Comments by Members of Council and Administration

Fire Chief Jeremy Weaver

- Fire Prevention in the schools this week and next week.

Public Safety Director/Police Chief Bryan Shearer

- Public Safety Day is at Fashion Farm Saturday, October 14.

WWTP Superintendent Kenny Sprague

- The manhole project at Union and SR 5 should be completed this morning. The other manhole repairs were completed this week as well. They put a coating in the manholes to seal them. The coating sets up very quickly.

City Engineer Rick Pharis

- Pulver will be here tomorrow or Friday to mill Main Street. They should be done with the paving next week.

Mayor Earle Franklin

- The Main Street Ligonier group had a walkthrough with OCRA. The meeting with the property owners was well attended. The public meeting last night did not have a big turnout. The Main Street certification has a set of guidelines, and the group will need to give a sense of direction. Opens some possibilities of grants going forward. There were some good ideas, and the group will collectively work together with the city on their potential projects. Hopefully, this will motivate building owners to do something with their downtown buildings. We will talk with Kendallville administration to find out what they are doing in their downtown in an effort to improve our downtown.
- Have already received good comments about the SR5 and Union manhole project.
