Preamble

These rules are designed to aid in implementing pretrial best practices at the local level. The practices outlined in these rules support the operation of a risk-based pretrial system that will maximize release, court appearance, and public safety. Multidisciplinary stakeholder teams, as outlined within these rules, are foundational to the development of local pretrial systems and are the body responsible for setting policy and practice within their jurisdiction in accordance with identified best practices.

Certification is voluntary and these rules apply to sites that are pursuing certification or are certified. Pretrial services entities will be evaluated against the best practices outlined in this document, taking into account local circumstances and resources. Pretrial services entities choosing to pursue certification will be offered training and technical assistance resources to support development and implementation.

Section 1. Applicability

Commentary on section 6(b)(2)(C).

The following elements are adapted from the National Institute of Corrections framework:

- **Pre-Initial Hearing Screening:** *Begin using risk assessment information to screen for release prior to initial hearing with or in lieu of a bond schedule. Release decisions do not rely solely on monetary considerations.*
- **Risk Assessment:** *Risk assessment information shall be available at every stage of pretrial release decision-making.*
- **Prosecutorial Case Screening:** *When screening cases, prosecutors shall ensure that the appropriate charge is issued in each case and the release decision and conditions are informed by reviewing the pre-initial hearing release decision and using risk assessment information.*
- **Initial Hearing:** *An initial hearing shall be held for all pretrial defendants and include the presence and active participation of defense counsel and prosecution; advisement of rights; entry of plea; scheduling of future case activities, if applicable; no contact order, if applicable; setting or reviewing bail bond; and release conditions, if applicable.*
- **Conditions of Release:** *Pretrial defendants released with conditions shall be assigned release conditions consistent with assessed risk. All pretrial defendants released with conditions shall be provided court date notifications. Note: Many pretrial defendants will be successful on pretrial release with only court notification as a condition of release without additional conditions of supervision.*
- **Differential Pretrial Supervision:** *Pretrial defendants released on pretrial supervision shall be supervised according to assessed risk level, noting that as risk increases, conditions and/or intensity of supervision increases.*

- **Performance Measures:** Jurisdictions shall collect and report performance measure data in key areas. Baseline data for the jurisdiction's detained jail population and failure to appear rate shall be established.
- **Operationalized Mission:** Pretrial services agencies shall develop a mission statement that clearly communicates the agency's goals and principles and is consistent with maximizing release rates, court appearance and public safety.
- **Sequential Bail Review:** Pretrial services agencies develop and implement a process for continuous review of the defendant population to identify defendants who remain in detention past the point at which release was expected to have occurred and a structured method to respond to pretrial misconduct among released defendants.
