REGARDING ACCESS TO THE FLOYD COUNTY COMPUTER NETWORK**

WHEREAS, the Floyd County Board of Commissioners ("Commissioners"), through its Information Technology Department ("IT Department"), maintains a computer network that is accessed by various Floyd County agencies and officials; and,

WHEREAS, owing to the finite resources provided to the IT Department, it is necessary, in the interest of efficiency, to limit those devices and equipment which interact with the Floyd County network; and,

WHEREAS, the Board of Commissioners deem it desirable to establish a policy to guide all parties wishing to access the Floyd County network.

NOW, THEREFORE, BE IT RESOLVED by the Floyd County Board of Commissioners that all equipment or devices which access the Floyd County network must be approved, in writing, by the Director of Floyd County Information Technology Department;

BE IT FURTHER RESOLVED that failure to obtain the above-described approval may result in the equipment or peripheral device being unsupported by the IT Department, or network access being disabled. Any party seeking access to the Floyd County network which does not comply with this Resolution shall be solely responsible for any costs associated with the return of non-compliant equipment.
