John Hill
Deputy Chief of Staff
Office of Governor Mike Pence
State of Indiana

Dear John—

As more than a few years have passed since we last were in touch, please forgive my presumption in reaching out to you and sharing my thoughts. I feel honored to have known you during the time of your engagement with NPTC and have thought of you often in admiration and respect over the past several years during your advancement to key positions

with Governor Pence. In the context of our past relationship, I trust you will accept the following in the spirit intended.

Mr. Pence on Hannity last night spoke with commanding strength and expert knowledge on major issues facing our country. At the same time, he spoke proudly and openly of his Christian faith and trust in God as guiding forces in his life, as inspiration for his willingness to accept the call to serve as our country's next Vice President. His message of "Christian, conservative, Republican" —in that order---was just absolutely perfect to hear at last from a national leader.

Governor Pence's speech following Mr. Trump's introduction today struck mystic chords of memory in my heart, recalling Sunday School and Vacation Bible School teachers in my early life. His sentiments declaring God's redemptive power informed by Christian belief in shaping his life, his family, and his work on behalf of Indiana, and our country's future in the years ahead, were as a great surge of fresh air in the political atmosphere. It feels almost as if God now has summoned in the person of Mike Pence—taken from good and true Midwestern American stock of old--a reborn voice to help save American in this time of great stress and threat.

Mike's talk to a hometown Indiana crowd late this afternoon as he got off the plane left me inspired and impressed with every word. What a great testimony of faith by example, humility, decency, and profoundly exceptional leadership strength he brings to the challenges which lie ahead for the United States of America!

With kind regards and best wishes,

Gary

Subject: Tony Moravec

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email.

Good afternoon, Mr. Atterholt. My name is Jeff Logston, and I am Tony Moravec's VP of Administration and Legal Affairs. I am reaching out to you personally and on my own accord as Tony has no knowledge of this email, its contents, or my request thus the reason for my personal email address and not work.

Even though I just recently began working for Tony formally, I am a lifelong resident of Columbus, and prior City attorney so I have been exposed to who Tony is and what he means to our community and our State. As the Governor personally knows, Tony exudes what it means to be a Hoosier - strong values, integrity, investing locally and within the State, and giving back to the community.

Tony has been investing in our community for more than 35 years through building his pharmaceutical businesses and employing more than 100 people. Tony just completed his second large real estate renovation project in Columbus. The first was Zaharako's Ice Cream Parlor which has been an extraordinary gift to the community. The second project which opens to the public tomorrow is the Columbus Pump House. The Pump House is a 145-year-old city waterworks facility that sits on the river between both bridges as you enter Columbus. Tony stepped up as only Tony can do and breathed new life into this building which will house Upland Brewery. The Governor received a tour of the facility earlier this week when he met with Tony.

The reason for my email is to suggest that Tony would be an ideal candidate for the Indiana Sachem Award or the Sagamore of the Wabash. Governor Daniels' described the Sachem Award as "going to one person each year in recognition of

a lifetime of excellence and moral virtue that has brought credit and honor to Indiana signifying that in Indiana we value not only what people do, but how they live their lives.” Tony doesn't do what he does for notoriety or accolades, but when reading Governor Daniels' quote about the Sachem Award, this exemplifies who Tony is.

If there is anything you need regarding this email or any other matter, please let me know. Thank you for your consideration, and I apologize in advance for the forward nature of my suggestion.

Sincerely,
Jeff Logston

Subject: Big embarrassment in fort wayne

Jim

I received this text tonight about the man Anthony redcoat dinner that I recorded a video for yesterday.

"Someone on your staff sent wrong video for Keith Busse red coat. You were congratulating ivy tech president"

Also received this text from another attendee:

"Instead of the video congratulating Kieth Busse someone sent the wrong video. It was the one thanking Tom Snyder. They played it for several minutes before they realized the mistake. Kieth told everyone you called him today. Thanks for your continued support of our community. "

1. I would like to know who was personally responsible for sending the wrong video.
2. I would also like to obtain the Kieth Busse video and have it delivered or emailed to him with my sincerest apologies.
3. I would also like the event organizers to receive a letter with the video apologizing for the error.
4. I would like to confirm the tom Snyder video was correct

Subject: Tax Reform

Governor – here is the House Republican plan on tax reform. I’ve pasted some of the main bullets immediately below. No reason for you to comment on it, but wanted you to be aware.

- **Consolidate** the system down to three tax brackets, and **lower** the top individual income tax rate to 33 percent.
- **Simplify tax filing for families** by creating a larger standard deduction and a larger child and dependent tax credit.
- **Make it easier to pay for college** by streamlining the maze of education tax benefits.
- **Eliminate the alternative minimum tax** so you don’t have to do your taxes twice a year.
- **Reward work by** improving the EITC.
- **Encourage charitable giving** by providing a real tax incentive.
- **Repeal the death tax** so that the loss of a family member will no longer be taxable.
- **Cut taxes on small businesses** by creating a separate, low tax rate of 25 percent for many on Main Street.
- **Cut taxes on savings and investment** by allowing families and individuals to deduct 50 percent of the dividends, capital gains, and interest received from stocks and mutual funds.
- **Provide a tax-free return on new investment** by allowing, for the first time ever, full and immediate write-offs.
- **Restore American competitiveness** by lowering our corporate tax rate from the highest in the industrialized world to 20 percent and shifting to a “territorial” system with more competitive rates.
- **Restructure the IRS** around three major units: one for individuals and families, one for businesses of all sizes, and one that provides an independent “small claims court” approach to resolving routine disputes quickly.

[This is what Sen. Coats said about the plan in a release this morning:](#)

“Today’s release of the House Republican tax plan completes the ‘A Better Way’ series of reforms put forth by Speaker Paul Ryan. I applaud his vision to tackle the wide range of issues facing Americans today with effective, conservative reforms.

“Particularly, I commend Speaker Ryan and Ways and Means Chairman Kevin Brady for their hard work putting together a plan to overhaul and modernize our antiquated tax system. I agree we need a simpler, fairer and flatter tax code that will reduce burdens on families and employers, encourage job creation and increase our competitive edge in the worldwide marketplace. This plan will advance the conversation and bring us closer to a pro-growth tax code that puts American families and American workers first.”

Subject: Snapshot: A Better Way to do Tax Reform

Snapshot: A Better Way to do Tax Reform

June 24, 2016 | better.gop

A plan to reform our tax code so it promotes economic growth and opportunity is the sixth plank of [A Better Way](http://better.gop), a bold agenda to tackle some of our country's biggest challenges.

Our Principle

In a Confident America, the tax code and the IRS work for us, not against us.

Our Challenge

Our tax code is a mess, and that's putting it lightly. Multiple brackets. High rates. Special interest breaks everywhere. Rules and regulations that are too complicated to understand. It costs more and more each year just to do your taxes, let alone pay them. All of this drags people down and leaves businesses buried in paperwork and compliance problems. So instead of promoting growth, our tax code is pushing jobs overseas. And the agency charged with overseeing all of this—the IRS—has repeatedly violated the trust of the American taxpayer.

Our Vision

We need a new tax code. It needs to be fair and simple for everyone. It should be so simple that most Americans can do their taxes on a form as simple as a postcard. Our tax code should be built for growth. It should help make the United States the best place in the world to hire and invest. And if we're going to have a better tax code, we need a better IRS, one that puts the taxpayers first.

This blueprint offers a better way to dramatic reform—without increasing the deficit. It does so by promoting growth—of American jobs, wages, and ultimately the entire economy.

Our Ideas

- **Simplicity and fairness.** Our plan makes the tax code simpler, fairer, and flatter, so that it's not only easier to do your taxes, but it's also easier to have peace of mind at critical moments in life.
- **Jobs and growth.** Our plan makes it easier to create jobs, raise wages, and expand opportunity for all Americans.
- **A service first IRS.** Our plan matches a simpler, fairer tax code with a simpler, fairer IRS that puts taxpayers first.

SIMPLICITY AND FAIRNESS

Our plan makes the tax code simpler, fairer, and flatter, so that it's not only easier to do your taxes, but it's also easier to have peace of mind at critical moments, whether it's going to school, getting a job, raising a family, or planning for retirement.

- **Save time and money** by making it so that most Americans can do their taxes on a form as simple as a postcard.
- **Consolidate** the system down to three tax brackets, and **lower** the top individual income tax rate to 33 percent.
- **Simplify tax filing for families** by creating a larger standard deduction and a larger child and dependent tax credit.
- **Make it easier to pay for college** by streamlining the maze of education tax benefits.
- **Eliminate the alternative minimum tax** so you don't have to do your taxes twice a year.
- **Reward work** by improving the EITC.
- **Encourage charitable giving** by providing a real tax incentive.
- **Help families plan for retirement** by reforming savings provisions.
- **Stop overtaxing "Made in America" products** so that our manufacturers can compete.
- **Repeal the death tax** so that the loss of a family member will no longer be taxable.

JOBS AND GROWTH

Our plan will make it easier to create jobs, raise wages, and expand opportunity for all Americans.

- **Cut taxes on small businesses** by creating a separate, low tax rate of 25 percent for many on Main Street.
- **Cut taxes on savings and investment** by allowing families and individuals to deduct 50 percent of the dividends, capital gains, and interest received from stocks and mutual funds.
- **Provide a tax-free return on new investment** by allowing, for the first time ever, full and immediate write-offs.
- **Restore American competitiveness** by lowering our corporate tax rate from the highest in the industrialized world to 20 percent and shifting to a "territorial" system with more competitive rates.
- **Create more certainty** by eliminating the death tax, which can take up to 40 percent of a family business's assets if the owner passes away.

A SERVICE FIRST IRS

A simpler, fairer tax code will require a simpler, fairer IRS with one mission: Put the taxpayers first.

- **Restructure the IRS** around three major units: one for individuals and families, one for businesses of all sizes, and one that provides an independent "small claims court" approach to resolving routine disputes quickly.
- **Install a new commissioner**, subject to term limits, who will be required to

administer the new tax code with fairness and keep the politics out of the IRS.

- **Cut down on IRS intimidation** by creating an Office of Dispute Resolution to serve as an independent arbiter to protect your rights and resolve disputes in a timely manner.
- **Clear out the bureaucracy** by doing away with all the rules, regulations, forms, and instructions that won't be needed with a simpler, fairer tax code.
- **Modernize information systems** so that taxpayers have access to the resources they need when they need them—all while protecting privacy.
