

INDIANA'S BLACKOUT PLATE TOOLKIT

BITESIZE QUOTES

The following statements from Commissioner Kevin Garvey have been curated to support media coverage. They may be used in print, video, or social content to reflect the vision and public enthusiasm surrounding the Blackout Plate.

“The response from Hoosiers has been incredible—it’s exciting to see so many people connect with something that reflects their individual style.

“Every Blackout plate on the road represents our promise to offer more choices, more individuality, and a deeper connection to what it means to be a Hoosier.

“We designed the Blackout plate with every Hoosier in mind—from the daily commuter to the classic car enthusiast.
