## Plan Summary

**Mission Statement:** We are a dedicated group of individuals who have volunteered for a common cause. Each one of us represents a different point of view within Tipton County. We are doctors, nurses, teachers, clergy, public servants and officers of the community, activists and concerned citizens. We each bring a separate agenda to the table. Each of us hold a stake in the success of the council.

The Mission of the Tipton County council on Alcohol and Other Drugs is three-fold:  
To increase awareness about the dangers of alcohol, tobacco, and other drugs among County residents:

To identify specific concerns facing Tipton County and coordinate solutions for those concerns:

To support the design, development, and maintenance of those solutions.

The Goal of the Tipton county Council on Alcohol and Other Drugs is to organize and collaborate efforts to both prevent and assist with crisis resulting from the use and abuse of alcohol and tobacco.

The Key problems identified in 2012 are:

1. In Tipton County, Youth use, and Adults Abuse Alcohol.
2. In Tipton County, Youth use and Adults abuse Tobacco.

**History:** The Tipton County Council on Alcohol Tobacco and Other Drugs has been active in Tipton County since 1989, but the first full Comprehensive Plan was not approved until the mid 1990's. Our county covers 260 square miles. The population of Tipton County in 2006 was 16, 377. The principle occupations in Tipton County are manufacturing jobs. At one time Tipton was a farming community.

**Summary of the Comprehensive Community Plan:**

The Tipton County Council on Alcohol Tobacco and Other Drugs holds 8 meetings per year and through a collaborative effort the plan is written. All aspects of the community in attendance were given the opportunity to have input with each problem statement along with recommended actions regarding each statement. The schools were able to furnish stats of alcohol, drug, and tobacco use among their students. The police departments and probation departments were able to give us the numbers involved in local arrests regarding the same problems. As in the past any group receiving funds from the LCC will be required to give a written and or oral report of the funds spent, the population served and measurable results.

## Membership List

County LCC Name:

#	Name	Organization	Race	Gender	Category
