# **Community Needs Assessment: Results**

The first step in developing an effective substance use and misuse reduction plan is to assess your community. A community assessment tells you about your community's readiness to implement prevention, treatment, and justice-related programs to address substance use and misuse. An assessment also provides an overview of the risk and protective factors present in the community, helping your coalition plan more effectively.

# **Community Risk and Protective Factors**

Use the list of risk and protective factors to identify those present in your community. Identify the resources/assets and limitations/gaps that exist in your community related to each. The lists are not all-inclusive and others may apply.

<u>Risk Factors Examples</u>: trauma and toxic stressors; poverty violence; neighborhood characteristics; low neighborhood attachment; community disorganization; community norms and laws favorable toward drug use, firearms, and crime; availability of alcohol and other drugs; weak family relationships; family substance use; peer substance use; mental health problems; families moving frequently from home to home; limited prevention and recovery resources.

<u>Protective Factors Examples:</u> strong family relationships; neighborhood economic viability; low childhood stress; access to health care; access to mental health care; community-based interventions; restricted access to alcohol and other drugs including restrictive laws and excise taxes; safe, supportive, and connected neighborhoods; meaningful youth engagement opportunities; local policies and practices that support healthy norms and child-youth programs; positive connection to adults.<sup>1</sup>

# Making A Community Action Plan

Now that you have completed a community assessment and have identified the risk and protective factors that exist, you can develop a plan of action. The Comprehensive Community Plan (CCP) is a systematic and community-driven gathering, analysis, and reporting of community-level indicators for the purpose of identifying and addressing local substance use problems. Identified problems are addressed over a three year period, where a full CCP is submitted to the Indiana Criminal Justice Institute (ICJI) April 1<sup>st</sup> of year 1, then two updates are submitted on April 1<sup>st</sup> of years 2 and 3.

Step 1: Create problem statements, and ensure problems statements are in line with statutory requirements

Step 2: Ensure your problem statements are evidence-informed, then prioritize

Step 3: Brainstorm what can be done about each

Step 4: Prioritize your list, and develop SMART goal statements for each

Step 5: List the steps to achieve each goal

# **Step 1: Create + Categorize Problem Statements**

Create problem statements as they relate to each of the identified risk factors.

Risk Factors	Problem Statement(s)
1. Adult & youth alcohol & drug abuse	1.Alcohol-related arrests have remained consistent
	2.Illicit drug abuse continues to require interventions
	3.Illegal drug abuse results in overdose deaths
2.	1.Gang activities are prevalent
Criminal drug abuse & trafficking	2.Youth are being drawn into drug abuse & potential trafficking
	3. Increased criminal activity correlated to drug abuse
3.	1.Inadequate supply of affordable housing
Homelessness	2.Criminal backgrounds prevent securing driving privileges, employment, and utilities
	3.Lack of housing for re-entry to civilian from incarceration

# **Step 2: Evidence-Informed Problem Statements**

Identify your top three problem statements using local or state data. Ensure that there is a problem statement for each co-equal funding category (e.g., prevention/education; intervention/treatment; and criminal justice services and activities).

Problem Statements	Data That Establishes Problem	Data Source
1. Prev/Ed Jackson County is experiencing youth use of smoking, vaping and e-cigarettes, and inhalants at a higher than state rate.	Higher than State rates in smoking/vaping & inhalants. 55% had perceived risk for drug use & 67% had low protective factors. No longer reporting higher than State rates for binge drinking or cocaine use as in previous years. Seymour High School reports an increase in positive results during random drug testing in 2019 (20%), expelling 3 students.	Girls, Inc IPRC Report Seymour Schools Brownstown Community Schools
2. Interv/Tx Barriers to receiving treatment and sustaining recovery from substance abuse continues to prevent individuals from succeeding.	797 adults & 32 youth received addiction treatment at New Beginnings & Centerstone. 216 adults enrolled in JCADCS. Grant funds were required to supplement fees at New Beginnings, and Centerstone relied on State funding for financial assistance.	New Beginnings Treatment Center Centerstone of Indiana Jackson County Alcohol & Drug Court Services (JCADCS)
3. Crim Justice Drug trafficking and overdose on narcotics continues to demand additional resources from law enforcement.	6 of 7 deaths attributed to drug or alcohol abuse were overdoses, reduced from 17 overdoses in 2018 due to increased use of Narcan. Narcotic officers arrested 235 offenders for dealing in illegal narcotics, conducting 92 controlled purchases confiscating 1900 grams Methamphetamine, 80 grams Heroin, 1050 grams Marijuana, some cocaine, scheduled pills and suboxone. Narcotics are being sold as heroin with the main ingredient being Fentanyl.	Jackson County Sheriff's Dept Seymour Narcotics Div. Jackson County Health Dept. Jackson County Coroner

# **Step 3: Brainstorm**

Consider the resources/assets and limitations/gaps that were identified for each risk factor, and list what actions can be taken for each identified problem statement.

Problem Statements	What can be done (action)?
1. Jackson County is experiencing youth use of smoking, vaping and e-cigarettes, and inhalants at a higher than state rate.	1. Emphasize education through supportive partners in public events, school-based activities and local organizations.
	2. Promote cessation programs utilizing Health Deparatment and Schneck Medical Center with support of local non-profit agencies.
	<ol> <li>Encourage programs in local jails to support recovery and treatment upon release.</li> </ol>
2. Barriers to receiving treatment and sustaining recovery from substance abuse continues to prevent individuals from succeeding.	1. Include mental health education and services in response to substance abuse through both educational and treatment programs.
	2. Utilize local non-profit agencies to support individuals seeking recovery to overcome barriers to treatment and employment.
	3. Promote resources available at local events and promotional/reference materials.
3. Drug trafficking and overdose on narcotics continues to demand additional resources from law enforcement.	1. Continue efforts to combat stigma attached to addiction to encourage recovery.
	2. Support law enforcement activities to intervene on overdoses and drug dealing.
	<ol> <li>Promote local events like National Over- dose Awareness Day, Recovery Rally, and Get Loud Now to educate and support those battling addiction.</li> </ol>

# **Step 4: Develop SMART Goal Statements**

For each problem statement, prioritize your list of what can be done. Choose your top two actions for each. Then, develop goal statements that demonstrate what change you hope to achieve and by when you hope to achieve it.

# **Problem Statement #1**

Goal 1

Promote education through schools, organizations, agencies, and public events about dangers of use of vaping, e-cigarettes, cigarettes, and inhalents to reduce prevalence rates to equal or less than State rates by 2022.

Goal 2

Support prevention & intervention programming to increase awareness of dangers and risk perceptions by youth by 2022.

#### **Problem Statement #2**

#### Goal 1

Support prevention & treatment programming with financial assistance, promotions, and events to encourage recovery from substance abuse to increase participation in programs by 2022.

#### Goal 2

Reduce barriers to secure employment, housing, and reduce stigma by supporting organizations addressing these barriers to increase successful participation in service programs by 2022.

#### **Problem Statement #3**

Goal 1

Support Narcotics Investigation teams to combat narcotics trafficking to reduce the flow of narcotics into our county and reduce the number of drug dealers by 2022.

Goal 2

Raise awareness of overdose risks and support intervention of survivors of overdoses to reduce stigma and increase recovery by 2022.

# **Step 5: Plans to Achieve Goals**

For each goal, list the steps required to achieve each

## **Fund Document**

The fund document allows the LCC to provide finances available to the coalition at the beginning of the year. The fund document gauges an LCC's fiscal wellness to empower their implementation of growth within their community. The fund document also ensures LCCs meet the statutory requirement of funding programs within the three categories of (1) Prevention/Education, (2) Treatment/Intervention, and (3) Criminal Justice Services and Activities (IC 5-2-11-5).
