

I-465 Northwest

2025 Project Update

PROJECT OVERVIEW

The I-465 Northwest Project study area extends along I-465 from West 86th Street to U.S. 31, covering parts of Marion, Boone, and Hamilton counties. This corridor includes three major interchanges:

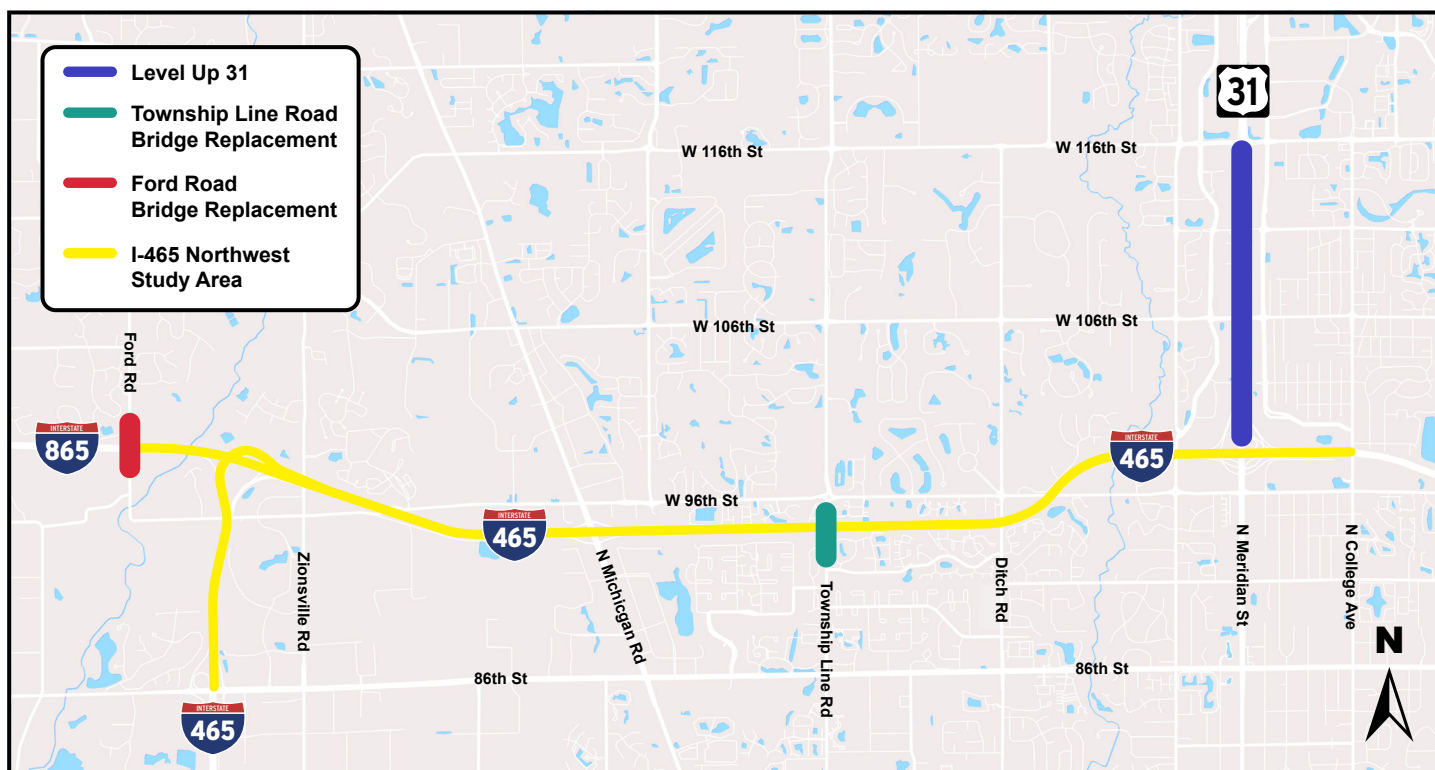

- **I-465/I-865**
- **I-465/U.S. 421 (Michigan Road)**
- **I-465/U.S. 31**

The project was developed to reduce congestion, improve safety, and support growth in the corridor.

PROJECT UPDATE

The I-465 Northwest Project has been paused. INDOT remains committed to addressing transportation needs in the area and will prioritize this and other improvements in the area as funding becomes available.

For now, several improvement projects nearby are planned to improve traffic flow and safety in the area.

CONSTRUCTION UPDATE

LEVEL UP 31 PROJECT

Elevating efficiency on I-465 and U.S. 31 between Indianapolis and Carmel, Indiana

The Level Up 31 project is located on the north side of Indianapolis in Marion and Hamilton counties. The project includes an interchange modification to the I-465 and U.S. 31 interchange to add capacity and increase efficiency and safety by reducing traffic weaving and merging. Improvements include added capacity and new bridge deck overlays. Construction is expected to begin in fall 2025.

Details on this project can be found at www.levelup31.com.

TOWNSHIP LINE ROAD BRIDGE REPLACEMENT

Replacing aging bridge infrastructure over I-465

The Township Line Road Bridge Replacement project is located on the northwest side of Indianapolis in Washington and Pike Townships. The project includes the replacement of the bridge over I-465 to improve safety, support modern traffic needs, and provide multimodal access. Construction began in summer 2025.

Details on this project can be found at <http://bit.ly/4mpFupX>.

FORD ROAD BRIDGE REPLACEMENT

Replacing aging bridge infrastructure over I-865

Plans are underway to replace the Ford Road bridge over I-865. The project, which is in its early stages, will improve traffic flow, provide multimodal access, and extend the life of the bridge. Construction is anticipated to start in summer 2026.
