

AASHTOWare Project Estimation

Viewing Tabulated Bid Data

Printable Companion Handout

Data to View

AASHTOWare stores a variety of information about individual bids stored in the program. Viewing these bids can help contextualize what filters and bid history profiles are suitable for a given project or pay item.

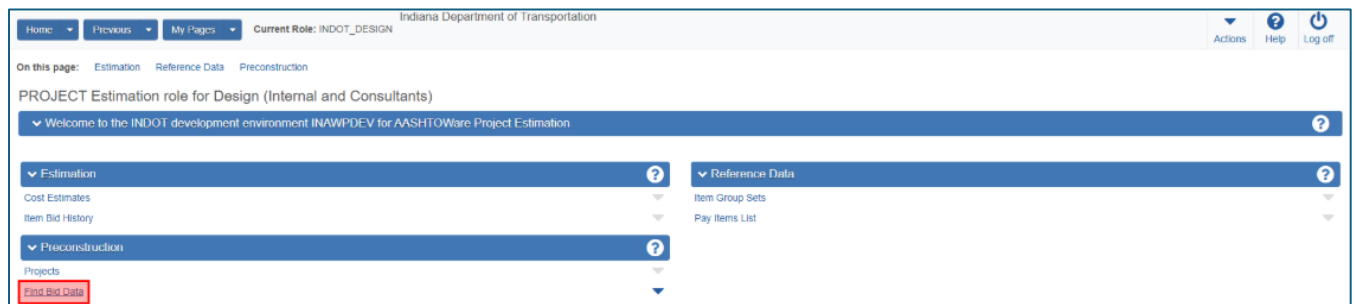

The following information from each bid is stored in AASHTOWare Project Estimation:

AWPe Information Label	INDOT Information Label
Quantity	Quantity
Unit Price	Unit Price
Proposal Name	Proposal Number (i.e. R-35658-A)
Line No	Line Number
Section	Work Type
Proposal Description	Scope of Work
Contractor	Contractor
Bid Ranking	Bid Ranking
Status	Bidding Status
County	County
District	District

Finding Tabulated Bid Data

Follow the procedure below to navigate to the tabulated bid data:

1. Navigate to the Home screen. This can be done by clicking the “Home” button on the top-left corner of the screen.
2. Under the Preconstruction component, click “Find Bid Data”

3. You will navigate to the Find Bid Data screen. Here you will see every item from a bid stored by AWPe.

You will see a number of text boxes and drop-down menus at the top of the screen. These boxes can filter out the content that is displayed in the table below. You may apply the following filters:

Filter/Menu	Commentary
Spec Book	This drop-down will be set to “10” by default. Ensure this is set to 10 to see bid history data.
Unit System	AASHTOWare can filter bid history data by English, Metric, or Neutral measurement units. Keeping the drop-down menu at “No Filter” is recommended.
Bid Item	Type in either the pay item code or the name of the pay item to search. Once you are done typing, press Enter and select your desired pay item from the menu. Only one pay item may be searched at a time.
Let Date Range	Set the Begin and End dates you would like the letting dates to fall between. Click the calendar logo on the right side of the text box and select a date.

Filter/Menu	Commentary
Quantity Range	Type in the minimum and maximum quantity values into the “Min” and “Max” text boxes respectively.
Unit Price Range	Type in the minimum and maximum quantity values into the “Min” and “Max” text boxes respectively.
Contractor Bid Rank	Type in the minimum and maximum bid rank values into the “Min” and “Max” text boxes respectively.
District	Select the district you would like to view exclusively through the drop-down menu. Only one district may be filtered at a time.

The search bar on the top left may be used for more general searches for types of pay items. Portions of items code or pay item descriptions can be searched, resulting in multiple related pay-item bids appearing in the table.

For example, searching “808” in the search bar will produce every 808 pay-item.

Advanced Filtering

The drop-down menu to the right of the search bar allows you thoroughly customize the bid data table. Follow the procedure below to access the advanced filter menu:

1. Click the drop-down menu to the right of the search bar.

The screenshot shows the 'Find Bid Data' interface. At the top, there are navigation tabs: Home, Previous, My Pages, and Current Role: INDOT_DESIGN. Below this is a search bar with a dropdown menu labeled 'System Default' highlighted in red. The search criteria include Spec Book, Unit System, Bid Item, Let Date Range, Quantity Range, Unit Price Range, Contractor Bid Rank, and District. A table of results is displayed below the search criteria, showing various bid items and their details.

2. Click “Advanced” at the bottom of the drop-down menu

This screenshot shows the same 'Find Bid Data' interface, but the dropdown menu is expanded, and the 'Advanced' option is highlighted in red. The search criteria and the table of results remain the same as in the previous screenshot.

You will then navigate to the Advanced filters editing pop-up. Here, you can do the following:

The screenshot shows the 'Advanced filters editing pop-up' window. The 'Filters' section is highlighted in red. It contains three filter rules: 'County' contains 'St. Joseph', 'Bid Rank' is 'Less Than' 3, and a third rule with a placeholder 'Select field to filter by'. The 'Sort' section has a dropdown for 'Select field to sort by'. The 'Column Order' section shows a grid of columns for the table. The 'Apply Settings' section has buttons for 'Save as', 'Apply without saving', and 'Save and Apply'.

Use logic or Boolean operators to create filters for a number of bid aspects. For example, the picture above will ensure that any bids that show are from St. Joseph County or has a bid rank of 3 or less.
