STATE OF INDIANA

Comprehensive Annual Financial Report For the Fiscal Year Ended June 30, 2020

Eric J. Holcomb, Governor

Prepared by:

The Office of Indiana Auditor of State

Tera Klutz, CPA

Auditor of State

Room 240

State House
Indianapolis, Indiana 46204

Acknowledgments

This Comprehensive Annual Financial Report was prepared by:

The Office of Indiana Auditor of State Room 240, State House 200 West Washington Street Indianapolis, Indiana 46204 (317) 232-3300

Auditor of State Staff:

Staci Schneider, Chief of Staff
Courtney Everett, Deputy Auditor
Brent Plunkett, Deputy Auditor
Matt Beck, CPA, Assistant Deputy Auditor
Clay Jackson, CPA, Accounting and Reporting Director
Kelson Moran, CPA, CAFR Accountant
Kim Diller, Local Government Division Director
Paula Hart, Payroll Director
Zach Brown, Information Technology Director
Jared Bond, Communications Manager/Public Information Officer
Mark Hawkins, Legislative Affairs Director
Tonya Armstrong, Accounting and Reporting Staff Accountant
Liam Duncan, Accounting and Reporting Staff Accountant
Christopher Gunter, Accounting and Reporting Staff Accountant

We acknowledge the cooperation and assistance of the State Budget Agency and all other state agencies in the preparation of this report.

Please visit our web site at www.in.gov/auditor/

Tera K. Klutz is the 57th Indiana Auditor of State and the first Certified Public Accountant to serve as the state's Chief Financial Officer. Appointed by Governor Eric J. Holcomb in January 2017 and elected to a four-year term in November 2019, Klutz is focused on providing accurate financial information, maintaining and enhancing government transparency, and delivering great customer service to ALL Hoosiers.

Prior to becoming the Auditor of State, Klutz served as the County Auditor in Allen County, the third largest county in the state by population and the largest geographically. First elected in 2010 and again in 2014, Klutz streamlined local government processes, reduced debt, and maintained a balanced budget with responsible reserves. As County Auditor, Klutz was very active in the Association of Indiana Counties' Legislative Committee serving as the Chairwoman where she oversaw and directed the Association's legislative priorities.

Before serving in the public sector, Klutz served as a Senior Accountant at both Crowe and PwC.

During her second year as State Auditor, Klutz released an update to the Indiana Transparency Portal which uses the latest in data delivery technology to provide a more accessible and in-depth look at Indiana's finances and assets using easy-to-understand dashboards to give a snapshot of the data, while still offering the raw data in searchable fields.

Auditor Klutz also created an Internal Controls Department to review and document the processes within the office in order to reduce the risk of misstatement or opportunities for fraud within the state's financial system.

Klutz holds a Bachelor's Degree in Accounting from Indiana University-Purdue University Ft Wayne. She is married to Zach and they have 2 daughters; Alyx and Julian and two Goldendoodles; Margo and Leo.

Auditor Klutz is a member of the Indiana CPA Society and the American Institute of CPAs.

INTRODUCTORY SECTION

Tera K. Klutz, CPA

January 6, 2021

The Honorable Eric J. Holcomb, Governor, Honorable Members of the General Assembly, Citizens of the State of Indiana:

We are proud to present the Comprehensive Annual Financial Report (CAFR) for the State of Indiana's fiscal year ended June 30, 2020.

This Comprehensive Annual Financial Report has been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as prescribed in pronouncements by the Governmental Accounting Standards Board. While management remains primarily and ultimately responsible for the contents and presentation of this report, responsibility for both the accuracy of the data presented and completeness and fairness of the presentation rests with the State agencies that provide the data and which are obligated to verify postings. We believe the information in this report is accurate in all aspects and presents the financial position and results of operations of the State as measured by the financial activity of its various funds.

State statute requires an annual audit by the Indiana State Board of Accounts. The Board is considered by both the federal and state government to be independent auditors. The Independent Auditor's Report on the financial statements is included in the financial section of this report and in the Statewide Single Audit Report of the State of Indiana.

The State is responsible for ensuring that an adequate internal control structure is in place to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized user disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the benefits likely to be derived and that the evaluation of costs and benefits requires management to make estimates and judgments.

This internal control structure is subject to periodic evaluation by management and internal audit staff of the various State agencies. As part of the Single Audit, tests are conducted to determine the adequacy of the internal control structure related to federal financial assistance programs, as well as to determine that the State of Indiana has complied with applicable laws and regulations.

Generally Accepted Accounting Principles provides for two types of statements, government-wide and fund statements. The government-wide statements are very similar to the private sector's statements, using the full accrual basis of accounting and the economic resources measurement focus. The governmental funds financial statements use the modified accrual basis of accounting

Website: www.in.gov/auditor - Telephone: 317-232-3300

and the current financial resources measurement focus. In the government-wide statements, infrastructure (roads, bridges, dams) is capitalized. Capital assets, except for infrastructure using the modified approach, are depreciated like the private sector.

Management's Discussion and Analysis (MD&A) in the Financial Section introduces the basic financial statements and provides an analytical overview of the government's financial activities. It is presented before the basic financial statements and provides an in-depth analysis of the State of Indiana's finances.

Profile of the Government

Located in America's heartland in the Midwest, Indiana is a leading manufacturing state and a major agricultural producer. The latest U.S. Census Bureau estimate places Indiana's population of approximately 6.7 million, which makes Indiana the nation's 18th largest State. The State is 72.4% urban and 27.6% rural. The five largest cities are Indianapolis (the capital), Fort Wayne, Evansville, South Bend, and Carmel.

Indiana became the 19th State of the Union on December 11, 1816. The State Constitution establishes the government in three separate departments: legislative, executive including administrative, and judicial. The legislative power of the State is vested in the Indiana General Assembly, which consists of a 100-member House of Representatives and a 50-member Senate. The Indiana General Assembly has the power to enact laws which are authorized and not prohibited by the State Constitution and not in conflict with the U.S. Constitution and laws made in pursuance thereof. The executive power of the State is vested with the Governor. The State Constitution and legislation establish the following Statewide elected administrative officials: Lieutenant Governor, Auditor of State, Secretary of State, Treasurer of State, Attorney General, and the Superintendent of Public Instruction. The judicial power of the State is vested in one Supreme Court consisting of five justices, one Court of Appeals consisting of 15 judges, 313 Trial Courts (including Circuit Courts), and one Tax Court.

The State government provides a wide range of services to the citizens of Indiana, including education, transportation, public health, public safety, welfare, conservation, and economic development.

This report includes the financial activities and balances of the State of Indiana and its component units. The component units are legally separate entities for which the State of Indiana has financial responsibility and include State funded colleges and universities, and other legally separate entities that provide services and benefits to local governments and the citizens of the State of Indiana. More information on the financial reporting entity can be found in Note I(A) in the notes to the financial statements.

The Indiana General Assembly meets every year. In odd years, it adopts a biennial budget which has been submitted by the Governor. The General Assembly enacts the budget through passage of specific appropriations, the sum of which may not exceed estimated funding sources. Budgetary control is exercised in that agencies of the State may only expend appropriations as allotted by the Budget Agency or other statutory authority. The State Board of Finance, which consists of the Governor, Auditor of State, and Treasurer of State, is empowered to transfer appropriations from one agency of the State to another, with the exception of trust funds. The State Budget Agency may transfer, assign, and reassign appropriations made for one specific purpose to another use or purpose within the same agency.

Factors Affecting Economic and Financial Conditions

The information presented in the financial statements is better understood within the context of the specific environment within which the State of Indiana operates. The following describes that environment.

Local Economy

With the latest data as of December 2019, Indiana's Gross Domestic Product (GDP) was \$379.7 billion. Indiana's economy ranked the 19th largest in the U.S. in terms of the value of goods and services. Indiana's largest contributor to real GDP has been and continues to be the manufacturing sector, which accounted for nearly 27%. The second largest contributor of Indiana's real GDP was trade, transportation, and utilities, which accounted for 16.5%.

As of December 2019, the manufacturing sector accounted for nearly 17% of the non-farm jobs in Indiana. Per capita personal income was \$48,657, and the State's unemployment rate was 3.2% at the end of calendar year 2019.

Cash Management and Investments

Cash temporarily idle during the year was invested in deposit accounts, obligations of the U.S. Treasury and U.S. Agencies, money market mutual funds, and repurchase agreements. The pension trust funds' portfolios include other investments as outlined in Note I(E)(1) in the notes to the financial statements. The average yield on the General Fund investments was 1.79% for the fiscal year (FY) ended June 30, 2020. The average yield on the total investment of all funds, except for pension trust funds, was 1.96% for the FY ended June 30, 2020. The State's investment policy is to minimize credit and market risks while maintaining sufficient liquidity and earning a competitive yield on its portfolio. Deposits held by the Treasurer of State are insured by federal and state depository insurance.

Debt Administration

The commissions and authorities, some of which are included as component units in the financial reporting entity of the State of Indiana, issue bonds for some of the State's capital needs. All of the bond issues are revenue bonds associated with specific State component units. The total of long-term revenue bonds and notes outstanding, net of amortized discounts, is \$9.6 billion at June 30, 2020.

Financial Policies

The Office of Management and Budget ("OMB") directs the fiscal management and budget policy of the State. The Director of the OMB is the chief financial officer of the State and reports directly to the Governor. The Director is responsible for and has authority over all functions performed by the Budget Agency, the Department of Revenue, the Indiana Finance Authority, the Management Performance Hub, and the Department of Local Government Finance, as well as all budgeting, accounting and spending functions within the various agencies, departments and programs of State government. Pursuant to Executive Order 05-02, the OMB oversees and coordinates the functions, responsibilities and duties of the Indiana Public Retirement System and the State Board of Accounts to the fullest extent permitted by law.

At 2020 fiscal year-end, Indiana closed the books with \$1,418.9 million in reserves. This is down from the previous year balance of \$2,270.1 million. General Fund forecasted revenues for Fiscal Year 2020 totaled \$15,374.5 million which is \$1,416.3 million (8.4%) below estimates from December 2019. As anticipated, the Fiscal Year 2020 revenue report shows the initial economic impact of the public health emergency and the impact from deferring the income tax filing and payment due date from April 15, 2020 to July 15, 2020. An estimated \$900 million of income tax payments and \$50 million in individual income tax attributable to federal stimulus and unemployment benefits due in the last quarter of Fiscal Year 2020 were deferred to Fiscal Year 2021.

The duration of the adverse economic impact from the public health emergency is difficult to predict and will present a challenge for the State to fund essential services at the same levels adopted in the current 2020/2021 budget. Future spending levels will be influenced by the actual revenues collected from these future and uncertain economic conditions, the prioritization of spending decisions, and the flexibility afforded with any federal assistance. General liquidity is not a concern at this time, as the entire cash investment balance of the State was just over \$10.8 billion as of June 30, 2020. This balance includes reserve accounts and a deposit of \$2.4 billion from the U.S. Treasury for CARES Act Coronavirus Relief Fund.

Long-Term Financial Planning

The Indiana Finance Authority is charged with developing, implementing, maintaining and monitoring a debt management plan for all non-conduit debt or debt-related obligations issued by the State. This plan is intended to provide guidance in the structuring, sale, monitoring, and post-issuance compliance for all State-related debt.

Indiana continues to position itself as one of the lowest debt-level states in the country. Net tax supported debt (NTSD) represents just \$251 per capita, the 6th lowest in the country (Moody's Debt Median Report, 5/12/2020).

Indiana is one of thirteen states that has the highest credit rating assigned by all three independent credit rating agencies: Fitch, Moody's, and Standard & Poor's Ratings Service (S&P). From the July 2020 report, S&P cited four areas in issuing the AAA credit rating: modest economic growth across all sectors, maintenance of strong budgetary reserves, active budget management, and low overall debt levels. Fitch's April 2020 rating report issued AAA due to "the state's low long-term liability burden and exceptionally strong operating profile, including prudent budget management during the long economic expansion that further strengthened the state's robust financial resilience as it enters the current coronavirus-driven downturn."

Major Initiatives

K-12 Education – Funding for elementary and secondary education is the State's largest operating expense. Prior to January 1, 2003, the State provided approximately 66% of school corporations' general fund budgets. As a result of the tax restructuring legislation enacted in 2002, the State provided approximately 85% of the school corporations' general fund budgets. As part of the property tax reform legislation enacted by P.L. 146-2008, the State assumed responsibility for the local share of tuition support and provides 100% of the tuition support for school corporation general funds since January 2009.

The K-12 tuition support distributions for FY 2020 totaled \$7,285.6 million. In addition, there was a distribution of \$37.8 million for adult learners.

Higher Education – Through the General Fund, the State supports seven higher education institutions: Ball State University, Indiana University, Indiana State University, Ivy Tech Community College of Indiana, Purdue University, University of Southern Indiana, and Vincennes University. Higher education expenditures from the General Fund for FY 2020 were \$1,612.4 million, which includes funding for university operating, fee-replaced debt service, and line items. An additional \$452.2 million was appropriated for other higher education line items, university repair and rehabilitation, university capital projects, and State student aid.

Since FY 1976, the General Assembly has appropriated to each State university and college an amount equal to the annual debt service requirements due on qualified outstanding student fee and building facilities fee bonds and other amounts due with respect to debt service and debt reduction for interim financings (collectively, "Fee Replacement Appropriations"). The Fee Replacement Appropriations are not pledged as security for such bonds and other amounts. Under the Indiana Constitution, the General Assembly cannot bind subsequent General Assemblies to continue the present Fee Replacement Appropriations policy; however, it is anticipated that the policy will continue for outstanding bonds and notes.

Public Safety – Appropriations for the Department of Correction, payable almost entirely from the General Fund, include funds for incarceration and rehabilitation of adult and juvenile offenders, as well as parole programs. Corrections expenditures were \$755 million for FY 2020.

Offender population is the most significant driver of corrections expenditures. The total offender population, including those in jail and contract beds, decreased from 27,530 at the end of FY 2019 to 25,884 at the end of FY 2020.

Indiana's Department of Homeland Security awarded over \$19 million in new Secured School Safety Grants in FY 2020. This was a 35% increase in awards from FY 2019.

Transportation – As a result of the funding changes in HEA 1002-2017, the Indiana Department of Transportation (INDOT) plans on investing more than \$3 billion annually in the State transportation network starting from FY 2019. These funds will be used for the operation, construction, preservation, and maintenance of all modes of transportation under INDOT. Further, INDOT awarded \$126.5 million in FY 2020 to 214 Indiana communities through the Community Crossings matching grant funding to be used for road and bridge maintenance and construction.

During the 2019 legislative session, the General Assembly created the Next Level Connection Fund under INDOT to provide: \$90 million to local units of government for the funding of trails across the State, \$20 million to the Indiana Economic Development Corporation to establish nonstop flights originating from Indiana Airports, \$100 million to the Rural Broadband Fund, up to \$205 million to the Northern Indiana Commuter Rail Account and \$585 million to INDOT for the accelerated completion of INDOT road projects across the State.

Conservation and Environment - In FY 2019, the Governor announced the Next Level Trail program. This program utilizes the Indiana Toll Road lease proceeds for the purpose of expanding and creating new trail infrastructure throughout the State. Round one projects in FY 2019 and FY 2020, awarded over \$24.9 million in grant funding to 17 trail projects. These projects will construct more than 42 miles of trails within 17 Indiana counties.

The Bicentennial Nature Trust (BNT) was launched in FY 2012 as a statewide land conservation initiative to celebrate Indiana's 200th anniversary in much the same way as the first 100 years of statehood were marked in 1916 with establishment of the state park system. The state committed \$20 million to help fund BNT and added an additional \$10 million in contributions from individuals, businesses and communities around the state. Through FY 2020, 198 BNT projects had been approved of which 173 have been closed protecting over 14,400 acres. DNR expects this program to be completed by the end of 2021.

Health and Human Services – Medicaid is a state/federal shared fiscal responsibility with the State supporting roughly one-third of the total program through a combination of State General Fund and dedicated funds over the biennium. Federal funding accounts for the remaining two-thirds. Total Medicaid recipients increased from 1,456,325 in FY 2019 to 1,517,114 in FY 2020. Medicaid expenses grew from \$12.4 billion in FY 2019 to \$14.1 billion in FY 2020. The federal share of FY 2020 expenses was \$10.2 billion. Indiana's base federal medical assistance percentage (FMAP) equaled 65.96% for Federal Fiscal Year 2019 and 65.84% for Federal Fiscal Year 2020. The federal Families First Coronavirus Response Act provided a temporary 6.2 percentage point increase to Indiana's base FMAP effective January 1, 2020. This increase will continue through the last day of the calendar quarter in which the public health emergency declared by the Secretary of Health and Human Services for COVID-19 terminates.

Beginning in 2015, Indiana replaced the traditional Medicaid program for non-disabled adults by expanding the Healthy Indiana Plan (HIP). HIP has been designed to improve healthcare utilization and promote personal responsibility and is funded by a combination of enhanced federal funding, hospital assessment fees, and cigarette tax revenues. Indiana became the first state to receive a 10-year extension for the program following approval in October 2020 by the federal government.

The Department of Child Services (DCS) continued the implementation of its practice to place children in the least restrictive, most family-like setting. This trending is important because research among child-advocate experts has shown that placing children in the least restrictive, most family-like setting produces the best outcomes for children and families and, consequently, is more cost effective.

FY 2020 reflected a continued downward trend in the number of cases handled by DCS. At the end of the year, DCS had a total of 21,200 open cases (figure includes informal adjustments and collaborative care for older youth), compared to 22,700 open cases at the close of FY 2019. FY 2020 was the first year DCS operated under new caseload standards for family case managers.

On March 6, 2020, Governor Holcomb declared a public health emergency for the Coronavirus outbreak. As a result of federal legislation, the Indiana Department of Health (IDOH) received \$174 million in grants from the U.S. Department of Health and Human Services, \$1.9 million from the U.S. Department of Agriculture, and an additional \$100 million sub-state grant from the Coronavirus Relief Fund administered by State Budget Agency. These grants to IDOH will cover public health emergency response activities, including: testing and lab supplies, personal protective equipment (PPE), sanitation, phone bank and contact tracing, grants to hospitals, additional staffing, and other direct response activities.

Economic Development – The Indiana Economic Development Corporation (IEDC) is the State of Indiana's chief economic development agency. The IEDC seeks to bring new job creation and capital investment opportunities to Indiana through competitive company attractions, expansions and consolidations. In 2020, Indiana received several accolades for its business environment.

This includes favorable rankings of 5th in the nation in Chief Executive Magazine's annual "Best States for Business" survey (June 2020), 3rd overall in Site Selection Magazine's list of Top 10 Competitive States (May 2020), and 6th in Business Facilities ranking of Best Business Climate (July 2020).

Awards and Acknowledgements

Certificate of Achievement Award

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Indiana for its comprehensive annual financial report for the fiscal year ended June 30, 2019. This was the twenty-seventh consecutive year that the State of Indiana has achieved this prestigious award.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

We acknowledge the cooperation and assistance of all State agencies in the preparation of this report.

Sincerely,

Tera Klutz Auditor of State

State of Indiana

Cristopher Johnston

Director

Office of Management and Budget

Government Finance Officers Association

Certificate of Achievement for Excellence in Financial Reporting

Presented to

State of Indiana

For its Comprehensive Annual Financial Report For the Fiscal Year Ended

June 30, 2019
