## September Session Updates – Online Course Delivery Extended and Clinicals Resume

Dear Chamberlain,

Since the current global health situation began, the health and safety of our Chamberlain community have remained our top priority. We are dedicated to continuing to protect our students and colleagues while following government and public health agency guidelines.

### Campus Updates

**We have decided to extend online delivery of all coursework through the end of the September session (October 24, 2020) and, when available, some clinicals will be offered for that session as well.**

We will continue monitoring the pandemic closely and reevaluating the situation as it evolves. **Classes will continue to be delivered online through Canvas at the normally scheduled class time and attendance will be taken.** Limited clinical placements are available for the September session, and your campus will reach out to you with more information.

Please rest assured that our campuses have a continuity plan for your clinical experience. Your academic leadership will continue to reach out to you with plans for alternative clinical experiences to help you remain on track within your educational journey. Our faculty are ready and prepared to continue your education through interactive, engaging, online environments across structured and self-paced programs which are critical to your success.

### Virtual Academic Support

We look forward to supporting you and want to remind you that the Virtual Center for

# CHAMBERLAIN UNIVERSITY

Academic Success (VCAS) is available to help facilitate online learning and now allows you to:

- Ask questions of your peers, student learning specialist or science professors.
- Participate in group course-content review sessions led by a content expert.
- Schedule a one-on-one individual review session with a course expert.
- Schedule a one-on-one virtual skills lab to practice clinical skills.
- Discover links to local resources available to help with childcare, housing and other financial services.

The academic support resources can easily be accessed through the Canvas dashboard. More information about the program and how to use it can be found in our [Virtual Academic Support Program FAQs](#).

For additional COVID-19 information, please visit [chamberlain.edu/coronavirus](http://chamberlain.edu/coronavirus) and continue following [CDC guidelines](#) to understand and minimize your risk of exposure. If you think you have been in contact with someone with COVID-19 or believe you are displaying symptoms, **please contact your local county health department and email us at [coronaviralert@chamberlain.edu](mailto:coronaviralert@chamberlain.edu)**.

We appreciate your commitment to your educational journey and are here to continue supporting you every step of the way.

**Karen Cox, PhD, RN, FACHE, FAAN**
