SPRF - State Police Retirement Fund

PERF - Public Employees' Retirement Fund

ECRF - Excise Police, Gaming Agent and Conservation Enforcement Officers' Retirement Fund (Administered by the PERF board of trustees)

JRS - Judges' Retirement System (Administered by the PERF board of trustees)
PARF - Prosecuting Attomeys' Retirement Fund (Administered by the PERF board of trustees)
LRS - Legislators' Retirement System (Administered by the PERF board of trustees)

TRF - Teachers' Retirement Fund

^{**} The benefit formula is determined based on service rather than compensation. July 1, 2010: The unfunded liability is expressed per active participant and there were 20 active participants. The unfunded liability per active participant was \$41,702; July 1, 2009: The unfunded liability is expressed per active participant and there were 33 active participants. The unfunded liability per active participant was \$10,817; July 1, 2008: The unfunded liability is expressed per active participant and there were 34 active participants. The funding excess per active participant was (\$2,378).

Budgetary Information

The Governor submits a budget biennially to be adopted by the General Assembly for the ensuing two-year period. The budget covers the general fund and most special revenue funds, but excludes the Armory Board and the Recreation funds at State institutions. The General Assembly enacts the budget through passage of specific appropriations. Appropriations for programs funded from special revenue funds may allow expenditures in excess of original appropriations to the extent that revenues collected exceed estimated revenues.

The original budget is composed of the budget bill and continuing appropriations. The budget bill is enacted as the Appropriations Act that the Governor may veto, subject to legislative override. Continuing appropriations report budgeted expenditures as equal to the amount of revenues received during the year plus any balances carried forward from the previous year as determined by statute. Except as specifically provided by statute, appropriations or any part thereof remaining unexpended and unencumbered at the close of any fiscal year will lapse and be returned to the fund from which it was appropriated.

The final budget is composed of budgeted amounts as adopted and as amended by supplemental appropriations or appropriation transfers that were necessary during the current year. The State Board of Finance, which consists of the Governor, Auditor of State and Treasurer of State, is empowered to transfer appropriations from one agency of the State to another, with the exception of trust funds. The State Budget Agency may transfer, assign, and reassign almost any appropriation, except those restricted by law; but only when the uses and purposes of the funds concur. Excess general fund revenue is used to cover non-budgeted recurring expenditures and overdrafts of budgeted amounts at the end of the current year, or is carried forward to the next year in the State's reserve funds to provide a cushion against a potential downturn in general fund revenue. Capital appropriations are released by the State Budget Agency after approval by the State Budget Committee (if equal to or greater than \$100,000) or by the State Budget Agency via administrative action (if less than \$100,000). In addition, expenditures under many federal grants are required to be spent before they are reimbursed by the federal government. These actions are considered supplemental appropriations; therefore, expenditures do not exceed appropriations for individual funds.

The legal level of budgetary control (the level on which expenditures may not legally exceed appropriations) is maintained at the fund level by the State Budget Agency. When budgets are submitted for each fund, certain recurring expenditures are not budgeted (e.g., tort claims) according to instructions from the State Budget Agency to the various agencies. The Budget Agency monitors all funds regularly in addition to monitoring excess general fund revenue that will be available at the end of the fiscal year to cover non-budgeted, recurring expenditures or to increase the level of state reserves.

Budget/GAAP Reconciliation Major Funds

The cash basis of accounting (budgetary basis) is applied to each budget. The budgetary basis differs from GAAP. The major differences between budgetary (non-GAAP) basis and GAAP basis are:

| MENT AND Total | (15,400) \$ 410,262 | | 164,720 153,122 | (14,393) | 4 100 101 |
|---|--|--|--|---|--|
| U.S. DEPARTMENT OF HEALTH AND HUMAN | \$ (1) | | 16 | (1 | 9 |
| U.S. DEPARTMENT OF TRANSPORTATION | \$ 262,935 | | (1,533) | (17,995) | 242,407 |
| 2009 ARRA FUND | \$ 4,583 | | (82,798) | 38,304 | (20 044) |
| MAJOR MOVES CONSTRUCTION FUND | \$ (281,028) | | (43,115) | (228) | 9 |
| PUBLIC WELFARE- MEDICAID ASSIS | \$ 21,949 | | 34,920 | 57,485 | 6 77 70 70 70 70 70 70 70 70 70 70 70 70 |
| GENERAL FUND | \$ 417,223 | | 80,928 | 50,741 | A 0000 |
| (amounts expressed in thousands) | Net change in fund balances (budgetary basis) | Adjustments necessary to convert the results of operations on a budgetary basis to a GAAP basis are: | Revenues are recorded when earned (GAAP) as opposed to when cash is received (budgetary) | Expenditures are recorded when the liability is incurred (GAAP) as opposed to when payment is made (budgetary) | Net change in fund balances |

Infrastructure - Modified Reporting Condition Rating of the State's Highways and Bridges

| Roads | Average Internati | onal Roughness Ir | ndex (IRI) |
|--|-------------------|-------------------|-------------|
| | <u>2011</u> | <u>2010</u> | <u>2009</u> |
| Interstate Roads (excluding Rest Areas and Weigh Stations) | 82% | 84% | 78% |
| NHS Roads - Non-Interstate (excluding Rest Areas and Weigh Stations) | 85% | 88% | 81% |
| Non-NHS Roads | 95% | 97% | 77% |

The condition of road pavement is based on the International Roughness Index (IRI), which is a measure of the roughness of the pavement in terms of inches per mile, and applies both to Portland cement concrete (PCC) and hot mix asphalt (HMA) pavements. IRI's range from zero for a pavement that is perfectly smooth to ratings above 170 for a pavement that warrants replacement. The condition index is used to classify roads in excellent condition (0-79), good condition (80-114), fair condition (115-149), marginal condition (150-169), and poor condition (above 170). It is the State's policy to maintain a network average of no more than 95 IRI. Condition assessments are determined on an annual basis for all roads maintained by INDOT. The ratings provided are based on data gathered during the summer (May to October) for each fiscal year. The data is evaluated and compared to standard criteria by the end of the fiscal year.

| Bridges | Average | Sufficiency Rating | J |
|------------------------------|-------------|---------------------------|-------|
| | <u>2011</u> | <u>2010</u> | 2009 |
| Interstate Bridges | 88.9% | 88.8% | 90.6% |
| NHS Bridges - Non-Interstate | 89.9% | 90.0% | 90.6% |
| Non-NHS Bridges | 87.4% | 87.4% | 88.7% |

The condition of the State's bridges is measured based on a sufficiency rating, which is based on a weighted average of four factors indicative of a bridge's sufficiency to remain in service. The sufficiency rating uses a measurement scale that ranges from zero for an entirely insufficient or deficient bridge to 100 for an entirely sufficient bridge. The sufficiency rating is used to classify bridges in excellent condition (90-100), good condition (80-89), fair condition (70-79), marginal condition (60-69), and poor condition (below 60). It is the State's policy to maintain Interstate bridges at a minimum sufficiency rating of 87%, NHS Non-Interstate bridges at 85%, and Non-NHS bridges at 83%. Sufficiency ratings are determined at least on a biennial basis for all bridges. Sufficiency ratings are determined more frequently for certain bridges depending on their design.
