

Update

Do I need to file a return if my business personal property is under \$80,000?

Businesses with less than \$80,000 of acquisition costs for their total business personal property within a county are exempt from taxation. However, taxpayers are still required to file a Form 102, a 103-Long or 103-Short, along with Form 104 each year.

Taxpayers may file with their townships/counties by utilizing PPOP-IN or by filing with the traditional paper forms. The Form 103-Long and 103-Short provide a checkbox that taxpayers may mark indicating their exemption. Sections I, II, and IV of the Business Tangible Personal Property Assessment Return should be completed as well as Form 104.

An exemption granted under IC 6-1.1-10 or any other statute supersedes this exemption. A taxpayer whose personal property is exempt because the taxpayer applied for and was granted an exemption by the county must follow all applicable procedures for the approved exemption, which includes completing the personal property return.

What is PPOP-IN?

Taxpayers and their authorized agents now have the option to file their personal property Forms 102, 103-Short, 103-Long, 103-N, 103-O, 104, and 106 online in the new Personal Property Online Portal for Indiana ("PPOP-IN"). Taxpayers also can upload additional personal property forms and any necessary supporting documentation. Taxpayers have until Monday, May 16, 2022, to file their business personal property filings either online at <https://ppopin.in.gov> or by the traditional paper forms.

I need help, who can I call?

Taxpayers may hire a tax professional such as a CPA to assist them with their filing. You may also contact your township or county assessor with questions. Their contact information can be found [here](#).

PPOP-IN Status Updates
