ 380.38
Family (Non-Tobacco)	1,143.48
Consumer Driven Health Plan #2	
Single (Non-Tobacco)	502.19
Family (Non-Tobacco)	1,456.39
Traditional PPO	
Single (Non-Tobacco)	808.73
Family (Non-Tobacco)	2,272.40
Indiana State Police Healthcare Plan (ISPP)	
Basic Plan - Medical Only	
Retiree Only (Pre-Medicare)	369.14
Retiree Plus One Dependent (Pre-Medicare)	474.80
Retiree Only (Post-Medicare)	136.84
Retiree Plus One Dependent (Post-Medicare)	164.74
Optional Plan - Medical, Dental, & Vision	
Retiree Only (Pre-Medicare)	386.42
Retiree Plus One Dependent (Pre-Medicare)	463.15
Retiree Only (Post-Medicare)	140.46
Retiree Plus One Dependent (Post-Medicare)	172.23
Conservation and Excise Police Health Care Plan (CEPP)	
Single - Under Age 60 (Pre-Medicare)	320.00
Family - Under Age 60 (Pre-Medicare)	561.00
Single - Age 60 -64 (Pre-Medicare)	213.00
Family - Age 60-64 (Pre-Medicare)	320.00
Single (Post-Medicare)	128.00
Family (Post-Medicare)	183.00

The State of Indiana's annual OPEB cost, the percentage of annual OPEB cost contributed, and the net OPEB obligation for June 30, 2010 through

June 30, 2012 for each of the plans were as follows:

	<u>Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
State Personnel Healthcare Plan	6/30/2012	\$ 2,930	1155.1%	\$ (27,728)
	6/30/2011	4,499	376.1%	3,191
	6/30/2010	6,105	31.3%	15,615
Legislature's Healthcare Plan	6/30/2012	\$ 802	60.9%	\$ 1,120
	6/30/2011	551	64.0%	806
	6/30/2010	512	61.1%	608
Indiana State Police Healthcare Plan	6/30/2012	\$ 26,336	70.7%	\$ 108,840
	6/30/2011	28,915	47.7%	101,131
	6/30/2010	41,224	21.9%	86,003
Conservation and Excise Police Health Care Plan	6/30/2012	\$ 3,460	199.1%	\$ 9,671
	6/30/2011	4,257	31.4%	13,101
	6/30/2010	5,271	24.7%	10,180

Funded Status and Funding Progress The funded status of the plans as of June 30, 2012, was as follows:

	State Personnel Healthcare Plan	Legislature's Healthcare Plan	Indiana State Police Healthcare Plan	Conservation and Excise Police Health Care Plan
Actuarial accrued liability (a)	\$ 36,643	\$ 11,956	\$ 291,148	\$ 41,804
Actuarial value of plan assets (b)	44,008	-	17,033	5,773
Unfunded actuarial accrued liability (funding excess) (a) - (b)	\$ (7,365)	\$ 11,956	\$ 274,115	\$ 36,031
Funded ratio (b)/(a)	120.1%	0.0%	5.9%	13.8%
Covered payroll (c)	\$ 1,166,823	\$ 1,787	\$ 87,040	\$ 12,600
Unfunded actuarial accrued liability (funding excess) as a percentage of covered payroll ((a)-(b))/(c)	-0.6%	669.1%	314.9%	286.0%

GASB 45 regulations permit employers to use the most recent available actuarial information up to two years prior to the current period. Accordingly, the State has elected to use the actuarial results for the period ending on June 30, 2011 for the period ending June 30, 2012.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress presented as

required supplementary information provides multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Significant methods and assumptions were as follows:

	State Personnel Healthcare Plan	Legislature's Healthcare Plan	Indiana State Police Healthcare Plan	Conservation and Excise Police Health Care Plan
Actuarial valuation date	6/30/2012	6/30/2012	6/30/2012	6/30/2012
Actuarial cost method	Projected unit credit	Projected unit credit	Projected unit credit	Projected unit credit
Amortization method	Level dollar amount, open	Level dollar amount, open	Level dollar amount, open	Level dollar amount, open
Remaining amortization period	30 years	30 years	30 years	30 years
Asset valuation method	Market Value of Assets	N/A	Market Value of Assets	Market Value of Assets
Actuarial assumptions:				
Inflation rate	3.0%	3.0%	3.0%	3.0%
Investment rate of return	7.0%	4.5%	5.3%	4.5%
Projected salary increases	4.0%	4.0%	4.0%	4.0%
Healthcare inflation rate	9.2%	9.2% pre-65 & 10.0% post-65	9.2% pre-65 & 10.0% post-65	9.2% pre-65 & 10.0% post-65

GASB 45 regulations permit employers to use the most recent available actuarial information up to two years prior to the current period. Accordingly, the State elected to use the actuarial results for the period ending June 30, 2011 for the period ending June 30, 2012. There have been no material changes in the retiree health benefits or contribution requirements from the most recent available actuarial valuation for the period ending June 30, 2010 except for the pre-funding of retiree health benefits for CEPP, ISPP and SPP. However, the healthcare inflation rates and the per capita costs were updated for the current year valuation.

Defined Contribution Plan

Plan Description The State of Indiana sponsors one single employer defined contribution OPEB plan established as a trust fund, the Retiree Health Benefit Trust Fund, in IC 5-10-8-8.5. The State established this trust fund to provide funding for the retiree health benefit plan developed under IC 5-10-8.5. The plan is a benefit to employees who retire and are eligible for and have received a normal, unreduced or disability retirement benefit (as determined by statutes and codes governing a State public employee retirement fund). Qualified retirees of the State are eligible to receive retirement medical benefits from this Plan. Retirees' and/or covered dependents' qualifying health insurance and medical costs are eligible for reimbursement from their reimbursement account, subject to Plan conditions and limitations.

Plan Provisions Benefit provisions for this plan are established or may be amended by the State legislature. The State Budget Agency of the State of Indiana is the administrator of the plan pursuant to Indiana Code 5-10-8-8.5. The plan establishes a retirement medical benefits account for elected officers, appointed officers, and most employees of the executive, legislative, and judicial branches of state government to pay for participants' medical insurance after retirement. Legislation passed by the 2012 Indiana General Assembly removed from eligibility in the DC plan all Conservation Officers, all Excise Officers, and employees of the Indiana State Police who did not previously waive coverage under the agency's DB plan. Benefits are entitled to be received from this account for a participant who: a) is eligible for and has applied to receive a normal, unreduced or disability retirement benefit under the Public Employees' Retirement Fund; or b) has completed at least 10 years of service as an elected or appointed officer; or c) has completed at least 15 years of service with the state for an employee. A surviving spouse or IRS dependent of

a retired participant is allowed to receive the benefit from this account. Amounts credited to a retired participant are forfeited if the participant dies without a surviving spouse or IRS dependent.

The trust meets the requirements of a qualified OPEB trust. The trust is qualified under section 115 of the Internal Revenue Code.

Contributions The State is required to make annual contributions to the account based on the following schedule:

Employee's Age	Annual State Contributions
Less than 30	\$500
At least 30, but less than 40	\$800
At least 40, but less than 50	\$1,100
At least 50	\$1,400

An additional bonus contribution is to be made upon a participant's retirement with normal unreduced benefits if the retirement occurs between July 1, 2007 and July 1, 2017, and the retiree on the last day of service has completed at least 15 years of service or 10 years of service as an elected or appointed officer. The additional bonus contribution amount is one thousand dollars (\$1,000) multiplied by the participant's years of service (rounded down to the nearest whole year).

At June 30, 2012, the plan participants consisted of:

Description	Number
Active participants with accounts, not yet retired	\$27,816
Retired participants with accounts	4,344
Total	<u>\$32,160</u>

At June 30, 2012, plan participants' retirement medical plan account balances totaled \$225.3 million which consisted of \$133.0 million in unretired active participants' accounts and \$92.3 million in retired participants' accounts.

This plan is a defined contribution individual account for GASB 45 purposes. The employer subsidy is defined in terms of an annual contribution to an individual account. Plan assets are maintained in the Retiree Health Benefit Trust Fund created by the State as a dedicated trust fund.

The trust fund consists of cigarette tax revenues deposited in the fund under IC 6-7-1-28.1(7) and other appropriations, revenues, or transfers to the trust fund under IC 4-12-1. Cigarette tax revenues to the fund were suspended effective July 1, 2011 and are to resume on July 1, 2014. The plan benefits satisfy the condition of being a defined contribution OPEB benefit and by definition, there is no unfunded liability.

The annual required contribution for the fiscal year ending June 30, 2012 is \$34.4 million with \$22.4 million being contributed by state agencies that are funded by federal or dedicated funds for their portion of funding and the remainder coming from the accumulated General Fund balance held by the trust. The retiree contribution includes the bonus contributions of \$1,000 per year of service to employees retiring after July 1, 2007 who also met certain minimum age and service requirements.

G. Pollution Remediation Obligations

Nature and source of pollution remediation obligations: Four state agencies have identified themselves as responsible or potentially responsible parties to remediate fifty-five pollution sites pursuant to the State's implementation of GASB 49, Accounting and Financial Reporting for Pollution Remediation Obligations effective July 1, 2008. Obligating events for the cleanup of these sites include the federal Superfund law, being named by a regulator to remediate hazardous wastes and contamination, violation of the Resource Recovery and Conservation Act, being named in a lawsuit, and voluntarily assuming responsibility because of imminent threats to human health and the environment.

Amount of the estimated liability, methods and assumptions used for the estimate, and the potential for changes: The State's total estimated liability is \$46.0 million of which \$7.3 million is estimated to be payable within one year and \$38.7 million estimated to be payable in more than one year. State agencies calculated their estimated liabilities using various approaches including existing agreements, contractor bids/surveys, records of decisions from regulators, matching requirements under the Superfund law, previous actual costs to cleanup similar sites, investigation activities, well known and recognized estimation methods, and through the sampling and knowing the size and volume of existing contamination at a site. Superfund site estimated liabilities also applied a rolling thirty year liability as this was the number of years determined to be reasonably estimable. The estimated liabilities of state

agencies are subject to annual review and adjustment for changes in agreements, laws, regulations, court decisions, price increases or decreases for goods and services used in cleanup, and other relevant changes that come to light.

Estimated recoveries reducing the liability: The estimated recoveries total \$18.2 million. Of this total, \$0.3 million is unrealizable or has not yet been realized and has been applied to reduce the State's total estimated liability. Estimated recoveries include the proceeds from the sale of stock from a bankruptcy court settlement, coverage of allowable costs by the State's Excess Liability Trust Fund (ELTF), and credits received for work performed on Superfund sites. The ELTF state law states that if insufficient funds exist to pay claims neither the State nor the Fund are liable for unpaid claims. The State recognized \$3.8 million of program revenue for four sites whose realized recoveries exceeded the pollution remediation liability.

Budgetary Information

The Governor submits a budget biennially to be adopted by the General Assembly for the ensuing two-year period. The budget covers the general fund and most special revenue funds, but excludes the Armory Board and the Recreation funds at State institutions. The General Assembly enacts the budget through passage of specific appropriations, the sum of which may not exceed estimated revenues. Appropriations for programs funded from special revenue funds may allow expenditures in excess of original appropriations to the extent that revenues collected exceed estimated revenues.

The original budget is composed of the budget bill and continuing appropriations. The budget bill is enacted as the Appropriations Act that the Governor may veto, subject to legislative override. Continuing appropriations report budgeted expenditures as equal to the amount of revenues received during the year plus any balances carried forward from the previous year as determined by statute. Except as specifically provided by statute, appropriations or any part thereof remaining unexpended and unencumbered at the close of any fiscal year will lapse and be returned to the fund from which it was appropriated.

The final budget is composed of budgeted amounts as adopted and as amended by supplemental appropriations or appropriation transfers that were necessary during the current year. The State Board of Finance, which consists of the Governor, Auditor of State and Treasurer of State, is empowered to transfer appropriations from one appropriation, fund, or agency of the State to another, with the exception of trust funds. The State Budget Agency may transfer, assign, and reassign almost any appropriation, except those restricted by law, but only when the uses and purposes of the funds concur and the transfers are within the same agency of the state to which the appropriation was originally made. Excess general fund revenue is used to cover non-budgeted recurring expenditures and overdrafts of budgeted amounts at the end of the current year. Capital appropriations are initially posted to general government. As projects are approved by the State Budget Committee the appropriations are transferred to the function of government from which they are disbursed. In addition, expenditures under many federal grants are required to be spent before they are reimbursed by the federal government. These actions are considered supplemental appropriations; therefore, expenditures do not exceed appropriations for individual funds.

The legal level of budgetary control (the level on which expenditures may not legally exceed appropriations) is maintained at the fund level by the State Budget Agency. When budgets are submitted for each fund, certain recurring expenditures are not budgeted (medical service payments, tort claims) according to instructions from the State Budget Agency to the various agencies. The Budget Agency monitors all funds regularly in addition to monitoring excess general fund revenue that will be available at the end of the fiscal year to cover the non-budgeted, recurring expenditures.

Budget/GAAP Reconciliation Major Funds

The cash basis of accounting (budgetary basis) is applied to each budget. The budgetary basis differs from GAAP. The major differences between budgetary (non-GAAP) basis and GAAP basis are:

(amounts expressed in thousands)	GENERAL FUND	PUBLIC WELFARE- MEDICAID ASSIS	MAJOR MOVES CONSTRUCTION FUND	2009 ARRA FUND	U.S. DEPARTMENT OF TRANSPORTATION	U.S. DEPARTMENT OF HEALTH AND HUMAN	Total
Net change in fund balances (budgetary basis)	\$ 718,215	\$ 459,065	\$ (526,162)	\$ 14,606	\$ (141,147)	\$ 56,811	\$ 581,388
Adjustments necessary to convert the results of operations on a budgetary basis to a GAAP basis are:							
Revenues are recorded when earned (GAAP) as opposed to when cash is received (budgetary)	112,248	441,474	(21,804)	10,930	(3,930)	(161,415)	377,503
Expenditures are recorded when the liability is incurred (GAAP) as opposed to when payment is made (budgetary)	(488,851)	(625,414)	(144)	17,952	(28,829)	(20,097)	(1,145,383)
Net change in fund balances (GAAP basis)	\$ 341,612	\$ 275,125	\$ (548,110)	\$ 43,488	\$ (173,906)	\$ (124,701)	\$ (186,492)

Infrastructure - Modified Reporting Condition Rating of the State's Highways and Bridges

Roads	Average International Roughness Index (IRI)		
	<u>2012</u>	<u>2011</u>	<u>2010</u>
Interstate Roads (excluding Rest Areas and Weigh Stations)	82.8%	82.6%	82.3%
NHS Roads - Non-Interstate (excluding Rest Areas and Weigh Stations)	84.4%	83.6%	84.0%
Non-NHS Roads	94.2%	94.3%	94.2%

The condition of road pavement is based on the International Roughness Index (IRI), which is a measure of the roughness of the pavement in terms of inches per mile, and applies both to Portland cement concrete (PCC) and hot mix asphalt (HMA) pavements. IRI's range from zero for a pavement that is perfectly smooth to ratings above 170 for a pavement that warrants replacement. The condition index is used to classify roads in excellent condition (0-79), good condition (80-114), satisfactory condition (115-149), fair condition (150-169), and poor condition (above 170). It is the State's policy to maintain a network average of no more than 95 IRI. Condition assessments are determined on an annual basis for all roads maintained by INDOT. The ratings provided are based on data gathered during the summer (May to October) for each fiscal year. The data is evaluated and compared to standard criteria by the end of the fiscal year.

Bridges	Average Sufficiency Rating		
	<u>2012</u>	<u>2011</u>	<u>2010</u>
Interstate Bridges	89.1%	88.9%	88.8%
NHS Bridges - Non-Interstate	89.9%	89.9%	90.0%
Non-NHS Bridges	88.0%	87.4%	87.4%

The condition of the State's bridges is measured based on a sufficiency rating, which is based on a weighted average of four factors indicative of a bridge's sufficiency to remain in service. The sufficiency rating uses a measurement scale that ranges from zero for an entirely insufficient or deficient bridge to 100 for an entirely sufficient bridge. The sufficiency rating is used to classify bridges in excellent condition (90-100), good condition (80-89), fair condition (70-79), marginal condition (60-69), and poor condition (below 60). It is the State's policy to maintain Interstate bridges at a minimum sufficiency rating of 87%, NHS Non-Interstate bridges at 85%, and Non-NHS bridges at 83%. Sufficiency ratings are determined at least on a biennial basis for all bridges. Sufficiency ratings are determined more frequently for certain bridges depending on their design.

OTHER SUPPLEMENTARY INFORMATION

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes. Funds of material significance are presented separately in these combining statements. All other funds are included under the description "Other Non-Major Special Revenue Funds."

The following fund is used to report the State Student Assistance Commission of Indiana (SSACI) whose mission is to make college affordable through need-based grants and to allow choice by granting awards to those attending public, independent and proprietary colleges:

State Student Assistance

The following funds are used to account for transportation and motor vehicle related programs:

Motor Vehicle Highway
Motor Vehicle Commission
Road and Street, Primary Highway
State Highway Fund

The following funds are used to account for health and environmental programs:

Indiana Check-Up Plan
Patients Compensation Fund
Tobacco Settlement Fund

The following funds are used to receive and distribute certain revenues to the proper sources:

State Gaming Fund
Build Indiana Fund

The following fund is used to account for non-federal programs:

Fund 6000 Programs

The following fund is used to provide low interest construction and technology loans for qualifying schools:

Common School Fund

The following funds are used to account for federal grant programs:

U.S. Department of Agriculture
U.S. Department of Labor
U.S. Department of Education

NON-MAJOR GOVERNMENTAL FUNDS

CAPITAL PROJECTS FUNDS

Capital project funds account for financial resources to be used by the State for the acquisition or construction of major capital facilities (other than those financed by proprietary and trust funds). Funds of material significance are presented separately in these combining statements. All other funds are included under the description "Other Non-Major Capital Projects Funds."

State Police Building Commission – This fund accounts for new construction, rehabilitation and preventative maintenance for this state commission.

Post War Construction – This fund accounts for new construction, rehabilitation and preventative maintenance of penal, benevolent and charitable institutions of the state.

PERMANENT FUNDS

Permanent Funds account for resources of the State that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support State programs. Funds of material significance are presented separately in these combining statements. All other funds are included under the description "Other Non-Major Permanent Funds."

Next Generation Trust Fund - This fund is used to hold title to proceeds transferred to the trust under IC 8-15.5-11. The interest is appropriated every five years beginning March 15, 2011 and is to be used exclusively for the provision of highways, roads, and bridges for the benefit of the people of Indiana and the users of those facilities.

Budget/GAAP Reconciliation Nonmajor Special Revenue Funds

The cash basis of accounting (budgetary basis) is applied to each budget. The budgetary basis differs from GAAP. The major differences between budgetary (non-GAAP) basis and GAAP basis are:

(amounts expressed in thousands)	Nonmajor Special Revenue Funds
Net change in fund balances (budgetary basis)	\$ 263,744
Adjustments necessary to convert the results of operations on a budgetary basis to a GAAP basis are:	
Revenues are recorded when earned (GAAP) as opposed to when cash is received (budgetary)	1,481,200
Expenditures are recorded when the liability is incurred (GAAP) as opposed to when payment is made (budgetary)	(1,417,462)
Funds not subject to legally adopted budget	<u>(1,644)</u>
Net change in fund balances (GAAP basis)	<u><u>\$ 325,838</u></u>

NON-MAJOR PROPRIETARY FUNDS

ENTERPRISE FUNDS

Enterprise Funds account for operations established to provide services to the general public in a manner similar to private business enterprises. Cost of providing the goods or services are financed or recovered primarily through fees and user charges. The non-major enterprise funds are as follows:

Residual Malpractice Insurance Authority – IC 34-18-17 created the Residual Malpractice Insurance Authority to make malpractice liability insurance available to those who cannot obtain this coverage through other insurers. The Indiana Department of Insurance is the designated residual malpractice insurance authority per State law. Revenues are from the premiums collected.

Inns and Concessions - This fund accounts for the operations of various State Park Inns which provide lodging throughout the year for park tourists, and for the restaurant and concessions at Fort Benjamin Harrison.

INTERNAL SERVICE FUNDS

Internal Service Funds account for the operations of State agencies that supply goods or services to other agencies of governmental units on a cost-reimbursement basis.

Institutional Industries - This fund accounts for revenues and expenses incurred from the operation of inmate employment programs. Goods produced or manufactured as a result of such programs are sold to state agencies and political subdivisions of the State as well as to the general public.

Administrative Services Revolving – This fund is used to account for the following rotary funds.

Information Technology Services provides telecommunications and data processing services to State agencies. Revenues consist of charges to user agencies.

Motor Pool Rotary Fund accounts for the operation and maintenance of State garages including the servicing and repair of all automotive equipment owned or controlled by the State. Revenues consist of charges to user agencies.

Printing Rotary Fund accounts for the operation of the State Print Shop, which provides printing services to other State agencies. Revenues consist of charges to user agencies.

General Services Rotary accounts for postal service charges to agencies. Revenues consist of charges to user agencies.

Aviation Rotary Fund accounts for the operation and maintenance of state aircraft. Revenues consist of charges to user agencies.

Self-Insurance Funds - The self-insurance funds consist of the **State Police Health Insurance Fund, State Employee Disability Fund, and the State Employee Health Insurance Fund.** These funds administer health insurance and disability plans for state employees and state police personnel as well as for certain school corporations.

State Personnel Department Fund - This fund accounts for revenues and expenses incurred by the Indiana State Personnel Department for providing human resource services to the executive branch of the government.

Accounting Centralization - This fund accounts for revenues and expenses incurred by the Indiana State Budget Agency for providing centralized accounting services to some smaller state agencies.

Reconciliation of operating income to net cash provided (used) by operating activities:

Operating income (loss)	
Adjustments to reconcile operating income (loss) to net cash provided (used) by operating activities:	
Depreciation/amortization expense	
(Increase) decrease in receivables	
(Increase) decrease in interfund services provided	
(Increase) decrease in inventory	
Increase (decrease) in health and disability benefits payable	
Increase (decrease) in accounts payable	
Increase (decrease) in deferred revenue	
Increase (decrease) in salaries payable	
Increase (decrease) in compensated absences	
Increase (decrease) in other payables	

Net cash provided (used) by operating activities

FIDUCIARY FUNDS

Fiduciary funds account for assets held by or on behalf of the government in a trustee capacity or as an agent on behalf of others.

PENSION AND OTHER EMPLOYEE BENEFIT TRUST FUNDS

Pension trust funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, and other post-employment benefit plans.

Indiana Public Retirement System – This fund manages defined benefit agent multiple-employer and defined benefit, multiple-employer cost-sharing plans administered by the Indiana Public Retirement System’s Board of Trustees.

State Police Pension Fund - This fund is used to account for assets held for a defined benefit, single-employer public employee retirement system administered by the Indiana State Police.

State Employee Retiree Health Benefit Trust Fund-DB - This fund is used to account for assets held for the State’s four defined benefit, single-employer OPEB plans: the State Personnel Plan (SPP) and Legislature Plan (LP) administered by the State Personnel Department; Indiana State Police Plan (ISPP) administered by the Indiana State Police; and the Conservation and Excise Police Plan (CEPP) administered by the Indiana State Excise Police and Indiana Conservation Officers Health Insurance Committee.

State Employee Retiree Health Benefit Trust Fund-DC - This fund is used to account for assets held for a defined contribution, single-employer OPEB plan administered by the State Budget Agency.

PRIVATE-PURPOSE TRUST FUNDS

Private-Purpose trust funds are used to account for trust arrangements in which both the principal and interest may be spent for the benefit of individuals, private organizations or other governments.

Abandoned Property Fund - This fund is used to administer abandoned property of individuals, private organizations and other governments held by the State.

Private-Purpose Trust Fund - This fund is used to account for a group of fund centers under which principal and interest benefit individuals, private organizations, or other governments.

FIDUCIARY FUNDS

AGENCY FUNDS

Agency funds account for resources that are custodial in nature. They generally are amounts held by the State of Indiana on behalf of third parties.

Employee Payroll, Withholding and Benefits Funds - These funds are used for the disposition of various payroll-related deductions and contributions such as social security and insurance contributions.

Local Distributions Fund - This fund is composed of accounts used to distribute revenue collections to local units of government based upon statutory formulas.

Child Support Fund - This fund is used for the collection and distribution of child support payments.

Department of Insurance Fund - This fund includes security deposits of insurance companies, health maintenance organizations and third party administrators as required.

Other Agency Funds – This category comprises various escrows, revenue collection, and agency accounts for which the State acts in an agent capacity until proper disposition of the assets can be made.

NON-MAJOR DISCRETELY PRESENTED COMPONENT UNITS

GOVERNMENTAL FUNDS

Governmental component units represent funds that are legally separate from the State of Indiana, but provide valuable and beneficial services to the State and its citizens. The non-major discretely presented component unit consists of the following governmental fund:

Indiana Economic Development Corporation – The responsibility of this corporation is to improve the quality of life for the citizens of Indiana by encouraging the diversification of Indiana’s economy, by the orderly economic development and growth of Indiana, the creation of new jobs, the growth and modernization of existing industry and the promotion of Indiana.

PROPRIETARY FUNDS

Proprietary component units represent funds that are legally separate from the State of Indiana, but provide valuable and beneficial services to the State and its citizens. The non-major discretely presented component units consist of the following proprietary funds:

White River State Park Development Commission – The responsibility of this commission is to design and implement a plan for the establishment and development of park, exposition, educational, athletic, and recreational projects to be located within one mile from the banks of the Indiana White River in a consolidated first-class city and county.

Ports of Indiana – The responsibility of this commission is to construct, maintain, and operate public ports with terminal facilities and traffic exchange points for all forms of transportation on Lake Michigan and the Ohio and Wabash Rivers.

State Fair Commission – This commission is responsible for holding the annual Indiana State Fair and for operating and maintaining the State Fairgrounds and other properties it owns.

Indiana Comprehensive Health Insurance Association – The responsibility of this Association is to assure that health insurance is made available throughout the year to each eligible Indiana resident applying to the Association for coverage.

Indiana Political Subdivision Risk Management Commission – This commission is responsible for administering the Basic and Catastrophic funds that aid political subdivisions in protecting themselves against liabilities.

Indiana State Museum and Historic Sites Corporation – The responsibility of this corporation is to operate and administer the state historic sites including the Indiana State Museum which collects, conserves and exhibits artifacts and materials reflecting the cultural and natural history of Indiana.

COLLEGES AND UNIVERSITIES

College and university funds are used to account for the operations of state-supported colleges and universities. The non-major discretely presented component units consist of the following institutions:

Ball State University
 Indiana State University
 Ivy Tech Community College of Indiana
 University of Southern Indiana
 Vincennes University

State of Indiana
Reconciliation of the Balance Sheet to the Statement of Net Assets
Indiana Economic Development Corporation
Discretely Presented Component Units - Governmental Funds
June 30, 2012
 (amounts expressed in thousands)

Total fund balances-governmental funds \$ 145,268

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:

Property, plant, and equipment	\$ 381	
Accumulated depreciation	(155)	
Total capital assets, net of depreciation		226

Some of the state's receivables will be collected after year-end but are not available soon enough to pay for current period's expenditures and therefore are deferred in the fund

Accounts receivable	4	
		4

Some liabilities reported in the statement of net assets do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

Accounts payable	(364)	
		(364)

Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:

Accrued liability for compensated absences	(343)	
		(343)

Net assets of governmental activities \$ 144,791

State of Indiana
Combining Statement of Revenues, Expenditures,
and Changes in Fund Balances

State of Indiana
Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances to the Statement of Activities
Indiana Economic Development Corporation
Discretely Presented Component Unit - Governmental Funds
For the Year Ended June 30, 2012
(amounts expressed in thousands)

Net change in fund balances-total governmental funds \$ 11,126

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report net capital outlays as expenditures. However in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$13) exceeds net capital outlays (\$0) in the current period. (13)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.
Non-tax revenue 4

Expenses reported in the statement of activities that do not require the use of current financial resources are not reported as expenditures in the funds.
Operating expenses 1,573

Change in net assets of governmental activities. \$ 12,690

STATISTICAL SECTION

COMPREHENSIVE ANNUAL FINANCIAL REPORT

Photo provided by the Indiana Adjutant General's Office,
122d Fighter Wing Public Affairs, Air National Guard.

A pilot of the 122d Fighter Wing Air National Guard located at Baer Field, Fort Wayne IN conducts Air Gunnery training with his A-10 Thunderbolt II that can employ several varieties of munitions that includes general purpose bombs, cluster bomb units and laser guided bombs as well as the 30mm cannon, capable of firing 3,900 rounds per minute, to enable defeating a wide variety of targets including tanks.

STATISTICAL SECTION

The statistical section is presented to provide report users a historical perspective and assistance in assessing the current financial status and trends for the State.

	<u>Page</u>
Financial Trends	195-199

These schedules contain trend information to assist users in understanding and assessing how the State’s financial position has changed over time.

Revenue Capacity	200-291
-------------------------------	---------

These schedules contain information to assist users in understanding and assessing the factors affecting the State’s ability to generate its own-source revenues.

Debt Capacity	292
----------------------------	-----

This schedule is to assist users in understanding and assessing the State’s debt burden and its ability to issue debt.

Demographic and Economic Information	293-300
---	---------

These schedules are intended to assist users in understanding the socioeconomic environment within which the State operates and to provide information that facilitates comparisons of financial statement information.

Operating Information	301-305
------------------------------------	---------

These schedules provide contextual information about the State’s operations and resources to assist readers in using financial statement information to understand and assess the State’s economic condition.

¹ Average effective rate equals tax collections divided by income.

² This assumes (a) a family of four that consists of husband, wife, and two children and (b) state taxable income equals federal adjusted gross income minus renter's/homeowner's property tax deduction minus exemptions. The State income tax rate for the entire 10 years was 3.4%.

State of Indiana

Property Tax Schedules

For Year Ended December 31, 2007

Payable 2008

In the State of Indiana property taxes are levied by local units of government and overseen by the Indiana Department of Local Government Finance. The State of Indiana levies two rates of taxation against all taxable property in the state and Indiana Law fixes those rates. There is an eight ten thousandths per one hundred dollars assessed value rate for the Indiana State Fair Board and a sixteen ten-thousandths rate for the Indiana State Forestry Fund.

Property taxes are collected by county treasurers and distributed by county auditors. County auditors are required by Indiana Law to file, with the Auditor of State, reports of property taxes charged, collected and distributed. It is from those reports the property tax information is provided on the following pages.

Property taxes paid by each property taxpayer in Indiana are reduced by a credit referred to as a state property tax replacement credit. Property tax replacement credit dollars are paid by the state to county treasurers to replace the credit granted to property taxpayers. The state property tax replacement credit is funded by a portion of the state sales tax, individual income tax and riverboat wagering taxes. County auditors distribute the state property tax replacement credit dollars to taxing units as property taxes. The state property tax replacement credit percentage is determined by a formula established by Indiana Law and is computed by the Indiana Department of Local Government Finance. There are two separate state property tax replacement credits. One credit applies to real estate and individual personal property. The other state property tax replacement credit applies to business personal property. The two credit percentages are different within each taxing district and there are different credit percentages for each taxing district. Both of the credit percentages are based on the type of taxes levied within each taxing district.

Counties can adopt a local option income tax to fund a local option income tax property tax replacement credit applicable to all property types. Not all counties have adopted this property tax replacement credit. For the counties that have adopted this credit the dollar amount of the credit is presented in the following schedules in a separate column labeled local option income tax property tax replacement credit. The property tax credit percentage is a uniform credit percentage calculated by county auditors. The uniform credit percentage is based on the local option income tax available to fund the credit and total gross property tax liability. Local option income tax property tax replacement credit dollars are paid by county auditors to county treasurers to replace the credit granted to property taxpayers. The local option income tax replacement credit dollars are distributed to taxing units as property taxes.

Homestead property owners, who qualify, receive an additional credit on their property taxes. The credit is referred to as homestead credit. Homestead property is defined as owner occupied residential property. There is a state homestead credit funded by a portion of the state sales tax, individual income tax and riverboat wagering taxes, a state homestead credit referred to as house enrolled act (HEA) 1001-2008 state homestead credit funded by the general revenues of the state and in some counties there is a local (COIT) homestead credit funded by a portion of the county option income tax, and/or a local (CEDIT) homestead credit funded by county economic development income tax and/or a local option income tax (LOIT) homestead credit funded by county local option income taxes. The state and local homestead credit is given on the homestead taxes after the taxes have been reduced by the property tax replacement credit. The state homestead credit dollars are paid by the state to county treasurers to replace the state homestead credits granted to homestead property taxpayers and, where applicable, the local homestead credit dollars are paid by county auditors to county treasurers to replace the local homestead credits granted to homestead property taxpayers. County auditors distribute the homestead credit dollars to taxing units as property taxes. On the following schedules the state paid homestead credits and the locally funded homestead credits are shown in separate columns.

The state homestead credit percentage is determined by a formula established by Indiana Law and is computed by the Indiana Department of Local Government Finance. State homestead credit percentages vary by county and by taxing districting within a county because the state homestead credit percentages are based on the type of taxes levied within each taxing district.

The HEA 1001-2008 state homestead credit percentage is a uniform percentage calculated by county auditors based on the amount of HEA 1001-2008 state homestead credit dollars distributed by the state to the county and the total homestead property tax liability after property tax replacement credit. For payable 2008 property taxes a total of \$620 million was distributed to counties for HEA 1001-2008 state homestead credit. The allocation basis of the \$620 million was payable 2007 state homestead credit dollars distributed to counties. The HEA 1001-2008 state homestead credit percentages vary by county because of differences in homestead property tax liability after property tax replacement credit and the amount of HEA 1001-2008 state homestead credit dollars each county receives.

The COIT homestead credit percentage is determined by a formula established by Indiana Law and is computed by the Indiana Department of Local Government Finance. COIT homestead credit percentages vary by taxing district in a county because the COIT homestead credit percentages are based on the type of taxes levied within each taxing district.

The CEDIT homestead credit percentage is calculated by county auditors and is based on net homestead assessed values and the amount of CEDIT revenue available to fund the homestead credit. The CEDIT homestead credit percentages vary by county, because of differences in net residential assessed values and the amount of CEDIT revenue available to fund the homestead credit.

The LOIT homestead credit percentage is a uniform percentage calculated by the Indiana Department of Local Government Finance based on the amount of local option income tax available to fund LOIT homestead credit and the total homestead property tax liability after property tax replacement credit.

There is an additional residential property tax credit available for counties to adopt known as the local option income tax (LOIT) residential property tax replacement credit. Homestead property owners and residential rental property owners qualify for the LOIT residential property tax replacement credit. The LOIT residential property tax replacement credit is given on the residential taxes after the taxes have been reduced by the property tax replacement credit. The LOIT residential property tax replacement credit percentage is a uniform percentage calculated by county auditors and is based on the amount local option income tax available to fund the credit and the total residential property tax liability after the property tax replacement credit.

There is also a county economic development income tax (CEDIT) residential property tax replacement credit available for counties to adopt, but no county has adopted this credit.

Beginning with taxes payable in 2008 an additional unfunded homestead tax credit was established by the state legislature. The credit is known by Indiana Law as the excessive residential property tax credit and is commonly known as the circuit breaker credit. The circuit breaker credit equals the amount the net homestead property tax liability exceeds two percent of the gross homestead assessed value.

State of Indiana

Property Tax Schedules

For Year Ended December 31, 2008

Payable 2009

In the State of Indiana property taxes are levied by local units of government and overseen by the Indiana Department of Local Government Finance.

Property taxes are collected by county treasurers and distributed by county auditors. County auditors are required by Indiana Law to file, with the Auditor of State, reports of property taxes charged, collected and distributed. It is from those reports the property tax information is provided on the following pages.

In 2012 LaPorte County combined the 2009 and 2010 property tax billing. On the following schedules the 2009 and 2010 property tax charges are shown separately on the 2009 and 2010 schedules, but the combined property tax collections and distributions are shown only on the 2010 schedules.

Counties can adopt a local option income tax to fund a local option income tax property tax replacement credit applicable to all property types. Not all counties have adopted this property tax replacement credit. For the counties that have adopted this credit the dollar amount of the credit is presented in the following schedules in a separate column labeled local option income tax property tax replacement credit. The property tax credit percentage is a uniform credit percentage calculated by county auditors. The uniform credit percentage is based on the local option income tax available to fund the credit and total gross property tax liability. Local option income tax property tax replacement credit dollars are paid by county auditors to county treasurers to replace the credit granted to property taxpayers. The local option income tax replacement credit dollars are distributed to taxing units as property taxes.

Homestead property owners, who qualify, receive an additional credit on their property taxes. The credit is referred to as homestead credit. Homestead property is defined as owner occupied residential property. There is a state homestead credit referred to as house enrolled act (HEA) 1001-2008 state homestead credit funded by the general revenues of the state and in some counties there is a local (COIT) homestead credit funded by a portion of the county option income tax, and/or a local (CEDIT) homestead credit funded by county economic development income tax and/or a local option income tax (LOIT) homestead credit funded by county local option income taxes. The state and local homestead credit is given on the homestead taxes after the taxes have been reduced by the property tax replacement credit. The state homestead credit dollars are paid by the state to county treasurers to replace the state homestead credits granted to homestead property taxpayers and, where applicable, the local homestead credit dollars are paid by county auditors to county treasurers to replace the local homestead credit granted to homestead property taxpayers. County auditors distribute the homestead credit dollars to taxing units as property tax. On the following schedules the state paid homestead credits and the locally funded homestead credits are shown in separate columns.

The HEA 1001-2008 state homestead credit percentage is a uniform percentage calculated by county auditors based on the amount of HEA 1001-2008 state homestead credit dollars distributed by the state to the county and the total homestead property tax liability after property tax replacement credit. For payable 2009 property taxes a total of \$140 million was distributed to counties for HEA 1001-2008 state homestead credit. The allocation basis of the \$140 million was the payable 2008 property taxes on homestead property.

The COIT homestead credit percentage is determined by a formula established by Indiana Law and is computed by the Indiana Department of Local Government Finance. COIT homestead credit percentages vary by taxing district in a county because the COIT homestead credit percentages are based on the type of taxes levied within each taxing district.

The CEDIT homestead credit percentage is calculated by county auditors and is based on net homestead assessed values and the amount of CEDIT revenue available to fund the homestead credit. The CEDIT

homestead credit percentages vary by county, because of differences in net residential assessed values and the amount of CEDIT revenue available to fund the homestead credit.

The LOIT homestead credit percentage is a uniform percentage calculated by the Indiana Department of Local Government Finance based on the amount of local option income tax available to fund LOIT homestead credit and the total homestead property tax liability after property tax replacement credit.

There is an additional residential property tax credit available for counties to adopt known as the local option income tax (LOIT) residential property tax replacement credit. Homestead property owners and residential rental property owners qualify for the LOIT residential property tax replacement credit. The LOIT residential property tax replacement credit is given on the residential taxes after the taxes have been reduced by the property tax replacement credit. The LOIT residential property tax replacement credit percentage is a uniform percentage calculated by county auditors and is based on the amount local option income tax available to fund the credit and the total residential property tax liability after the property tax replacement credit.

There is also a county economic development income tax (CEDIT) residential property tax replacement credit available for counties to adopt, but no county has adopted this credit.

In 2009 there are unfunded property tax credits for property tax liabilities exceeding specified percentages of property gross assessed values. The credit is known by Indiana Law as the excessive property tax credit and is commonly known as the circuit breaker credit. For homestead property the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds one and one half percent of the property gross assessed value. For non-homestead residential property, long term care property and agricultural land the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds two and one half percent of the property gross assessed value. For non-residential real property and personal property the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds three and one half percent of the property gross assessed value. Property tax levies approved by voters by referendum or public question are not included in the calculation of the circuit breaker credit. Also, in Lake and St. Joseph Counties property tax levies for debt service and lease rental obligations incurred prior to July 1, 2008 are not included in the calculation of the circuit breaker credit.

State of Indiana

Property Tax Schedules

For Year Ended December 31, 2009

Payable 2010

In the State of Indiana property taxes are levied by local units of government and overseen by the Indiana Department of Local Government Finance.

Property taxes are collected by county treasurers and distributed by county auditors. County auditors are required by Indiana Law to file, with the Auditor of State, reports of property taxes charged, collected and distributed. It is from those reports the property tax information is provided on the following pages.

In 2012 LaPorte County combined the 2009 and 2010 property tax billing. On the following schedules the 2009 and 2010 property tax charges are shown separately on the 2009 and 2010 schedules, but the combined property tax collections and distributions are shown only on the 2010 schedules. On the Property Taxes Charged 2010 by Fund and County schedule \$125,948,702 of the \$127,012,829 delinquent tax amount is 2009 current net tax of \$117,266,002 and delinquent tax for tax years prior to 2009 of \$8,682,700.

Counties can adopt a local option income tax to fund a local option income tax property tax replacement credit applicable to all property types. Not all counties have adopted this property tax replacement credit. For the counties that have adopted this credit the dollar amount of the credit is presented in the following schedules in a separate column labeled local option income tax property tax replacement credit. The property tax credit percentage is a uniform credit percentage calculated by county auditors. The uniform credit percentage is based on the local option income tax available to fund the credit and total gross property tax liability. Local option income tax property tax replacement credit dollars are paid by county auditors to county treasurers to replace the credit granted to property taxpayers. The local option income tax replacement credit dollars are distributed to taxing units as property taxes.

Homestead property owners, who qualify, receive an additional credit on their property taxes. The credit is referred to as homestead credit. Homestead property is defined as owner occupied residential property. There is a state homestead credit referred to as house enrolled act (HEA) 1001-2008 state homestead credit funded by the general revenues of the state and in some counties there is a local (COIT) homestead credit funded by a portion of the county option income tax, and/or a local (CEDIT) homestead credit funded by county economic development income tax and/or a local option income tax (LOIT) homestead credit funded by county local option income taxes. The state and local homestead credit is given on the homestead taxes after the taxes have been reduced by the property tax replacement credit. The state homestead credit dollars are paid by the state to county treasurers to replace the state homestead credits granted to homestead property taxpayers and, where applicable, the local homestead credit dollars are paid by county auditors to county treasurers to replace the local homestead credit granted to homestead property taxpayers. County auditors distribute the homestead credit dollars to taxing units as property taxes. On the following schedules the state paid homestead credits and the locally funded homestead credits are shown in separate columns.

The HEA 1001-2008 state homestead credit percentage is a uniform percentage calculated by county auditors based on the amount of HEA 1001-2008 state homestead credit dollars distributed by the state to the county and the total homestead property tax liability after property tax replacement credit. For payable 2009 property taxes a total of \$140 million was distributed to counties for HEA 1001-2008 state homestead credit. The allocation basis of the \$140 million was the payable 2008 property taxes on homestead property.

The COIT homestead credit percentage is determined by a formula established by Indiana Law and is computed by the Indiana Department of Local Government Finance. COIT homestead credit percentages vary by taxing district in a county because the COIT homestead credit percentages are based on the type of taxes levied within each taxing district.

The CEDIT homestead credit percentage is calculated by county auditors and is based on net homestead assessed values and the amount of CEDIT revenue available to fund the homestead credit. The CEDIT homestead credit percentages vary by county, because of differences in net residential assessed values and the amount of CEDIT revenue available to fund the homestead credit.

The LOIT homestead credit percentage is a uniform percentage calculated by the Indiana Department of Local Government Finance based on the amount of local option income tax available to fund LOIT homestead credit and the total homestead property tax liability after property tax replacement credit.

There is an additional residential property tax credit available for counties to adopt known as the local option income tax (LOIT) residential property tax replacement credit. Homestead property owners and residential rental property owners qualify for the LOIT residential property tax replacement credit. The LOIT residential property tax replacement credit is given on the residential taxes after the taxes have been reduced by the property tax replacement credit. The LOIT residential property tax replacement credit percentage is a uniform percentage calculated by county auditors and is based on the amount local option income tax available to fund the credit and the total residential property tax liability after the property tax replacement credit.

There is also a county economic development income tax (CEDIT) residential property tax replacement credit available for counties to adopt, but no county has adopted this credit.

In 2010 there are unfunded property tax credits for property tax liabilities exceeding specified percentages of property gross assessed values. The credit is known by Indiana Law as the excessive property tax credit and is commonly known as the circuit breaker credit. For homestead property the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds one percent of the property gross assessed value. For non-homestead residential property, long term care property and agricultural land the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds two percent of the property gross assessed value. For non-residential real property and personal property the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds three percent of the property gross assessed value. Property tax levies approved by voters by referendum or public question are not included in the calculation of the circuit breaker credit. Also, in Lake and St. Joseph Counties property tax levies for debt service and lease rental obligations incurred prior to July 1, 2008 are not included in the calculation of the circuit breaker credit.

State of Indiana

Property Tax Schedules

For Year Ended December 31, 2010

Payable 2011

In the State of Indiana property taxes are levied by local units of government and overseen by the Indiana Department of Local Government Finance.

Property taxes are collected by county treasurers and distributed by county auditors. County auditors are required by Indiana Law to file, with the Auditor of State, reports of property taxes charged, collected and distributed. It is from those reports the property tax information is provided on the following pages.

Not all counties completed 2011 property tax billings in 2011, because of a delay in indexing property values for market value changes. On the following schedules, where applicable, it has been noted that the data is not available. In the 2013 comprehensive annual report complete schedules for 2011 payable property taxes will be included.

Counties can adopt a local option income tax to fund a local option income tax property tax replacement credit applicable to all property types. Not all counties have adopted this property tax replacement credit. For the counties that have adopted this credit the dollar amount of the credit is presented in the following schedules in a separate column labeled local option income tax property tax replacement credit. The property tax credit percentage is a uniform credit percentage calculated by county auditors. The uniform credit percentage is based on the local option income tax available to fund the credit and total gross property tax liability. Local option income tax property tax replacement credit dollars are paid by county auditors to county treasurers to replace the credit granted to property taxpayers. The local option income tax replacement credit dollars are distributed to taxing units as property taxes.

Homestead property owners, who qualify, receive an additional credit on their property taxes. The credit is referred to as homestead credit. Homestead property is defined as owner occupied residential property. In some counties there is a local (COIT) homestead credit funded by a portion of the county option income tax, and/or a local (CEDIT) homestead credit funded by county economic development income tax and/or a local option income tax (LOIT) homestead credit funded by county local option income taxes. The local homestead credit is given on the homestead taxes after the taxes have been reduced by the property tax replacement credit, if applicable. The local homestead credit dollars are paid by county auditors to county treasurers to replace the local homestead credit granted to homestead property taxpayers. County auditors distribute the homestead credit dollars to taxing units as property taxes. On the following schedules the locally funded homestead credits are shown in separate columns.

The COIT homestead credit percentage is determined by a formula established by Indiana Law and computed by the Indiana Department of Local Government Finance. COIT homestead credit percentages vary by taxing district in a county because the COIT homestead credit percentages are based on the type of taxes levied within each taxing district.

The CEDIT homestead credit percentage is calculated by the county auditor and is based on net homestead assessed values and the amount of CEDIT revenue available to fund the homestead credit. The CEDIT homestead credit percentages vary by county, because of differences in net residential assessed values and the amount of CEDIT revenue available to fund the homestead credit.

The LOIT homestead credit percentage is a uniform percentage calculated by the county auditor based on the amount of local option income tax available to fund LOIT homestead credit and the total homestead property tax liability after property tax replacement credit.

There is a residential property tax credit available for counties to adopt known as the local option income tax (LOIT) residential property tax replacement credit. Homestead property owners and residential rental property owners qualify for the LOIT residential property tax replacement credit. The LOIT residential property tax replacement credit is given on the residential taxes after the taxes have been reduced by the property tax replacement credit. The LOIT residential property tax replacement credit percentage is a uniform percentage calculated by the county auditor and is based on the amount local option income tax available to fund the credit and the total residential property tax liability after the property tax replacement credit.

There is also a county economic development income tax (CEDIT) residential property tax replacement credit available for counties to adopt, but no county has adopted this credit.

In 2011 there are unfunded property tax credits for property tax liabilities exceeding specified percentages of property gross assessed values. The credit is known by Indiana Law as the excessive property tax credit and is commonly known as the circuit breaker credit. For homestead property the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds one percent of the property gross assessed value. For non-homestead residential property, long term care property and agricultural land the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds two percent of the property gross assessed value. For non-residential real property and personal property the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds three percent of the property gross assessed value. Property tax levies approved by voters by referendum or public question are not included in the calculation of the circuit breaker credit. Also, in Lake and St. Joseph Counties property tax levies for debt service and lease rental obligations incurred prior to July 1, 2008 are not included in the calculation of the circuit breaker credit.

State of Indiana

Property Tax Schedules

For Year Ended December 31, 2011

Payable 2012

In the State of Indiana property taxes are levied by local units of government and overseen by the Indiana Department of Local Government Finance.

Property taxes are collected by county treasurers and distributed by county auditors. County auditors are required by Indiana Law to file, with the Auditor of State, reports of property taxes charged, collected and distributed. It is from those reports the property tax information is provided on the following pages.

Not all counties completed 2012 property tax billings in 2012, because of a delay in indexing property values for market value changes. On the following schedules, where applicable, it has been noted that the data is not available. In the 2013 comprehensive annual report complete schedules for 2012 payable property taxes will be included.

Counties can adopt a local option income tax to fund a local option income tax property tax replacement credit applicable to all property types. Not all counties have adopted this property tax replacement credit. For the counties that have adopted this credit the dollar amount of the credit is presented in the following schedules in a separate column labeled local option income tax property tax replacement credit. The property tax credit percentage is a uniform credit percentage calculated by county auditors. The uniform credit percentage is based on the local option income tax available to fund the credit and total gross property tax liability. Local option income tax property tax replacement credit dollars are paid by county auditors to county treasurers to replace the credit granted to property taxpayers. The local option income tax replacement credit dollars are distributed to taxing units as property taxes.

Homestead property owners, who qualify, receive an additional credit on their property taxes. The credit is referred to as homestead credit. Homestead property is defined as owner occupied residential property. In some counties there is a local (COIT) homestead credit funded by a portion of the county option income tax, and/or a local (CEDIT) homestead credit funded by county economic development income tax and/or a local option income tax (LOIT) homestead credit funded by county local option income taxes. The local homestead credit is given on the homestead taxes after the taxes have been reduced by the property tax replacement credit, if applicable. The local homestead credit dollars are paid by county auditors to county treasurers to replace the local homestead credit granted to homestead property taxpayers. County auditors distribute the homestead credit dollars to taxing units as property taxes. On the following schedules the locally funded homestead credits are shown in separate columns.

The COIT homestead credit percentage is determined by a formula established by Indiana Law and computed by the Indiana Department of Local Government Finance. COIT homestead credit percentages vary by taxing district in a county because the COIT homestead credit percentages are based on the type of taxes levied within each taxing district.

The CEDIT homestead credit percentage is calculated by the county auditor and is based on net homestead assessed values and the amount of CEDIT revenue available to fund the homestead credit. The CEDIT homestead credit percentages vary by county, because of differences in net residential assessed values and the amount of CEDIT revenue available to fund the homestead credit.

The LOIT homestead credit percentage is a uniform percentage calculated by the county auditor based on the amount of local option income tax available to fund LOIT homestead credit and the total homestead property tax liability after property tax replacement credit.

There is a residential property tax credit available for counties to adopt known as the local option income tax (LOIT) residential property tax replacement credit. Homestead property owners and residential rental property owners qualify for the LOIT residential property tax replacement credit. The LOIT residential property tax replacement credit is given on the residential taxes after the taxes have been reduced by the property tax replacement credit. The LOIT residential property tax replacement credit percentage is a uniform percentage calculated by the county auditor and is based on the amount local option income tax available to fund the credit and the total residential property tax liability after the property tax replacement credit.

There is also a county economic development income tax (CEDIT) residential property tax replacement credit available for counties to adopt, but no county has adopted this credit.

In 2012 there are unfunded property tax credits for property tax liabilities exceeding specified percentages of property gross assessed values. The credit is known by Indiana Law as the excessive property tax credit and is commonly known as the circuit breaker credit. For homestead property the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds one percent of the property gross assessed value. For non-homestead residential property, long term care property and agricultural land the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds two percent of the property gross assessed value. For non-residential real property and personal property the circuit breaker credit is equal to the amount the taxpayer's net property tax liability exceeds three percent of the property gross assessed value. Property tax levies approved by voters by referendum or public question are not included in the calculation of the circuit breaker credit. Also, in Lake and St. Joseph Counties property tax levies for debt service and lease rental obligations incurred prior to July 1, 2008 are not included in the calculation of the circuit breaker credit.

Note:
(a) In 2005, Business-type activities had no Revenue bonds/notes payable because of the reclassification of some funds from blended component units to discretely presented component units. Starting in 2005, governmental activities had no revenue bonds/notes payable because of the reclassification of some funds from internal service funds to discretely presented component units.

State of Indiana

State Facts

AREA	36,291 square miles, including 253 square miles of water. Length, 275 miles; width, 144 miles. Highest altitude, 1,257 feet in Wayne County; lowest altitude, 320 feet in Posey County.
CLIMATE	Four distinct seasons. Average temperatures in July can range from 73 and 78 degrees Fahrenheit; January averages range from 35 to 36 degrees Fahrenheit. Record high: 116 degrees at Collegeville in 1936. Record low: 35 below zero at Greensburg in 1951. Average annual precipitation is 40 inches.
STATE CAPITAL	Indianapolis (combination of Indiana and Greek word "polis" meaning city -- thus, Indianapolis means "city of Indiana").
STATE MOTTO	The Crossroads of America. Adopted 1937.
STATE FLOWER	Peony. Adopted 1957.
STATE TREE	Tulip tree (yellow poplar). Adopted 1931.
STATE BIRD	Cardinal. Adopted 1933.
STATE SONG	"On the Banks of the Wabash, Far Away" by Paul Dresser. Adopted 1913.
STATE POEM	"Indiana", by Arthur Franklin Mapes, Kendallville. Adopted 1963.
STATE STONE	Limestone. Adopted 1971.
STATE SEAL	The seal depicts a pioneer scene: a woodsman felling a tree, a buffalo fleeing from the sound of the axe and the sun gleaming over a distant hill. In use since 1801, the seal was officially adopted in 1963.
STATE FLAG	The Indiana flag displays 19 gold stars surrounding a gold torch centered on a rectangular field of blue. The torch stands for liberty and enlightenment. Thirteen stars in the outer circle represent the 13 original states; the five in the inner circle represent the five states next admitted to the Union. The star above the torch stands for Indiana, the 19th state. Adopted 1917.
STATE NAME	The name Indiana means "land of the Indians." It was coined in 1800 when Congress carved the new state of Ohio from the Northwest Territory and designated the remaining vast area as the Indiana Territory. The territorial name was retained when Indiana became a state in 1816.
NICKNAME	Residents of Indiana have long been referred to as "Hoosiers," and according to the Indiana Historical Bureau, the term came into general usage in the 1830s as a result of a poem entitled "The Hoosiers Nest" by John Finley of Richmond. On January 8, 1933, John W. Davis offered "Hoosier State" as a toast at the Jackson Dinner. The origins of the actual word have been in debate for well over a century. The earliest written documentation of Hoosier was in 1827 in a diary quoted by Sandford Cox. The oral tradition goes back much earlier.
