

1. Enter your registered email address, then click "Next". The website will refresh and allow you to enter your password. To log into GoAnywhere, click "Login".

The login screen for the IN.gov Managed File Transfer Solution. It features the IN.gov logo at the top, followed by the text "Managed File Transfer Solution". Below this is a form with two input fields: "Email" containing "TestingGoAnywhere@gmail.com" and "Password". At the bottom of the form are two buttons: "CANCEL" and "LOGIN". A link labeled "Forgot Password?" is positioned below the "LOGIN" button.

2. You will be sent to the parent folder where you have permission to upload files.

3. Click on the folder name to open the parent folder. The page will refresh to a subfolder area where projects can be uploaded. When you click the "New Folder" button at the top, a pop-up window appears on the screen. Enter the project name as the folder title (make sure it matches what is provided on the application). Click the "Create" button.

4. The website will refresh, displaying the newly formed project folder. A blue banner will also appear above if it has been created successfully.

5. To begin the upload process, open the project folder by clicking on its name. Before uploading any files, double-check that you are in the correct project folder. This is accomplished by double-checking to ensure that the project folder's name is the last component of the directory, as boxed in below for emphasis.

6. You can upload application files using two approaches. The first step is to drag and drop files from your PC into the blank area on the GoAnywhere website. The second step is to click the "Upload" button, which will open a new window allowing you to select numerous files to upload at once.

To log into the system in the future, bookmark or favorite the website as shown below: <https://gasecuremft.in.gov/>
