Together We Can
OVERCOME ADDICTION

FairbanksRecovery.org | 800-225-HOPE
Indications:
ZUBSOLV® (buprenorphine and naloxone) sublingual tablet (CIII) is indicated for the treatment of opioid dependence. ZUBSOLV should be used as part of a complete treatment plan that includes counseling and psychosocial support. Treatment should be initiated under the direction of healthcare providers who meet certain qualifying requirements under the Drug Addiction Treatment Act of 2000, and who have been assigned a unique identification number ("X" number).

Important Safety Information
Contraindications
- ZUBSOLV is contraindicated in patients with a history of hypersensitivity to buprenorphine or naloxone, as serious adverse reactions, including anaphylactic shock, have been reported.

Warnings and Precautions
- Addiction, Abuse, and Misuse: Buprenorphine can be abused in a similar manner to other opioids. Monitor patients for conditions indicative of diversion or progression of opioid dependence and addiction behaviors. Multiple refills should not be prescribed early in treatment or without appropriate patient follow-up visits.

- Respiratory Depression: Life-threatening respiratory depression and death have occurred in association with buprenorphine use. Warn patients of the potential danger of self-administration or misadventure or other CNS depressants while under treatment with ZUBSOLV.

- Unintentional Pediatric Exposure: Store ZUBSOLV safely out of the sight and reach of children. Buprenorphine can cause severe, possibly fatal respiratory depressions in children.

- Neonatal Opioid Withdrawal Syndrome (NOWS): Neonatal opioid withdrawal syndrome (NOWS) is an expected and treatable outcome of prolonged use of opioids during pregnancy. This condition may occur in the neonate and may result in neonatal death.

- Adrenal Insufficiency: If diagnosed, treat with physiologic replacement of corticosteroids, and wean patients off the opioid.

- Risk of Opioid Withdrawing with Abrupt Discontinuation: If treatment is temporarily interrupted or discontinued, monitor patients for withdrawal and treat appropriately.

- Risk of Heroin Use: Heroin Events: Monitor liver function tests prior to initiation and during treatment and evaluate suspected hepatic events.

- Description of Opioid Withdrawal Signs and Symptoms: An opioid withdrawal syndrome is likely to occur with parental misuse of ZUBSOLV by individuals physically dependent on full opioid agonists or by sublingual administration before the agonist effects of other opioids have subsided.

- Risk of Overdose in Opioid-Naive Patients: ZUBSOLV is not appropriate as an analgesic. There have been reported deaths of opioid-naive individuals who received a 2-mg sublingual dose of buprenorphine.

Use in Specific Populations
- Lactation: Buprenorphine passes into mother’s milk.

- Geriatric Patients: Monitor for sedation and respiratory depression.

- Moderate and Severe Hepatic Impairment: Buprenorphine/naloxone products are not recommended in patients with severe hepatic impairment and may not be appropriate for patients with moderate hepatic impairment.

Adverse Reactions & Drug Interactions
- Adverse events commonly observed with the sublingual administration of ZUBSOLV are headache, nausea, vomiting, hyperesthesia, constipation, insomnia, pain, and peripheral edema.

- Brecciated Opiates: Use caution in prescribing ZUBSOLV for patients receiving brecciated or other CNS depressants and narcotic agonists and requires careful monitoring for potential over or under dosing.

- Antidepressants: Patients who are on chronic buprenorphine treatment should have their dose monitored if NNTs are added to their treatment regimen. Monitor patients taking buprenorphine and antipsychotic agents and without naloxone and reduce dose of buprenorphine if warranted.

- Serotonin Syndrome: Use caution in prescribing ZUBSOLV for patients receiving serotonergic or other CNS depresants and narcotic agonists and requires careful monitoring for potential over or under dosing.

This is not a complete list of potential adverse events associated with buprenorphine/naloxone sublingual tablets. Please see full Prescribing Information for a complete list.

To report an adverse event associated with taking ZUBSOLV sublingual tablet, please call 1-888-ZUBSOLV (1-888-982-7688). You are encouraged to report adverse events of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.

Please visit zubsolv.com or the Orexo booth to see the full Prescribing Information.
Dear Special Guests:

Welcome to Indianapolis and the 9th Annual Attorney General’s Drug Abuse Symposium.

All of us gathered at this event likely share a commitment to doing everything within our power to mitigate the drug abuse crisis engulfing our state. In tackling this daunting challenge, we recognize the immense difficulty of breaking cycles of addiction that torment so many of our friends, neighbors and loved ones. Some of you at this symposium know firsthand the power of addiction from your own ongoing struggles to stay clean and sober. The rest of us applaud your courage and appreciate your insights.

Even as we realistically anticipate substance abuse getting worse in Indiana before it gets better, we also take heart in knowing we have the ability and the tools needed to reverse discouraging trends and put our state on a positive path to a brighter future. As policymakers and professionals, we must strike the right balance among the three strategies of prevention, treatment and enforcement.

We must temper our idealism with realism; our compassion with tough love; and our belief in second chances with a clear-eyed recognition of the dangers of eroding personal accountability. We must think twice before reducing penalties for breaking the law or removing consequences associated with destructive behavior.

Further, we must recognize the sad reality that increasing numbers of addicts get started down the road of substance abuse at very young ages. In tailoring programs promoting awareness and education, we must find ways to effectively reach children and adolescents with messages that could prove life-saving.

I am deeply grateful to the Indiana Attorney General’s Drug Abuse Task Force and all stakeholders for their continued diligent work on these deeply important issues. Solutions to Indiana’s drug problems will arise from the efforts of all Hoosiers working together toward a comprehensive approach.

Very truly yours,

Curtis T. Hill Jr.
Attorney General

Continuing Education Units

CLE ACCREDITATION - Pending

The Indiana CLE Commission is pending approval on specific sessions for CLE accreditation. You may receive up to 11 credit hours for the full program by attending the approved sessions. Please note the maximum Non-Legal Subject (NLS) credits per three-year education period that can be claimed by the corresponding category of individuals is: Attorney - 12; State Level Judicial Officer - 18.

ACPE PHARMACIST ACCREDITATION - Pending

Purdue University College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. This is a knowledge based, continuing education activity of Purdue University, an equal access/equal opportunity institution. Universal Activity Number (0018-9999-18-115-L04-P): Day 1 (10/29/2018): 6.0 contact hours - Day 2 (10/30/2018): (0018-9999-18-116-L04-P), 5.0 contact hours. Each date must be attended and verified to receive credit which will be uploaded to CPE Monitor within 60 days of the event.

CME ACCREDITATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the ISMA and the Office of the Indiana Attorney General. The ISMA is accredited by the ACCME to provide continuing medical education for physicians. The Indiana State Medical Association (ISMA) designates this live activity for a maximum of 12 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

CEU ACCREDITATION - Pending

The Indiana Family Social Services Administration has approved this program for 11 credit hours for Social Workers, Addiction Counselors, Marriage & Family Therapists & Mental Health Counselors.

LETB ACCREDITATION

Law Enforcement Training Board (LETB) Credit - Participation in this program may partially satisfy law enforcement in-service training requirements per the Indiana Law Enforcement Training Academy.

Special Thank You To

Day One: October 29th, 2018 - Agenda

Agenda

7:30 a.m. - 8:30 a.m.  Registration and Exhibits

8:30 a.m. - 8:45 a.m.  Announcements and Housekeeping

Waters A-C

8:45 a.m. - 9:00 a.m.  Opening Remarks - Indiana Attorney General Curtis Hill

Waters A-C

9:00 a.m. - 10:00 a.m.  Keynote Address: Addiction Medicine: The Good, The Bad and The Ugly

Speaker: Darrin Mangiacarne - Fairbanks

Waters A-C

10:00 a.m - 10:15 a.m.  Break

10:15 a.m - 11:15 a.m.  Breakout Sessions

Clinical Track 1. Drug Testing in Clinical Practice (Urine/Blood/Saliva/Hair)

Waters A

Speaker: Dmitry Arbuck - Indiana Polyclinic

Enforcement Track 2. A New Approach to Serving Justice-Involved Substance Abusers and Addicted in Allen County

Creekside Ballroom

Speakers: Wendy Davis - Allen County Superior Court, Marcia Haaff - Lutheran Foundation, Beth Lock - Allen County

Waters A-C

C. Paul Wilson - Park Center

Prevention / Education Track 3. Addressing the Opioid Public Health Crisis - Effective Resources for Communities

Waters D-E

Speakers: Justin Phillips - Overdose Lifeline Inc., Kourtnaye Sturgeon - Overdose Lifeline Inc.

Treatment Track 4. Recovery is Possible

Waters B

Speaker: Kelsey Bovard - Switzerland County Nurse Managed Clinic

Treatment Track 5. You Knew This When You Hired Me: Cultivating a Recovery Positive Work Environment

Waters C

Speaker: Natasha Cheatham - Drug Free Marion County

11:15 a.m. - 11:30 a.m.  Break

11:30 a.m. - 12:30 p.m.  Breakout Sessions

Clinical Track 1. Clinical Benefits and Controversies with Medication-Assisted-Treatment

Waters A

Speaker: Jake Nichols - Strategic Recovery Resources

Enforcement Track 2. Criminal Interdiction

Waters B

Speaker: Jason Carmin - Indiana State Police

Prevention / Education Track 3. Show Me Yours, I’ll Show You Mine: Opioid Task Force Promoting Transparency and Data Sharing

Creekside Ballroom

Speakers: Ann Vermilion - Marion General Hospital, Josh Ziglar - Marion Police Department

Waters D-E

Speakers: Connie Kerrigan - Parkview Behavioral Health, Elisabeth Andrews-Murray - Parkview Behavioral Health

Children and Prevention 5. Youth Awareness and Education - A Digital Approach to Prescription Drug Abuse Prevention

Waters C

Speakers: Maddy Murphy - EVERFI, Kevin Thompson - Walmart, Stephanie Long - North Central Health Services, Mary Beth Bonaventura - Attorney General's Office, Kaley Esselborn - EVERFI

12:30 p.m. - 1:30 p.m.  Break / Lunch Service

Keynote Address: Federal Law Enforcement’s Response to Opioids

Speakers: Josh Minkler- US District Attorney, Greg Westfall - DEA Indianapolis

Break
2:45 p.m.- 3:45 p.m.** Breakout Sessions**

1. **Finding Ikigai: Integrative Approach to the Person in Pain**  
   **Speaker:** Palmer MacKie - *IU School of Medicine & Eskenazi Health*

2. **From the Cartel to a First-time User: Challenges of Drug Prosecution in an Opioid Epidemic**  
   **Speakers:** Rick Frank - *Marion County Prosecutor’s Office*, Rob Beatson - *Marion County Prosecutor’s Office*

3. **Community Collaboration - Helping to Decrease the Drug Crisis**  
   **Speakers:** Ron Stevens - *Wayne County Coroner*, Stacey Steele - *Drug Free Wayne County Partnership*

4. **Project ECHO: Tele-mentoring Program for the Treatment of Opioid Use Disorder**  
   **Speakers:** Kristen Kelley - *IU School of Medicine*, Kaitlyn Reho - *Indiana Prevention Resource Center*

Day Two: October 30th, 2018 - Agenda

Agenda

7:30 a.m. - 8:30 a.m.  
Breakfast and Exhibits

Opening Remarks - Indiana Attorney General Curtis Hill

Keynote Address: Failure Is Not an Option - Collaboration Matters  
Speaker: Justice Steven David - Indiana Supreme Court

Break

Breakout Sessions

1. Rural Innovations in Addictions Care  
Speaker: Katrina Norris - Fayette Regional Health System

2. Indiana HIDTA's Heroin Response Strategy: Investing in Partnerships to Build Safe & Healthy Communities  
Speakers: Chuck Porucznik - Indiana State Police, Meredith Canada - Social Worker Therapist, Bob Glynn - Former DEA

3. Transforming Policies and Partnerships Between Schools, Public Safety, Treatment Providers and Community Leaders  
Speakers: Mayor Scott Fadness - City of Fishers, Indiana, Suzanne Clifford, Inspiring Transformations LLC, Steve Orusa - Fishers FD, Brooke Lawson - Hamilton Southeastern Schools, Ashley Elrod - City of Fishers

4. The Peer Led Recovery Movement in Indiana  
Speakers: Amy Brinkley - FSSA, Brandon George - Indiana Addiction Issues Coalition

5. What is Happening in the Adolescent Brain During Risk Taking?  
Speaker: Leslie Hulvershorn - Indiana School of Health

Break

Breakout Sessions

1. The Intersection of Trauma and Substance Use Disorders  
Speaker: Maria P. Hanzlik - Maria P. Hanzlik LLC

2. Jail Chemical Addiction Program (JCAP) Presentation  
Speakers: Aaron Negangard - Indiana Attorney General's Office, Representatives of Dearborn County Courts

3. Preventing Substance Use in Youth by Strengthening Families  
Speakers: Barbara Beauleieu - Purdue University, Amanda Galloway - Purdue University

4. The Overlooked Risks of Benzodiazepine Use  
Speaker: Catherine Pittman - Saint Mary's College

5. Neonatal Abstinence Syndrome: The Opioid Epidemic Explained and Treated Through Attachment  
Speaker: Joanna Chambers - Indiana University School of Medicine

Break / Lunch Service

Keynote Address: Opioid Use, Trafficking and Abuse in Mexico: The Importance of Binational Collaboration  
Speaker: Oscar Santiago Quintos, Federal Attorney General's Office of Mexico

Break

Large Bonus Educational Breakout Sessions

Safe Drug Handling Class for Law Enforcement  
Speakers: Brock Hensley - Evansville Vanderburgh Joint Drug Task Force, Aaron Negangard - Indiana Attorney General's Office

Safe Opioid Prescribing in the Midst of an Epidemic - satisfies the new Indiana 2h Opioid CME requirement  
Speakers: Amy LaHood - St. Vincent Medical Group, Palmer MacKe - Eskenazi Health

Program Concludes
Keynote Address 9:00 a.m. – 10:00 a.m.

Addiction Medicine: The Good, The Bad, and The Ugly
Speaker: Darrin Mangiacarne

In this session, you will learn how the overprescribing of opioids for chronic pain set the stage for the current opioid epidemic. We will go over the different types of pain and how to treat them without narcotics. We will discuss how the emerging field of addiction medicine is helping to alleviate the suffering from this illness.

Learning Objectives:

- Relieve you of the misconception that opioids are necessary for chronic pain management.
- Understand the backdrop to the opioid epidemic and how we can get out of it.
- Introduce the emerging field of addiction medicine.

Breakout Sessions 10:15 a.m. - 11:15 a.m.

Clinical

1. Drug Testing in Clinical Practice (Urine/Blood/Saliva/Hair)
Speaker: Dmitry Arbuck

Drug Screening is instrumental in clinical practice of multiple medical specialties and especially in Addictions and Pain Management. This in depth presentation covers all relevant aspects of drug screening and confirmation, reflects on appropriate reading of the tests and on deceptions used to alter the test results.

Learning Objectives:

- Learn the principles of urinary, blood, saliva and hair drug testing.
- Understand clinical interpretation of the tests.
- Build awareness of samples alteration to combat deception.
2. A New Approach to Serving Justice-Involved Substance Abusers and Addicted in Allen County
Speakers: Wendy W. Davis, Marcia Haaff, Beth Lock and Paul Wilson

An unprecedented collaboration to combat drug abuse prevalent in the justice-involved population has been orchestrated in Allen County, Indiana. The advocacy and leadership of multiple stakeholders, along with the strong support of others within the State, resulted in the passage of Senate Enrolled Act 510-2017 and the development of an innovative pilot program to enhance the treatment and support of substance abusing individuals who are court ordered to supervision in the community. Panelists who were hands-on in the development of this pilot program will openly discuss how to best access your community’s need(s), the initiation and continuation of a true and healthy collaboration, navigation of the legislative process, as well as sharing their own hard lessons learned to date.

Learning Objectives:
- Examine your local treatment and community-based supervision needs and formulate possibilities for your own community for justice-involved offenders. Utilize best practices in program development of initial brainstorming, building community partnerships, overcoming funding challenges, and program implementation.
- Discuss the development of Senate Enrolled Act 510 in Allen County and identify local lessons learned in the process while navigating more efficiently and effectively the state legislative process in order to make the proposed policy from their community a legislative reality.
- Assemble the players needed to recreate SEA 510 in your own community stemming from arrests and criminal justice-involved individuals struggling with addiction and examine whether something like this is needed in your local community.

3. Addressing the Opioid Public Health Crisis- Effective Resources for Communities
Speakers: Justin Phillips and Kourtnaye Sturgeon

Overdose Lifeline has been addressing the opioid public health crisis on a state and national level since 2014. Addiction / Substance use disorders (SUDs) are a major public health concern in the United States. Nearly 22 million Americans 12 years of age or older had an SUD. More than 10 million Americans reported non-medical use of prescription opioids. This opioid public health crisis is affecting every county, every state, straining workforce readiness and impacting economic factors, families, communities and health and wellness. While the health crisis may seem insurmountable, there is hope. Communities across the country are organizing, activating, and working together - applying a number of best practices and solutions. We know that these strategies work. They work when community members in the public, private, federal, health care and law enforcement all work together. This workshop will provide knowledge and toolsets that can be applied.

Learning Objectives:
- Understand the opioid public health crisis: what is occurring, how we arrived here, the contributors and risk factors.
- Identify steps to educate students, parents and community members and reduce the effects of the health crisis.
- Learn how to increase communication & training for managers/employees to raise awareness of the health crisis.
Treatment

4. Recovery is Possible
Speaker: Kelsey Bovard

This session will offer education and information on the organization Narcotics Anonymous and discuss how it saves people from addiction. The presentation will include insight into what it is like to be a recovering addict and the stigma it can cause. Current options and treatments available, as well as how to guide addicts in a direction of recovery, will be covered.

Learning Objectives:
- Educate about addiction.
- Learn how any family/friend/loved one can become an addict.
- Explain how to overcome addiction and live a normal life.

Treatment

5. You Knew This When You Hired Me: Cultivating a Recovery Positive Work Environment
Speaker: Natasha Cheatham

The presentation will identify some of the challenges encountered when employing an individual in recovery and being employed while in recovery. Practical methods and examples for addressing these barriers will be offered. Additionally, methods for articulating the mutual benefits of cultivating a recovery-positive work environment will be identified and discussed. The benefits of improving the work environment will be explored. Issues such as the possibility of relapse and the shortage of employers offering mental health days will be discussed.

Learning Objectives:
- Understand the spectrum of recovery.
- Cultivate healthier and recovery-positive work environments.
- Understand the importance of cultural competence for a healthy work environment and successful recovery.
**Clinical**

1. **Clinical Benefits & Controversies with Medication-Assisted Treatment**
   Speaker: Jake Nichols

   There is still a great deal of controversy relating to the use of medications to treat opioid use disorder. Although medication-assisted treatment (MAT) has demonstrated overwhelming efficacy in this population, it is estimated that less than 20% of patients with OUD receive treatment. This session will review the clinical benefits of medication-assisted treatment (MAT) with methadone, buprenorphine, and naltrexone. In addition, areas of controversy such as duration of treatment, dose, and medication diversion will also be discussed.

   **Learning Objectives:**
   - Compare and contrast the pharmacology, safety, and efficacy of methadone, buprenorphine and naltrexone.
   - Summarize the clinical benefits of the use of pharmacotherapy in patients with opioid use disorder.
   - Review current controversies related to medication-assisted treatment including duration of treatment, selection of medication, dose, and drug diversion.

---

**Enforcement**

2. **Criminal Interdiction (Indiana State Police)**
   Speaker: Jason Carmin

   An overview of what criminal interdiction is. Explanation of how through training and experience, officers are able to differentiate between the normal traveling public and the traveling criminal. Overview of Indiana's criminal interdiction efforts. Dispel common misconceptions involving criminal interdiction.

   **Learning Objectives:**
   - At the completion of this presentation, the participant will understand what criminal interdiction consists of.
   - At the completion of the presentation, the participant will be able to understand the need for criminal interdiction.
   - At the completion of the presentation, the participant will be able to understand the flow of illegal drugs and currency throughout Indiana and the United States.
3. Show Me Yours, I’ll Show You Mine: Opioid Task Force Promoting Transparency and Data Sharing
Speakers: Ann Vermilion, Mark Spitzer and Josh Ziglar

Representatives from the Grant County Opioid and Heroin Task Force will be highlighting their four-year journey in forming a successful coalition of over 125 members from 30 agencies. They will discuss sharing data such as hospital prescribing data trends, coroner’s data, undercover narcotic law enforcement case data, drug court data, health department data, etc., to ensure every member of the community is well-informed and understands the current opioid, heroin and now meth trends in our community. Learn the benefits from sharing information that in the past was deemed proprietary and/or sensitive data and making it public. Hear from a roundtable of panelists from the hospital, drug court judge and law enforcement on what is working well within this collaborative atmosphere and willingness to be transparent in the fight again opioid, heroin and substance abuse within an Indiana county.

Learning Objectives:

- Review a model of community collaboration and data sharing regarding opioid use, heroin and substance abuse.
- Identify data that can be collected among numerous county organizations that help paint a picture of the opioid, heroin and substance abuse trends in your county.

Speakers: Connie Kerrigan and Elisabeth Andrews-Murray

Parkview Health, a large not-for-profit medical/surgical hospital in northeast Indiana, treated over 1,000 non-fatal overdose patients in emergency departments in 2016 and the problem is only growing. This project highlights the successes and challenges of implementing Peer Recovery Coaches into emergency departments (EDs) as a first line of treatment for those with a substance use disorder (SUD). Peer Recovery Coaches serve to share their personal story of strength and recovery as well as link people to treatment resources in our community. They follow people from the ED to their first treatment appointment, help people become insured, and offer friendship and mentorship, just to name a few services provided. We saw staff within our EDs become more compassionate with patients struggling with a SUD and staff noted that clinical treatment options alone may not be able to bring about change in someone's life but the role-modeling of Peer Recovery Specialists combined with clinical treatment might. We faced structural challenges, including creating new positions and job descriptions of what a Peer Recovery Coach is and does within our hospital system, scheduling 24-hour coverage, and creating new billing codes in order to bill Medicaid for peer services, which became available in July of 2018. We also had many successes including linking people to treatment and helped save many lives. We are slowly creating a cultural shift in our hospitals to include peer support as a key in our treatment of SUDs.

Learning Objectives:

- Define what Peer Recovery Support Coaches are and what they do in a large not-for-profit hospital.
- Understand the challenges and successes of incorporating peer support into a large not-for-profit hospital.
- Evaluate the effectiveness of peer support in a large not-for-profit medical/surgical hospital.
Children and Prevention

5. Youth Awareness and Education - A Digital Approach to Prescription Drug Abuse Prevention
Speakers: Maddy Murphy, Kevin Thompson, Stephanie Long, Kaley Esselborn and Mary Beth Bonaventura

The Prescription Drug Safety Network launched in October of 2017 to bring together a diverse group of leaders committed to being a part of the solution in addressing the opioid crisis. The flagship initiative of the Network is a digital course that empowers teens with the skills and knowledge to make safe and healthy decisions when it comes to prescription drugs. Members of the Network fund the implementation of the course so it is free to schools. During the Network’s inaugural academic year, over 100,000 students were impacted with these critical skills. Data shows students achieved a 49% increase on assessment scores and higher reported confidence on skills such as being an informed consumer of prescription drugs, refusal skills, bystander intervention strategies, and recognizing signs of misuse and abuse. Hear from creators of the digital course (EVER-Fi) and from Network members including Walmart, North Central Health Services, and the Office of the Indiana Attorney General about strategies for supporting a scalable and meaningful prevention program in schools.

Learning Objectives:

- Learn why it is crucial to target teens in the fight against opioids.
- Learn about an innovative digital solution to prescription drug abuse prevention and about additional resources being made available through funding partners.
- Learn how you can help bring this program to schools across Indiana.

Lunch Keynote Address 1:30 p.m. – 2:30 p.m.

Federal Law Enforcement and the Opioid Epidemic
Speakers: US District Attorney Josh Minkler and Assistant Agent in Charge DEA Indianapolis Greg Westfall

How opioids are illegally brought into the country and their distribution points. Federal law enforcement’s efforts regarding doctors who over prescribe pain medication. New trends in street drugs and how mixing certain drugs can cause different reactions.

Learning Objectives:

- How opioids are illegally brought into the country and their distribution points.
- Federal law enforcement’s efforts involving doctors who over-prescribe pain medication.
- New trends in street drugs and how mixing certain drugs can cause different reactions.
Day One: October 29th, 2018 - Session Descriptions

Session Descriptions

Breakout Sessions 2:45 p.m. - 3:45 p.m.

Clinical

1. Finding Ikigai: Integrative Approach to the Person in Pain
Speaker: Palmer Mackie

This presentation will briefly highlight the disappointing results caused by a reliance on opioids in chronic pain. Participants will learn data demonstrating cost and efficacy benefit to a more integrated or comprehensive care model. A number of modalities will be presented as well as an overarching approach to the person in chronic pain.

Learning Objectives:

- Recognize current trends in the narcotics trade and the strategy/prosecution of drug offenses.
- Understand the myriad public health and public safety challenges presented by the spread of dangerous drugs.
- Appreciate the multifaceted approach to enforcement taken by police and prosecutors.

Enforcement

2. From the Cartel to a First-time User: Challenges of Drug Prosecution in an Opioid Epidemic
Speakers: Rick Frank and Rob Beatson

In 2017, the Marion County Prosecutor’s Office filed 877 cases against drug dealers trafficking in cocaine, methamphetamine, and narcotic drugs, in addition to 2,826 drug possession cases and 1,393 syringe possession cases. This session will focus on the strategies employed by police and prosecutors to target dangerous drug dealers for aggressive enforcement while simultaneously working to achieve fair outcomes for users and addicts.

Learning Objectives:

- Recognize current trends in the narcotics trade and the strategy/prosecution of drug offenses.
- Understand the myriad public health and public safety challenges presented by the spread of dangerous drugs.
- Appreciate the multifaceted approach to enforcement taken by police and prosecutors.
Session Descriptions

Prevention/Education

3. Community Collaboration – Helping to Decrease the Drug Crisis
Speakers: Lisa Suttle, Stacey Steele and Ron Stevens

Information will be provided by representatives from the Drug-Free Wayne County Partnership and the Wayne County Coroner. During the presentation, each presenter will describe their involvement in fighting the drug emergency in Wayne County. This will include everything from open forum meetings, strategic initiatives, harm reduction interventions, SEP (Syringe Exchange Program), MAT (Medication Assisted Treatment), mental health services, NAS (Neonatal Abstinence Syndrome), law enforcement and judicial partnerships, prescribing interventions, genetic testing, and prevention in schools. The presenters will indicate how the Strategic Prevention Framework has aided in structuring the development of processes to reduce substance use within the community.

Learning Objectives:
- Identify ways to increase community collaboration with multi-disciplinary agencies/services that provide treatment, prevention and other services for those who suffer with the addiction to drugs and related mental health concerns.
- Share information within agencies/communities regarding strategies to decrease the use and dangers associated with substance abuse.
- Gain knowledge about the statistics and real life situations related to the overdose problem within Wayne County, Indiana.

Treatment

4. Project ECHO: Tele-mentoring Program for the Treatment of Opioid Use Disorder
Speakers: Kristen Kelley and Kaitlyn Reho

This session will highlight how healthcare providers and community health workers/peer recovery coaches can get involved in the Opioid Use Disorder TeleECHO clinics. Providers will be able to gain a better understanding of the best practices associated with OUD treatment, including the use of Medicated Assisted Treatment. Each session will contain a didactic on a specific topic but the majority of the clinic will be learning through case presentations by the participants. Through Project ECHO, providers will acquire new skills and competencies. They become part of a community of practice and learning, increasing their professional satisfaction while the feelings of professional isolation decrease.

Learning Objectives:
- To explain how Project ECHO can help participants identify evidence-based treatments for opioid use disorders.
- To explain how Project ECHO can help describe models of treating opioid use disorder and the underlying mental health issues.
- To explain how Project ECHO can help identify resources for treating OUD and integrating patients into a community care model.
Session Descriptions

Breakout Sessions 4:00 p.m. – 5:00 p.m.

Clinical

1. Opioid Substance Use Disorder: A Patient Safety Approach
Speakers: Jim Fuller and Marty Cangany

In 2016, the Indianapolis Coalition for Patient Safety, Inc., formed a multidisciplinary workgroup specific to identification and treatment of Substance Use Disorder with the focus on opioids. This workgroup has developed strategies for local health-systems to implement to identify and treat patients with substance use disorder—framing this as a chronic medical condition that requires long term care, monitoring, management strategies and follow up as part of routine medical care across the patient’s lifespan. The workgroup’s efforts include recommendations related to: staff education (with a special emphasis on anti-stigma education), regular screening of all patients and brief interventions (SBIRT), reversal agents (naloxone), Medication Assisted Treatments (MAT), use of INSPECT reports, use of Treatment Resource Guides, and appropriate medication disposal.

Learning Objectives:

- Describe how a community-wide patient safety coalition can accelerate the rate of change by using team-based and interprofessional approaches to quality improvement and patient safety.
- Identify the seven key strategies/objectives that will be focused on, from a healthcare perspective, to assist in combating the opioid crisis.
- Verbalize future initiatives to assist organizations in developing opportunities to build processes around substance use disorder.

Enforcement & Prevention/Education

2. Counterfeit Medicine in America 2018
Speakers: Shabbir Safdar and Sven Bergmann

Americans are largely unaware of the threat of counterfeit drugs. Partnership for Safe Medicines Executive Director Shabbir Safdar will raise awareness by sharing comprehensive reporting on counterfeit incidents online, explaining the risks of counterfeit drug, and telling the stories of people who have been hurt by fake medicine.

Learning Objectives:

- Identify sources of counterfeit medications that infiltrate the U.S.
- Outline the risks of counterfeits to patients from taking medications that are not FDA approved and not from licensed U.S. pharmacies.
- Differentiate safe sources of medication from unsafe sources.
**Treatment**

3. Turning Point Recovery Center- A Successful Alternative to Incarceration  
Speakers: Rachel Halleck and Allison Pugh

Turning Point Recovery Center provides individualized treatment services to clients supervised through a criminal justice entity who are in need of clinically based residential treatment services that address the barriers and nature of addiction while treating co-occurring disorders as well. Turning Point operates in a trauma-informed and responsive manner, using a holistic and strengths-based approach while combining methodology from the Matrix and Sanctuary model. Turning Point Recovery Center serves as an alternative to incarceration for individuals on parole and probation. Recidivism will decrease for graduates of Turning Point Recovery Center as clients will abstain from the use of illegal drugs and substances while showing improvement in symptoms connected to mental health and addiction issues. Turning Point Recovery Center serves as a successful alternative to incarceration for individuals on parole and probation.

**Learning Objectives:**

- Comprehend the effective impact residential addictions treatment services have in lowering recidivism rates, costs and effects.
- Identify that a history of trauma plays an integral piece in the use of substances and criminogenic thinking and behavioral patterns.
- Recognize the barriers this population faces in accessing resources that promote family re-unification, steady employment, stable housing and long-term sobriety.

**Children & Prevention**

4. Stay Sharp, Think About It – Drug and Alcohol Prevention Program for Teens  
Speakers: Missy Bowman, Andrew Bowman and Students

In this session a panel of Teen Challenge students in recovery will talk about the facts, lies and costs of addiction. For years in America we have cycled through drug education programs - most with the use of scare tactics to prevent students from drinking or using substances. This has in turn unfortunately led to many of these types of programs failing or becoming increasingly unrelated to the youth of today. The Teen Challenge students will talk about new innovative ways to prevent the disease of addiction rather than responding to it. With this session there will be a facilitated conversation that is open and honest about the harmful effects of drug and alcohol abuse. This session will also focus on the importance of supportive environments in the community that engage peers, young people, adults, students and administrators. There is a fear among the young people of today about discussing the use of drugs or alcohol. With this session we will discuss how to inspire the young people to become transparent and start to discuss their struggles with substance abuse and to know that recovery is possible.

**Learning Objectives:**

- Learn about an innovative and unique prevention program that specifically addresses the facts, lies, and costs of addiction.
- Understand ways to advance and address substance abuse education among adolescents.
- Recognize the present needs of communities in addressing substance abuse with a strong focus on prevention among adolescents.
Session Descriptions

Keynote Address 8:45 a.m. - 9:45 a.m.

Failure Is Not An Option: Collaboration Matters
Speaker: Justice Steven David

Focus will be on sharing insight regarding effective collaboration and why it’s so important for conference attendees to leave this Symposium with a renewed sense of passion, energy and collaboration.

Learning Objectives:
• Educate about the importance of collaboration.
• Gain a greater appreciation that the difference of one can move many.
• Discuss ideas for enhanced collaboration.

Breakout Sessions 10:00 a.m. - 11:00 a.m.

Clinical

1. Rural Innovations in Addictions Care
Speaker: Katrina Norris

Rural healthcare presents unique challenges and barriers for patients and families. Fayette Regional Health System received 9.4 million dollars from the Ryan White Foundation and the State Department of Health to build a withdrawal management (detox) program that could meet the needs of those with infectious disease along with other co-morbidities. This incredible opportunity did not come without challenges though, but from those challenges came opportunity. We will share our barriers, processes, and outcomes of this journey. North Star Recovery Center is built on a foundation of empowerment and restoration, to offer compassion as other chronic conditions in a beautiful, calming environment. Along with Opioid use disorder being so prevalent today, our opportunity was to help those around us understand innovations including a psychiatrist on site for patients, treatment of expectant mothers, intensive discharge planning, and medical management for patients with disease processes that require on going managment. For those who are lost, there is the North Star. We strive by the guiding light to assure that our partners in wellness may be guided on the path toward long term recovery.

Learning Objectives:
• Identify the challenges and barriers of program development in rural settings.
• Apply evidence based treatment modalities in an inpatient setting.
• Replicate program design in other rural settings.
2. Indiana HIDTA’s Heroin Response Strategy: Investing in Partnerships to Build Safe & Healthy Communities

Speakers: Chuck Porucznik, Meredith Canada and Bob Glynn

During this session, we will provide a brief overview of the Indiana High Intensity Trafficking Area (HIDTA) and its new Heroin Response Strategy. The Indiana HIDTA seeks to reduce drug availability and usage by creating intelligence-driven drug task force initiatives aimed at eliminating or reducing domestic drug trafficking and its harmful effects through the enhancement and coordination of drug trafficking enforcement efforts among federal, state and local law enforcement agencies. In the fall of 2017, Indiana HIDTA became the 22nd state to establish partnerships and projects at local, state, and federal levels, the HIDTA’s HRS is working to reduce fatal and non-fatal overdoses among Hoosiers.

Learning Objectives:

- Identify the purpose of the Indiana HIDTA among local, state, and federal law enforcement agencies.
- Discern the need for public health-public safety partnerships to decrease opioid overdoses among Hoosiers.
- Understand how the Indiana HIDTA’s Heroin Response Strategy can collaborate with public safety agencies to support their responses to drug use and overdoses.

3. Transforming Policies and Partnerships Among Schools, Public Safety, Treatment Providers and Community Leaders

Speakers: Scott Fadness, Suzanne Clifford, Steve Orusa, Ashley Elrod and Brooke Lawson

This interactive session will share real world examples about how participants can mobilize a coalition of community leaders, public safety, schools, families and treatment providers to break the cycle of substance use disorder and mental illness. 11% of adolescents below 18 years of age have a substance abuse disorder. 90% of individuals with a substance use disorder were younger than 18 years old when they started drinking, smoking or using other drugs. We cannot address the current crisis without intervening earlier, addressing the root cause, expanding school-based mental health and substance treatment and improving coordination between treatment providers, public safety, schools and families. The panel will also discuss common barriers as well as policies and action plans that can address these barriers.

Learning Objectives:

- Describe three strategies to mobilize a coalition of families, community leaders, public safety, schools and treatment providers.
- List improvements that communities, schools, public safety and treatment providers can make to improve outcomes for people with substance use disorder and the overall community.
- Articulate common barriers and policies and action plans that can address these barriers.
Treatment

4. The Peer Led Recovery Movement in Indiana
Speakers: Amy Brinkley and Brandon George

Maintaining peer supports within the continuum of care is a current hot topic across the United States and here within Indiana. Recent state and federal dollars now fund important components of this approach. More than 60 peers are now being placed within emergency rooms. A new forensic peer pilot program places peers within problem-solving courts. Mobile crisis addiction teams are being deployed. Other positive developments are the upcoming Medicaid reimbursement for Recovery Coaches in the state of Indiana and Recovery Works’ inclusion of peer-based services being covered for the criminal-justice population. In the face of this opioid epidemic as well as the ongoing Substance Use Disorder problems plaguing Indiana, many people are seeking to identify a solution. To top it off we have a healthcare workforce shortage. This workshop will delve into the history of mutual aid societies, current peer support initiatives, service interventions being offered and upcoming innovative peer support options being implemented within the state of Indiana. It will also look into why the peer voice and peer-led activities are effective. We will talk about solutions to the opioid epidemic, healthcare workforce shortage, and how crucial it is to have people with lived experience at the table through all of these discussions taking place locally, statewide and nationally.

Learning Objectives:
- Identify the role and importance of Peer Support in current recovery, intervention, and treatment models offered.
- Break stigma, bias, and shame around addiction treatment.
- Define Certified Recovery Specialists and Recovery Coaches in Indiana.

Children & Clinical

5. What is Happening in the Adolescent Brain During Risk Taking? Implications for Substance Use Disorder Development
Speaker: Leslie Hulvershorn

This session will cover our line of research that has focused on the drug naïve, pre-adolescent brain. Youth at low, medium and high risk for the development of substance use disorders have been enrolled in brain imaging studies that disentangle brain activation during risky decision making. This work has led to an improved understanding of why it is so hard for some youth to make consistently safe choices. These findings will inform the development of novel interventions for high risk youth.

Learning Objectives:
- Learn about research on substance use disorder risk in children and adolescents.
- Understand brain mechanisms that have been uncovered during risky decision making.
- Appreciate the importance of these neurobiological findings in development and treatment of adolescent substance use disorders.
Breakout Sessions 11:15 a.m. - 12:15 p.m.

Clinical

1. The Intersection of Trauma and Substance Use Disorders
   Speaker: Maria P. Hanzlik

Research has consistently shown the comorbidity between psychological trauma and substance use disorders. This session will examine recent research related to the prevalence rates of trauma-related conditions, substance use disorders, and the occurrence of post-traumatic stress disorder (PTSD) and substance use disorders. In addition, this session will also examine an evidence-based therapy to treat both co-occurring conditions from a psychological perspective.

Learning Objectives:
   • Understand prevalence rates of psychological trauma and substance use disorders.
   • Name 3 factors that increase the likelihood that a survivor of trauma may present with a substance use disorder.
   • Name the components of an evidence-based treatment for co-occurring PTSD and substance use disorders.

Enforcement

2. Jail Chemical Addiction Program (JCAP) Presentation
   Speakers: Aaron Negangard and Representatives of Dearborn County's JCAP program

Local Jail Chemical Addiction Programs that are evidence-based and utilize a “therapeutic community” in a jail setting are one of several innovative approaches Indiana has seen. Part of the session will include a presentation of the Dearborn County Jail Chemical Addiction Program (JCAP), which was initiated without using county tax dollars; has a male and female pod at the Dearborn County Law Enforcement Center; and through an Indiana University initiative was found to be an effective evidence-based program reducing recidivism. The program is supported by judges, prosecutors, defense attorneys, community leaders and law enforcement.

Learning Objectives:
   • Learn how a Jail Chemical Addiction Program in your county jail can be part of the solution to the revolving door of substance abuse and promote community safety.
   • Learn how courts, law enforcement, probation, prosecutors, treatment providers, attorneys, community leaders, and concerned citizens are all important to the success of a program.
Day Two: October 30th, 2018 - Session Descriptions

**Prevention/Education**

3. Preventing Substance Use in Youth by Strengthening Families  
Speakers: Barbara Beaulieu and Amanda Galloway

The World Health Organization named “Strengthening Families Program: For Parents and Youth aged 10-14” the number one prevention program out of 6,000 programs analyzed for long-term effects on substance use and misuse in youth. This program, offered by Purdue Extension is an evidence-based parent, youth and family skills-building curriculum that: Prevents teen substance abuse and other behavior problems, strengthens parent/youth communications skills, increases academic success in youth, and prevents violence and aggressive behavior at home and at school. The program not only builds stronger families but also impacts communities by giving a return of $9.60 for every dollar invested in the program in benefits of less jail time, less time off work and less time in treatment.

**Learning Objectives:**

- Learn how the program can prevent teen substance abuse and violence/aggressive behavior at home and in school.
- Strengthen parent/youth communications.
- Show how the program can be implemented in our county.

**Treatment**

4. The Overlooked Risks of Benzodiazepine Use  
Speaker: Catherine Pittman

Recognition is growing of the dangers associated with benzodiazepine use, especially when they are combined with opioids. The first days and weeks of benzodiazepine use can have a critical impact. When combined with opioids, benzodiazepines pose the highest risk of overdose in the first days of use. Benzodiazepine dependence also poses a serious problem; With daily use, dependence can develop in as little as 3 weeks. Other countries as well as our own Veteran’s Administration have recognized the risks of benzodiazepines and are limiting their use. But among the U.S. public, benzodiazepine use has increased dramatically since the 1990s, and neither physicians nor the public are well informed about their risks. Proper use of benzodiazepines in the treatment of anxiety will be addressed, as well as the risks associated with daily benzodiazepine use. Risks associated with combining benzodiazepines with opioids will be identified. Furthermore, the nature of the withdrawal process from benzodiazepines and the lack of available assistance through the process will be described. Recommendations for physician and patient education will be provided.

**Learning Objectives:**

- Articulate the method of action of benzodiazepines in the brain and body in order to understand their benefits and risks, particularly in combination with opioids.
- Determine the situations and warning signs that indicate benzodiazepine use is likely to lead to dependence or dangerous interactions with other drugs and substances in order to inform treatment interventions.
- Implement education for patients prescribed benzodiazepines in the treatment of anxiety-related disorders, including the proper use of these medications and the risks associated with them.
Clinical

5. Neonatal Abstinence Syndrome: The Opioid Epidemic Explained and Treated Through Attachment
Speaker: Joanna Chambers

Neonatal Abstinence Syndrome (NAS) is a phenomenon described in neonates born to mothers who are addicted to opiates. Parental presence and skin-to-skin contact between parent and infant have been shown to be the most effective treatments for NAS. This is largely due to the shared neurobiological pathways in the attachment process and the addiction/motivation process. This shared neurobiology between attachment and addiction is likely to be important for the treatment of mothers of these infants as well as for the infants with NAS. Hence, childbirth may be a crucial time to intervene with both the mother and the infant in an integrated way to impact the intergenerational opiate epidemic. The neurobiology of Attachment Theory, NAS, and addictions will all be described in detail, leading to a new way of understanding prevention and treatment.

Learning Objectives:
• Understand the importance of Attachment Theory and how it relates to addictions.
• Understand the neurobiology of addiction and the neurobiology of attachment.
• Understand how attachment is a necessary component in the treatment of addictions in the mother and infant.

Lunch Keynote Address 1:15 p.m. – 2:15 p.m.

Opioid Use, Trafficking and Abuse in Mexico: The Importance of Binational Collaboration
Speaker: Oscar Aaron Santiago Quintos, Federal Attorney General's Office of Mexico

Transnational Criminal Organizations have moved beyond the violence we hear about on the news. Production, trafficking and distribution of opioids has become a lucrative business for TCOs, particularly in the U.S., where the end-buyer is often located. Through the Merida Initiative, the U.S. continues to strengthen cooperation with Mexico to interrupt and punish drug traffickers and to stem drug abuse in both countries. Mr. Santiago Quinto will discuss the scope of the problem, and how productive bilateral collaborations between U.S. and Mexican partners can be one of the most effective ways to begin to combat this growing problem in both countries.

Learning Objectives:
• Understand the opioid production and distribution problem in Mexico and how it affects the end users in the United States.
• Educate their colleagues – in law enforcement or otherwise – on the scope of how the issue in Mexico affects the same in the U.S.
• Collaborate with their binational counterparts to help address solutions to the growing problems due to the binational nature of this evolving problem.
**Session Descriptions**

**Large Bonus Educational Breakout Sessions from 2:30 p.m. – 4:30 p.m.**

**Enforcement and Treatment**

1. **Safe Drug Handling Class for Law Enforcement**
   Speakers: Detective Brock Hensley, Indiana State Police, and Chief Deputy Attorney General Aaron Negangard

   The Office of the Indiana Attorney General partners with the Indiana Drug Enforcement Association to train and inform law enforcement on today’s standards of how to properly handle drug-related evidence, investigate a drug overdose crime scene and understand the current drug trends in the State of Indiana.

   **Learning Objectives:**
   
   - Learn safe drug handling practices.
   - Understand the new synthetic drugs.
   - Understand what the overdose crime scene looks like.

**Prevention/Education and Treatment**

2. **Safe Opioid Prescribing in the Midst of an Epidemic** - Satisfies the new Indiana 2h Opioid CME requirement
   Speakers: Amy LaHood and Palmer MacKie

   This session will cover both opioid prescribing and opioid abuse to help medical practitioners stay on top of the latest information geared toward stemming the addiction crisis and meeting the new Indiana Professional Licensing Agency’s 2-hour mandatory training requirements.

   **Learning Objectives:**
   
   - Review current landscape of opioid epidemic.
   - Summarize and critique evidence for opioids to treat pain.
   - Identify current Indiana laws that pertain to opioid prescribing.
   - Discuss the importance of self-care and non-opioid modalities in the whole-person treatment of pain.
   - Recognize how to diagnose opioid use disorder.
   - Review current treatment options for persons with opioid use disorder.
Biographies

Dmitry Arbuck – Indiana Poly clinic

Dmitry Arbuck is a Clinical Assistant Professor of Medicine and Psychiatry at Indiana University School of Medicine in Indianapolis; Clinical Associate Professor of Psychiatry and Pain Medicine, Marian Osteopathic School of Medicine, Indianapolis; President and a Medical Director of Indiana Poly clinic, Indianapolis. He is the former President of Russian American Medical Association and a Board Member of the Global Pain Initiative. Dr. Arbuck earned his medical degree at Yaroslavl State Medical School in Yaroslavl, Russia, where he also served his internship in pediatrics and residency in psychiatry. In the United States, he completed his psychiatry residency at Indiana University School of Medicine in Indianapolis and has been practicing pain management and psychiatry interchangeably. Dr. Arbuck has been an invited presenter at multiple medical conferences regionally, nationally and internationally. As author or co-author, his work has been published online and in medical journals.

Rob Beatson - Marion County Prosecutor’s Office

Rob Beatson is the Division Supervisor of the Strategic Prosecution Unit at the Marion County Prosecutor’s Office. The SPU focuses on offenders that have violent histories or tendencies. Rob works closely with DEA, ATF; and FBI investigators along other law enforcement partners with MCPO in finding the best strategies to prosecute the worst offenders. Rob was a DP in the narcotics/firearms division before being promoted earlier this year. Since admitted to the Bar in 2012, he has prosecuted hundreds of cases, has done several jury trials, and accumulated 200+ DOC years in his case sentencings for 2017. Rob’s biggest downfall is he’s a New England Patriots fan – but to be fair, he is originally from Boston.

Barbara Beaulieu – Purdue University

Barbara Beaulieu serves as the Purdue Extension Specialist in Human Development where she coordinates statewide educational programs related to children and families. She is a member of the Department of Human Development and Family Studies at Purdue University. Barb leads two programs - Strengthening Families Program for Parents and Youth 10-14, and Co-Parenting for Success Kids - to strengthen families by giving parents additional skills and tools to raise resilient children. She is the recipient of the 2017 Outstanding Faculty/Specialist of the Year Award by Purdue Extension.

Sven Bergmann – The Partnership for Safe Medicines

Sven Bergmann is the Division Advisor, Anti-Ilicit Trade Strategies for the Partnership for Safe Medicines. With over 20 years of experience in Corporate Strategy, Business Development, External Affairs and Brand Protection, he has advised Fortune 500 companies, non-profits, trade associations and governments on complex business strategy and illicit trade issues.

Amy Brinkley – Family Social Services Association

Amy Brinkley is Bureau Chief for the Office of Family and Consumer Affairs at the Division of Mental Health and Addictions and a person in long-term recovery from mental illness and substance use disorder. As Bureau Chief Amy provides consumer and family member perspective to DMHA leadership that helps shape the division's policy and planning activities. She is presently the chair for the Recovery Supports Workgroup, a subcommittee of the Indiana Mental Health and Addiction Planning and Advisory Council (MHPAC) and provides oversight of the Indiana Recovery Council. Amy has more than 14 years leading and investing in the lives of others prior to her role within the Division of Mental Health and Addictions. More recently, Amy has over five years working and advocating for better mental health treatment with NAMI (National Alliance on Mental Illness) following her brother’s suicide in February 2012. Amy Brinkley is the proud mother of four children and currently resides in Lafayette with her family and recovery community.

Mary Beth Bonaventura - Office of the Indiana Attorney General

Mary Beth Bonaventura is currently serving as Special Counsel to Indiana Attorney General Curtis Hill. She oversees the Attorney General’s Outreach Program, which includes serving on the Drug Task Force Committee. Bonaventura was appointed Director of the Indiana Department of Child Services (DCS) by former Governor Mike Pence in January 2013. The mission of DCS is to protect children from abuse and neglect and work to ensure their financial support. Prior to leading DCS, Bonaventura served Hoosiers in Lake County for over 30 years, most recently as Senior Judge of one of the toughest juvenile court systems in Indiana, the Lake County Superior Court, Juvenile Division. Judge Bonaventura was appointed Senior Judge in 1993 by then-Governor Evan Bayh after having served more than a decade as Magistrate in the Juvenile Court.

Kelsey Bovard – Switzerland County Nurse Managed Clinic

Kelsey Bovard, Medical Assistant, Recovered Heroin Addict. She grew up in southeastern Indiana and became dependent on heroin after prescription pain medicine was prescribed. After years of addiction she was introduced to Narcotics Anonymous and has been clean 7 years, (March 22, 2011) Kelsey sponsors other females in Narcontics Anonymous and helps educate the local community on addiction. She is currently enrolled in classes at IWU for Addiction Counseling.

Andrew Bowman – Indiana Teen Challenge

Andy Bowman is from Toledo, Ohio and was raised in the church but never walked in a relationship with Jesus Christ. He struggled with a heroin addiction and a life filled with sin. In June of 2008, he entered Western Michigan Teen Challenge and has never been the same since. The love of Jesus Christ immediately compelled him. Andrew came to North Central Indiana Teen Challenge in 2015 as an intern and now serves as the academic coordinator.
Missy Bowman – Indiana Teen Challenge

Missy Bowman currently is on staff at Central Indiana Teen Challenge as the Stay Sharp Program Manager. She has worked with Teen Challenge for over 6 years helping women and teenage girls find freedom from their addiction. Missy is in recovery herself and graduated Simple Truth Training Center in 2016. Missy's passion is working with teenagers and helping them see they have a purpose for their life and there is hope beyond what seems like grave circumstances. In her position with Teen Challenge she has been able to go into several high schools in Indiana and share the facts, lies, and costs of addiction. Through the Stay Sharp program she is instilling hope in teenagers’ lives and empowering them to make better choices. Missy is a native of Ohio and enjoys spending time with her family, and building relationships with others who are struggling with addiction.

Meredith Canada - Social Worker Therapist

Meredith Canada has a Master of Social Work (MSW) from IUPUI and a Master of Public Administration (MPA) from Columbia University in the City of New York. She is also a Licensed Clinical Social Worker in Indiana. Meredith has research experience in criminal justice, public health, psychology and biology. Most recently, she was a Research Associate with the Indiana Criminal Justice Institute where she conducted research for the youth, drug and crime control, and substance abuse services divisions. Meredith also provides mental health and addictions counseling. Currently, she serves as the Clinical Assessments and Outcome Measures Expert and as a therapist for a HIPAA-compliant tele-therapy company. Previously, she was a correctional mental health professional with incarcerated adult males. Meredith is also an Adjunct Faculty member with the IUPUI School of Social Work where she engages MSW students in thinking critically about mental health and addictions policies at the local, state, federal and international levels.

Marty Cangany – Franciscan Health

Dr. Marty Cangany is a Clinical Nurse Specialist at Franciscan Alliance in Indianapolis. In her role, Dr. Cangany utilizes evidence based practice to lead, guide and change practice at the bedside resulting in improved outcomes for staff, patients and families. Marty has been a nurse for 28 years and practiced as an Advance Practice Nurse for 22 years. She received her Doctor of Nursing Practice from Indiana University in 2014. Marty is the current Chair of the Indianapolis Coalition for Patient Safety group working on Substance Use Disorder. Marty's passion for Substance Use Disorder was fueled in September of 2010 when she suddenly lost her 18 year old son to an accidental methadone overdose.

Jason Carmin – Indiana State Police

Jason Carmin is a 21-year veteran of the Indiana State Police. Of those 21 years, he has spent 18 years as a Drug Interdiction Officer in northwest Indiana. During his time as a Drug Interdiction Officer, he spent 10 years as a Task Force Officer with Homeland Security Investigations and four years as a Task Force Officer with the Drug Enforcement Administration, specializing in hotel/motel and truck stop interdiction. In 2011, he was certified by the National Training Center as an instructor for the Drug Interdiction Assistance Program and continues to travel the country training officers from local agencies, state agencies, and federal agencies, to include Customs and Border Protection and Border Patrol. He has personally been involved in investigations involving the seizure of over 11,000 pounds of marijuana, 500 kilograms of cocaine, 50 kilograms of heroin, 70 pounds of methamphetamine, and over $10,000,000 in United States currency. In 2016, Jason was promoted to First Sergeant in the Indiana State Police Drug Enforcement Section and is currently in charge of the Criminal Interdiction Unit.

Joanna Chambers – Indiana University School of Medicine

Dr. Chambers is an Associate Professor of Clinical Psychiatry at the IUSM where she serves as the Director of the Integrated Perinatal Clinic. She has treated perinatal psychiatric illness for over 10 years leading to an interest in the importance of mother-infant attachment with a focus on opioid use in pregnant and postpartum mothers. Her research integrates our growing neuroscience knowledge with clinical expertise to impact better outcomes for mothers and infants.

Natasha Cheatham – Drug Free Marion County

Natasha M. Cheatham is a woman for and of the people. Following her experiences with her mother’s addiction and mental illness, in addition to her own 10 year battle, Natasha has been determined to help change the narrative surrounding these issues in disparate populations. Through volunteering for various organizations and speaking engagements, Natasha works tirelessly to end the stigma around addiction and mental health. Since beginning her recovery journey, Natasha’s ultimate goal is to help eradicate the disparities that keep disparate populations ill. She currently works for a local nonprofit, Drug Free Marion County, and is working on her first book, “Chasing Nirvana: Memoirs of an Addict”.

Suzanne Clifford – Inspiring Transformations

Suzanne Clifford is the CEO of Inspiring Transformations, a consulting practice that specializes in creating innovative strategies, coalitions, grants, public policies and programs that significantly improve health and social outcomes. Previously, Suzanne was the Senior Vice President of Integrated Primary Care and the Vice President of Behavioral Health at Community Health Network, the Director of Mental Health and Addiction for two Indiana governors, and worked at Eli Lilly and Company for over 10 years. Suzanne received the Governor’s Sagamore of the Wabash award for her leadership in transforming mental health and substance use disorder treatment. Suzanne is passionate about building innovative public-private partnerships that drive broad system transformation. Awards for her projects include the Lodestar Foundation/Collaboration Prize Top 30 Most Effective Non-Profit Collaborations in the US, Indianapolis Business Journal's Health Care Heroes Honoree, the Indianapolis Mayor's Advisory Council on Disability Access and Inclusion Award, Indiana Youth Group Beacon of Light Award, and the Coalition for Homelessness Intervention and Prevention Collaboration Award.

29
Biographies

Steven David - Indiana Supreme Court

Justice Steven David has enjoyed a multi-faceted career with private practice and corporate counsel experience, twenty-eight years of stellar military service and fifteen years as a trial court judge in Boone County. He graduated magna cum laude from Murray State University as a Distinguished Military Graduate on an R.O.T.C. scholarship. He earned his law degree from Indiana University's Robert H. McKinney School of Law. He is also a graduate of the Indiana Judicial College and the Graduate Program for Indiana Judges. As a trial court judge, he presided over civil, criminal, family and juvenile matters. He testified before the Indiana General Assembly on juvenile law and is a recipient of the coveted Robert Kinsey Award as the most outstanding Juvenile Court Judge in Indiana. His efforts to improve the availability of mental health services for children led to his recognition by the Indiana chapter of the National Alliance for the Mentally Ill. Justice David serves as co-chair for the state’s Juvenile Detention Alternatives Initiative (“JDAI”) and also co-chairs the Program Committee for the Indiana State Bar Association's inaugural Leadership Development Academy. He is a frequent speaker and writer on various legal topics and an adjunct professor at the University of Indianapolis and Indiana University's Robert H. McKinney School of Law.

Wendy Davis – Allen County Superior Court Criminal Division

Judge Davis took the bench in 2011. She presides over felony criminal cases, and was the Chief Judge, a two-year term, in 2014-2015. Judge Davis brought the HOPE Probation Program to Allen Superior Court, which has been instrumental in reducing recidivism by non-violent, low level drug offenders through positive behavioral change for those under court supervision. She has been committed to the rehabilitation of drug addicts by closely monitoring their addiction treatment while under her jurisdiction and supervision. Through HOPE, any violation while on community supervision results in strict and swift circumstances, which includes hearings in front of Judge Davis for accountability. Judge Davis distinguishes these types of offenders from the violent, high level drug dealers and offenders, to which she is committed to keep off the streets of Fort Wayne once convicted. Judge Davis was appointed by the Supreme Court to the state Judicial Probation Committee where she served as the Chairperson until 2017. She continues her work to reduce recidivism around the State with other Indiana Judges. Judge Davis also serves with Chief Justice Rush on the ICLEO (Indiana Continuing Legal Education Opportunity) Commission, which promotes and recruits minorities into the legal profession and helps to allow them to excel in law school and the legal profession in order to bring greater diversity in the Indiana Bar. In 2015 Judge Davis was invited to Washington D.C. to participate and bring her expertise in a round table with officials from the White House and other federal organizations to find solutions to the National Drug problem in the Judicial system through the Institute for Behavior and Health, and to try and make HOPE probation a national standard program. Judge Davis is currently a part of Attorney General Curtis Hill's Drug Task force for the State of Indiana.

Ashley Elrod – City of Fishers, Indiana

Ashley Elrod has served as the City of Fishers PR Director since 2017. Previously she worked in the Indy Chamber of Commerce where she led the strategic planning and implementation of marketing and communications plans for the economic development, entrepreneur services, events, and membership sales divisions of the Indy Chamber. She was responsible for developing strategy for earned media opportunities, digital media, and outreach to promote the Indy Chamber’s services. She graduated from Indiana University's Kelly School of Business in 2007. Ashley has also been a volunteer with the Girls Inc of Greater Indianapolis since 2011.

Scott Fadness – City of Fishers, Indiana

Scott Fadness became the Mayor of the City of Fishers, Indiana on January 1, 2015. He previously served as Fishers’ Town Manager from 2011-2014 and Deputy Town Manager of Operations from 2009-2011 overseeing the day-to-day operations of public works, engineering, fleet management, and parks and recreation. As the City of Fishers first Mayor, Scott Fadness is in charge of the day-to-day operations of the city and leads a team of 14 department directors to make Fishers a smart, vibrant, and entrepreneurial city. He is a board member of the Public Works & Safety Board, Storm Water.

Rick Frank - Marion County Prosecutor's Office

Rick Frank is the Division Supervisor of the Felony Narcotics/Firearms Division at the Marion County Prosecutor's Office in Indianapolis. He supervises 32 Deputy Prosecutors in four different courts – with approximately 3,000 rolling pending felony drug, gang, and firearms cases. The DPs in his division, commonly called “The Strike Team” did 40+ jury trials and 95 Suppression hearings just in 2017. Rick has been an attorney since 2007 and with MCPO since 2008. Before becoming the Division Supervisor in 2015, Rick was the Director of the Metro Drug Task Force – focusing on high weight and repeat offenders. In his prior life, Rick was the Director of 911 Dispatch Center in Fayette County. He also officiates high school basketball and football – so may throw a penalty flag or two during the presentation.

Jim Fuller – Indianapolis Coalition for Patient Safety

Jim Fuller, PharmD, currently serves as President of The Indianapolis Coalition for Patient Safety (ICPS). In this role, he oversees operations for the non-profit public charity organization. Prior to this appointment, Jim spent nearly 27 years at Wishard Health Services (now Eskenazi Health) serving in a variety of roles including Director of Pharmacy and ultimately Vice President of Clinical Support Services. He received his Doctor of Pharmacy from Purdue University.
Amanda Galloway – Purdue University

Amanda Galloway is a Purdue Extension Educator in Fountain County with a focus on Health and Human Development and 4-H. Her passion to provide preventative measures for youth to avoid substance abuse has led her to become a trainer facilitator in Strengthening Families Program: 10-14. The program has been implemented in Fountain County with partnership from local schools.

Bob Glynn - Former DEA

Bob Glynn is a retired Special Agent with the Drug Enforcement Administration Chicago Field Division (1990-2018). He also served as Police Officer with Village of Bolingbrook and as Special Agent with Metropolitan Area Narcotic Squad (1985-1989). Bob has Bachelor of Arts (B.A.) from Saint Mary's University, Winona, MN, and Master of Arts (M.A.) from Lewis University, Romeoville, IL in Criminal Justice. Bob recently joined the Heroin Response Strategy (HRS) as the Drug Intelligence Officer (DIO) for the Indiana HIDTA. He is a detailed oriented senior law enforcement criminal investigator with over 30 years of experience leading diverse teams in complex investigations, programs and initiatives. Bob has a broad range of experience in criminal investigations involving violations of federal/state narcotic and money laundering laws throughout the United States. He has notable accomplishments in leading, mentoring and sustaining relationships between federal, state, and local law enforcement agencies. Bob fills a critical gap in intelligence sharing by reporting cross-jurisdictional links, communicating interstate intelligence, relaying case referrals between agencies, and developing timely intelligence reports for law enforcement agencies.

Brandon George - Indiana Addiction Issues Coalition

Brandon George is the Director of Indiana Addiction Issues Coalition (IAIC), which advocates for addiction through public policy and education. Brandon is a committee co-chair on Attorney General Curtis Hill’s Drug Task Force, he sits on the advisory board (MHAPAC) for Indiana’s Division of Mental Health and Addiction, and is on the Expert Panel for Indiana University School of Medicine's Project ECHO. Brandon is a person in long-term recovery from SUD/OUD and considered a thought leader on recovery support services, stigma reduction, and recovery-oriented systems of care (ROSC).

Marcia Haaff - The Lutheran Foundation

Marcia has a Bachelor’s Degree in Biology from The University of Toledo and an MBA from Indiana University. She began her career with The Lutheran Foundation in 1995 and has served as Chief Executive Officer since the organization’s inception. She has served on various Boards and Committees over the years. She currently serves on the Parkview Behavioral Health Operating Council, the Multicultural Health Initiative Advisory Board, the Lutheran Scholarship Granting Organization of Indiana, and as the President of Community Partnerships Inc. (CPI). She is also active in many area mental health coalitions and initiatives. She is especially excited to enter The Lutheran Foundation’s 21st year of grantmaking given the Foundation’s revitalized focus on whole-person health. The Lutheran Foundation’s vision is to promote the spiritual, mental, and physical well-being for all people. The Foundation is using the results of this research to steer long-term goals and grantmaking. Marcia has led the Foundation in developing a resource tool for Northeast Indiana that will provide education, connection, and promotion for mental health and wellness. Learn more at LookUpIndiana.org. Marcia has led the Foundation in developing a resource tool for Midwest Ohio that will provide education, connection, and promotion for mental health and wellness.

Rachel Halleck – Volunteers of America Indiana

Rachel Halleck is a Licensed Mental Health Counselor and a Licensed Addictions Counselor who currently serves as the Senior Director of Behavioral Health Services at Volunteers of America. During her time at Volunteers of America, Rachel has been an integral part of developing and launching several programs including Look Up and Hope (designated a Promising Practice by the Annie E. Casey Foundation) and the Fresh Start Recovery Center. Rachel is a SAMHSA trained trainer and has presented at state, national, and international conferences on the topics of trauma, addictions, and the programs that she has helped develop through Volunteers of America. Additionally, she has been sought out as a national expert on topics affecting the addictions population by such entities as Sesame Street, who drew on her expertise while they were developing programming for children affected by this issue. Rachel completed her undergraduate education at Hanover College with a major concentration in Psychology and a minor concentration in Spanish. She then went on to complete a Master's Degree in Clinical Psychology from the University of Indianapolis. Rachel's clinical experience has taken place in various settings including correctional facilities, inpatient psychiatric hospitals, detox programs, veteran's homeless shelters, and higher education. Rachel specializes in the areas of trauma and addictions.

Maria Hanzlik – Maria P. Hanzlik, LLC

Dr. Maria Papachrysanthou Hanzlik is a licensed clinical psychologist in private practice in Indianapolis, Indiana and currently is President-Elect of the Indiana Psychological Association. She obtained her Bachelor of Arts degree at The University of Delaware and both her Master’s and Doctorate degrees in Clinical Psychology from The Chicago School of Professional Psychology, Chicago Campus. Prior to her graduate studies, Dr. Hanzlik worked as a case manager at an inpatient substance use disorder rehabilitation facility in Pennsylvania. After completing graduate school, as part of her post-doctoral training, she provided individual and group outpatient and intensive outpatient clinical services at a center in Pennsylvania. Although she currently treats individuals and couples across the lifespan with a variety of presenting problems, one of her areas of specialization is trauma treatment.
Biographies

Brock Hensley - Evansville Vanderburgh Joint Drug Task Force

Brock Hensley is a Detective with the Evansville Vanderburgh Joint Drug Task Force, and has been for approximately 10 years. During his time with the Evansville Police Department, he was an FTO, Defensive Tactics Instructor, Firearms Instructor and ILEA Generalist Instructor. After 8 years, he transferred to Narcotics where he worked for 5 years. At that time, Vanderburgh County was hit hard with methamphetamine labs and Det. Hensley was reassigned to the Evansville Police department Methamphetamine Suppression Unit where his prime responsibilities were to conduct methamphetamine lab investigations and dismantle methamphetamine labs. During that time, he also moved to the forefront of the Opioid Epidemic with a strong background in science. Det. Hensley is an Instructor at the Indiana Law Enforcement Academy, Southwestern Indiana Law Enforcement Academy, National Prosecuting Attorney's Conference, NES and an Executive Board Member of the Clandestine Lab Investigators Association.

Leslie Hulvershorn - Indiana University School of Health

Dr. Hulvershorn completed her M.D. at the Indiana University School of Medicine. She then completed an Academic Track residency in General Psychiatry at the Indiana University School of Medicine, Department of Psychiatry and a two year Research Track Child and Adolescent Psychiatry Fellowship at New York University. Dr. Hulvershorn is an active researcher and clinician and has authored numerous publications on various topics in child psychiatry. She has received multiple grants to study the neurobiological basis of emotion regulation and addiction risk in children with externalizing disorders. In addition to being a board certified child and adolescent psychiatrist, she has also been boarded in Addiction Medicine since 2012.

Curtis Hill, Jr. - Indiana Attorney General

Curtis Hill is the 43rd Attorney General of Indiana. As Indiana’s chief legal officer, Hill oversees a staff of more than 400 employees spread across multiple divisions. Hill has focused his agenda on four priorities: rolling back federal overreach; protecting families from drugs and violent crime; safeguarding consumers from fraud and scams; and inspiring youth to pursue meaningful lives. Hill was serving his fourth term as Elkhart County prosecutor when he was elected to his current role on Nov. 8, 2016. By casting 1,643,689 votes for Hill, Hoosiers made him the top vote-getter of any elected official in Indiana History. He took office on Jan. 9, 2017. A native of Elkhart, Hill is the youngest child of Curtis T. Hill, Sr., and Eleanor M. Hill. He has four siblings. He earned both his bachelor’s and law degrees from Indiana University in Bloomington. Hill and his wife, Teresa, have five children. Hill has testified before Congress on “Methamphetamine in the Heartland” and served as a presenter for the Northern Indiana Methamphetamine Summit, sponsored by the Office of National Drug Control Policy, Executive Office of the President of the United States. Hill has served as a member of the Board of Governors for the Indiana State Bar Association; Governor’s Council on Impaired and Dangerous Driving (past chairman); Indiana Criminal Justice Institute (past trustee); and Board of Regents for the National College of District Attorneys. Hill also has been a member of the Association of Indiana Prosecuting Attorneys Inc. (past president); Indiana Prosecuting Attorneys Council (IPAC) Ethics Committee; National District Attorneys Association (former vice president); FBI's Criminal Justice Information Services Division Advisory Policy Board; and State Board of Law Examiners Character and Fitness Committee. Hill also is a trustee of The Nature Conservancy Indiana Chapter and a life member of the NAACP.

Kristen Kelley – Indiana University School of Medicine

Kristen Kelley is currently the Project Coordinator for the Indiana Opioid Use Disorder Telementoring ECHO Clinic through Indiana University School of Medicine. She previously was the Director of the Attorney General's Prescription Drug Task Force funded under former AG Greg Zoeller. She was also Director of the Indiana Medical Licensing Board, Indiana Board of Nursing and Indiana State Board of Pharmacy under the Professional Licensing Agency. Kristen currently serves as President of the Youth and Family Health Network in Boone County, which provides awareness on the dangers of prescription opioids and offers services for those suffering or in recovery from substance abuse. She has a BA in Criminal Justice from Purdue University.

Connie Kerrigan – Parkview Behavioral Health

Connie is an experienced RN with over 25 years of experience in healthcare. She has always enjoyed practicing in a variety of healthcare settings but has a had a particular fondness for intensive care, pediatrics, the emergency department and community. For the past three years she has worked with the Behavioral Health team. In her role Connie works with various community organizations and the leadership team to address mental health needs across northeast Indiana. Connie is passionate about working with youth, suicide prevention and those who are dealing with substance use disorder. Connie's goals include reducing stigma around mental health, screening for early intervention, reducing deaths from suicide and substance use and looking at novel approaches to enhance mental health care. Connie has been an active participant on numerous boards in the community and currently serves on the following Boards of Directors: The Lutheran Foundation, McMillen Health, Northeastern Center, Allen County Drug and Alcohol Consortium, as well as the local chapter for Sigma Theta Tau. Having recently completed her Master in Business Administration, she is currently pursuing her Masters in Nursing.
Amy LaHood - St. Vincent
Amy LaHood graduated from Rush Medical College in Chicago and completed her Family Medicine residency at MacNeal Hospital followed by a fellowship in Maternal Child Health. Following her training, Dr. LaHood spent 5 years working in Indianapolis at a community health center and then joined St. Vincent Family Medicine Faculty in 2005 where she continues to train Family Medicine residents. Dr. LaHood has a passion for population and public health and completed her Master’s in Public Health from IUPUI in 2010. Dr. LaHood has served as a volunteer member of the Attorney General's Drug Abuse Task Force since 2012. In addition to teaching residents, Dr. LaHood continues working to educate and empower physicians and community stakeholders to reduce the burden of opioid issues and addiction.

Brooke Lawson – Hamilton Southeastern Schools
As the Mental Health and School Counseling Coordinator for Hamilton Southeastern Schools, Brooke oversees and helps coordinate mental health services and school counseling for the school district. She works closely with more than 40 school counselors, providing supervision related to mental health and student support. Brooke works with students and staff to create stigma-free environments in their school and community regarding mental health. She is also a resource to support teachers and staff on social emotional learning and trauma informed practices. She is also active in making connections between the school district and community to create systems of support for students and families. Prior to joining Hamilton Southeastern Schools, Brooke worked for a Community Mental Health Center for 8 years in their school-based program. She graduated from Purdue University with a Bachelor's Degree in Youth, Adult, and Family Services and obtained her Master's Degree in Social Work from Indiana University. Brooke currently serves on the board for The Peyton Riekhof Foundation for Youth Hope.

Beth Lock – Allen County Commissioner’s Office
Beth Lock is the Director of Government Affairs for the Allen County Board of Commissioners and has served in this capacity since September 2006. On behalf of the county, she works with other local, state, and federal leaders to influence policy issues that affect county administration and finances. Prior to her work in Allen County, she interned for the Indiana House Republican Caucus at the Indiana Statehouse during the 2005 legislative session. She received her B.A. in International Relations and German, with a minor in Business Administration, from the University of Indianapolis in December 2004. She received a certification in public management through the Bowen Center for Public Affairs at Ball State University in August 2016. Beth is currently pursuing her Master's Degree in Organizational Leadership and Supervision at Purdue University Fort Wayne.

Stephanie Long - North West Health Services
Stephanie Long is the President/CEO of North Central Health Services (NCHS), serving the organization since January 2015. NCHS has a primary responsibility to operate River Bend Hospital, which is a private inpatient psychiatric hospital, licensed and certified by the Indiana Department of Mental Health. Ms. Long has 15 years of healthcare administration experience in various leadership roles. Prior to joining NCHS in 2015, she was the Chief Executive Officer of Indiana University Health White Memorial Hospital from 2010 - 2014. Ms. Long has a Master's degree in Business Administration with a certification in Health Care Management and a Bachelor of Science in Nursing.

Palmer MacKie – IU School of Medicine/Eskenazi Health
Over the past 10 years, Palmer MacKie has focused significant personal and professional energy on pain management and pain education, and most recently, substance use disorders (addictions). His work at the city, state legislative and national level lobbying to change pain assessment and treatment has been critical as we face an opioid epidemic that is and has been destroying so many lives. Palmer’s service in creating protocols and guidelines, lecturing, advising legislatures and drafting state statutes has been recognized with local, state and national awards.

Josh Minkler – US District Attorney
Josh Minkler was nominated by the President July 2017 and unanimously confirmed by the United States Senate September 28, 2017. Mr. Minkler has been an Assistant United States Attorney in the Southern District of Indiana since 1994. Prior to his appointment as United States Attorney, Minkler served as First Assistant United States Attorney, Drug and Violent Crimes Unit Chief, and as an Assistant United States Attorney in the Criminal Division. Before joining the office, he was an Assistant Prosecuting Attorney in Kent County, Michigan. A native of Muncie, Indiana, Mr. Minkler graduated Wabash College in 1985 and Indiana University Maurer School of Law in 1988.

Darrin Mangiacarne - Fairbanks
Dr. Darrin Mangiacarne has served as Medical Director for Fairbanks since 2015. Prior to joining Fairbanks he was Medical Director at Virginia Premier Health Plan, and served as an addictionologist for Pine Grove Behavioral Health and Addiction Services in Hattiesburg, Mississippi. Dr. Mangiacarne earned his Bachelor's degree in Biology from Lycoming College, his Master's in Public Health from the University of Southern Mississippi and his medical degree from the Philadelphia College of Osteopathic Medicine. He is board certified by the American Osteopathic Board of Family Physicians and holds a Certificate of Added Qualification in Addiction Medicine. He is also certified by the American Board of Addiction Medicine. Dr. Mangiacarne is a Certified Physician Executive. He is the current President of the Indiana Society of Addiction Medicine.
Maddy Murphy - EVERFI

Maddy Murphy is a Director of Global Partnerships at digital education technology provider EVERFI, where she leads the company's K-12 Health and Wellness initiatives across the nation, including the Prescription Drug Safety Network, the county's first public-private initiative to combat the opioid crisis through prevention education in schools. Maddy graduated from George Washington University in 2011 and lives in Washington, D.C.

Elisabeth Andrews Murray - Parkview Health

Elisabeth is a Mastered level Social Worker for Parkview Health. She earned her BSW from IU; and MSW from Denver University. She has spent the last 30 years serving in several different disciplines in the area of social services: education, pediatric hospice, women & children's services. Currently she works within the psychiatric, mental illness population; specifically with addictions. Her goal is to bring attention to the barriers attached to stigmas, link community resources to patients and their families and extend hope to this vulnerable population.

Aaron Negangard - Office of the Indiana Attorney General

Aaron Negangard serves as Chief Deputy to Indiana Attorney General Curtis Hill. Prior to joining General Hill as his Chief Deputy, he was the Prosecuting Attorney for Dearborn and Ohio counties. Mr. Negangard was born in Dearborn County, Indiana. He graduated with honors from both Ohio University and Indiana University School of Law. Previously, he has served both as a Deputy and Chief Deputy Prosecutor. As Prosecutor, Mr. Negangard worked with community leaders to form the Special Crimes Unit. The Special Crimes Unit has been successful in combating crime in Dearborn and Ohio counties. In 2008, he helped form the first Regional Child Advocacy Center in Indiana. The Children's Advocacy Center of Southeastern Indiana facilitates a specialized forensic interview that enables alleged child victims of abuse to give their accounts of events in their own words. Mr. Negangard also worked on "The Strategies to Protect Your Family" substance abuse campaign in Dearborn and Ohio counties. These events are for adults and their children over 10 years of age to combat drug experimentation and peer pressure starting at a young age. The presentation has been a huge success, earning local, state and national coverage. During his tenure as Prosecutor, Mr. Negangard was recognized by his colleagues throughout the state by being appointed as President of the Indiana Association of Prosecuting Attorneys. Mr. Negangard was appointed by Governor Mitch Daniels to the Juvenile Justice State Advisory Group and to the Board of Directors of the Indiana Criminal Justice Institute.

Jake Nichols – Strategic Recovery Resources

Jake Nichols is a pharmacist in long-term recovery with extensive experience in community pharmacy, academia, primary care, managed care, and pharmaceutical industry. He specializes in the treatment of substances use disorders, with a focus on medication assisted treatment. Through his fifteen-year struggle with substance abuse, he found his calling in the field and has dedicated his career to helping patients and their families suffering from this debilitating chronic disease. By providing clinical support for clinicians treating patients with substance use disorder and serving as a vocal advocate for treatment, Jake has established himself as a key resource within the field. Dr. Nichols has spoken at well over 100 pharmacy, nursing, and medical schools across the country in the past 5 years, sharing his story with students and faculty, and he regularly facilitates patient and parent support groups. He has recently established his own education and clinical consulting group called Strategic Recovery Resources of which he is owner and CEO. Jake is also currently employed by Pear Therapeutics as a medical science liaison. He received his Doctor of Pharmacy Degree from the Massachusetts College of Pharmacy in 2000 and his Master's Degree in Business Administration from UMass Boston in 2007.

Katrina Norris – Fayette Regional Health System

Katrina Norris is the Director of Behavioral Health and Addiction Services. She has worked for Fayette Regional Health System (FRHS) since 2007. In addition, Katrina has served as an adjunct professor at Ivy Tech and IU East for the past nine years. She is a member of the DCS Region 12 Child Fatality Review Board and actively involved with FRHS Foundation. Katrina was the NASW Region 5 Social Worker of the Year in 2014.

Steve Orusa – Fishers Fire Department

Chief Steve Orusa has been Fire Chief for the Fishers Department of Fire and Emergency Services since 2011. He has served over 34 years in law enforcement and fire service positions. Steve was a Deputy Fire Chief of Operations, US&R Planning Section Chief, and Deputy Operations Section Chief for Super Bowl XLVI, Incident Commander for the Henryville Tornado, Technical Review Consultant for NIOSH Line of Duty Death investigations, and Program Manager for the Indiana District-5 Type III Incident Management Team. He is past director of the International Association of Dive Rescue Specialists Response Team and has served on public safety and military dive operations worldwide. Steve is the past president of the Hamilton County Fire Chiefs Association and serves on the Indiana Fire Chiefs Board as the Indiana Department for Homeland Security Liaison. Chief Orusa serves on the following not-for-profit boards: City of Fishers Youth Mentoring Initiative (YMI), Hamilton County Humane Society, Leslie Anne Hulse Foundation (Human Trafficking), and the International Association of Dive Rescue Specialists (IADRS) board of directors.
Biographies

Justin Phillips – Overdose Lifeline

Justin Phillips, MA, is the Founder and Executive Director of Overdose Lifeline, Inc., an Indiana based non-profit dedicated to reducing the stigma of addiction and preventing deaths resulting from opioid overdose. Justin started the non-profit in 2014 following the loss of her 20-year old son Aaron to a heroin overdose. Overdose Lifeline worked with Indiana legislators on a bill known as Aaron's Law to expand access to naloxone without a prescription. Justin is a clinical addictions counselor. In 2016 Justin received the Fairbanks Circle of Hope Award, the Drug Free Marion County Parent Advocate of the Year Award, the Indiana Jefferson Award and was chosen as a 2016 White House Champion of Change for Advocacy, Prevention and Treatment. In 2017 she received the Indiana State Health Commissioner's Award for Excellence in Public Health.

Catherine M. Pittman – Saint Mary’s College

Catherine M. Pittman, Ph.D., HSPP, is a licensed clinical psychologist, and psychology professor at Saint Mary’s College in Notre Dame, IN. As a practicing clinical psychologist for over 25 years, she most frequently provides therapy to those coping with depression and anxiety-based disorders, including OCD and PTSD. Dr. Pittman has conducted research in both fear conditioning and neuropsychology, preparing her well to understand both human and animal models elucidating the neurology of fear and anxiety. Her research has also explored the effects of benzodiazepines in treatment of anxiety and other disorders. Along with Elizabeth Karle, Dr. Pittman authored “Rewire Your Anxious Brain”, a book recognized for its clear explanation of how to change both the amygdala and cortex in order to make the brain more resistant to anxiety.

Chuck Porucznik - High Intensity Drug Trafficking Area

Chuck Porucznik is a native of Evergreen Park, Illinois and has lived in Saint John, Indiana since 2017. Since May 2008, Chuck has been the Executive Director of the Indiana HIDTA (High Intensity Drug Trafficking Area). He served with the FBI for twenty years and retired from the Detroit Division of the FBI as the Assistant Special Agent in Charge of the White Collar Crime Program. Chuck started his law enforcement career in 1985 with the Evergreen Park Police Department as a patrolman. During his three years with the police department he went back to school and in 1988 received his Master’s of Science Degree in Corrections and Criminal Justice from Chicago State University. In that same year he was hired by the FBI and has served in Norfolk, Virginia, the FBI Training Academy in Quantico, Virginia, and the Indianapolis and Detroit Divisions.

Allison Pugh – Volunteers of America Indiana

Allison Pugh is a twelve year veteran in the field of mental health and addictions who currently serves as the Director of Turning Point Recovery Center with Volunteers of America. Allison has played a vital role in launching the first trauma-informed and evidence-based treatment program that serves individuals in the criminal justice entity system as an alternative to incarceration in Indiana. Throughout Allison's time with Volunteers of America, she played an integral piece in re-structuring and re-developing the Homeless Veterans Program that provides military Veterans with treatment and services that focus on addressing co-occurring disorders, specifically Post Traumatic Stress Disorder and Substance Use Disorder. During Allison's senior year in college, she helped develop and implement an eight-week treatment program that was established in the Plainfield Re-Entry Facility. Allison has worked in various settings including the non-profit sector, hospitals, correctional facilities and community mental health centers as well as an internship with Terre Haute Police Department. Her passion is serving the underserved and overlooked populations that desire resources to access treatment services that will promote and sustain long-term sobriety. Allison specializes in creating infrastructures that focus on the professional development of employees and teams providing services to fragile populations with a focus on organizational health, retention and client success. Allison was nominated as the Addictions Professional of the Year through ICAADA in 2018. Allison graduated from Indiana University with a Bachelor's Degree in Criminal Justice through the School of Public and Environmental Affairs where she received academic honors. Allison has also served the community through volunteer work with Park-Vermillion Humane Shelter, Big Brothers Big Sisters Organization, YMCA of Greater Indianapolis and the Wheeler Mission.

Oscar Aaron Santiago Quintos - Federal Attorney General’s Office of Mexico

Since December of 2017, Oscar Aaron Santiago Quintos has served as the head of the National Office of Drug Policy in the Criminal Investigation Agency of Mexico’s Federal Attorney General’s Office, which serves as the central body responsible for providing a strategic State vision around medium and long term development of the national policy on drugs. He has a Master in Public Administration and Public Policy from the Monterey Technological Institute of Advanced Studies, and received his undergraduate degree in International Relations from the National Autonomous University of Mexico. He is an expert in National Security, as well as in planning, effective application and coordination of national drug policy. Currently he is in charge of carrying out and evaluating said strategy, in addition to exchanging information about activities among the various government entities involved in national drug policy. He is also the coordinator of the “National Model for Information Analysis Units” project.

Kaitlyn Reho – Indiana Prevention Resource Center

Kaitlyn Reho is currently a Project Coordinator for the Indiana Opioid Use Disorder Telementoring ECHO Clinic. She is also employed with Indiana Prevention Resource Center/ Indiana University as a Technical Assistance Coach in Prevention Matters, specializing in SBIRT techniques. Kaitlyn also serves as faculty for Indiana University in Bloomington and has certification in Medicated Assisted Treatment and Youth Mental Health First Aid. She has a Bachelor's degree in music performance and Applied Health Science and her Master's in Public Health – all from Indiana University.
Biographies

**Kevin Thompson – Walmart**

Kevin Thompson directs Walmart’s public affairs and government relations in Illinois, Indiana, and Kentucky. Prior to joining Walmart in 2013, Kevin worked for three Fortune 100 companies in Washington, DC, including: Philips Electronics, where he worked closely with Philips’ healthcare business unit on procurement and policy initiatives; managing the northeast region for Hewlett-Packard’s (HP) government affairs team; and directing the southeast region on Electronic Data Systems (EDS) global government affairs team. Kevin also served as legislative counsel for the Council On State Taxation (COST) and held positions at a national government relations consulting firm. Thompson graduated from Syracuse University in 1997, earned his juris doctorate from American University’s Washington College of Law, and is a member of the District of Columbia Bar. Kevin lives with his wife and daughters in Carmel, Indiana.

**Shabbir Imber Safdar – The Partnership for Safe Medicines**

Shabbir Imber Safdar has served as the Executive Director of the Partnership for Safe Medicines since 2017. Before that he was the Director of Outreach and has served as a consultant to PSM for nearly a decade. Shabbir is passionate about patient safety and the dangers of counterfeits, having seen firsthand the dangers of counterfeits in countries around the world where a closed, secure drug supply chain doesn’t exist. The Partnership for Safe Medicines, founded in 2003, is a not-for-profit focused on researching the danger of counterfeit drugs in America and educating the public about how to stay safe from them.

**Stacey Steele – Drug Free Wayne County Partnership**

Stacey Steele is the Director of Drug Free Wayne County Partnership, the local coordinating council for Wayne County. She is also the Director of Grants for the Boys & Girls Clubs of Wayne County, where she not only writes and manages grants but has over 15 years’ experience conducting evidence based prevention programs. Steele has a Master’s in Business Administration with a concentration in Project Management.

**Ron Stevens – Wayne County Coroner**

Ron Stevens is the Wayne County Coroner and has many years of experience as Emergency Medical Service personnel and coroner. He is very involved in the fight against the drug problem within Wayne County by participating on committees within the county and at state level.

**Kourtney Sturgeon – Overdose Lifeline**

Kourtney Sturgeon is the Director of Education at Overdose Lifeline, Inc., an Indiana nonprofit dedicated to helping individuals, families, and communities affected by the disease of addiction/substance use disorder through advocacy, education, harm reduction, prevention, resources, and support. The organization has been on the front lines of the opioid epidemic since 2014. Kourtney worked for twenty years for a leading global education company and joined Overdose Lifeline in 2015 - helping to develop a youth opioid education program which has reached more than 24,000 Indiana students and is being used by more than 200 delivery partners in 16 states.

**Ann Vermillion – Marion General Hospital**

Ann Vermillion is an Administrative Director and serves on the Senior Leadership at Marion General Hospital. She has been with MGH for over 14 years and in healthcare for over 20 years. Marion General Hospital was one of the first hospitals in the nation to implement Opioid Prescribing Guidelines in 2014, resulting in 100,000 fewer pills prescribed in one year (260,000 by year 2). At that time, Ann created a community task force which included the hospital, law enforcement agencies, prosecutors, court judges, social services agencies and mental health agencies. The Grant County Opioid & Substance Abuse Task Force has been a model throughout the state and the nation. Ann has received the Indiana Rural Health Association Leadership award for her passion and efforts in tackling the opioid epidemic. She has sat on National and State committees and presented for the Governor’s Task Force, Attorney General Bitter Pill, Indiana State Medical Association, Department of Child Services and numerous audiences and legislatures throughout Indiana and Washington D.C. Ann had the honor of attending President Trump’s State of the Union in January 2018 as a reward for her efforts throughout Indiana. Ann received her Undergraduate and Master’s degrees from Indiana University and is a Fellow of the American College of Healthcare Executives. She is a proud wife and mother of three active teenagers.

**Greg Westfall – DEA, Indianapolis**

Greg Westfall is the Assistant Special Agent in Charge for the Indianapolis District Office, and is responsible for all of the enforcement and administrative operations for the DEA in the state of Indiana. ASAC Westfall began his career with the DEA in October 1996. As a criminal investigator, ASAC Westfall worked in Salt Lake City, Cleveland and Dallas. ASAC Westfall has worked in undercover capacities, was a member of the DEA Clandestine Laboratory Enforcement Team, and investigated several large-scale heroin and methamphetamine drug trafficking organizations which led to their dismantlement. In April 2006, Westfall was promoted to Group Supervisor (GS) of the Reno Resident Office, Reno, Nevada, and in February 2008, he was selected to serve as the Resident Agent in Charge (RAC) of the Reno RO. As such, he was responsible for all of the enforcement and administrative operations in Northern Nevada. In August 2011, ASAC Westfall reported to DEA Headquarters where he served in DEAs Inspection Division. During his assignment at the DEA Headquarters, ASAC Westfall worked as an Inspector with the Office of Professional Responsibility, Section Chief and Associate Deputy Chief Inspector in the Office of Security Programs, and the Executive Assistant to the DEAs Chief Inspector. ASAC Westfall began his assignment here in Indiana on June 1, 2015.
Biographies

Paul Wilson – Park Center

Paul Wilson has worked at Park Center since completing his first graduate degree 40 years ago. Paul started his career at Park Center doing outpatient work with a focus on family and marital therapy. Over the years Paul has had many different positions within Park Center, moving to the CEO position in 1996. During 2000-2001, Paul was additionally the Executive Director of Parkview Behavioral Health. In 2007 he also had the role of the Administrative Pastor (unpaid) of Pathway Community Church. Due to the host of talented employees at Park Center, Paul is fortunate to be able to focus his time and energy on lots of exciting interests. Two vital current initiatives include the development of a residential opioid treatment program and a patient centered medical home. Within Park Center, Paul spends most of his time developing and reviewing strategic initiatives, leading change processes and developing the staff. In the community, Paul is involved with several important projects and serves on a number of boards.

Josh Ziglar – Marion Police Department

Josh Ziglar is a Sergeant on the Marion Police Department and is the Director of the JEAN Team (Joint Effort Against Narcotics) team, the Grant County drug task force and narcotic team. Josh has been involved with the Grant County Opioid & Substance Abuse Task Force and is instrumental in providing the community the trends in substance abuse from the undercover law enforcement.

@domdiag
Our Goal at Miratech Medical is to provide clinicians with the best products to meet the needs of their patients. We partner with the top device manufactures to provide skills and support to our clinicians, staff, and patients. With our GPO business structure, we can provide the benefits of many vendors with one contact.

**SPINAL CORD STIMULATION THERAPY FOR CHRONIC PAIN**

The Algovita® Spinal Cord Stimulation System is based on proven SCS technology and a deep understanding of physician and patient needs. The system was designed to incorporate improved therapy delivery, safety features, and other enhancements to simplify the user experience.

**INTRATHecal DRUG DELIVERY SYSTEM FOR CHRONIC PAIN**

A patient centric approach drives the design, development, and deployment of the Prometra® II drug delivery system whose sole purpose is to provide physicians an optimal solution for the treatment of their patients’ numerous neurological disorders.

**Physician Formulated CBD Products**

ReviveMD CBD Oil is dedicated to producing a superior product utilizing only the highest quality ingredients. Research has shown CBD to be effective in pain treatment, neurological conditions, anxiety, depression and substance abuse addiction.

**CLINICAL TOXICOLOGY FOR TREATMENT ADHERENCE**

Toxicology testing can determine the presence of a variety of prescribed and illicit medications from hair, urine, and/or saliva samples. UDX provides drug testing that complements a variety of clinical spaces and helps increase safety of prescribing medications, efficacy of treatment plans and adherence.
