Be it resolved, that the Tri-County Water Corporation be and is hereby given and granted an easement and right to construct, operate, control, maintain, re-construct and remove pipe lines to be used for the transmission of water and for service crossings on the county roads of Floyd County, Indiana, as indicated by the Key Map of right of way maps dated January 19, 1970, which map is attached hereto, made a part hereof, and labeled Exhibit A.

And on any other county road or street under jurisdiction of said County in the area to be served by the Tri-County Water Corporation.
