

**For students accepted into the teaching college, they must have the GPA that meets the school's minimum GPA for the teaching college. What about students that are in a prep major or they have not officially been accepted but are in a major that leads to a license? Do they just have to have a 2.0 until they are accepted into the actual school of education?**

Yes. We will accept the student just meeting the SAP requirements until they are into the educator prep program.

**Do we have any communication text currently being used for recruiting to apply to these programs? (WCMTS, Next Gen, Stipend Programs)**

Yes, we do have templates that we use and we can share those with you.
