## **STATISTICAL AND ECONOMIC DATA**

The Statistical Data are presented to give report users a better historical perspective and assist in assessing current financial status and trends of the governmental unit. Economic Data are presented to allow broader understanding of the economic and social environment in which State government operates.

# State of Indiana

## State Facts

<b>AREA</b>	36,185 square miles, including 253 square miles of water. Length, 275 miles breadth, 144 miles. Highest altitude, 1,257 feet in Wayne County; lowest altitude, 320 feet in Posey County.
<b>CLIMATE</b>	Four distinct seasons. Average temperatures in July range from 63 to 86 degrees Fahrenheit; January ranges from 17 to 35 degrees Fahrenheit. Record high: 116 degrees at Collegeville in 1936. Record low: 35 below zero at Greensburg in 1951. Average annual precipitation is 40 inches.
<b>STATE CAPITAL</b>	Indianapolis (combination of Indiana and Greek word "polis" meaning city -- thus, Indianapolis means "city of indiana").
<b>STATE MOTTO</b>	The Crossroads of America. Adopted 1937.
<b>STATE FLOWER</b>	Peony. Adopted 1957.
<b>STATE TREE</b>	Tulip tree (yellow poplar). Adopted 1931
<b>STATE BIRD</b>	Cardinal. Adopted 1933.
<b>STATE SONG</b>	"On the Banks of the Wabash," by Paul Dresser. Adopted 1913
<b>STATE POEM</b>	"Indiana", by Arthur Franklin Mapes, Kendallville. Adopted 1963.
<b>STATE STONE</b>	Indiana limestone. Adopted 1971.
<b>STATE SEAL</b>	The seal depicts a pioneer scene--a woodsman felling a tree, a buffalo fleeing from the sound of the axe and the sun gleaming over a distant hill. In use since 1801, the seal was officially adopted in 1963.
<b>STATE FLAG</b>	The Indiana flag displays 19 gold stars surrounding a gold torch centered on a rectangular field of blue. The torch stands for liberty and enlightenment. Thirteen stars in the outer circle represent the 13 original states; the five in the inner circle represent the five states next admitted to the Union. The star above the torch stands for Indiana, the 19th state. Adopted 1917.
<b>STATE NAME</b>	The name Indiana means "land of the Indian". It was coined in 1800 when Congress carved the new state of Ohio from the Northwest Territory and designated the remaining vast area as the Indiana Territory. The territorial name was retained when Indiana became a state in 1816.
<b>NICKNAME</b>	The nickname for someone of Indiana birth or long residency is "Hoosier", a word whose origin has never been determined. Some have said it stemmed from the pioneer custom of greeting night callers with, "Who's yere?" Others claimed it came from "hoosier men", referring to laborers for an early- day Indiana contractor named Sam Hoosier. Still others traced the word to the term "husher", meaning a river boat worker strong enough to "hush" any challenger, or to "hoozer", a dialect word meaning hill-dweller.

# **State of Indiana**

## **Property Tax Schedules**

### **For Year Ended December 31, 2002**

### **Payable 2003**

In the State of Indiana property taxes are levied by local units of government and overseen by the Indiana Department of Local Government Finance. The State of Indiana levies two rates of taxation against all taxable property in the State and Indiana Law fixes those rates. There is an eleven ten thousandths per one hundred dollars assessed value rate for the Indiana State Fair Board and a twenty-two ten-thousandths rate for the Indiana State Forestry Fund.

Property taxes are collected by county treasurers and distributed by county auditors. County auditors are required by Indiana Law to file, with the Auditor of State, reports of property taxes charged, collected and distributed. It is from those reports the property tax information is provided on the following pages.

For property taxes payable in 2003 a statewide reassessment of property values is in progress. As of the publication of this 2004 Comprehensive Annual Financial Report the reassessment of property has not been completed for all counties and data is not available for all counties. On the following schedules, where applicable, it has been noted that the data is not available. In the 2005 Comprehensive Annual Financial Report complete schedules for 2003 property taxes payable will be included.

Property taxes paid by each property taxpayer in Indiana are reduced by a credit referred to as a property tax replacement credit. The credit is paid by the State to county treasurers and is funded by a portion of State sales tax, individual income tax and riverboat wagering taxes. County auditors distribute the credit to taxing units. The property tax replacement credit percentage is determined by a formula established by Indiana Law and is computed by the Indiana Department of Local Government Finance. There are two separate property tax replacement credits. One credit applies to real estate and individual personal property. The other property tax replacement credit applies to business personal property. The two credit percentages are different within each taxing district and there are different credit percentages for each taxing district. Both of the credit percentages are based on the type of taxes levied within each taxing district. The average real estate and individual personal property credit is in the mid-twenty percent range and the business personal property credit is in the mid-teen percent range.

Residential property owners, who qualify, receive an additional credit on their property taxes. This credit is referred to as the homestead credit. There is a State homestead credit funded by a portion of the State sales tax, individual income tax and riverboat wagering taxes and in some counties there is a local homestead credit funded by a portion of their county option income tax. The State and local homestead credit is given on the residential taxes after the taxes have been reduced by the property tax replacement credit. The State homestead credit is paid by the State to county treasurers and, where applicable, the local homestead credit is paid by county auditors to county treasurers. County auditors distribute the homestead credit to taxing units. On the following schedules the State paid homestead credit and the locally funded homestead credit are shown in separate columns. The homestead credit percentages are determined by a formula established by Indiana Law and are computed by the Indiana Department of Local Government Finance. There are different homestead credit percentages for each taxing district in a county, because the credit percentages are based on the type of taxes levied within each taxing district. The State homestead credit percentage range is nine to fifteen percent and the local homestead credit percentage range is three to eight percent.

# **State of Indiana**

## **Property Tax Schedules**

### **For Year Ended December 31, 2003**

### **Payable 2004**

In the State of Indiana property taxes are levied by local units of government and overseen by the Indiana Department of Local Government Finance. The State of Indiana levies two rates of taxation against all taxable property in the State and Indiana Law fixes those rates. There is an eight ten thousandths per one hundred dollars assessed value rate for the Indiana State Fair Board and a sixteen ten-thousandths rate for the Indiana State Forestry Fund.

Property taxes are collected by county treasurers and distributed by county auditors. County auditors are required by Indiana Law to file, with the Auditor of State, reports of property taxes charged, collected and distributed. It is from those reports the property tax information is provided on the following pages.

For property taxes payable in 2004 there is a delay in assessing property taxes, because of a statewide reassessment of property values that began for 2003 taxes payable. As of the publication of this 2004 Comprehensive Annual Financial Report the assessment of property has not been completed for all counties and data is not available for all counties. On the following schedules, where applicable, it has been noted that the data is not available. In the 2005 Comprehensive Annual Financial Report complete schedules for 2004 property taxes payable will be included. Also, in the 2005 Comprehensive Annual Financial Report 2005 property taxes payable schedules will be included.

Property taxes paid by each property taxpayer in Indiana are reduced by a credit referred to as a property tax replacement credit. The credit is paid by the State to county treasurers and is funded by a portion of State sales tax, individual income tax and riverboat wagering taxes. County auditors distribute the credit to taxing units. The property tax replacement credit percentage is determined by a formula established by Indiana Law and is computed by the Indiana Department of Local Government Finance. There are two separate property tax replacement credits. One credit applies to real estate and individual personal property. The other property tax replacement credit applies to business personal property. The two credit percentages are different within each taxing district and there are different credit percentages for each taxing district. Both of the credit percentages are based on the type of taxes levied within each taxing district. The average real estate and individual personal property credit is in the mid-twenty percent range and the business personal property credit is in the mid-teen percent range.

Residential property owners, who qualify, receive an additional credit on their property taxes. This credit is referred to as the homestead credit. There is a State homestead credit funded by a portion of the State sales tax, individual income tax and riverboat wagering taxes and in some counties there is a local (COIT) homestead credit funded by a portion of their county option income tax. Also, beginning for taxes payable in 2004 counties, who elected to exempt business inventory assessed values from property taxes, can adopt an additional homestead credit. The additional homestead credit adopted by those counties is funded by a county economic development income tax (CEDIT). The State and local homestead credit is given on the residential taxes after the taxes have been reduced by the property tax replacement credit. The State homestead credit is paid by the State to county treasurers and, where applicable, the local homestead credit is paid by county auditors to county treasurers. County auditors distribute the homestead credit to taxing units. On the following schedules the State paid homestead credit and the locally funded homestead credit are shown in separate columns. The State and COIT homestead credit percentages are determined by a formula established by Indiana Law and are computed by the Indiana Department of Local Government Finance. The CEDIT homestead credit percentage is calculated by county auditors and is based on net residential assessed values and the amount of CEDIT revenue available to fund the homestead credit. There are different State and COIT homestead credit percentages for each taxing district in a county, because the State and COIT homestead credit percentages are based on the type of taxes levied within each taxing district. The State homestead credit percentage range is nine to fifteen percent, the COIT homestead credit percentage range is three to eight percent. The CEDIT homestead credit percentages vary by county, because of differences in net residential assessed values and the amount of CEDIT revenue available to fund the homestead credit. The CEDIT homestead credit percentage range is four to nineteen percent.
