

The background of the page features a large, semi-transparent seal of the State of Indiana. The seal is circular and contains the text "OF THE STATE OF INDIANA" at the top and "1816" at the bottom. The central part of the seal depicts a landscape with a sun rising over mountains and a river, with a sheaf of wheat in the foreground.

HOW TO USE THIS TOOLKIT

HOW TO USE THIS TOOLKIT

The world of cybersecurity is highly complex and cluttered with information, misinformation, and disinformation. As a consequence, it is important to approach it strategically and create simplicity. This *Indiana Emergency Manager Cybersecurity Toolkit*, developed by the Indiana Executive Council on Cybersecurity, outlines a way to begin conversations with your local partners as simply and directly as the complexity of the effort allows.

This toolkit is primarily for emergency managers who serve their local communities and is organized into four main sections: a survey to assist emergency managers in planning with partners they work with to develop emergency and continuity of operations plans; a cybersecurity incident response plan template; a training and exercise guide; and several additional resources to assist in navigating this new and pervasive threat.

The toolkit can be used holistically or piece-by-piece, depending on how deep you want to go with your planning what you would do if your organizations experience a cyber attack.

This toolkit and additional information for emergency managers can also be found at www.in.gov/cybersecurity/3818.htm.
