Community Needs Assessment: Results

The first step in developing an effective substance use and misuse reduction plan is to assess your community. A community assessment tells you about your community's readiness to implement prevention, treatment, and justice-related programs to address substance use and misuse. An assessment also provides an overview of the risk and protective factors present in the community, helping your coalition plan more effectively.

Community Profile

County Name: Parke
County Population: 16, 927
Schools in the community: Parke Heritage HS, Riverton Parke HS, Parke Heritage Middle School, Turkey Run, Rockville, Montezuma, Rosedale Elementary
Medical care providers in the community (hospitals, health care centers, medical centers/clinics, etc.): Valley Professionals Community Health Center and Health and Help Center

Service agencies/organizations: Child Adult Resource Center, Parke Vermillion Pregnancy Center
Local media outlets that reach the community: The Sentinel (newspaper):
What are the substances that are most problematic in your community?: Alcohol, methamphetamines and marijuana
List all substance use/misuse services/activities/programs presently taking place in the community: Celebrate Recovery and AA

Community Risk and Protective Factors

Use the list of risk and protective factors to identify those present in your community. Identify the resources/assets and limitations/gaps that exist in your community related to each. The lists are not all-inclusive and others may apply.

Risk Factors Examples: trauma and toxic stressors; poverty violence; neighborhood characteristics; low neighborhood attachment; community disorganization; community norms and laws favorable toward drug use, firearms, and crime; availability of alcohol and other drugs; weak family relationships; family substance use; peer substance use; mental health problems; families moving frequently from home to home; limited prevention and recovery resources.

Protective Factors Examples: strong family relationships; neighborhood economic viability; low childhood stress; access to health care; access to mental health care; community-based interventions; restricted access to alcohol and other drugs including restrictive laws and excise taxes; safe, supportive, and connected neighborhoods; meaningful youth engagement opportunities; local policies and practices that support healthy norms and child-youth programs; positive connection to adults.¹

Risk Factors	Resources/Assets	Limitations/Gaps
1. Family Substance Abuse	1. Treatment Facilities 2. Support Group Meetings 3. Churches	1. Transportation 2. Juvenile Services 3. Staffing at Treatment Facilities
2. Children and Families Below Poverty	1. Food Pantry 2. Community Care Boxes 3. Churches	1. Transportation 2. Employment Opportunities 3. Low wages
3. High availability of substances	1. Hamilton Center/Valley Professionals 2. Support Group Meetings 3.	1. Law Enforcement Budgets 2. Law Enforcement Staffing 3.
Protective Factors	Resources/Assets	Limitations/Gaps
1. Meaningful Youth Engagement Activities	1. Strong Sports Programs 2. Youth After School Programs 3. Swimming Pool	1. Lack of facilities 2. Staff/Wages 3. Transportation
2. Access to Mental Health	1. Hamilton Center/Valley Professionals 2. Transportation 3. Support Services	1. Staff/Wages 2. Resources 3. Costs
3. Support Groups	1. Availability 2. Meeting Places 3.	1. Transportation 2. 3.

Making A Community Action Plan

Now that you have completed a community assessment and have identified the risk and protective factors that exist, you can develop a plan of action. The Comprehensive Community Plan (CCP) is a systematic and community-driven gathering, analysis, and reporting of community-level indicators for the purpose of identifying and addressing local substance use problems.

Step 1: Create problem statements, and ensure problems statements are in line with statutory requirements

Step 2: Ensure your problem statements are evidence-informed, then prioritize

Step 3: Brainstorm what can be done about each

Step 4: Prioritize your list, and develop SMART goal statements for each

Step 5: List the steps to achieve each goal

Step 1: Create + Categorize Problem Statements

Create problem statements as they relate to each of the identified risk factors.

Risk Factors	Problem Statement(s)
1. Too many Parke County adults are using drugs/alcohol	1. Alcohol use/abuse is a problem among adults 2. Drug abuse is a problem among adults 3. Often children are present
2. Too many Parke County youth are using drugs/alcohol	1. Alcohol/drug use/abuse is a problem among youth 2. Lack of youth services available 3. Increase in vaping among youth
3. High availability of substances	1. Driving under the influence of alcohol/drugs is a problem 2. Often children are present 3. Domestic violence is a problem

Step 2: Evidence-Informed Problem Statements

Identify your top three problem statements using local or state data. Ensure that there is a problem statement for each co-equal funding category (e.g., prevention/education; intervention/treatment; and criminal justice services and activities).

Problem Statements	Data That Establishes Problem	Data Source
1. Substance use and abuse is a problem among adults in Parke County	Between 17-19 participants in Drug Court per month Drug/alcohol charges filed by the Parke Co Prosecutor for adults totaled 401 for 2019	Parke Co Probation Department Parke Co Sheriff's Office
2. Substance use and abuse is a problem among youth in Parke County	Within the Western Region of the State youth in 12th grade were more likely to report past-month use of prescription drugs (overall and each class independently) and over-the-counter drugs than 12th grade youth in the state as a whole. Students in 8th grade reported a past-month prevalence rate for methamphetamine that was lower than the 2017 rate, but rates for other grades were similar to last year's rates Alcohol charges filed by the Parke Co Prosecutor for juveniles totaled 239 for 2019	2018 Indiana Youth Survey Parke Co Sheriff's Office
3. There is a high number of criminal offenses related to substance use within Parke County	Drug/alcohol charges filed by the Parke Co Prosecutor for adults totaled 401 for 2019	Parke Co Sheriff's Office

Step 3: Brainstorm

Consider the resources/assets and limitations/gaps that were identified for each risk factor, and list what actions can be taken for each identified problem statement.

Problem Statements	What can be done (action)?
1. Substance use and abuse is a problem among adults in Parke County	1. Encourage and support education/prevention of drug/alcohol use/abuse through community involvement 2. Support local law enforcement/probation through increasing capacity and other means to reduce drug/alcohol use/abuse 3. Support area treatment providers and community services
2. Substance use and abuse is a problem among youth in Parke County	1. Encourage and support education/prevention of drug use/abuse through efforts offered through schools and community involvement 2. Support local law enforcement/school resource officers through training and other means to reduce drug/alcohol use/abuse. 3. Encourage and support area treatment facilities and community services
3. There is a high number of criminal offenses related to substance use within Parke County	1. Support local law enforcement/probation through increasing capacity and other means to reduce the number of arrests 2. Encourage and support area treatment facilities and community services 3. Support and encourage transportation services

Step 4: Develop SMART Goal Statements

For each problem statement, prioritize your list of what can be done. Choose your top two actions for each. Then, develop goal statements that demonstrate what change you hope to achieve and by when you hope to achieve it.

Problem Statement #1
Goal 1: The LCC will continue support programs and services to address alcohol use/abuse among adults ages 19-70 by five percent within one year.
Goal 2: The LCC will continue to support the Drug Court program to address alcohol/drug use/abuse among adults ages 19-70 by five percent within one year.
Problem Statement #2
Goal 1 The LCC will educate 80% of the Parke Co youth ages 11-18 on drug/alcohol use/abuse within one year through support of school program/events.

Goal 2: The LCC will conduct three community services/programs within one year to reduce youth alcohol/drug use/abuse.

Problem Statement #3

Goal 1: The LCC will provide assistance to Drug Court and area treatment providers to decrease the number of criminal offenses related to substance use by one percent within one year

Goal 2: The LCC will assist law enforcement to increase capacity, training and supplies to address the number of criminal offenses related to substance use by one percent within one year

Step 5: Plans to Achieve Goals

For each goal, list the steps required to achieve each
