1.3 PURPOSE OF THE RFP

The purpose of this RFP is to select a vendor that can satisfy the need for software development services to augment the ScholarTrack software application/platform with new functionality to meet CHE’s statutory requirements.

The services sought in this RFP are to support the Commission with its obligations under this project and this law, including the direct outreach, triage of responses and the reporting of data to the General Assembly.

1.4 BACKGROUND

1.4.1 SCHOLAR SUCCESS PROGRAM OVERVIEW

In response to a charge from the Indiana General Assembly, the Indiana Commission for Higher Education (ICHE) created the Scholar Success Program (SSP) for 21st Century Scholars graduating from high school in 2017 and beyond. Developed in collaboration with a 21st Century Scholars Advisory Council, the SSP includes 12 required activities that must be completed during high school for students to remain eligible to receive the 21st Century Scholarship (see details at Scholars.in.gov).

1.4.2 COLLEGE SSP

In 2018, the General Assembly called upon ICHE—in collaboration with Indiana’s colleges and universities—to extend the SSP into college beginning with Scholars matriculating to an eligible higher education institution after August 31, 2019. In response, ICHE analyzed Scholar performance data, reviewed best-practice research (e.g., AAC&U’s High-Impact Educational Practices, Gallup-Purdue Index) and actively solicited input from its higher education partners to inform the design/structure of the program.

1.4.3 SCHOLARTRACK OVERVIEW

ScholarTrack is a custom software application that is fully owned, developed, and controlled by the Indiana Commission for Higher Education.

ScholarTrack is an [ASP.NET](#) MVC 5 application with [AngularJs](#) 1.4.3 as the front-end JavaScript framework with a C#-SQL middle tier back-end, and SQL Server as the database. ScholarTrack also uses Entity Framework 6 [Database First](#) ORM to connect the application to the database and to synchronize the database changes to the application via Code Generation.

The application is separated into two distinct User Interfaces: the first for “front-end users” the other for “back-end users”. The front-end user group includes students and parents/guardians. Guardians is a more generic term used in the system for individuals that can "connect" to a student account (with the student's

permission) and view some basic details regarding that student and their activities. In most cases, this individual will be the student's parent, but could be any individual that is monitoring the student's progress. The back-end is for all other user types.

1.4.3.1 FRONT-END USER INTERFACE

The Front-End of the application is home to the Student Portal and Parent Portal. These locations allow these individuals to see a tailored set of data related to their roles in ScholarTrack. It is intended to be more user-friendly and "dashboard-y", giving the user a high-level view of a student's status, while allowing specific activities driven around the student and parent roles.

For Students, this means being able to see the status of their applications and awards as well as submitting applications for various state financial aid programs. For High School Students, they are also able to see progress on their High School Scholar Success Activities.

For Parents/Guardians, this means being able to see some basic information on any connected student, which includes their High School SSP progress.

1.4.3.2 BACK-END USER INTERFACE

The Back-end of ScholarTrack is a functional/administrative interface for all other user types (e.g. CHE Staff, College Staff, High School Counselors, etc.) to execute transactional tasks in an effort to complete our Agency's mission. These tasks may be to explain why a student is or is not eligible for aid, or for generating reports to evaluate how well High Schools are meeting FAFSA completion goals.

1.5 SUMMARY SCOPE OF WORK

1.5.1 STUDENT PORTAL

The majority of the Scope of Work will be contained in the Student Portal of ScholarTrack.

All Student Portal activities should be responsive and are expected to work on phone/tablet/PC devices. Major browsers on both desktop and mobile need to be covered for the major Platforms (Windows, Mac, Android, iOS) and devices.

1.5.1.1 COLLEGE SSP WIDGET

Additional functionality should be added to the existing Student Portal Credit Completion Widget. Currently this widget shows a student's progress towards renewing their award in terms of their reported Credit Completion and Credit Bank hours. The widget should continue to show the Credit Completion Widget for all non-21st Century Scholars, but for College SSP required 21st Century Scholars, the widget should be replaced by the College SSP Widget.

1.5.1.2 COLLEGE SSP ACTIVITY SUBMISSION

Available to all 21st Century Scholar College Students graduating in 2019 or later, regardless of their award eligibility or status. Most of the activities that a student has to complete are form-based, which require the student to answer a number of questions and/or provide documents via upload. The specific questions are not known at this time.

The following question responses are expected:

- Short text-based response
- Long test-based response
- Dropdown/Single Option Select
- Multi-option Select
- File Upload

Validation should be done so that only valid/appropriate responses can be submitted.

There are 4 aspects that must be completed each year by the student: College Performance, College Engagement, Career Preparation, and Mentor/Champion.

COLLEGE SCHOLAR SUCCESS PROGRAM		
COLLEGE PERFORMANCE	COLLEGE ENGAGEMENT	CAREER PREPARATION
ALL 3 ANNUALLY	1+ PER YEAR	1+ PER YEAR
Complete 30 Credits Per Year Maintain Satisfactory Academic Progress (SAP) File Free Application for Federal Student Aid (FAFSA)	Summer Bridge Program New Student Orientation First-Year Experience Living-Learning Community Campus Involvement* Study Abroad*	Informational Interview Job Shadow Professional Résumé Portfolio Internship*(or equivalent) Student-Faculty Research*
Mentor/Champion**		

*Activity may be repeated/sustained for multiple academic years to satisfy 21st Century Scholarship renewal requirement.

**All 21st Century Scholars—with support from Indiana colleges and the state—will identify at least one personal champion/mentor who will help guide and support them through college completion and into the workforce.

1.5.2 PARENT/GUARDIAN PORTAL

The Parent/Guardian user can currently see a student’s Credit Completion Widget. This Parent/Guardian needs to be able to see the new College SSP Widget if the student should see this widget in place of the Credit Completion Widget.

1.5.3 VISUAL REFRESH

ScholarTrack currently has a visual style. We are open to changes to the current style, but those changes will have to be done throughout the site and should apply to both the Student Portal and the Parent/Guardian Portal.

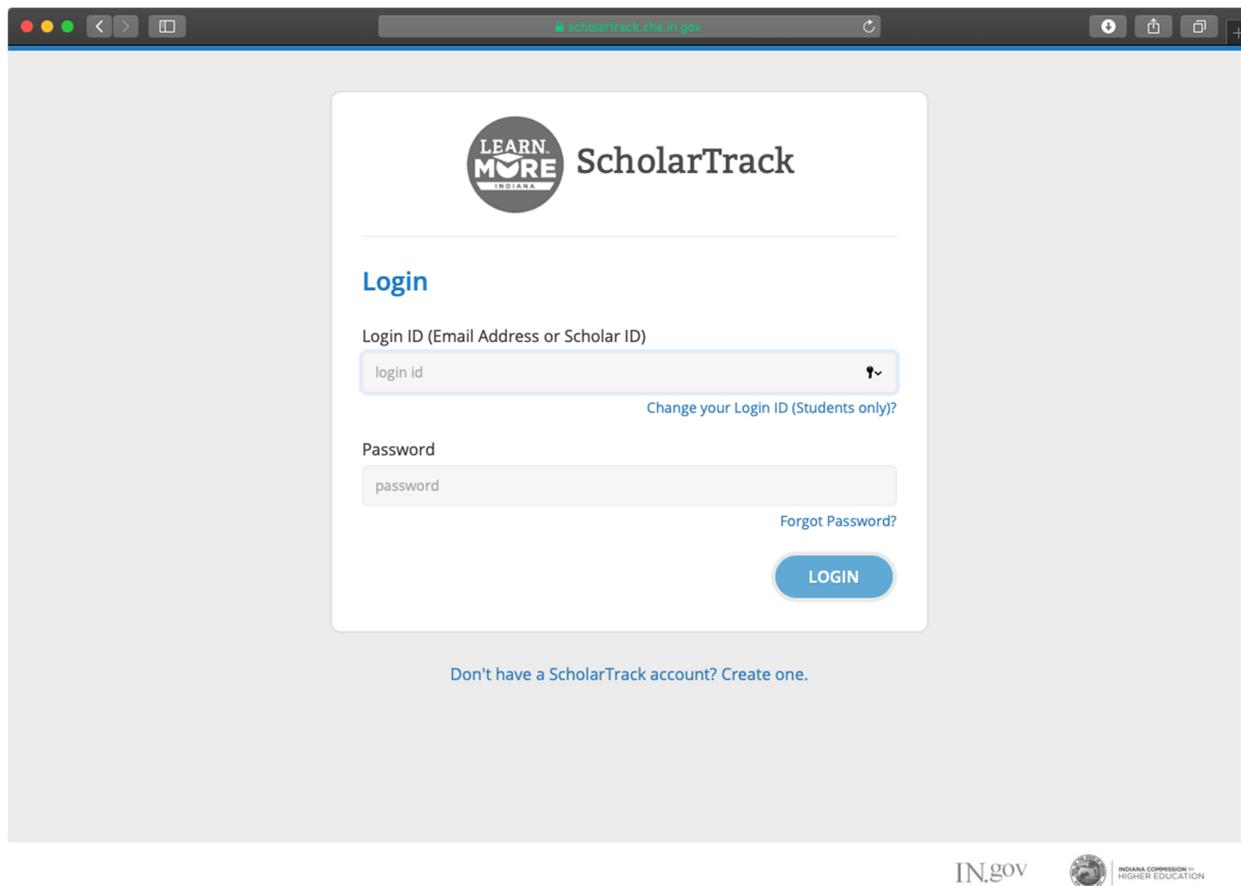

Separate proposal line items should be included for the following scopes:

- Utilize the existing visual styles and design elements and map to appropriate new features under this Scope of Work
- Design a new visual style and elements and deploy this new style throughout the Student Portal and Landing Page

1.5.4 LANDING/LOGIN PAGE

The current login/landing page for ScholarTrack is utilitarian in design and doesn't contain any helpful/supplemental information regarding the purpose of the application or the users that should log in.

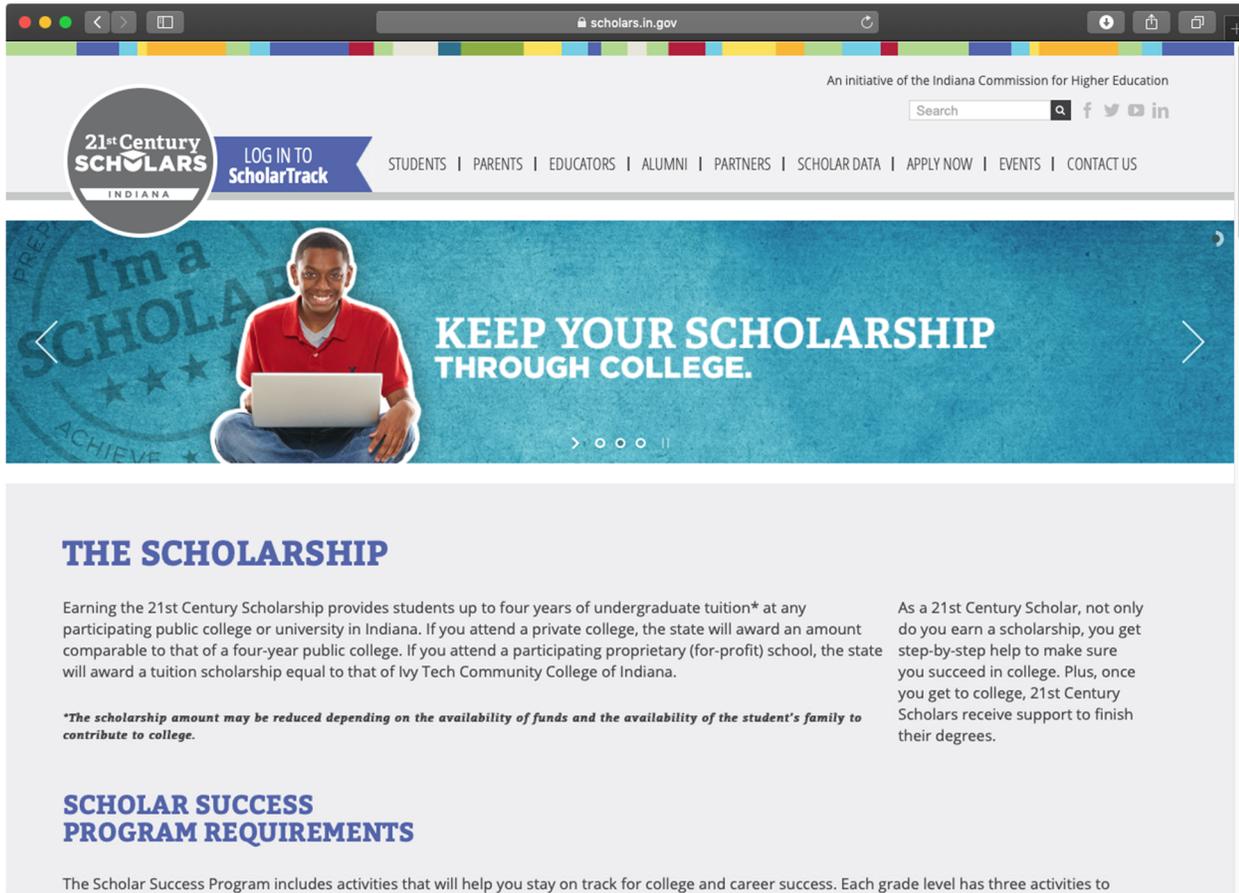

Here is the current page:

This page needs to contain a lot more copy-based and graphical elements (along with a login) with the goal of providing more detail and context for the various user types (but focused on Students, Parents, and

Community Partners) so that the users that come to this page with minimal or no context can make appropriate decisions and/or search out additional information.

As an example, <https://scholars.in.gov> contains a lot of information (and a login to ScholarTrack), but a large number of users directly navigate to ScholarTrack and we want to provide meaningful information to these users just in case.

1.5.5 LIMITED CMS FUNCTIONALITY

We are considering adding Limited CMS Functionality into ScholarTrack. The CMS Functionality would be restricted to the following areas of the system:

- Landing Page
- Student Portal
- Parent Portal
- Banner Messaging (Configurable by User Type)

- Intent here is to notify users of upcoming scheduled downtime or known system issues. We would want to target the message by User Type (e.g. College User, Student, High School User, etc.)

The functionality in these areas would be limited to affecting copy of specific targeted areas on each page within the pre-determined styles for those areas. The intent here is to allow Administrative CHE users to modify content outside of scheduled software releases.

The Limited CMS Functionality should be a separate line item on the proposal.

1.5.6 CHE ADMINISTRATIVE USER INTERFACE

The only changes to the CHE Back-end would be related to the Limited CMS Functionality.

1.5.7 TESTING

Browser testing should be included in the Scope of Work. Additionally, Unit Tests should be added/delivered for appropriate sections as part of the Scope of Work.

Respondents are advised that materials contained in proposals are subject to the Access to Public Records Act (APRA), IC 5-14-3 *et seq.*, and, after the contract award, the entire RFP file may be viewed and copied by any member of the public, including news agencies and competitors. The Respondent must also specify which statutory exception of APRA that applies. The State reserves the right to make determinations of confidentiality. If the Respondent does not identify the statutory exception the Procurement Division will not consider the submission confidential. The Respondent also certifies that neither it nor its principals are presently in arrears in payment of its taxes, permit fees or other statutory, regulatory or judicially required payments to the State. The Respondent agrees that the State may confirm, at any time, that no such liabilities exist, and, if such liabilities are discovered, that State may bar the Respondent from contracting with the State, cancel existing contracts, withhold payments to setoff such obligations, and withhold further payments or purchases until the entity is current in its payments on its liability to the State and has submitted proof such as payment to the State.

1.17 EQUAL OPPORTUNITY COMMITMENT

Pursuant to IC 4-13-16.5 and in accordance with 25 IAC 5, Executive Order 13-04 and IC 5-22-14-3.5, it has been determined that there is a reasonable expectation of minority, woman, and Indiana veteran business enterprises subcontracting opportunities on a contract awarded under this RFP.
